DHA UBO Rate Structures

1

Widely used billing rate structures intended to recover costs in the military fixed facilities.

- 1) Full or Third Party Collections (TPC).
 - 2) Interagency.
 - 3) International Military Education & Training (IMET).
- **The DHA UBO Program Office recommends billing rates for contractors and foreign nationals supporting deployed forces.**
 - **Patient Category (PATCAT) assignment drives the assignment of the applicable rate structure.**

1) Full or Third Party Collection (TPC) Rates

- **Full / TPC Billing rates are used synonymously.**
 - Recover the full cost of healthcare services provided.
 - Normally the highest DHA UBO rate.
- **TPC Rates are used for billing commercial third-party payers and pay patients.**
 - Exception: OCONUS DoD Civilians and Cosmetic Procedures.
- **Most DHA UBO Ambulatory/Professional TPC rates match TRICARE Reimbursement (CMAC rates).**
- **Inpatient TPC rates are indexed to TRICARE annual percent growth.**
- **TPC rates are based on average Medical Expense & Performance Reporting System (MEPRS) unit costs with adjustments for costs not included in MEPRS data.**
 - Dental, Ambulance, Ambulatory Procedure Visit (APV), specific Injectables.

2) Interagency Rates

- **Interagency rates are TPC rates discounted to remove several cost factors for health care services.**
- **Durable medical equipment and pharmaceuticals are not discounted.**
- **Interagency Rates do not include:**
 - *Asset Use Charge*: Use of assets (facilities and/or equipment) to recoup depreciation and interest on investment.
 - *Government Share of Unfunded Retirement (GSUR) Costs*: Cover the cost of the unfunded civilian retirement, post retirement health benefits and life insurance.

3) International Military Education & Training Rates

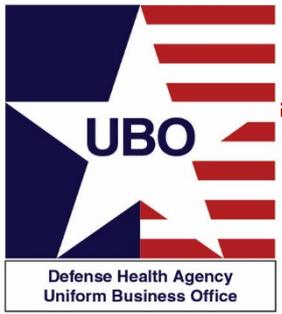

- **The IMET Program provides training on a grant basis to students from allied and friendly nations.**
 - Authority for the IMET program is found in Chapter 5, Part II, Foreign Assistance Act of 1961.
 - Funding is appropriated from the International Affairs budget of the Department of State.
 - Not all foreign national patients participate in the IMET program.
- **IMET Rates do not include:**
 - *Asset Use Charge and GSUR Costs.*
 - *Military Personnel Cost .*

Patient category (PATCAT) assignment determines billing, who should be billed and under which rate structure

Outpatient Rates Overview:

- **CY 2019 Outpatient Rates developed to accommodate Military Health Systems billing systems and solutions.**
- **Outpatient rates are developed by the DHA UBO for each outpatient encounter, service, procedure, or supply provided at a MTF.**
- **UBO CHAMPUS Maximum Allowable Charge (CMAC) rates are developed for reimbursement in the purchased care community.**
- **Purchased Care System data used to calculate the average allowable amounts. Some procedures require special handling and rates are based on purchased care data or Ambulatory Payment Classification (APC) charges.**
- **Medical Expense & Performance Reporting System (MEPRS) data is used to calculate the average MTF operational expenses.**

 MEPRS Based Rates

- **Overview**

- Primary rate table, formatted and sorted for UBO.
- Based on what TRICARE allows.
- Categorized by CMAC localities.

- **2019 Highlights**

- Certain CMAC codes are not available for separate reimbursement.
 - ED Rates
 - Observation
 - Moderate Sedation
- 0.18% Overall Average Percent Increase from CY18

TRICARE Localities Overview

- **TRICARE localities are designated within the range of 301-424**
- **TRICARE localities are defined with the same geographic boundaries as Medicare localities.**
- **TRICARE localities apply to the CHAMPUS Maximum Allowable Charges, or CMAC reimbursable rates.**
- **TRICARE localities also are assigned to individual Military Treatment Facilities (MTFs) and DMIS ID locations.**
- **After the “national” average CMAC level has been determined (Locality 300), rates are calculated for the remaining 114 localities.**

There are 114 Active TRICARE Localities for CY19

A single locality assignment often includes many zip codes and military treatment facilities.

Industry Updates

- Centers for Medicare & Medicaid Services (CMS) updates CPT®/HCPCS codes on a quarterly basis.
- The American Medical Association (AMA) updates CPT®/HCPCS codes annually, effective 1 January.
- TRICARE updates CPT®/HCPCS codes annually.

DHA UBO Updates

- DHA UBO Outpatient rates: New CY19 CMAC codes were approved prior to normal annual effective date, were assigned a rate in this year's process effective January 1, 2019. Remaining CY19 package still effective July 1, 2019.
 - Can only bill if there is a DHA UBO rate associated with an effective code so this allowed billing for new CPT®/HCPCS codes from the CMAC file.
 - DHA UBO rates cannot be applied retroactively.
- Proper PATCAT assignment drives applicable rate structure and code assignment.

- Claim formats that are used in the MHS are based on encounter services provided, payer requirements, and Service and NCR MD billing policies.
- Government may not collect more than the total charge from any one source or combination of sources.
- If total payment exceeds the billed amount, MTF must refund the overage.

UBO Rates Overview

The UBO billing rates are based on TRICARE allowable charges and are used to determine charges for outpatient, inpatient, dental, cosmetic surgery, and pharmacy services. Outpatient rates are the charges for professional and institutional health care services provided in MTFs. Inpatient rates are used when billing for inpatient medical services at MTFs. Each MTF providing inpatient care has its own applied Adjusted Standardized Amount (ASA). Pharmacy rates are based on TRICARE allowable charges, average wholesale price, or prime vendor program prices listed for the national drug codes and are used to set pharmacy rates for pharmaceuticals and approved drugs.

UBO rates differ slightly from the standard TRICARE rates. UBO rates are specifically formatted for military billing systems, and include charges for additional services not reimbursed by TRICARE.

The Assistant Secretary of Defense for Health Affairs (ASD/HA) approved the implementation of [CY 2017 Outpatient Medical Dental and Cosmetic Procedure Reimbursement Rates](#) for [direct care](#) received at military treatment facilities (MTFs) as on July 1, 2017. These rates are used to determine:

- Charges for medical and dental services provided on an outpatient basis
- Ambulatory services
- Inpatient cosmetic surgery services

These rates were released in accordance with [U.S.C. Title 10](#), and will remain in effect until further notice.

The ASD/HA also approved the [FY 2018 Inpatient Billing Rates](#) for direct care received at MTFs effective October 1, 2017, and will remain in effect until further notice. These rates are used to determine charges for inpatient professional and institutional health care services provided in MTFs under the Defense Health Program (DHP).

UBO rates are published online in accordance with [Executive Order 13410](#) (August 2006) to promote health care transparency relating to quality and cost.
