

Denials Management and ABACUS Capabilities

17 December 2019 0800 – 0900 EST

18 December 2019 1400 – 1500 EST

For entry into the webinar, log into: http://federaladvisory.adobeconnect.com/ubo_webinar.

Enter as a guest with your full name and Service or TIMO affiliation for attendance verification.

Instructions for CEU credit are at the end of this presentation.

View and listen to the webinar through your computer or Web-enabled mobile device. Note: The DHA UBO Program Office is not responsible for and does not reimburse any airtime, data, roaming or other charges for mobile, wireless and any other internet connections and use.

If you need technical assistance with this webinar, contact us at webmeeting@federaladvisory.com.

You may submit a question or request technical assistance at any during a live broadcast time by entering it into the “Question” field of Adobe Connect.

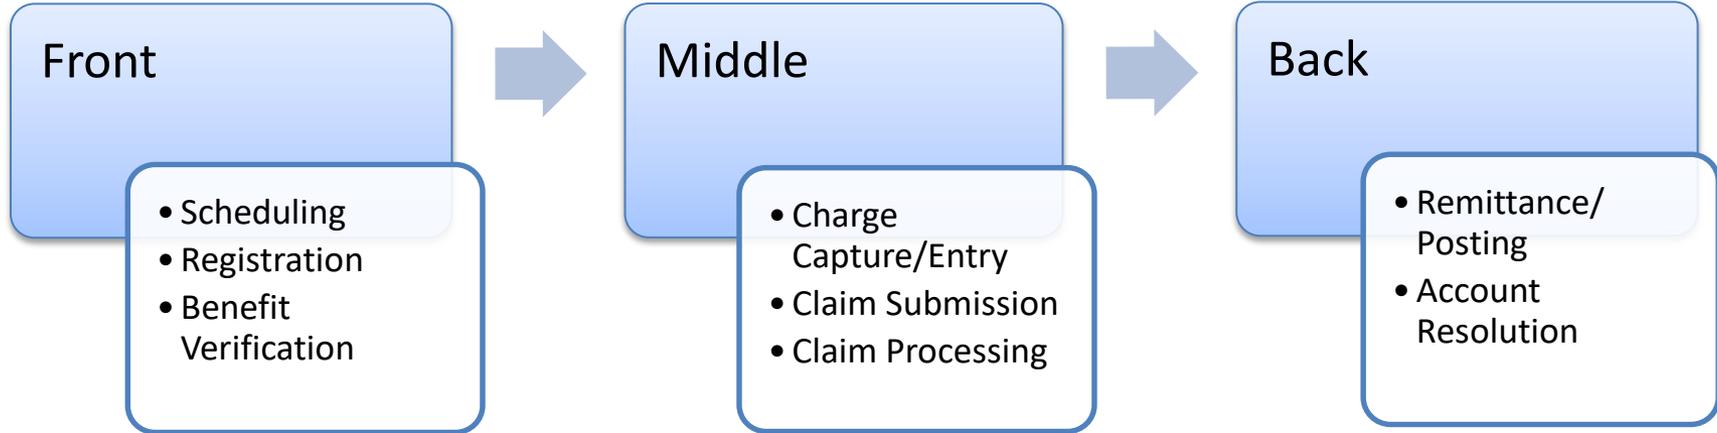

- Review relevant legislation
- What is a Denial?
- Importance of Denials Management
- Learn how to read and interpret an Explanation of Benefits (EOB)
- Identify reasons for claim denials
- Types of claim denials
- Learn how to effectively communicate with payers and MTF staff
- Discuss processes for handling claim denials
- Learn ways to track and manage claim denials and appeals in ABACUS
- Where and how to use information located in ABACUS

- Title 10, United States Code, Section 1095
 - Authorizes the government to collect reasonable charges from third party payers for health care provided to beneficiaries
- Title 32, Code of Federal Regulations, Part 220
 - Implements 10 U.S.C. 1095 and specifies:
 - Statutory obligation of third party payers to pay; no assignment of benefits required
 - Certain payers excluded from Third Party Collection Program
 - Applicable charges
 - Rights and obligations of beneficiaries
 - Special rules for Medicare supplemental plans, automobile insurance, and workers' compensation programs

- Health care industry does not have one universal definition of a claim denial:
 - “Any intentional reduction of payment resulting from the failure to provide medically necessary services in an appropriate setting, failure to follow the payers’ technical guidelines, or failure to consistently document for the services provided.” (HFMA)
 - “A claim line item or service line item that results in no payment including rejected claims.”*

*Denial Management: Key Tools and Strategies For Prevention and Recovery, Pam Waymack

- Why Is Denials Management So Difficult?
 - Complexity of third-party denials
 - Denial information provided by third-party payers is not standardized
 - Perceived inability to capture the denial data
 - Constantly changing information
 - Requires coordination throughout the revenue cycle
 - Challenging appeals process

- Member Not Eligible
- Coverage Termed
- Non-Covered Charges
- Out-of-Network Provider
- Member Cannot Be Identified

- Missing/Incorrect Modifiers
- Not Medically Necessary
- Missing Claim Information
- Additional Clinical Information Required

- Duplicate Claims
- Previously Paid Claim
- Additional Claims Information Required
- Incorrect Denials

- Why are effective denials management processes so important?
 - Denials have increased significantly as the electronic billing and remittance process becomes increasingly sophisticated
 - Claims have less “human” contact
 - Computer based payment algorithms search for key information according to payer contract requirements
 - The average cost to rework a claim is \$25.00 (HFMA)
 - Failing to rework denials results in a loss of revenue that supports your MTF’s operation and maintenance budget
 - Manageable accounts receivable

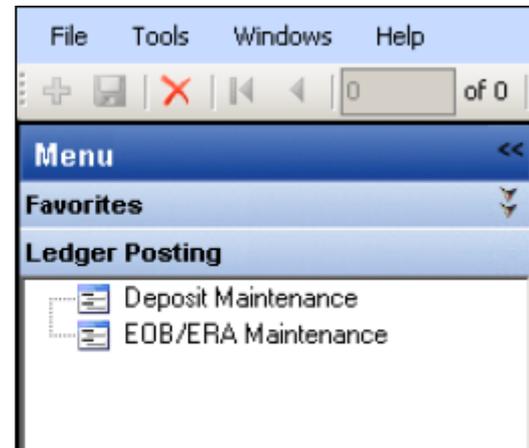

- In 2015, the DoD Inspector General (IG) performed a review of 6 MTFs to determine if compliance audits of their TPCP were being conducted to monitor missed collection opportunities.
 - Finding: the audits **were not** being conducted; additionally, these specific actions were not being performed*:
 - Initial follow up – 64,345 claims worth \$17.3M
 - Documenting write-off rationale – 67,047 claims worth \$11.9M
 - Forwarding claims to legal office for collection – 45,812 claims worth \$9.2M
 - Obtain pre-certification or pre-authorization - 19,632 claims worth \$10.3M
 - Total: 144,930 claims, \$112,518,396 billed, \$21,685,169 remained uncollected
 - DoD IG Recommendations
 - Conduct an analysis to determine the sufficient time needed to conduct adequate follow up on billed claims for TPCP.
 - Review Uniform Business Office (UBO) resource issues
 - Refer outstanding TPCP claims to legal office as required
 - Update the UBO Manual
 - Establish a quality assurance program that monitors the TPCP and follow up requirements
 - Establish agreements with payers to accept claims for 90-day prescriptions

*FY 2012 – FY 2014 outpatient claims data

“July 24, 2015, Follow-up Audit: DoD Military Treatment Facilities Continue to Miss Opportunities to Collect on Third Party Outpatient Claims”

- Definition and Purpose:
 - An EOB or Remittance Advice (RA) is a document issued by the payer stating the status of the claim; whether it is paid, suspended (pending), rejected, or denied
 - The purpose is to provide detailed payment information relative to the claim and, if applicable, to describe why the total original charges have not been paid in full

- Electronic EOBs can be viewed and printed from the 835 Viewer
 - Ledger Posting > EOB/ERA Maintenance

A search criteria form with the following fields and controls:

EOB ID	Check Number	Payer	Amount	Status	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	Pending	<input type="button" value="Search"/>

FUNDING ACCOUNT SUMMARY

Amount paid on this claim: \$ 0.00
 Your remaining family balance: \$ 0.00

For more information relating to your funding account, please see your benefit booklet or visit us on the web at: www.premiera.com

