**PRESCRIBING AUTHORITY:** DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

**c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.**

Program Executive Office Defense Healthcare Management Systems Testing Infrastructure (PEO DHMS TI) provides a standardized environment, services, and resources to facilitate the effective development and testing of healthcare management systems, applications, and their capabilities. The PEO DHMS TI is a predominantly virtualized infrastructure within a single limited access Zone B Test and Development enclave allowing rapid provisioning of demonstration, development, testing, and training environments.

Personally Identifiable Information (PII) collected includes random demographic and synthetic medical data originally entered in the Military Health System (MHS) which is de-identified to remove and disassociate PII and PHI by the DHA Solution Delivery Division (SDD). No live clinical data or protected health information (PHI) resides within the PEO DHMS TI. The PEO DHMS TI is not interconnected to any production healthcare systems. The categories of individuals about whom PII are collected include federal employees, Active Duty and Reserve Service Members (Air Force, Army, Navy, Marines, and Space Force), Family Members, National Guard Personnel and other individuals authorized treatment at Military Facilities.

**d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)**

The de-identified data is utilized to improve function and load testing of application updates, new applications, and application integrations in MHS support systems.

**e. Do individuals have the opportunity to object to the collection of their PII?**  Yes  No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

PEO DHMS TI is not the initial point of collection; the opportunity for individuals to object to the collection of PII is presented when utilizing the originating DHA application.

**f. Do individuals have the opportunity to consent to the specific uses of their PII?**  Yes  No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

PEO DHMS TI is not the initial point of collection; the opportunity for individuals to consent to the specific uses of their PII is presented when utilizing the originating DHA application.

**g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)**

**h. With whom will the PII be shared through data/system exchange, both within your DoD Component and outside your Component?**
