c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

Pharmacy High Density Storage - Enterprise (PHDS-E) is a commercial-off-the-shelf (COTS) product utilized to deliver medications to patients. It is used in the filling, checking/verifying, and pick-up steps of prescription dispensing. PHDS-E processes data sent from Pharmacy Inpatient Automation Solution - Enterprise (PIAS-E) and correlates the information from the source database using a standard set of patient, provider, and other identifiers. PHDS-E provides a standard clinical interface that allows viewing of a wide range of clinical information pertaining to a single patient or group of patients for the safe and efficient dispensing of prescriptions.

Personally Identifiable Information (PII) collected includes patient name, date of birth, sex, address, telephone number, prescription information, and session record information.

The individuals whose information is collected in this system include active duty military (all services + Coast Guard and Reserve), veterans, dependents, retirees and/or their dependents, foreign nationals, national guard personnel, and prisoners of war.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

PII is collected to identify and verify PHI/PII prior to filling of prescription, patient identification and to ensure that a prescription is provided to the right patient, in the right form, at the right time and at the right dose.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

The opportunity for individuals to object to the collection of PII is presented by the DHA application the user is interacting with. PII/PHI is collected from existing DoD systems via information sharing system to system.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

The opportunity for individuals to consent to specific uses of PII is presented by the DHA application the user is interacting with. PII/PHI is collected from existing DoD systems via information sharing system to system.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

Privacy Act Statement Privacy Advisory Not Applicable

PHDS-E receives its data from PIAS-E which in turn is collected from MHS Genesis, which are responsible for ensuring that the patient has consented to the collection of PII.

h. With whom will the PII be shared through data/system exchange, both within your DoD Component and outside your Component?
(Check all that apply)

- Within the DoD Component Specify.
- Other DoD Components (i.e. Army, Navy, Air Force) Specify.
- Other Federal Agencies (i.e. Veteran's Affairs, Energy, State) Specify.
