## Medical Hold

# Medical hold beds	Line or medical funded?	How do you execute medical hold?	What is your definition of medical hold?
0	Medical funded	The MDS monitors active duty members placed on medical hold by the Air Force Personnel Center's Medical Standards Branch as-needed while the member undergoes disability processing. Medical hold is typically only for individuals within 60 days of scheduled separation/retirement and requires health service support to attain optimum medical benefit before separating/retiring.	Medical hold is established by the AFPC Medical Standards Branch for individuals within 60 days of scheduled separation/retirement who require health service support to attain optimum medical benefit before separating/retiring.

## Exceptional Family Member Program Summary Report

### Cases Summary

Type	Count
Q-Coded Cases	226
Family Members with Special Needs Associated with Active Cases	315
Families with 1 Special Needs Family Member	151
Families with 2 Special Needs Family Member	52
Families with 3 or more Special Needs Family Member	20
Q-Coded Family Cases with Special Needs Family Member	223
Q-Coded Family Cases without Special Needs Family Member	3
Total AD AF Cases per Q-Base	226
Total AF Family Members with Special Needs per Q-Base	315
Total AD AF Cases provided in data call (assumes this number only captures AD AF sponsors with 0310 as their DMIS- sponser could be enrolled at MTF, but dependents could be enrolled in USFHP or a network provider)	110
Q-Coded Sponsors per MPS (this number includes all GSUs with Hanscom as the servicing MPS)	245
Approx number of Sister Service EFPM coded cases (only tracked internally by Special Needs coordinator)	40

### Age Summary for Families with Special Needs

Type	Count
Family Members of Age < 0 OR NULL	0
Family Members of Age 0-2	18
Family Members of Age 3-5	41
Family Members of Age 6-12	93
Family Members of Age 13-17	42
Family Members of Age 18+	121

### Special Needs Summary

Type	Count
Family Members with Educational/IFSP Needs	23
Family Members with Medical Needs	230
Family Members with Both Educational and Medical Needs	45
Family Members with Risk of Developmental Delay	41

## Information Briefing Network Capabilities Northeast Prime Service Areas

10 April 2019

---

---

*“Medically Ready Force...Ready Medical Force”*

---

---

# Part C: DHA TRICARE Health Plan Assessment

---

## Problem Statement

---

Request by NDAA 703 Workgroup to provide an assessment of the capability of the purchased care network to absorb clinic workload and enrollment currently being provided at **66<sup>th</sup> Med Group - Hanscom AFB, MA; NHC New England, RI; NBHC Portsmouth, ME; and NBHC Groton, CT.**

# Part C: DHA TRICARE Health Plan Assessment

## Methodology Overview

- Using M2/DHA Portfolios workload data, THP quantifies MTF capabilities /capacity/enrollment projected to shift to Purchased Sector Care (PSC) Market
  - Specialty care is defined as a 60-minute drive from physical address to specialist location. Assuming most beneficiaries live on post that are enrolled to the MTF, the network assessments will use 40 miles (urban) and 55 miles (rural) to approximate drive-time.
  - Primary care is defined as a 30-minute drive from physical address to address of PCM location. Assuming most beneficiaries live on post that are enrolled to the MTF, the network assessments will use 15 miles (urban) and 30 miles (rural) to approximate drive-time. PCPs generally have relatively full panels. Assuming the MCSC could contract 50% of the community non-network PCMs within the respective mile radius, an additional empanelment per provider is calculated.
- Utilizing workload data provided by THP, MCSC identifies/quantifies current PSC capabilities/capacity to absorb MTF workload
- THP summarizes ability of PSC to meet the new demand for services projected to shift from the MTF to PSC

### Specialty Legend:

- **Green:** No anticipated problems meeting workload with ATC standards.
- **Yellow:** Current or Potential for increased appointment wait time and/or drive time.
- **Red:** Anticipate exceeding appointment wait time and/or drive time standards.

### Primary Care Legend:

- **Green:** Up to 2.5% more enrollees (<49) easily
- **Yellow:** 2.5% - 5% (50-99) with moderate difficulty
- **Red:** > 5% (100+) with great difficulty

*“Medically Ready Force...Ready Medical Force”*

# Part C: DHA TRICARE Health Plan Assessment

---

## PSC Assessment Hanscom AFB PSA *Civilian Inpatient Network Capabilities*

---

### MCSC ASSESSMENT OF CIVILIAN NETWORK CAPABILITIES

- **Primary Care:** Current capabilities: ( **green** ). Capabilities with absorbed workload: ( **green** )
- **Pediatrics:** Current capabilities: ( **green** ). Capabilities with absorbed workload: ( **green** )
- **Mental Health:** Current capabilities: ( **green** ). Capabilities with absorbed workload: ( **green** )
- **Optometry:** Current capabilities: ( **green** ). Capabilities with absorbed workload: ( **green** )

#### Considerations:

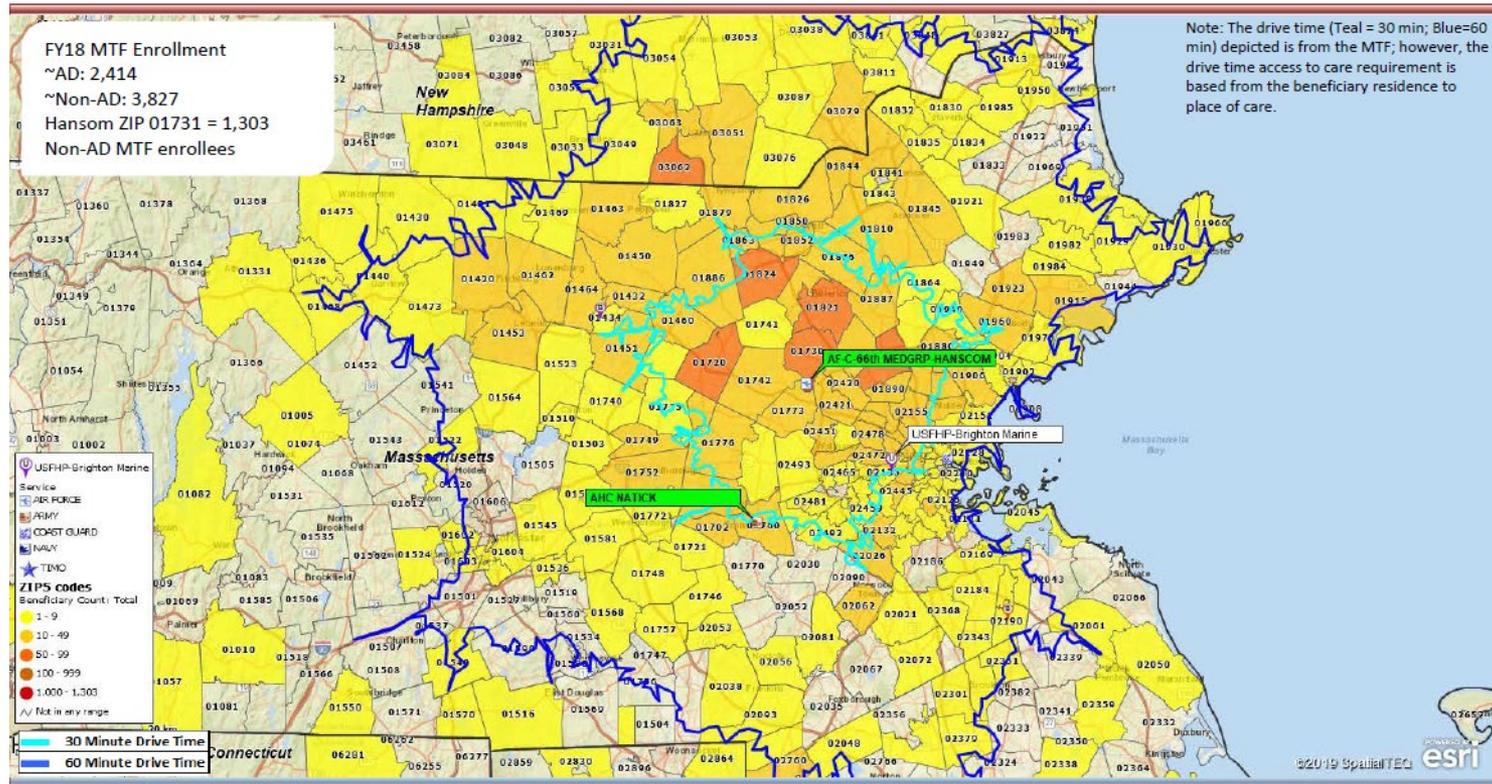

- Within a 15-mile radius of 66th Med Grp – Hanscom, 166 TRICARE Primary Care Managers (PCMs) are currently accepting new patients. Assuming the MCSC could contract 50% of the 1,202 non-network PCMs within the 15-mile radius, each PCM would have to empanel 5 beneficiaries.
- There are 58 network facilities within drive time of Hanscom that offer like services currently provided by the MTF with more than adequate access to care.
- There are 2 urgent care centers within 25 miles of the 66th Med Grp – Hanscom.
- When shifting non-primary care workload to the network, a phased approach should be developed.
- Case managed enrollees should have a warm hand-off to the MCSC.

# Part D: Independent Government Assessment (Network Insight)

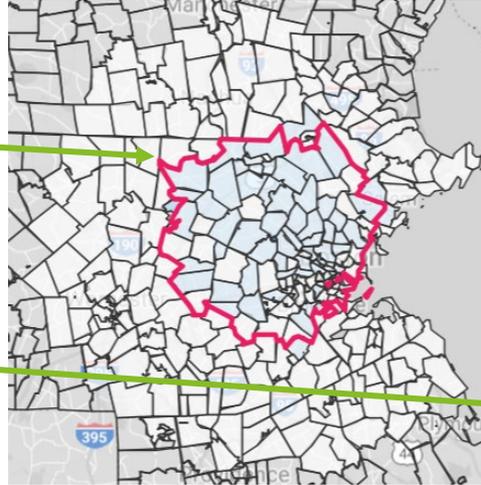

## MHS Section 703 Workgroup AHC Hanscom Network Assessment Discussion

10 April 2019

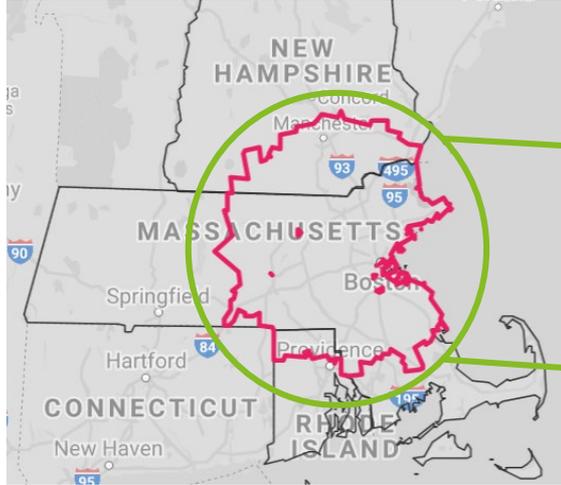

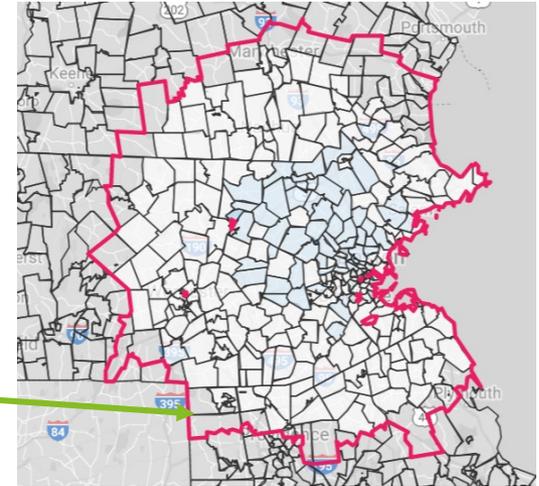

# Network Assessment: Hanscom (1 of 2)

**Scenario:** Hanscom is being considered for conversion from Outpatient / Ambulatory Clinic to Active Duty-Only Clinic

**30-Minute Drive-Time Boundary**

**60-Minute Drive-Time Boundary**

**Key Takeaway:**

- 94% of non-AD MTF Prime & Plus beneficiaries are living within the 30-minute drive-time boundary for Primary Care, concentrated around the MTF location
- 100% of MTF Prime, Reliant & Medicare Eligible beneficiaries are living within the 60-minute drive-time boundary for Specialty Care, concentrated around the MTF location

Primary Care Impacted Beneficiaries	Within 30 min	Within 60 min	Outside 60 min
Non-AD MTF Prime <sup>1</sup>	3,042	177	1
Plus	72	7	1
<b>Total</b>	<b>3,114</b>	<b>184</b>	<b>2</b>

1: Includes 27 Medicare Eligible MTF Prime beneficiaries

Specialty OP Impacted Beneficiaries	Within 30 min	Within 60 min	Outside 60 min
MTF Prime <sup>2</sup>	5,684	1,374	1
Reliant	244	291	0
Medicare Eligible	4,178	7,665	13
<b>Total</b>	<b>10,106</b>	<b>9,331</b>	<b>0</b>

2: Includes 0 Medicare Eligible MTF Prime beneficiaries

Note: To estimate the geographic market within a 30-minute, and 60-minute, drive time of the MTF, we assumed an average driving speed of 30 MPH, and thus a 15 mile radius for the 30-minute standard, and a 40 mile radius for the 60-minute standard, around the Zip code of the MTF was determined as the geographic market

# Network Assessment: Hanscom (2 of 2)

The potential impact of new MHS Beneficiaries on the total population is well below the 10% threshold for primary care and well below 10% for specialty care and thus will not materially impact supply and demand of services

## Primary Care: Non-AD MTF Prime, and Plus Population

	Age Group	MHS Target Population	% of Total MHS Target Population	Population Total	% of Population Total	Target Population Introduced

# Hanscom: Network Adequacy Analysis (1 of 4)

## Primary Care

### Key

- = 15-mile (30-minute) boundary
- = Density of beneficiaries by zip code

- The depicted geography represents a 15-mile radius, which was used due to this geography being an **urban area**
- The identified drive time **includes 175 zip codes, and 5 partial counties (Essex, Middlesex, Norfolk, Suffolk, Worcester)**
- **Of the 3,299 impacted primary care beneficiaries** attributed to Hanscom **~94% are represented within the 15-mile radius boundary**

	Number of Practice Sites	Number of Physicians
Family Practice	99	204
Internal Medicine	278	717
Pediatrics	115	454
<b>Grand Total</b>	<b>492</b>	<b>1,375</b>

# Network Adequacy Evaluation: Hanscom (2 of 4)

**Commercial primary care providers** within the 30-minute drive-time **could absorb the incremental demand** from beneficiaries who are being transitioned out of the MTF. The network **should be able to maintain this level adequacy over time** (2019 to 2023)

Specialty	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester
General/Family Practice	1467	293	329	162	301	382
Internal Medicine	5843	328	1246	647	2768	854
Pediatrics	2103	168	417	211	1029	278

Specialty	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester
General/Family Practice	2166	386	737	362	323	358
Internal Medicine	1621	291	557	274	229	270
Pediatrics	629	114	216	109	84	106

