IMPLEMENTING
DHA-PM 6025.13

Clinical Quality Management (CQM) in the Military Health System (MHS)

MTF Commander / Director Briefing
We are all in this together...

- There are some changes; a lot stays the same...
- We are a team and will implement and sustain as a team; we will support each other as a team
- We are the protector of our patients; this ensures safe, reliable, high-quality care for every patient, every time
- We all need to get smart about the clinical quality management policies
- Our leaders, at all levels, are engaged in full and successful implementation and sustainment of policies
- The expectation: You will be fully engaged in policy implementation and sustainment
- In the absence of DHA guidance, follow service/tlMO guidance
OVERVIEW
Reform of Business and Clinical Processes

*Maximizing efficiencies and improving performance*

- DHA is developing procedural instructions and interim procedural memoranda
- Functional capabilities will be centralized at DHA Headquarters (HQ)
- Hospitals and clinicals will have one military officer as the Director and Service Commander
- DHA and Military Medical Departments are developing a coordinated staffing plan
- Military Departments will manage civilian and contract personnel until DHA finalizes plans for civilian human resources support
DHA and Service Policy Publications

DHA-PM Implementation Guidance VADM Bono

“...use the DHA-PM for guidance. In the absence of applicable DHA Publications, continue to utilize existing Military Department policies....”

Memorandum of Agreement for Direct Support

Provides guidance on how IMOs will implement and support the execution of the DHA-PM

Implementation Memo

“...there may be additional bargaining agreement requirements at the local and MTF level. Certain agreements may delay manual implementation...”

“...concerns voiced about the ability to reorganize and train the relevant personnel to comply with certain National Practitioner Data Bank reporting requirements...”
Purpose of CQM:
An integrated framework of programs to improve quality of care

- CQM provides an organized structure for an integrated framework of programs to objectively define, measure, assure, and improve the quality of care in the MHS.

- Through CQM, the MHS affirms its unwavering commitment to quality of healthcare for our beneficiaries, joint healthcare teams, and Combatant Commands across the globe.

- DHA-PM 6025.13 strengthens CQM accountability, transparency, and standardization to prevent harm, promote continuous learning, and improve the quality of care and services delivered in the MHS.
CQM Structure and MHS CQM Programs

- **IPC Program**: Ensures qualified & competent staff
- **PS Program**: Objectively defines and measures the quality of care delivered
- **HRM Program**: Mitigates risk in the clinical aspects of healthcare delivery
- **CP Program**: Accreditation ensures policy mandates are met; Compliance ensures legal, ethical, & professional standards are met
- **CM Program**: Improves the quality of care and services delivered
- **CQI Program**: Promotes safety & prevents harm

**DAD Medical Affairs (DAD MA)**

**Clinical Support Division (CSD)**

**Clinical Quality Management**
Who does what?
**Scope and Core Responsibilities**

**Scope**

- **Leadership**
  - OSD, Military Departments, Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, Combatant Commands, DoD Office of Inspector General of the DoD, Defense Agencies, DoD Field Activities, and DoD Components

- **MHS and DoD Healthcare Providers**
  - MHS, DoD MTFs, Uniformed Services, civilian, contract, volunteer, other medical or dental healthcare providers

- **Other Providers**
  - Credentialed healthcare providers who are members of the Army National Guard or the Air National Guard, trainees with granted privileges, managed care support contractors (MCSCs), designated providers, and overseas contractors

**Core Responsibilities**

- **DHA Director**
  - Provides Policy & Oversight

- **DAD Medical Affairs**
  - Clinical Quality Management
  - Administers and Manages CQM Programs

- **DHA Markets/Intermediate HQ**
  - Supports, Monitors, and Executes CQM Programs

- **MTF**
  - Maintains Continuous Compliance of DHA-PM 6025.13

<td>Key Change</td>
</tr>
<tr>
<td>---</td>
<td>-----------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>1</td>
<td>Revision of the &quot;threshold rule&quot; from three (3) to four (4) to better ensure CQM and Medical Quality Assurance Program (MQAP) statistical data are appropriately aggregated prior to release to meet legal requirements for protecting the identity and privacy of individual patients and providers.</td>
</tr>
<tr>
<td>2</td>
<td>Updates CQM definitions, which includes Patient Safety Event, Potentially Compensable Events (PCEs), Clinical Adverse Actions (e.g., Summary Suspension exceeding 30 calendar days, Restriction, Reduction, Revocation, and Denial), DoD Reportable Events (DoD RE), and Comprehensive Systematic Analysis (CSA).</td>
</tr>
<tr>
<td>3</td>
<td>Strengthens the linkage between Patient Safety and Healthcare Risk Management (HRM) for improved transparency, collaboration, information sharing, and improvement.</td>
</tr>
<tr>
<td>4</td>
<td>Clarification that, for paid medical malpractice claims, reports to the National Practitioner Data Bank (NPDB) are required when a claim payment was made and the Report Authority determines a significantly involved provider (SIP) did not meet the standard of care (SOC), and a similar process applies when failure to meet SOC results in harm to an active duty member.</td>
</tr>
<tr>
<td>5</td>
<td>Updates and aligns current DoD clinical adverse action procedures with law and regulation described by the NPDB reporting requirements. This alignment includes: 1) Removal of an abeyance period, 2) NPDB reporting of summary suspensions exceeding 30 days, and 3) Deletion of suspension as a clinical adverse action.</td>
</tr>
<tr>
<td>6</td>
<td>Updates the process for identification and review of PCEs for Patient Safety Events that reach the patient (i.e., adverse event and no-harm events), including: 1) All events that reach the patient will be reviewed to determine whether the event is likely to present a possible financial loss, 2) All DoD REs are PCEs, 3) HQ review of all Active Duty deaths.</td>
</tr>
<tr>
<td>7</td>
<td>Establishes definitions for Ongoing Professional Practice Evaluation (OPPE), Focused Professional Practice Evaluation (FPPE), Preceptor, and Proctor, which clarifies the process and roles for utilizing OPPE and FPPE.</td>
</tr>
<tr>
<td>8</td>
<td>Clarification of requirements for accreditation of health care facilities and documentation of comparable quality of care mechanisms for health care units exempt from accreditation.</td>
</tr>
<tr>
<td>9</td>
<td>Establishes participation and monitoring of quality assessment programs and activities in other Federal Agencies and external clinical quality management organizations to include national quality databases, registries, or networks that are recognized as leading practices.</td>
</tr>
<tr>
<td>10</td>
<td>Establishes a centralized project repository where MTFs can submit their CQM improvement efforts for central review and consideration for adoption across the enterprise.</td>

DHA-PM 6025.13

KEY CHANGES BY VOLUME
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement. Specifically, the DHA-PM:

- Includes CQM strategy elements: Quadruple Aim, High Reliability Principles, and Aims for Healthcare Quality (STEEEP).
- Adopted the National Patient Safety Foundation’s four domains of transparency in its transparency framework.
- The CQM programs may potentially create an MQAR from peer review; care must be taken to protect such records, in accordance with Section 1102 of Reference (p).
- Revision of "threshold rule" from three to four to better ensure CQM and Medical Quality Assurance Program statistical data are appropriately aggregated prior to release to meet legal requirements for protecting the identity/privacy of individual patients and providers.
- Updates CQM definitions, including PS Event, Potentially Compensable Event, Clinical Adverse Actions (e.g., Summary Suspension exceeding 30 calendar days, Restriction, Reduction, Revocation, and Denial), DoD Reportable Events, and Comprehensive Systematic Analysis.
- Includes Healthcare Resolutions and Patient’s Right to be Heard and is now contained in a separate procedure (DHA-PI 6025.17: Healthcare Resolutions, Disclosure, Clinical Conflict Management and Healthcare Provider Resiliency and Support in the MHS).
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Clarifies the definition of patient safety terms including Adverse Event, DoD Reportable Event, Comprehensive Systematic Analysis, and Corrective Action Implementation Plan Report.
- Strengthens the link between Patient Safety and Healthcare Risk Management (HRM) for improved transparency, collaboration, information sharing, and improvement.
- Clarifies the notification of all events that reach the patient and DoD REs to HRM and the DoD RE identification and investigation process and timeline.
- Clarifies expectations regarding PS education: Patient Safety Professional Course and TeamSTEPPS implementation and learning.
- Established Infection Prevention and Control as a function of the Patient Safety Program.
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Clarifies specific roles and responsibilities of Infection Prevention and Control (IPC) at Headquarters (HQ), Market/HQ, and MTF.
- Market/Intermediate HQ IPC SMEs are encouraged to maintain certification by national certifying standards.
- Market/Intermediate HQ share lessons learned from focused improvement to IPCWG.
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Clarifies that, for paid medical malpractice claims, reports to the National Practitioner Data Bank (NPDB) are required when a claim payment was made and the Report Authority determines a significantly involved provider (SIP) did not meet the standard of care (SOC), and a similar process applies when failure to meet SOC results in harm to an active duty member.

