

# Did you receive the anthrax vaccine while you were pregnant?

- The **BioThrax Vaccine in Pregnancy Registry** was created to follow the pregnancy outcomes of women who were exposed to the anthrax vaccine during pregnancy.
- Your participation in the Registry will help us better understand the potential risks, if any, of receiving the anthrax vaccine in pregnancy.
- If you received the vaccine during pregnancy, please contact the Registry team at the Deployment Health Research Department, at the Naval Health Research Center.
