

When accuracy is critical...CCE delivers

The Coding and Compliance Editor [CCE] improves coding accuracy for inpatient and outpatient services rendered in the Department of Defense Military Health System. CCE optimizes reimbursement through the use of expert coding and editing tools.

Product Features

- Automates coding rules consistent with commercial standards
- Reduces risk of reimbursement non-compliance with federal regulations
- Trends coding performance

Benefits to the Military Health System

- Increases data quality
- Maximizes reimbursement reporting capabilities
- Improves revenue generation and collection