- Updates and aligns current DoD clinical adverse action procedures with law and regulation described by the NPDB reporting requirements. This alignment includes: 1) Removal of an abeyance period, 2) NPDB reporting of summary suspensions exceeding 30 days, and 3) Deletion of suspension as a clinical adverse action.

- Updates the process for identification and review of PCEs for Patient Safety Events that reach the patient (i.e., adverse event and no harm events), including: 1) All events that reach the patient will be reviewed to determine whether the event is likely to present a possible financial loss 2) All DoD REs are PCEs, 3) HQ review of all Active Duty deaths.

- Defines a new process for the Impaired Healthcare Professional.
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Establishes definitions for Ongoing Professional Practice Evaluation (OPPE), Focused Professional Practice Evaluation (FPPE), Preceptor, and Proctor, which clarifies the process and roles for utilizing OPPE and FPPE.
- Clarifies credentialing of providers engaged in telemedicine services, including requirements for virtual Medical Center providers.
- Distinguishes the differences between temporary privileges and disaster privileges.
- Clarifies Graduate Medical Education Training Office responsibilities to track and maintain credentials information on all in-service trainees.
- Clarifies and standardizes the privileging by proxy process.
- Defers to the Status of Forces Agreements (SOFA) regarding Foreign National local hire providers at OCONUS MTFs.
- Outlines requirements for unrestricted licenses.
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Clarifies requirements for accreditation of health care facilities and documentation of comparable quality of care mechanisms for health care units exempt from accreditation.
- Outlines the healthcare facility Accreditation Program for MTFs’ transition from the Service Headquarters to the Accreditation and Compliance Program in Medical Affairs at the Defense Health Agency. (The Service accreditation contracts will remain in effect through December 2020.)
- Defines how DHA will manage and assist with Compliance Visits to support assigned MTFs with policy implementation (starting 1 January 2021).
- Updates the accreditation of a military installation in or outside the United States, unless it is under the operational control of Combatant Commands. If the unit provides healthcare services in a fixed facility, the facility is subject to accreditation.
- Defines alternatives to satisfy the accreditation requirement. Upon a request from the Military Department, the facility providing healthcare services may obtain accreditation exemption from the ASD(HA). This will be based on documentation that the facility operates under comparable CQM compliance mechanisms established and implemented by the Military Department.
DHA-PM 6025.13, VOL 6: Clinical Measurement Key Changes

The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

- Establishes participation and monitoring of quality assessment programs and activities in other Federal Agencies and external clinical quality management organizations to include national quality databases, registries, or networks that are recognized as leading practices.
- Expands the clinical quality measurement information in to include examples of clinical measure sets.
- Expands the MHS Core Dashboard and Transparency Framework to include examples and data links.
The DHA-PM clarifies, defines, and standardizes key practices across the system to enable greater learning and improvement.

Specifically, the DHA-PM:

1. Establishes a centralized project repository where MTFs can submit their CQM improvement efforts for central review and consideration for adoption across the enterprise.

2. Operationalizes CQI through the MHS High Reliability Operating Model (HROM) by involving the MHS clinical communities and front-line staff to identify and prioritize improvement opportunities and implement changes.

3. Increases collaboration between DHA, the Market, Clinical Communities, front-line staff and MTFs to improve the quality of care and services across the enterprise.
Keys to Success

- Review the DHA-PM and job aids on Health.mil/CQM and SharePoint
- Get smart about new policies and procedures; talk about them
- Know your leads for all CQM Programs at the MTF, Market and Service
- Ensure that people you work with understand what is changing, what is staying the same, and know where to find the answers
- Be a champion for change—stay positive when things get difficult and encourage others to do the same
- When problems arise, take note of things that are not working and share the information through the appropriate channels so problems can be improved
- Make these procedures and processes part of your daily work and of your organizational DNA
Where can you get more information?

Visit health.mil/CQM & access SharePoint via info.health.mil

Use resources to...
- Ask questions
- Get coaching
- Reach out to SMEs
- Check FAQs
- Listen to webinars
