FORT BELVOIR COMMUNITY HOSPITAL

SEARCHABLE DIRECTORY FOR NORTHERN VA FACILITY

The Fort Belvoir Community Hospital (FBCH) app is a searchable directory for navigating the Northern Virginia military hospital.

The FBCH app features an easy-to-use home screen that enables users to quickly find their way to and around the facility, along with links to the hospital pharmacy and laboratory, patient resources and contact information. The directions section includes a parking garage diagram with beacons to help patients find their way from the parking area to specific departments inside the hospital.

This app is available for free download to iPhone and Android devices. It was produced by the Web & Mobile Technology (WMT) Program Management Office, part of the Defense Health Agency (DHA) Solution Delivery Division. WMT provides web and mobile solutions to the DHA and other Department of Defense and Veterans Affairs organizations.