- 1) **Service/product description** – services the patient received from the provider
- 2) **Dates of service** – when the patient received services
- 3) **Charges** – amount billed to the patient and healthcare plan
- 4) **Provider fee adjustment** – difference between charges billed by the provider and the amount the provider has agreed to accept as full payment
- 5) **Copay** – the amount the patient pays the provider for a visit/service

Deductible – the amount the patient pays toward covered services each year before the third party payer starts paying for services

Amount not covered – the amount of services/products not covered by the plan

- 6) **Total amount eligible for benefits** – charges billed by the provider minus the provider fee adjustment minus patient copay, deductible, or amount not covered
- 7) **%** – percentage level of benefits for covered services/products
- 8) **Coinsurance** – what the patient must pay the health plan after the health plan pays the covered percentage
- 9) **Adjustment** – A change that relates to how a claim is paid differently from the original billing
- 10) **Total paid by health plan** – total amount eligible for benefits minus coinsurance amount
- 11) **Patient responsibility** – what the patient must pay of the billed charges after the plan benefits have paid

- 12) General Information** – patient and provider information including group #, member name, member ID, claim #, provider name, and payment reference ID
- 13) Message Codes** – a set of three characters that indicate reasons as to why the total charges were not paid in full

Client Info From Placement Client Transaction Data

Placement Data

Actionable Denials

- Amount of Coverage
- Registration Inaccuracies
- MTF Did Not Comply with UR Procedures
- Other

Un-actionable Denials

- Patient Not Covered, Care Provided Not Covered, or Policy Expired
- TRICARE and/or Income Supplemental Plans
- Medicare Supplemental Plans
- HMO/PPO
- Patient Copays and Deductibles

Clinical Denials

- Medical Necessity
- Delay in Discharge/Procedure
- Alternate Setting
- LOS exceeds Authorization

Administrative Denials

- Failure to pre-certify
- Lack of clinical information
- Lack of Benefit
- Exclusion Denials

- Challenges in understanding denials:
 - Variance in denial reason codes by payer
 - Denial reason does not necessarily identify the real issue
 - Inconsistently applied codes even with same payer
 - Missing denial codes
 - Denial codes that don't fit the reason the claim was denied
- Always best to call the payer for explanation. Some payers offer live online assistance through chat windows on their website.

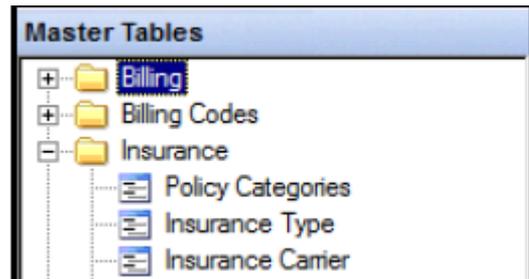

- Early Intervention
 - Respond to denials immediately
 - Establish a timeline for working denials
 - Focus on effective communication with payer and internal departments
- Safety Net for Appeals
 - Monitor and act upon unresolved denials
 - Follow-up on all levels of appeals process
 - Measure denials and appeal results
 - Trend issues by payer and reason
- Impact of Best Practices
 - Improved cash flow due to an increase in clean claims and a reduction in denials

- Streamline billing responsibilities
 - Dedicate team specifically to manage denials
 - Standardize appeal templates by payer
- Show impact on revenue
 - Total amount denied by type
 - Denied amount as a percentage of revenue
 - Total write-off amount by transaction code
 - Write-off amount as a percentage of revenue
 - How much has been collected
- Establish goals
 - What is an acceptable percentage to write-off due to denials (point of reference - industry goal is 3%)
- Communicate results to leadership

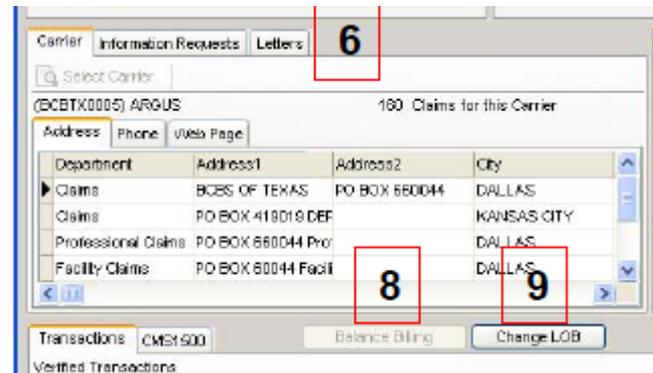

- Effective and continual communication with payers is essential
 - Develop standards for what information is required
 - Read the EOB carefully
 - Understand payer specific guidelines
 - Call the payer if a denial reason needs clarification
 - Develop individual relationships with payers through calls, e-mail, and scheduled teleconferences
 - Develop process for receiving policy updates
 - Establish procedures for documenting communications