Specialty	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester
General/Family Practice	(699)	(93)	(408)	(200)	(22)	24
Internal Medicine	4222	37	689	373	2539	584
Pediatrics	1474	54	201	102	945	172

## Current Supply

- The majority of supply of primary care providers are located within Suffolk and Middlesex counties, where ~90% of impacted beneficiaries reside

## Forecasted Demand

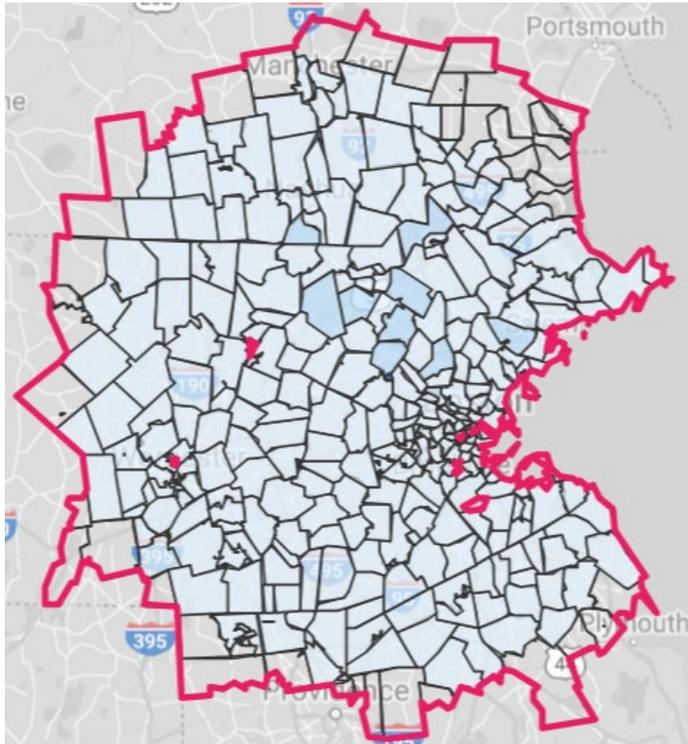

- This forecasted increase is directly related to population growth (7.4% over the past 5 years (2014 – 2018) & 4.5% growth is forecasted for the next five years (2019 to 2023))

## Expected Shortage/Surplus

- The expected surplus of primary care providers across geography surrounding Hanscom **should be able to service this incremental demand** and maintain this level adequacy over time

# Hanscom: Network Adequacy Analysis (3 of 4)

## Specialty Care

- The above geography represents a 40-mile radius, which was used due to this geography being an **urban area**
- The identified drive time **includes 483 zip codes, four complete counties (Essex, Middlesex, Norfolk, Suffolk) and eight partial counties (Bristol, Plymouth, Worcester, Cheshire, Hillsborough, Merrimack, Rockingham, Providence)**
- **Of the 19,450 impacted specialty care beneficiaries attributed to Hanscom, 100% are represented within the 40-mile radius boundary**

**Key**

- = 40-mile (60-minute) boundary
- = Density of beneficiaries by zip code

	Number of Practice Sites	Number of Physicians
Psychiatry	580	1,469
<b>Grand Total</b>	<b>580</b>	<b>1,469</b>

# Network Adequacy Evaluation: Hanscom (4 of 4)

**Commercial specialty care providers** within the 60-minute drive-time *can absorb the incremental demand* from beneficiaries who are being transitioned out of the MTF. The network *can maintain this level adequacy over time* (2019 to 2023)

Specialty ▲ ▼	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester	Hillsborough
Psychiatry	2332	116	795	335	806	206	74

Specialty ▼	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester	Hillsborough
Psychiatry	719	119	223	106	108	111	52

Specialty ▼	Total	Essex	Middlesex	Norfolk	Suffolk	Worcester	Hillsborough
Psychiatry	1613	(3)	572	229	698	95	22

## Current Supply

- The majority of supply of psychiatry providers are located within Suffolk and Middlesex counties, where ~50% of impacted beneficiaries reside

## Forecasted Demand

- The population has grown 7.4% over the past 5 years (2014 – 2018) & is forecasted to grow 4.5% over the next five years (2019 to 2023))

## Expected Shortage/Surplus

- The expected surplus of psychiatry providers across geography surrounding Hanscom **should be able to service this incremental demand** and maintain this level adequacy over time

# Targeted Practice Profiles: Hanscom (1 of 4)

Based on the number of Primary Care practices accepting Tricare or other government-sponsored insurance and offering after hours care, we expect a large number of providers to meet MHS access standards

## Primary Care Practice Profiles

# Targeted Practice Profiles: Hanscom (4 of 4)

While ability and willingness to accept Tricare patients must be confirmed, the vast majority of providers in the Hanscom market already accept Tricare or other government-sponsored insurance, and many are already contracted with Humana to provider services to TRICARE beneficiaries

## Primary Care Providers

Likelihood of offering services to TRICARE members	Number of Sites	Sum of Physicians
Contracted with TRICARE	149	540
High Likelihood	0	0
Medium Likelihood	280	678
Low Likelihood	63	157
<b>Grand Total</b>	<b>492</b>	<b>1,375</b>

