

2019 Pharmacy Pricing Update

23 April 2019 0800-0900 EDT

25 April 2019 1400-1500 EDT

For entry into the webinar, log into: http://federaladvisory.adobeconnect.com/ubo_webinar.

Enter as a guest with your full name and Service or tIMO affiliation for attendance verification.

Instructions for CEU credit are at the end of this presentation.

View and listen to the webinar through your computer or Web-enabled mobile device. Note: The DHA UBO Program Office is not responsible for and does not reimburse any airtime, data, roaming or other charges for mobile, wireless and any other internet connections and use.

If you need technical assistance with this webinar, contact us at webmeeting@federaladvisory.com.

You may submit a question or request technical assistance at any during a live broadcast time by entering it into the "Question" field of Adobe Connect.

- The UBO Pharmacy Rate File does not limit availability of pharmaceuticals
- It establishes which formulary and over the counter (OTC) pharmaceuticals by **National Drug Code (NDC)** can be billed at Military Treatment Facilities (MTFs)
- It establishes NDC-based ingredient unit rates used to calculate pharmaceutical charge(s) billed under all three UBO Cost Recovery Programs

Note: “The Drug Listing Act of 1972 requires registered drug establishments to provide the Food and Drug Administration (FDA) with a current list of all drugs manufactured, prepared, propagated, compounded, or processed by it for commercial distribution. Drug products are identified and reported using a unique, three-segment number, called the National Drug Code (NDC), which serves as a universal product identifier for drugs.”*

*Source FDA web site: <http://www.fda.gov/Drugs/InformationOnDrugs/ucm142438.htm>

- UBO Pharmacy Rate Files are normally updated twice per year
- The latest UBO Pharmacy Rate became effective 3/15/2019
- There are two rate files used to establish UBO pricing pharmaceuticals
- The Ingredient Rate File – Pricing for 111,305 NDCs
 - NDC
 - NCD Description
 - Dose Form
 - Unit Price (charge for each unit of the pharmaceutical)
- The Dispensing Fee Rate File
 - One standard charge per prescription

- Managed Care Pricing File (MCPF) is the original raw input source for the list of NDCs priced in the UBO Rx rate files:
 - Provided by the Defense Supply Center, Philadelphia (DSC-P) and provides 37 data elements for each NDC
 - Provides Average Wholesale Price and Prime Vendor Program (PVP) packaged NDC descriptive data, as well as unit measure ingredient cost data for individual NDCs
- Average Wholesale Price (AWP)
 - Represents the pharmaceutical vendor's list price for the NDC, rather than the true average wholesale price charged
 - Does not account for the discounts available to various payers, or reflect actual costs
- Prime Vendor Program (PVP)
 - Reflects actual negotiated contract prices

- Each NDC, with the exception of supplies and equipment, belongs to a Generic Sequence Number (GSN) cohort containing the NDCs with the same:
 - Active ingredient(s)
 - Strength
 - Dosage form
- For each GSN cohort, the unit measure price (e.g., price per pill, price per ml, price for each) for the individual NDCs in the cohort is used to determine the overall unit measure price for the GSN
- The GSN unit measure price is then used to price the individual NDCs in the UBO pharmacy rate file

- UBO Pharmacy Rate File – Provides the pricing for individual units of the NDCs
- Biller's Edition Workbook – Provides additional data on each NDC to assist billers with resolving pharmacy reimbursement issues
- The Pharmacy Pricing Estimator (PPE) – Provides a calculator to determine the price for a pharmaceutical based on the drug, quantity, and dispensing fee

UBO Pharmacy Pricing Files available for download:
<https://info.health.mil/bus/brm/ubo/SitePages/MHSUBORates.aspx>

Pharmacy Rates

Pharmacy rates are derived from the Managed Care Pricing File (MCPF) supplied by the Defense Supply Center and are based on TRICARE allowable charges, Average Wholesale Price (AWP), or Prime Vendor Program (PVP) prices listed for the National Drug Codes (NDC).

Rates are established on a unit measure price basis, and are standardized for NDCs within each generic sequence number (GSN). A GSN groups a set of NDCs with the same active ingredients, dosage form, and strength, regardless of vendor brand or generic description. Currently, rates are computed based on the median unit measure cost for all of the AWP listed NDCs in each GSN group. The median unit measure price is applied to all the NDCs in each GSN group.