- When speaking with the payer, be sure to ask:
 - What data was missing or inaccurate on the claim which caused the denial?
 - How long you have to resubmit the claim?
 - Does the payer needs any additional documentation sent with the claim?
 - Does the payer require any specific indicators on a claim when it is re-sent to indicate that it is a corrected claim?
 - Where does the information need to be sent?
 - Is there a reference number for this phone call?
 - If payer representative is not helpful, ask to speak with a supervisor

- Master Tables > Insurance > Insurance Carrier

- Account Management > Recovery > Carrier Tab

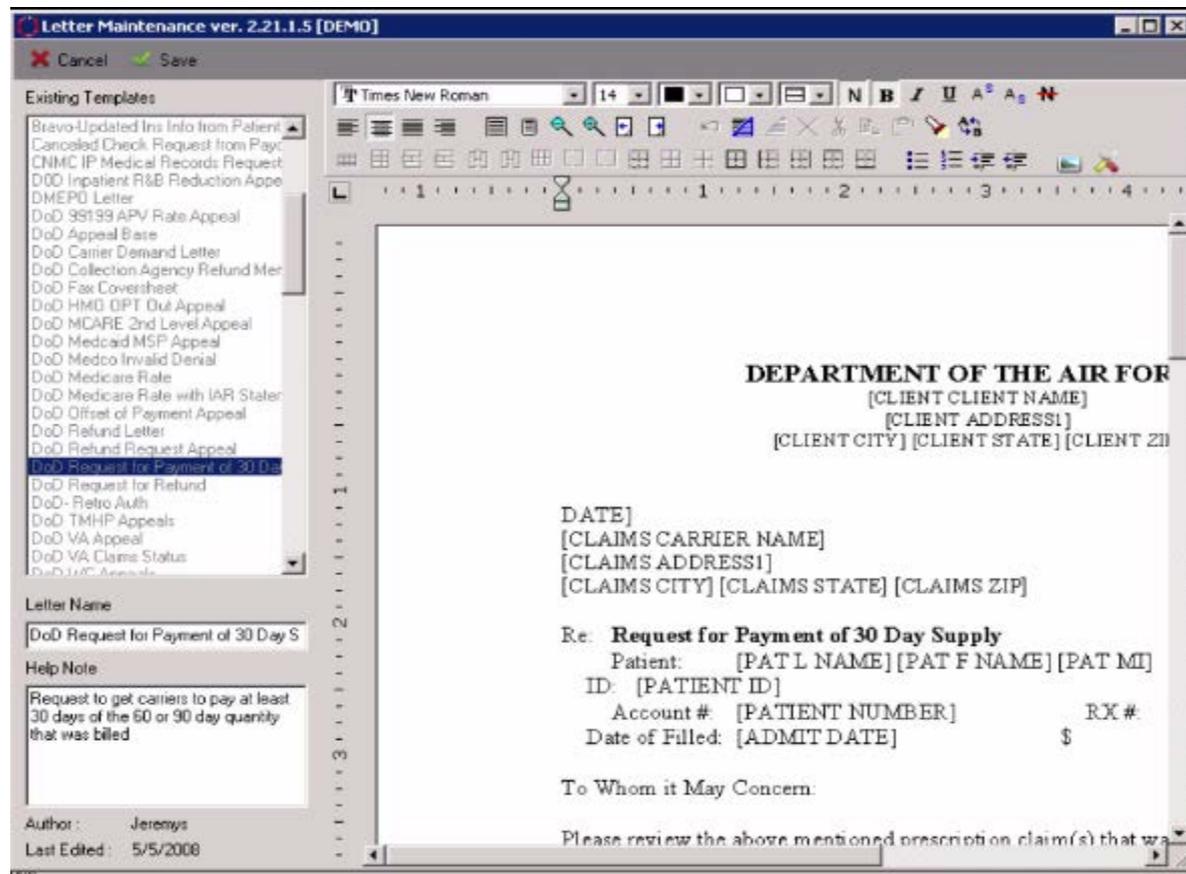

- Coding
 - Accurate coding is necessary for receiving payment
 - Build relationships with coders so clean claims can be produced
- Patient Administration Directorate (PAD)
 - Registration
 - Other Health Insurance (OHI) collection
- Clinical Staff
 - Complete and accurate medical record documentation
 - Timely closing of encounters to avoid coding backlogs