## Psychiatry Providers

Likelihood of offering services to TRICARE members	Number of Sites	Sum of Physicians
Contracted with TRICARE	90	310
High Likelihood	0	0
Medium Likelihood	305	834
Low Likelihood	185	325
<b>Grand Total</b>	<b>580</b>	<b>1,469</b>

Contracted Practice Sample	Specialty
Brigham & Womens Primary Care Associates Longwood	Primary Care
Internal Medicine Associates At Mass General Hospital	Primary Care
Main Street Bolton Primary Care	Primary Care
Advanced Medical Research Foundation	Primary Care
Internal Medicine Associates	Primary Care
Ann N Becker MD LLC	Primary Care
Primary Care Associates	Primary Care
Massachusetts General Hospital Primary Care	Primary Care
Mark O Cutler MD	Psychiatric
Northwood Behavioral Healthcare	Psychiatric
Rafael D Ornstein MD	Psychiatric
Robert B Portney MD	Psychiatric
Massachusetts General Hospital Outpatient Psychiatry	Psychiatric

- Contracted with TRICARE: Providers are currently contracted with Humana to provider services to TRICARE beneficiaries
- High Likelihood: Providers are connected to organizations currently providing services to TRICARE beneficiaries
- Medium Likelihood: Providers are accepting Medicare and/or Medicaid
- Low Likelihood: Providers are neither providing Medicare nor Medicaid

## 1. Alternate Slides

# Hanscom: Network Adequacy Analysis (1 of 4)

## Primary Care

### Key

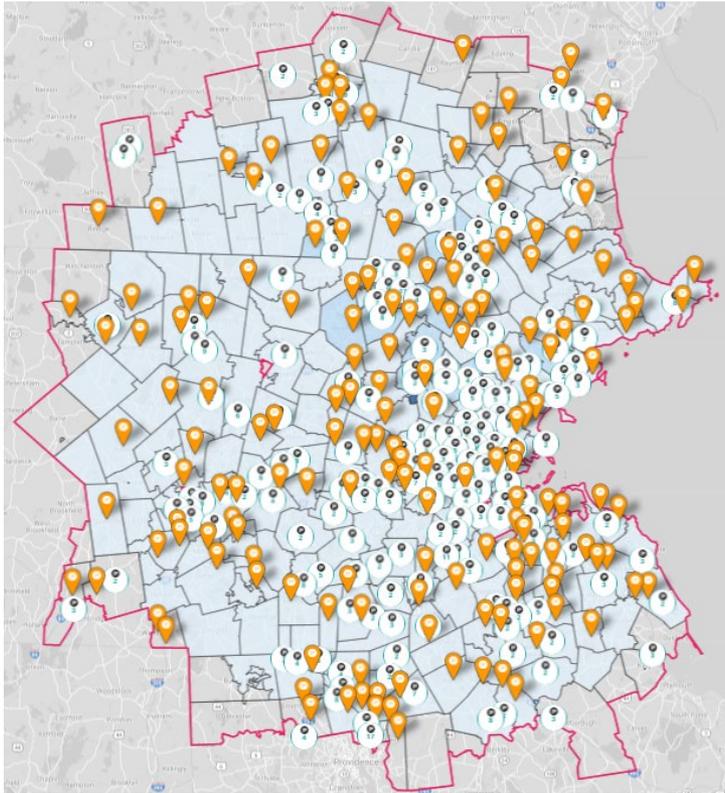

- = 15-mile (30-minute) boundary
- = Density of beneficiaries by zip code

- The depicted geography represents a 15-mile radius, which was used due to this geography being an **urban area**
- The identified drive time **includes 175 zip codes, and 5 partial counties (Essex, Middlesex, Norfolk, Suffolk, Worcester)**
- **Of the 3,299 impacted primary care beneficiaries** attributed to Hanscom **~94% are represented within the 15-mile radius boundary**

	Number of Practice Sites	Number of Physicians
Family Practice	99	204
Internal Medicine	278	717
Pediatrics	115	454
<b>Grand Total</b>	<b>492</b>	<b>1,375</b>

# Hanscom: Network Adequacy Analysis (3 of 4)

## Specialty Care

- The above geography represents a 40-mile radius, which was used due to this geography being an **urban area**
- The identified drive time **includes 483 zip codes, four complete counties (Essex, Middlesex, Norfolk, Suffolk) and eight partial counties (Bristol, Plymouth, Worcester, Cheshire, Hillsborough, Merrimack, Rockingham, Providence)**
- **Of the 19,450 impacted specialty care beneficiaries attributed to Hanscom, 100% are represented within the 40-mile radius boundary**

**Key**

- = 40-mile (60-minute) boundary
- = Density of beneficiaries by zip code

	Number of Practice Sites	Number of Physicians
Psychiatry	580	1,469
<b>Grand Total</b>	<b>580</b>	<b>1,469</b>

# Network Assessment: Hanscom (3 of 3)

The table below breaks out the potentially impacted TRICARE beneficiaries by county of residence to determine the geography for a network adequacy analysis that conservatively estimates the appropriate drive-time standards for the specific scenario under evaluation

