

Philip E. Tobey, FAIA, FACHA

Mr. Tobey is currently Senior Vice President and National Healthcare Leader of SmithGroup. Prior to entering private practice, he served as an officer with the U.S. Air Force's Office of the Surgeon General and held review responsibility for medical projects worldwide. A registered architect and interior designer, Mr. Tobey received his Bachelor of Architecture degree from the Rhode Island School of Design and his Master of Architecture degree from Harvard University.

Mr. Tobey is a Fellow of the American Institute of Architects (AIA) and Fellow and Founding Member of the American College of Healthcare Architects. He is a board member of the AIA Academy on Architecture for Health and an advisor to the National Institutes of Health and to Health Systems 2020, a consortium studying the future of health care. A prolific lecturer, Mr. Tobey has addressed many national and regional organizations concerning issues and trends that affect health care. Notable clients include the National Institutes of Health, numerous academic medical centers, all branches of services of the Department of Defense (including the National Intrepid Center of Excellence for Traumatic Brain Injury), major health systems (including Kaiser Permanente, Sutter, and Universal), and many regional and community health care providers. His work has been published in many regional and national periodicals.
