Controlled Drug Management, Analysis and Reporting Tool (CD-MART) **Report Manipulation**

- Patient Category allows isolation to a specific group.
- Setting parameters produces any one of the following reports or combinations there of:
 - Patients with more than “n” controlled substances prescriptions.
 - Patients with controlled substance prescriptions from more than “n” pharmacies.
 - Patients with controlled substance prescriptions from more than “n” providers.
 - Patients with controlled substance prescriptions quantities exceeding “n” tablets/capsules.
- Export to Excel report for one patient or for all patients.

Filter Patient Category!

Selected: 'AD - Family Member', 'AD - Sponsor', 'Non-AD - Family Member', 'Non-AD - Sponsor',

This screenshot shows a dialog box titled "Filter Patient Category!". It contains a list of selected categories: "AD - Family Member", "AD - Sponsor", "Non-AD - Family Member", and "Non-AD - Sponsor". A red exclamation mark icon is visible in the top right corner of the dialog box.

Controlled Drug Management

Enter Parameters

Num of RXs > 0

Pharmacies > 0

Providers > 0

Total Quantity Tabs/Caps > -1

After entry

Build Report

This screenshot shows the "Enter Parameters" dialog box within the "Controlled Drug Management" application. The dialog box has four input fields: "Num of RXs" (set to 0), "Pharmacies" (set to 0), "Providers" (set to 0), and "Total Quantity Tabs/Caps" (set to -1). A magnifying glass icon is next to the "Total Quantity Tabs/Caps" field. A blue arrow labeled "After entry" points from the dialog box to a "Build Report" button. A red exclamation mark icon is visible in the bottom right corner of the dialog box.

How to Order a CD-MART Report

- Complete a DHA 249 Form: Pharmacy Data Warehouse Data Report Request Form located at: [CD-MART](#)
- Email it to: dha.jbsa.pharmacy-ops.mbx.pass-dmt@health.mil
- For Questions call 210-536-6650 and leave a voicemail and a Data Management Team (DMT) member will return your call.