- Interpret the EOB to ensure that a valid denial reason has been received
- Determine if it needs to be written off or billed to the patient
- Determine if denial can be corrected and resubmitted or if the claim requires an appeal
- Develop a communication plan
- Engage appropriate departments
- Establish goals for follow-up
- Develop your case based on the payer's guidelines
- Monitor corrected or appealed claims

- Denied claims should be pursued aggressively
 - Denied claims should be prioritized based on date and dollar amount
 - Aggressive does not mean calling every day
 - Scrutinize all denied claims for incorrect information
 - Disputed claims should be communicated to the payer in writing
 - Aggressively appealing denials has been shown to reduce denial rates

- Allows users to generate letters for specific accounts
 - E.g., coversheet, appeals, patient info request, etc.
 - Account Management > Recovery > Letters Tab > Letter Editor

- Insurance companies frequently do not pay what they approve
 - They have no incentive to ensure that everything is paid appropriately
 - Track payments for approvals or overturns
 - When a payer accepts an appeals argument and agrees to reverse their decision on a claim denial
 - Develop system for logging all payer approvals and be able to submit documentation of the overturn back to the payer in the case of a dispute
- What About Upheld Denials?
 - Request the payer send supporting documentation
 - For incorrect payments, request a copy of the fee schedule
 - A list of CPT codes and dollar amounts a payer will allow for a particular medical service

- Why track denials?
 - Defines where breakdowns are in the process to identify opportunities for performance improvement
 - Identifies unreasonable payer practices
 - Collaborative effort appeals are easier to handle in the future
 - Identifies areas where denial management efforts have been successful
 - Allows UBO to develop future goals and opportunities for preventing future denials

