

TOGETHER,  
EVERYWHERE.

## Dear educator,

Help put the military kids at your school on a path to success.

With our free training toolkit, you can prepare your teaching team to create a better environment at school for kids dealing with the unique stressors and challenges of military life — like frequent moves and parent deployments.

**Military Kids Connect**, an award-winning program from the U.S. Department of Defense, developed this toolkit to help educators like you better understand the military culture and how to work with military kids. The toolkit provides the materials you need to conduct military culture training at your school.

## Assigned Resources

- Facilitator guide
- Course outline
- Lesson plans
- Training videos
- Tests
- Resource guide

Thank you for your dedication to improving the lives and academic performance of students in the military community.

Sincerely,  
Kelly Blasko, Ph.D., Connected Health
