

MHS Leadership

BENEFITS OF TRANSITIONING TO THE MHS SERVICE HELPDESK

Reporting

The Military Health System (MHS) Service Helpdesk application provides MHS Leadership with **the capability to access over 400 standard reports.**

Leadership can easily modify their own reports based on their pre-loaded profile so they can **see the data they want to see.**

Leadership can **create and generate reports in minimal time** that can be displayed in either chart or graph format. Additionally, leadership can create their own **customized dashboards.**

Leadership can **export report data to Microsoft Excel quickly and easily with guided instructions** and with context-sensitive help always available.
