

Contract No.: 233-02-0086
MPR Reference No.: 6077-500

2004 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

**Publication Date: Aug 2004
Quarter 2, CY2004**

Submitted to:

TRICARE Management Activity
5111 Leesburg Pike, Suite 810
Falls Church, VA 22041
(703) 681-4263

Task Order Officer:
Lt Col Michael Hartzell, DVM, MPH

Submitted by:

Mathematica Policy Research, Inc.
600 Maryland Ave., SW, Suite 550
Washington, DC 20024-2512
(202) 484-9220

Project Director:
Eric Schone, Ph. D.

QUARTER II FREQUENCIES		
SAMPLING VARIABLES		
MPRID	- Unique MPR Identifier	91
SVCSMPL	- Branch of Service Sampling Variable	91
SEXSMPL	- Sex Sampling Variable.....	91
STRATUM	- Sampling STRATUM	92
CACSMPL	- Catchment Area.....	100
ENBGSMPL	- Enrollment by beneficiary category	102
MPCSMPL	- Military Personnel Category	103
NHFF	- Stratum Sample Size	103
SERVAREA	- Service Area	103
QUARTER	- Survey Quarter.....	104
DCATCH	- Catchment Area.....	104
ENRID	- Enrollment DMIS ID	107
DMIS_ID	- DMIS ID	115
MSM	- Multiple Service Market Areas	124
D_FAC	- Facility Type Code	124
D_PAR	- DMIS Parent ID	124
D_HEALTH	- Health Service Region	129
TNEXREG	- TRICARE Next Generation of Contracts Region grouping	129
E1	- Eligibility indicator for period = 1	129
E2	- Eligibility indicator for period = 2	130
E3	- Eligibility indicator for period = 3	130
E4	- Eligibility indicator for period = 4	130
E5	- Eligibility indicator for period = 5	130
E6	- Eligibility indicator for period = 6	130
E7	- Eligibility indicator for period = 7	131
E8	- Eligibility indicator for period = 8	131
E9	- Eligibility indicator for period = 9	131
E10	- Eligibility indicator for period = 10	131
E11	- Eligibility indicator for period = 11	131
E12	- Eligibility indicator for period = 12	132
E13	- Eligibility indicator for period = 13	132
E14	- Eligibility indicator for period = 14	132
SERVAFF	- Service Affiliation	132
BWT	- Basic Sampling Weight.....	133
DEERS VARIABLES		
MRTLSTAT	- Marital Status	133
RACEETHN	- Race/Ethnic Code	133
PNSEXCD	- Person Gender.....	134
LEGDDSCD	- DDS Code	134
DAGEQY	- Age at time of data collection.....	134
FIELDAGE	- Age at start of fielding period	134
PCM	- Primary Manager Code (Civilian or Military)	135
DBENCAT	- Beneficiary Category.....	135
DMEDELG	- Medical Privilege Code	135
DSPONSVC	- Derived Sponsor Branch of Service.....	136
MBRRELCD	- Member Relationship Code	136
MEDTYPE	- Medicare Type	136
PATCAT	- Aggregated Beneficiary Category	137
PNLCATCD	- Personnel Category Code (Duty Status).....	137

QUESTIONNAIRE RESPONSES		
H04001	- Are you the person listed on envelope.....	137
H04002A	- Health plan(s) covered: TRICARE Prime	138
H04002C	- Health plan(s) covered: TRICARE Ext/Stnd	138
H04002F	- Health plan(s) covered: MEDICARE	138
H04002G	- Health plan(s) covered: FEHBP	138
H04002H	- Health plan(s) covered: Medicaid	138
H04002I	- Health plan(s) covered: Civilian HMO	139
H04002J	- Health plan(s) covered: Other civilian	139
H04002K	- Health plan(s) covered: USFHP.....	139
H04002L	- Health plan(s) covered: Not sure	139
H04002M	- Health plan(s) covered: Veterans	139
H04002N	- Health plan(s) covered: TRICARE Plus	140
H04002O	- Health plan(s) covered: TRICARE For Life.....	140
H04003	- Currently Covered Medicare Part A	140
H04004	- Currently Covered Medicare Part B	140
H04005	- Currently Covered Medicare Supplemental	141
H04006	- Which health plan did you use most in the past 12 months?.....	141
H04007	- Years in a row with health plan	142
H04008	- Have one person you think of as personal doctor.....	142
H04009	- Rating of your personal doctor or nurse.....	142
H04010	- Had same personal Dr/nurse before joining health plan.....	143
H04011	- Health plan: problem to get a personal doctor or nurse you are happy with.....	143
H04012	- In last year: you or a doctor or nurse think you needed to see a specialist	143
H04013	- In last year: how much of a problem to see a specialist you needed to see.....	144
H04014	- In last year: did you see a specialist	144
H04015	- Rating of specialist seen most often in last year.....	144
H04016	- In last year: specialist saw was the same as personal doctor	145
H04017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself.....	145
H04018	- In last year: when you called during regular office hours how often got help or advice you needed.....	145
H04019	- In last year: have illness/injury/condition that needed care right away.....	146
H04020	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	146
H04021	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	146
H04022	- In last year: made any appointment for regular or routine health care	147
H04023	- In last year: how often made appointments for regular or routine health care as soon as you wanted.....	147
H04024	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	147
H04025	- In last year: times went to an emergency room for own care	148
H04026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room)	148
H04027	- In last year: Did you/Dr believe you needed any care, tests, or treatment.....	148
H04028	- In last year: problem to get necessary care	149
H04029	- In last year: Need approval from health plan for any care, tests, or treatment.....	149
H04030	- In last year: problem with delays in healthcare while waiting for approval from health plan	149
H04031	- In last year: how often taken to exam room within 15 minutes of appointment	150
H04032	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect	150
H04033	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	151
H04034	- In last year: how often doctors or other health providers listen carefully to you.....	151
H04035	- In last year: how often doctors or other health providers explain things in way you could understand	152

