

Yeah...it's fast

TRICARE Encounter Data [TED] records, collects, verifies and tracks billions of dollars annually in purchased care claims for the Department of Defense Military Health System. TED is the global MHS industry leader in purchased care claims data records processing. Most TED records validate claim payments within 24 hours resulting in shorter billing cycles and reimbursements paid within 30 days, one of the fastest claims processing cycles in the healthcare industry.

Product Features

- Tracks claims immediately after submission
- Validates claim payments within three days
- Guarantees purchased care claims reimbursement is faster and more efficient

Benefits to the Military Health System

- Streamlines electronic claims processing
- Automates claims acceptance
- Processes claims in hours instead of days
