

ICS-402: Incident Command System (ICS) Overview for Executives/Senior Officials

This course is intended to provide a forum to discuss the agency's strategic and executive level preparedness and response issues and challenges related to WMD/terrorism and other incidents of national significance. It is also intended to serve as a vehicle to share proven strategies and practices as well as enhanced teamwork and coordination among the agency's senior officials responsible for emergency response to a major incident. The target audience for this course is elected officials, senior executive, senior managers and agency administrators with policy responsibilities, but without specific ICS or Multi-Agency Coordination System function/roles or responsibilities.

Prerequisites: None

Length: 2-4 hours

ICS-300: Intermediate Incident Command System for Expanding Incidents

This course provide training on resources for personnel who require advanced application of the Incident Command System (ICS). This course expands upon information covered in the ICS-100 and ICS-200 courses.