County	Massachusetts						New Hampshire		Rhode Island	
	Bristol	Essex	Middlesex	Norfolk	Plymouth	Suffolk	Worcester	Hillsborough	Rockingham	Providence
Primary Care (non-AD MTF Prime & Plus)	0	197	2,781	85	0	184	43	8	0	0
	0.0%	6.0%	84.3%	2.6%	0.0%	5.6%	1.3%	0.3%	0.0%	0.0%
Specialty OP (MTF Prime, Reliant, & Medicare Eligible)	210	1,716	7,675	1,819	1,120	1,992	2,352	1,880	496	180
	1.1%	8.8%	39.5%	9.4%	5.8%	10.2%	12.1%	9.7%	2.5%	0.9%

### 30-Minute Drive-Time Boundary

### Primary Geography for Evaluation:

#### Primary Care Services:

- Essex, Middlesex and Suffolk Counties

#### Specialty Care Services:

- Essex, Middlesex, Norfolk, Suffolk, Worcester and Hillsborough Counties

### Secondary Geography for Evaluation:

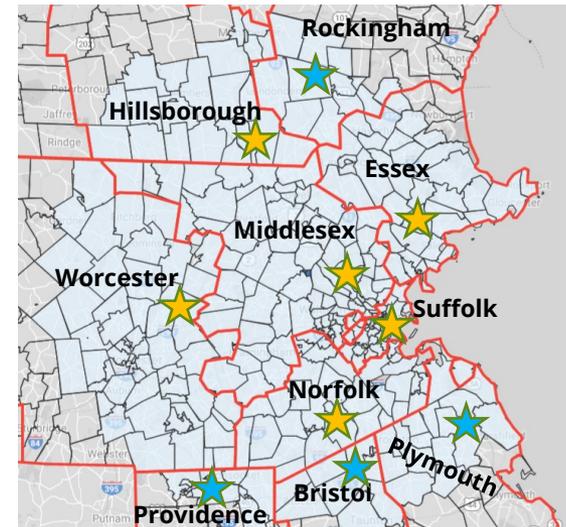

#### Primary Care Services:

- Norfolk, Worcester and Hillsborough Counties

#### Specialty Care Services:

- Bristol, Plymouth, Rockingham and Providence Counties

### 60-Minute Drive-Time Boundary

Primary Network Adequacy Evaluation

Secondary Network Adequacy Evaluation

### Access to Provider

### Appointment

### Contact Office

# Part F: JOES-C 12-months Rolling Data (2 of 2)

## Hansom AFB-USCG Boston Market Purchased Care

Analysis: "Access to Provider" data is a little better on the network than Hanscom in most categories. Actual # of days waiting for care is also similar, though the network patients are more satisfied with how fast they got their appointment.

**Indicates that patients would be no worse off getting network care, assuming Human has providers with capacity.**

# Value of Current Medical Capabilities

- Maintain a resilient and healthy community
- MDS unofficially functioning as a regional deployment hub for 250 GSUs spread over 99,000 square miles
  - Ensure all deployers are medically ready to go
  - Preventative/In-Garrison medical model reduces deployed DNBI's
- Enables workforce to focus on their jobs
- Returns workforce to duty much more rapidly than civilian healthcare providers
- Saves countless hours of battling traffic for routine medical procedures
- Health surveillance for flu or other communicable diseases
  - Disease containment
- Critical primary incident response in several scenarios
  - HSMR, HAZMAT, CBRNE

# Value of Current Medical Capabilities

- Water/Environmental sampling ID'd multiple issues
  - Fully coordinated medical education averted panic response by community
  - CSAF/CODEL interest
- Sole Radiation Safety Officer for New England
  - Track radioactive material (MIT)
  - Radio Frequency antenna survey and emitter approval
- EFMP management of over 250 cases
  - Enables reassignment of AF personnel with EFMP requirements to PCS to New England
  - Expands pool of qualified AD personnel to fill key positions
- Process all MEBs
  - 70% are ANG and 20% are AFRC personnel
  - Volume on par with much larger MTFs (i.e.: Wright Patterson)
- AMTU/Patient Squadron
  - Enables personnel and their families to be assigned to the New England region while awaiting career disposition due to complex medical issues

# Value of Current Medical Capabilities

---

- Tri-Service Line of Duty determinations
- Diagnostic Imaging department supports imaging for Armed Forces pre-selection members and military working dogs
- Sustain Flying Operations for all GSU/AGR Units
- Pre-Employment physicals enable rapid on-boarding of civilian personnel
- Separation History and Physical Examination (SHPE) done in conjunction with local VA rep smooths transition
- Initial Flying Class and Annual Flying Class Physicals done locally vs sending members to Wright Patterson or McGuire AFB
- PRP screening support prevents lapse in program for members who are in education or research
- Supports fitness review panels for 66 ABG military members that fail to achieve a passing physical fitness test