Where there are no AWP listed NDCs in a GSN group, the rate for the NDCs is set to the median unit measure price of the PVP listed for the NDCs in that GSN group. As of January 2010, unit measure prices reflect the median TRICARE allowable ingredient costs.

- For the most accurate information on whether a specific drug requires prior authorization, please use the [Formulary Search Tool](#).
- Before submitting claims to other health insurance carriers, MTFs should review the insurance carrier's website for its current list of pharmaceuticals requiring prior authorization.

Billers' Edition Workbook: Data Elements and Definitions:

UBO Pharmaceutical Field Names and Descriptions:

NDC: 11 digit National Drug Code assigned to drug products composed of three distinct subcodes: labeler, product, and package size.

SRC_OF_SUPL_CD: Denotes whether item is from Prime Vendor Program, Federal Supply Schedule or Average Wholesale Price

UNIT_PRICE: Price per item

AHFS_THER_CLS_CD: American Hospital Formulary Service Therapeutic Classification Code which identifies the pharmacologic therapeutic category of the drug product according to the American Hospital Formulary Service (AHFS) classification system.

AHFS_THER_CLS_DESC: American Hospital Formulary Service Therapeutic Classification Code Description

PS: Package Size

GNN: Generic Name of an ingredient independent of trade or brand names.

LN: Label Name

UD: Unit Dose indicator

DOSAGE_FORM_CD: Dosage Form Code

CL_CD: Classification Code which indicates over-the-counter or prescription, according to its availability to the consumer per federal specifications.

UM: Unit of Measure

GCRT: Route of Administration code

GCRT_DESC: Route of Administration description

HIC3_DESC: Hierarchical Ingredient 3 digit Code description

GCDF_DESC: Dosage Form Description

Prior Authorization NDCs:

- Payers require prior authorization for certain prescription pharmaceuticals
- The exact list of drugs that require prior authorization varies depending on payer
- Each payer has its own set of procedures for obtaining authorization
- Claims without proper authorization may be rejected by payers
- This has the potential to impact Third Party Collections revenue
- In response to requests from the field, the UBO PO maintains a list of drugs that commonly require prior authorization has been created
- The Billers Edition provides a historical list to MTFs for reference purposes

Pricing Pharmaceuticals using the UBO Pharmacy Rate Methodology:

- Formula used to determine the beneficiary's final charge:

Final Charge = [The NDC unit price multiplied by the quantity dispensed] + [The fixed DHA UBO dispensing fee] (effective on the script's fill date)

- Note a pharmaceutical's "quantity dispensed" can take many product forms: Tablets, ounces, grams, caplets, etc. Look these up in the Formulary and OTC Unit Rates – Biller's Edition workbook.
- Specific NDC pricing Examples of different product forms on the following slides

Examples of Tablet and Capsule Product Forms (Dosage Form)

Product Form	Product Form Description	Product Form	Product Form Description
CA	CAPSULE (HARD, SOFT, ETC.)	TH	TABLET, HYPODERMIC
CB	CAPSULE, SUSTAINED RELEASE 12 HR	TI	TABLET, SUSTAINED RELEASE 24HR
CC	CAPSULE, SUSTAINED RELEASE 24 HR	TJ	TABLET, DISPERSIBLE
CD	CAPSULE, WITH INHALATION DEVICE	TL	LOZENGE
CE	CAPSULE, DELAYED RELEASE (ENTERIC COATED)	TM	TABLET, SUSTAINED RELEASE 12HR

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 52959018790
- Quantity Dispensed = 30

UBO Rx Rate File Fields to Use:

- NDC = 52959018790
- NDC Name/Description = IBUPROFEN 200 MG TABLET
- Dosage/Product Form Code = TA
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = \$0.01

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
($\$0.01 \times 30$) + \$2.00 = **\$2.30**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- 2 NDC(s) = Rx1 = 54092038301, Rx2 = 54092038501
- Quantity Dispensed = Rx1 = 90, Rx2 = 60

UBO Rx Rate File Fields to Use:

- NDC(s) = Rx1 = 54092038301; Rx2 = 54092038501
- NDC Name/Description(s) = Rx1 =ADDERALL XR 10 MG CAPSULE,
Rx2 =ADDERALL XR 15 MG CAPSULE
- Dosage/Product Form Code = CC (CAPSULE, EXT RELEASE 24 HR)
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = Rx1 =\$2.42; Rx2 = \$2.49

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee

RX1: (\$2.42 x 90) + \$2.00 = **\$219.80**

RX2: (\$2.49 x 60) + \$2.00 = **\$151.40**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 00023114501
- Quantity Dispensed = 10 Units

