

# PROGRAM EXECUTIVE OFFICE DEFENSE HEALTHCARE MANAGEMENT SYSTEMS

The mission of the Program Executive Office, Defense Healthcare Management Systems is to transform the delivery of healthcare and advance data sharing through a modernized electronic health record for service members, veterans, and their families.

## PROGRAM OVERVIEW

The Program Executive Office, Defense Healthcare Management Systems (PEO DHMS) is an acquisition organization that oversees two program management offices (PMO). These two offices acquire, deliver, and support information technology and services that enable data sharing and modernization of the electronic health record (EHR). PEO DHMS oversees the DoD Healthcare Management System Modernization (DHMSM®) PMO and the Joint Operational Medicine Information Systems (JOMIS) PMO.

Together, these offices transform the delivery of healthcare for active duty military, veterans, and their families by achieving nationwide interoperability and modernization of DoD's EHR, MHS GENESIS, as well as other capabilities. MHS GENESIS integrates inpatient and outpatient records, replacing select legacy DoD healthcare systems and connecting medical and dental information across the continuum of care.

## MODERNIZATION

- Ensures and enables continuing operations, flexibility, and interoperability to improve the continuity of care
- Accelerates system improvements through upgrades of hardware, software, and interfaces
- Enhances patient experience through efficiencies in safe, high quality healthcare delivery
- Engages the private sector, setting the industry standards for healthcare delivery and health IT cybersecurity
- Develops and deploys modernized, integrated operational medicine systems to the warfighter

## PEO DHMS PROGRAM MANAGEMENT OFFICES

DHMSM: modernizing DoD's EHR (MHS GENESIS)

JOMIS: operational medicine