# Value of Current Medical Capabilities

- Respond to any aircraft incident inside New England region and draw for labs that are forwarded to the Armed Forces Medical Examiners Office
- Logistics and BMET hub for 12 ANG & AFRC GSUs
  - 101 MDG ANGB Bangor ME, 102 MDG OTIS ANGB Cape Cod MA, 103 MDG ANGB East Granby CT, 104 MDG Barnes ANGB Westfield MA, 143 MDG North Kingstown RI, 157 MDG and 157 Det 1 Pease ANGB NH, 158 MDG ANGB S. Burlington VT, DHHS ASPR OEM Washington DC, 439 AES Westover ANGB MA, 439 AMDS Westover ANGB MA, 439 ASTS Westover ANGB MA
- Sole provider of Pre-/Post-op refractive surgery support for all of New England
- Annual Mental Health Leadership Summit – Leadership interact w/command (all Svcs/GSUs)
- Family readiness support through Family Advocacy Program
  - 50% workload is GSU related
- USPHS – LCSW – currency/mutual assistance

# Value of Current Medical Capabilities

---

- Command Directed Evaluations, Suitability/fitness for duty screening, Therapy, Alcohol and Drug Abuse Prevention and Treatment (ADAPT) services
- Pre-deployment screening/Automated Neurological Assessment Metric (ANAM)
- Mental Health/ADAPT/Family Advocacy Education/outreach briefings
- Pharmacy supplies pre-deployment and post-deployment medications to deployers in the New England region
- Pharmacy liaison with 14K providers throughout New England region
  - 2,645 PSRs due to civilian script errors
- Sister Service / Civilian Fetal Protection
- Tri-Service Audiograms
- Travel Medicine for all Services, Dependents, and Retirees
- Tri-Service Mass Deployments

# Concerns/Gaps with change to AD only clinic

- Depends on capabilities left in place
- GSU workload is not accounted for in AFMS manpower standards
  - Result is constant surge to meet demand of enrolled population and GSUs
  - Significant percent of MDS staff noted “burnout” in DEOCS (climate assessment)
  - Current manpower levels about right if downsized to AD only
- Will undermine model where family unit obtains care from same provider
- All ancillaries must remain at current minimum open door levels to support GSU workload
- On-base population may have significant drive times for care creating dissatisfaction
- Pharmacy downsizing is high risk to generate political interest & engagement due to exclusion of retirees and perceived reduction in benefit
  - If we become a dispensary we will not be able to process prescriptions from a civilian provider or AD provider for any beneficiary without a pharmacist
- Lab downsizing without a lab officer would eliminate differentials unless overseen remotely by a licensed medical laboratory scientist; technicians cannot perform hematology differentials as well as urine microscopy that would need to be sent downtown further delaying care
- Patient safety concerns with reduced staff

# Concerns/Gaps with change to AD only clinic

---

- Loss of medical personnel may impact base readiness posture
  - Incident response, GSU support (readiness), exercise augmentation
- Risk to multiple support agreements
- Potential for significant risk to ANG and AFRC
- Inability to flex and support medical personnel deployments due to smaller medical staff
  - Potential for temporary service closure during deployment
  - Could result in AD personnel sent downtown?
    - Civilian sector not familiar with impact of disease states on military readiness requirements, and do not have access to required systems

# Active Political Interest

---

US Senate: Senior Senator - Elizabeth Warren (D)

- Relevant Committees
  - Committee on Armed Services
    - » Subcommittee on Airland
    - » Subcommittee on Personnel
  - Committee on Health, Education, Labor and Pensions
- Sen. Warren, who has formed an exploratory committee for a potential 2020 presidential campaign, and her staff have frequent dealings with Hanscom, including delegation visits, requests for information and briefings. Numerous tracking services list her top issues of interest to be: 1. healthcare, and 2. armed forces/national security

US Senate: Junior Senator - Ed Markey (D)

- Relevant Committees
  - None
- Please note that he cites healthcare, disabilities and medical research among his top priorities and note that he and his staff are active participants in base events and follow Hanscom issues closely both at the district level and in Washington. Prior to his senate election, he served for 35+ years in the U.S. House representing towns near Hanscom.

# Active Political Interest

U.S. House of Representatives: Katherine Clark (D), Mass 5<sup>th</sup> (Lincoln/Lexington)

- Relevant Committees:
  - House Committee on Appropriation
  - Subcommittee on Labor, Health and Human Services, Education and Related Agencies
- Congresswoman Clark, who became Democratic Caucus vice chair (6<sup>th</sup> highest ranking Democrat in the House) in January, visits Hanscom and sends frequent delegations, as well as tracks major fiscal impacts to Hanscom. The clinic is within Clark's district. She is active on numerous medical issues and is very involved with non-program-related activity, such as infrastructure, daycare, etc.

U.S. House of Representatives: Seth Moulton (D), Mass 6<sup>th</sup> (Bedford)

- Relevant Committees:
  - House Armed Services Committee
    - Ranking Member, Subcommittee on Oversight and Investigations
    - Member, Subcommittee on Seapower and Projection Forces
  - House Committee on Budget
- Congressman Moulton is a former Marine with combat experience in Iraq and Afghanistan who closely tracks military matters affecting New England and his district. Armed forces/national security are ranked as top issues by a wide margin.