UBO Rx Rate File Fields to Use:

- NDC = 00023114501
- NDC Name/Description = BOTOX 100 UNITS VIAL
- Dosage/Product Form Code = HS VIAL
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = \$5.76 (Note: \$576.96 (Vial)/100 Units = \$5.76 per Unit)

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$5.76 x 10) + \$2.00 = **\$57.60**

Examples of Inhalers:

Product Form	Description
GH	INHALER (ML)
GI	INHALER (EA)
GJ	INHALER (GM)
GK	DISK, WITH INHALATION DEVICE
GZ	INHALER KIT (EA)
TD	DISK

In the NDC Name description, “ADVAIR 250-50 DISKUS”

Note the “250/50” describes the inhalation powder dosage combination:
In micrograms (a microgram is 1/1,000,000 of a gram)

Example: ADVAIR DISKUS 250/50 (fluticasone propionate 250 mcg and salmeterol 50 mcg inhalation powder)

Example: ADVAIR DISKUS 500/50 (fluticasone propionate 500 mcg and salmeterol 50 mcg inhalation powder)

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 00173069600
- Quantity Dispensed = 1

UBO Rx Rate File Fields to Use:

- NDC = 00173069600
- NDC Name/Description = ADVAIR 250-50 DISKUS
- Dosage/Product Form Code = GK (BLISTER, WITH INHALATION DEVICE)
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = \$8.25
- Package Size (PS) = 60

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$8.25 x 60) + \$2.00 = **\$497.00**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 00023587080
- Quantity Dispensed = 12 inches

UBO Rx Rate File Fields to Use:

- NDC = 00023587080
- NDC Name/Description = CORDRAN 4 MCG/SQ CM TAPE LARGE (4 mcg/sq cm—large roll, 80 in x 3 in (200 cm x 7.5 cm))
- Dosage/Product Form Code = EN (TAPE, MEDICATED)
- Unit of Measure (UM) = IN (Inches)
- Package Size (PS) = 80 - $\$530.88/80 = \6.63 per Inch)

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
 $(\$6.63 \times 12) + \$2.00 = \mathbf{\$81.56}$

Examples of Ointment, Gel and Cream Product Forms

Product Form	Description	Product Form	Description
JE	BEADS (GM)	GP	GEL WITH PUMP (ML)
KA	CREAM (GRAMS)	KK	GEL, ALCOHOL BASED
KM	CREAM (MILLILITERS)	KD	GEL, SUSTAINED RELEASE (EA)
KH	CREAM IN PACKET	KR	GEL, SUSTAINED RELEASE (GM)
KS	CREAM IN PACKET (ML)	JS	GEL-FORMING SOLUTION
KW	CREAM WITH APPLICATOR	JI	GLOBULE

JR	GEL IN METERED-DOSE PUMP	KE	LOTION, SUSTAINED RELEASE
KN	GEL IN PACKET (EA)	KL	LUBRICANT
JP	GEL IN PACKET (GM)	KU	MEDICATED SHAVING CREAM (GM)
JO	GEL IN PACKET (ML)	KG	OINTMENT IN PACKET
JV	GEL WITH APPLICATOR (GM)	OW	OINTMENT WITH APPLICATOR
JX	GEL WITH APPLICATOR (ML)	OV	OINTMENT WITH PREFILLED APPLICATOR
JU	GEL WITH PREFILLED APPLICATOR (GM)	OC	OINTMENT(EA)
KZ	GEL WITH PUMP (GM)	OA	OINTMENT(GM)
JH	PUDDING (EA)	OB	OINTMENT(ML)
JJ	PUDDING (GM)	GS	SPRAY GEL (ML)

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 45334030004
- Quantity Dispensed = 120

UBO Rx Rate File Fields to Use:

- NDC = 45334030004 (Note this NDC is also found on OTC price tab)
- NDC Name/Description = VANICREAM SKIN CREAM
- Dosage/Product Form Code = KA (CREAM (GRAMS))
- Unit of Measure (UM) = GM
- UBO Rx NDC Unit Price = \$0.01

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
($\$0.01 \times 120$) + \$2.00 = **\$3.20**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 00051845030
- Quantity Dispensed = 30 Packets

UBO Rx Rate File Fields to Use:

- NDC = 00051845030
- NDC Name/Description = ANDROGEL 1%(5G) GEL PACKET
- Dosage/Product Form Code = JP (GEL IN PACKET (GM))
- Unit of Measure (UM) = GM
- UBO Rx NDC Unit Price = \$1.65

Note: 1 Packet = 5 Grams Androgel = $\$1.65 \times 5 = \8.25

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
 $(\$8.25 \times 30) + \$2.00 = \mathbf{\$249.50}$

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 25021030168
- Quantity Dispensed = 4 (entire syringe)

UBO Rx Rate File Fields to Use:

- NDC = 25021030168
- NDC Name/Description = ADENOSINE 12 MG/4 ML SYRINGE (regulate heart)
- Dosage/Product Form Code = HQ DISPOSABLE SYRINGE (ML)
- Unit of Measure (UM) = ML
- UBO Rx NDC Unit Price = \$6.63

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$6.63 x 4) + \$2.00 = **\$28.52**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 08290002133
- Quantity Dispensed = 1

UBO Rx Rate File Fields to Use:

- NDC = 08290002133
- NDC Name/Desc = BD SYRINGE 20 ML (SYRINGE REUSABLE, 20ML)
- Dosage/Product Form Code = YC (SYRINGE, REUSABLE)
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = \$47.56
- Package Size = 1

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$47.56 x 1) + \$2.00 = **\$49.56**

- Within the OTC pharmaceuticals there are a number of GSNs that DO NOT contain set of homogeneous products.

Generic Sequence Number	Generic Ingredient Name Description
010828	IV EQUIPMENT
010835	INFUSION SETS-PARAPHERNALIA
010844	IV ADMIXTURE ACCESSORIES
010868	BLOOD ADMINISTRATION SET
010884	IRRIGATION SET

024490	SYRINGE
026490	PUMP SET
026506	ENTERAL PUMP
040874	COMBINATION PACKAGE
064092	MEDICAL INFORMATION ID TAG
065315	BLOOD PRESSURE KIT

DHA UBO Program Office business rules for Miscellaneous Medical Equipment NDCs within the DHA Rx Rate File update:

1. That all unit NDC prices within these OTC GSNs will NOT be priced according to median GSN methodology.
2. That all unit NDC prices within these OTC GSNs will retain their original unit price as stated in the MCPF unless there is PDTS experience for that NDC. If there is PDTS experience it will be used to set the unit prices.
3. All Unit NDC Prices for other GSNs will follow median GSN methodology.

Note: Change became effective in August 2012

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 08380009805
- Quantity Dispensed = 4

UBO Rx Rate File Fields to Use:

- NDC = 08380009805
- NDC Name/Description = URINARY LEG BAG
- Dosage/Product Form Code = EA (Each); Note Package Size = 10
- Unit of Measure (UM) = EA (Each)
- UBO Rx NDC Unit Price = \$4.37

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$4.37 x 4) + \$2.00 = **\$19.48**

MTF Rx Billing Information:

- Rx Fill Date = MM/DD/YYYY (Determines Rate File To Use)
- NDC = 76300055111
- Quantity Dispensed = 1

UBO Rx Rate File Fields to Use:

- NDC = 76300055111
- NDC Name/Description = MINIMED 530G INSULIN PUMP
- Dosage/Product Form Code = EA (Each); Note Package Size = 1
- Unit of Measure (UM) = EA
- UBO Rx NDC Unit Price = \$3,383.25

Specific NDC Pricing Methodology:

(NDC Unit Measure Price x Quantity Dispensed) + \$2.00 Dispense Fee
(\$3,383.25 x 1) + \$2.00 = **\$3,385.25**

MTF Procedure to Request Rate for specific NDC Reimbursement:

- An MTF cannot bill services, supplies and pharmaceuticals if no DHA UBO rate exists in the file
- However, under certain circumstances the DHA UBO Program Office (PO) will review an out-of-cycle request (e.g., if there is a TRICARE or Centers for Medicare & Medicaid Services (CMS) rate)
- Must provide written justification and supporting documentation for recommended charge to UBO.Helpdesk@altarum.org
- Approval of a rate is MTF- or Activity-specific and cannot be used by other MTFs/Activities unless the PO states otherwise

MTF Procedure to Request Rate for specific NDC Reimbursement:

- The billing office will contact its local procurement/supplies management activity to determine the actual price paid for the pharmaceutical (based upon NDC)
- MTF will obtain documentation/proof of purchase on the actual price paid (“the local proof of purchase”). The price paid is the government cost regardless of whether it is purchased from the MTF or central activity budget
- If there is no local price, the billing office will draft a written explanation documenting:
 - the dispense date (specific details)
 - the volume of when/how the NDC is being dispensed

