

DHA Industry Day 4 June 2019

Questions and Answers

Question	Answer
<p>A year ago this month during a DHA Industry Day, the Integrated Referral Management and Appointment Center (IRMAC) was presented as a near-term acquisition with a projected start date of March-April 2019. What is the updated forecast for this opportunity, and is it still projected to be an unrestricted solicitation?</p>	<p>Presently, the projected start date for the IRMAC MSS Task Order is April, 2020. As an MSS Task Order, the requirement will not give rise to an unrestricted solicitation where MSS is a MATO vehicle set-aside for small business. Further, this office has never represented that the requirement would give rise to an unrestricted solicitation.</p>
<p>In Fall 2018, it was stated, that there would be a build out for an operational medicine configuration in Theater, however the 2020 President's budget seems to indicate otherwise; What is the future plan for operational medicine, will TMIP be continually enhanced to meet operational medicines joint mission requirements?</p>	<p>The JOMIS Program Office is updating its acquisition strategy to focus on a more modern, iterative strategy. As the strategy matures, additional information will be made available about plans for replacing or modernizing legacy systems.</p>
<p>Will there be a new contract created to support the training of MHS Genesis? If so, can we expect the training footprint to increase to align with the MHS Genesis implementation?</p>	<p>There are no plans at this time to release additional training contracts. The DHMSM Program Office continues to monitor and revise its deployment requirements as additional Waves Go Live, and will provide updated information as it becomes available.</p>
<p>DHA has recently released an RFP for a BPA to support I&O, AACE and the Business Office. Is it your acquisition strategy to create a similar BPA for SDD? If so in what timeframe and what is the scope of services?</p>	<p>There is not enough information to properly respond to the question. Additionally, the question is outside of the material that was presented at Industry Day.</p>
