

PSA 9: Insights—Families (:30)

Open on a series of short excerpts from interviews with services members and their family members. Each speaker looks off camera, talking to an unseen interviewer. Because the soundbites are short, speakers will not be identified with on-screen text. A few of the service members wear BDUs, but most of the people are in civilian clothes.

The soundbites cut or dissolve from one to the next.

Male Service Member:

I didn't tell anyone, but I was concerned.

Female Spouse:

I could tell. When he got his new orders and we were going to have to move, we all wondered what it would do to his treatment.

Female Service Member:

It took real strength to seek mental health treatment in the first place and there I was having to start with a new provider.

Male Service Member:

Then my doctor referred me to the inTransition Program.

Male Service Member:

My inTransition coach helped me identify resources I needed in our new location...

Female Spouse:

...and made sure that he started and stayed on track with his new provider.

Dissolve to text and logos on screen:
