BlackBerry

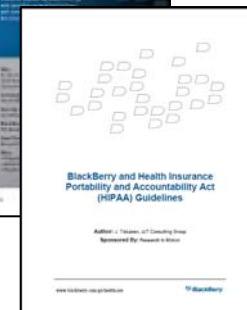

From Security to Privacy BlackBerry Enterprise Server - HIPAA Compliance

“ For the BlackBerry Enterprise Solution, security is not an aftermarket product or an afterthought – security is baked into the fabric of the solution. “

“ BlackBerry is a truly HIPAA- and FERPA-compliant solution for end-to-end communication. “

John Halamka, CIO, Harvard Medical School & Beth Israel Deaconess Medical Centre

Visit www.blackberry.com/healthcare to download the BlackBerry and HIPAA Guidelines white paper.

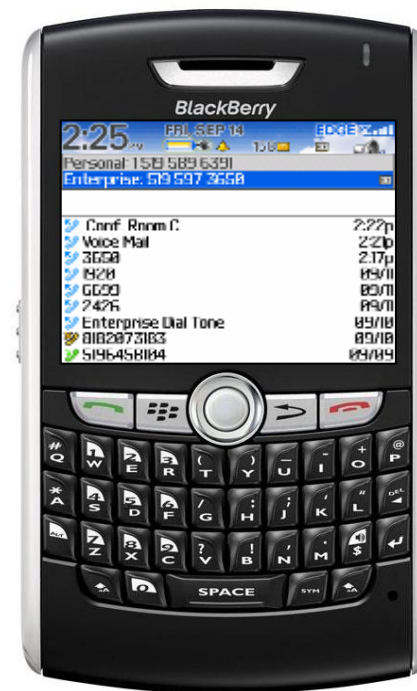

Unified Voice Capabilities BlackBerry Mobile Voice System (MVS)

Revolutionizing voice communications the same way that the BlackBerry Enterprise Solution has for mobile email

- Delivering a real solution not just a vision
- Desk phone features built right into the BlackBerry phone application
- **One number. One voicemail box.**

Standard BlackBerry advanced security and manageability

- Mobile calls are routed through the PBX
- IT can set Voice Policies around mobile calls – ensuring corporate and legal compliance
- **Call records, least-cost routing, corporate number ownership**