- “Queue info” allows user to access more detailed information

- “The Drill” tab allows users to search all queues using multiple levels

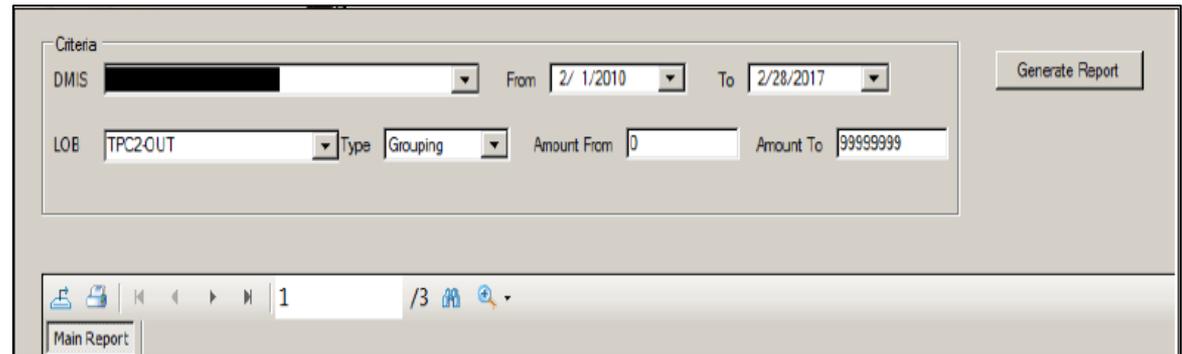

The screenshot shows the 'Recovery Specialist Statistics for In Process' application window. The interface includes a menu bar with options like 'Account Groupings', 'Full Date Schedule', 'Casier Groupings', 'Transactions', 'Daily Work Log', 'Inventory', 'DNIS Groupings', 'Name and Control Number Lookup', 'The Drill', and 'Statistics'. Below the menu, there are three levels of drill-down menus: Level 1 (Corporation), Level 2 (Full Date), and Level 3 (Queue). The main area displays a hierarchical tree view of data, starting with Corporation 0052, which has a total count of 3,127 and a placed balance of \$840,871.88. This is broken down by date (e.g., Jun 15 2012, Dec 27 2009) and then by queue (e.g., TPC Out-F/U). A 'Queue Selection' panel on the right lists various queue types with checkboxes, including 'Coding Fix', 'Company ABC', 'Denial Review', 'GT BRSi Review', 'In Process', 'Out Process', 'Thornton High \$', 'Thornton Low \$', 'Thornton Review', 'TPC In-Denial', 'TPC In-F/U', 'TPC In-Legal', 'TPC In-Process', 'TPC In-Reject', 'TPC Out-Denial', 'TPC Out-F/U', 'TPC Out-Legal', 'TPC Out-Process', 'TPC Out-Reject', and 'Transaction Rev'. At the bottom, a table lists individual patient records with columns for Control Number, Last Name, First Name, Placed Bal, Placement Date, Admit, Discharge, and LI. Buttons for '<-Load detail into Grid' and '<-Load Selected into Recovery' are visible, along with a warning: 'If None Selected, entire list will be loaded into recovery'. A 'Dose' button is located in the bottom right corner.

- Trend Analysis – ETU Errors 5 Week Period
- Trend Analysis – Claim Build Errors 5 Week Trend
- Trend Analysis – Recovery 5 Week Trend

- If paper claims must be filed:
 - Use only original claim forms
 - Make sure claims are printed clearly
 - Avoid folding claims, if possible
 - Avoid using terms such as “re-filed claim” or “second request”
 - Avoid handwritten claims
 - Don’t use all UPPERCASE letters
 - Don’t use punctuation or decimals on claims
 - Don’t send unnecessary attachments
 - Don’t use staples, paperclips or post-it notes
 - Don’t mark up the claim with highlighters
 - Don’t use circles or additional markings
 - Don’t attach labels or stickers
 - Don’t add notes or instructional assistance
 - Make a copy

- If electronic institutional and professional (837I/837P) claims are sent:
 - Identify the correct payer ID for electronic transactions
 - Consult 837I/837P EDI companion guide found on payer website
 - Use the UBO User Guide* and online Data and Billing in Sync** training modules to identify information that is required for 837I/837P transactions
 - Be familiar with claim adjustment reason codes (CARC)***

- Be sure to understand the denial codes on the EOB
- Focus on effective communication with payers
- Develop a strategic plan for managing individual claim denials
- Develop a method for tracking claim denials and appeals
- Make sure claims are “clean” before they are sent
- Contact your Service or NCR MD Program Manager for Service or NCR MD specific guidance

Questions?

This in-service webinar has been approved by the American Academy of Professional Coders (AAPC) for 1.0 Continuing Education Unit (CEU) credit for DoD personnel (.mil address required). Granting of this approval in no way constitutes endorsement by the AAPC of the program, content or the program sponsor. There is no charge for this credit.

- **Live broadcast webinar (Post-Test not required)**
 - Login prior to the broadcast with your: 1) full name; 2) Service affiliation; and 3) e-mail address
 - View the entire broadcast
 - After completion of both of the live broadcasts and after attendance records have been verified, a Certificate of Approval including an AAPC Index Number will be sent via e-mail to participants who logged in or e-mailed as required. This may take several business days.

- **Archived webinar (Post-Test required)**
 - View the entire archived webinar (free and available on demand at <http://www.health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Learning-Center/Archived-Webinars>)
 - Complete a post-test available *within* the archived webinar
 - E-mail answers to webmeeting@federaladvisory.com
 - If you receive a passing score of at least 70%, we will e-mail MHS personnel with a .mil email address a Certificate of Approval including an AAPC Index Number

- The original Certificate of Approval may not be altered except to add the participant's name and webinar date or the date the archived Webinar was viewed. Certificates should be maintained on file for at least six months beyond your renewal date in the event you are selected for CEU verification by AAPC

- For additional information or questions regarding AAPC CEUs, please contact the AAPC.

- Other organizations, such as American Health Information Management Association (AHIMA), American College of Healthcare Executives (ACHE), and American Association of Healthcare Administrative Managers (AAHAM), may also grant credit for DHA UBO Webinars. Check with the organization directly for qualification and reporting guidance.