# Active Political Interest

---

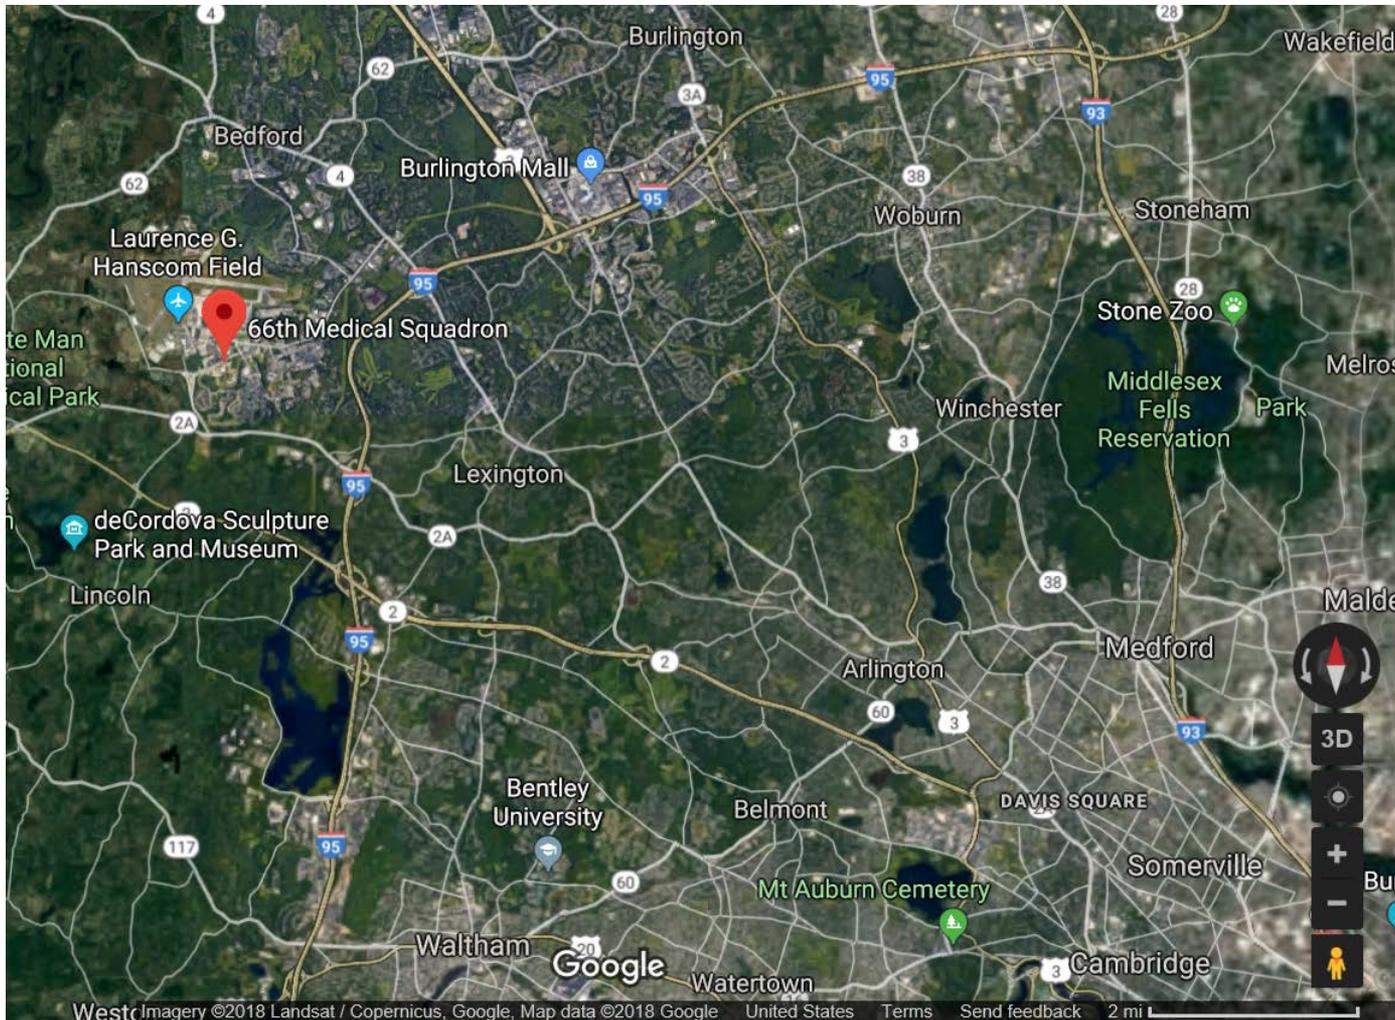

U.S. House of Representatives: Lori Trahan (D), Mass 3rd (Concord)

- Relevant Committees:
  - House Armed Services Committee
- Representative Trahan won the open seat vacated by former U.S. Rep. Niki Tsongas, who also served on the HASC and was very active on issues related to Hanscom AFB. Rep. Trahan took office on Jan 3, 2019. A former chief of staff to Tsongas's predecessor, former U.S. Rep. Marty Meehan, Trahan is familiar with the district and with the House. She has not yet visited Hanscom, but we expect that to occur soon.

Other relevant info: The November 2018 elections, in the House in particular, elevated several Massachusetts and New England delegation members, with some ranking committee members taking over as committee chairs. On Armed Services specifically, New England now has 11 total members (5 Senate, 6 House), led by SASC ranking member Sen. Jack Reed of Rhode Island.