MTF Procedure to Request Rate for NDC Reimbursement:

- The billing office will forward to the DHA UBO Helpdesk the supporting documentation with a request for pricing under the Subject line: “DHA UBO Special Price Request” providing the following information:
 - The NDC and local proof of purchase
 - The quantity dispensed or number units
 - The NDC’s dispense/issue date
- The DHA UBO Helpdesk will forward the request and documentation to the pharmacy pricing SME
- The pricing SME will verify that the NDC unit price is not in the current rate file

MTF Procedure to Request Rate for NDC Reimbursement:

- If verified, he/she will convert the actual price submitted into the unit measure price (rate)
- If there is no local proof of purchase, he/she will review the written explanation and documentation to determine whether to recommend an out-of-cycle rates update
- Factors considered include:
 - The number of times (volume) the NDC dispensed
 - Similar requests received from other MTF billing offices
 - The SME may send a data call to the Services

MTF Procedure to Request Rate for NDC Reimbursement:

- The SME will determine the recommended charge by:

Final Charge = [The NDC unit measure price multiplied by the quantity dispensed] + [The fixed DHA UBO dispensing fee]
(effective on the script's fill date)

- The pricing SME will submit the recommended charge and supporting justification/documentation (including no charge if insufficient justification and documentation) to the DHA UBO Program Office for review and approval

Specific NDC Example of Navy Help Desk question: NDC for Delzicol

NDC Information provided to DHA Program Office:

- NDC 00430075327 (MESALAMINE) DELZICOL DR 400 MG CAPSULE EA
- Dispensed June 2013
- Dose Form: CE (CAPSULE, DELAYED RELEASE (ENTERIC COATED))

SME Verified NDC is not in current UBO Rx rate file:

- Current UBO Rx Rate file was developed, loaded and became effective 02/2013; the NDC is not found in that file
- Next rate cycle (**which will contain the NDC**) to become effective 08/13
- The script belongs to a valid an “Out of Cycle” NDC
- SME converts the actual price submitted to the unit measure price and determines the recommended charge

Specific NDC Example – Delzicol:

- SME will determine the recommended charge :
- NDC 00430075327 DELZICOL DR 400 MG CAPSULE Unit Price = \$2.10 (based on date of service)
- **Final Charge = [The NDC unit measure price multiplied by the quantity dispensed] + [The fixed DHA UBO dispensing fee]**
(effective on the script's fill date)
- **Final Charge = (\$2.10 x 30 capsules) + \$2.00 = \$63.00 + \$2.00**
- **Final Script Charge = \$65.00 submitted to PO for review & approval**

Thank You

Questions?

This in-service webinar has been approved by the American Academy of Professional Coders (AAPC) for 1.0 Continuing Education Unit (CEU) credit for DoD personnel (.mil address required). Granting of this approval in no way constitutes endorsement by the AAPC of the program, content or the program sponsor. There is no charge for this credit.

- **Live broadcast webinar (post-test not required)**
 - Login prior to the broadcast with your: 1) full name; 2) Service affiliation; and 3) e-mail address
 - View the entire broadcast
 - After completion of both of the live broadcasts and after attendance records have been verified, a Certificate of Approval including an AAPC Index Number will be sent via e-mail to participants who completed the post-webinar survey at the following link: <https://www.surveymzmo.com/s3/4411585/UBO-Webinar-Evaluation>.

- **Archived webinar (post-test required)**
 - View the entire archived webinar (free and available on demand at: <http://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Learning-Center/Archived-Webinars>)
 - Complete a post-test available *within* the archived webinar
 - E-mail answers to webmeeting@federaladvisory.com. If you receive a passing score of at least 70%, we will e-mail MHS personnel with a .mil email address a Certificate of Approval including an AAPC Index Number

- The original Certificate of Approval may not be altered except to add the participant's name and webinar date or the date the archived Webinar was viewed. Certificates should be maintained on file for at least six months beyond your renewal date in the event you are selected for CEU verification by AAPC

- For additional information or questions regarding AAPC CEUs, please contact the AAPC.

- Other organizations, such as American Health Information Management Association (AHIMA), American College of health care Executives (ACHE), and American Association of health care Administrative Managers (AAHAM), may also grant credit for DHA UBO Webinars. Check with the organization directly for qualification and reporting guidance.