H04036	- In last year: how often doctors or other health providers show respect for what you had to say.....	152
H04037	- In last year: how often doctors or other health providers spend enough time with you.....	153
H04038	- Rating of all healthcare in last year	153
H04039	- In last year: facility used most for health care.....	154
H04040	- In last year: sent in any claims to your health plan	154
H04041	- In last year: health plan handled claims in a reasonable time	154
H04042	- In last year: how often health plan handled claims correctly.....	155
H04043	- In last year: before went for care knew amount to pay	155
H04044	- In last year: look for any information in written materials/internet on how health plan works.....	155
H04045	- In last year: problem to find or understand information in the written materials/internet	156
H04046	- In last year: called health plan's customer service to get information or help.....	156
H04047	- In last year: problem to get the help you needed when called health plan's customer service	156
H04048	- Called or written health plan with a complaint or problem	157
H04049	- How long for health plan to resolve complaint	157
H04050	- Complaint or problem settled to satisfaction.....	157
H04051	- How long waiting for health plan to resolve complaint	158
H04052	- In last year: have to fill out paperwork for your health plan.....	158
H04053	- In last year: how much problem with paperwork for your health plan.....	158
H04054	- Rating of all experience with health plan	159
H04055	- In next year: likely to disenroll in TRICARE Prime	159
H04056	- Blood pressure: when last reading.....	160
H04057	- Blood pressure: know if blood pressure is too high or not	160
H04058	- When did you last have a cholesterol screening	160
H04059	- When did you last have a flu shot.....	161
H04060	- Smoked at least 100 cigarettes in life	161
H04061	- Smoke everyday, some days, or not at all	161
H04062	- How long since you quit smoking.....	162
H04063	- Last year: number of visits advised to quit smoking	162
H04064	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking	162
H04065	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking.....	163
H04066	- Are you male or female.....	163
H04067	- Male: Last prostate disease exam or blood test	163
H04068	- Female: Last have a Pap smear test.....	164
H04069	- Female: Are you under age 40	164
H04070	- Female: Last time breasts checked mammography.....	164
H04071	- Female: Last time breast exam by professional	165
H04072	- Female: Been pregnant in last year or pregnant now	165
H04073	- Female: In what trimester is your pregnancy	165
H04074	- Female: Trimester first received prenatal care	166
H04075	- In general how would you rate your overall health.....	166
H04076	- Limited in any way in any activities because of any impairment or health problem.....	166
H04077	- Last 30 days: Number of Days when your physical health not good	167
H04078	- Last 30 days: Number of Days when your mental health not good	168
H04079	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	169
H04080	- Last 30 days: Number of Days when pain made it hard to do your usual activities	170
H04081	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	171
H04082	- Last 30 days: Number of Days when you have felt worried, tense or anxious	172
H04083	- Last 30 days: Number of Days when you did not get enough rest or sleep.....	173

H04084	- Last 30 days: Number of Days when you have felt very healthy and full of energy	174
H04085	- Are you Spanish/Hispanic/Latino	175
SREDA	- Highest grade completed	175
SRRACEA	- Race: White	175
SRRACEB	- Race: Black or African American	176
SRRACEC	- Race: American Indian or Alaska Native	176
SRRACED	- Race: Asian.....	176
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders	176
SRAGE	- What is your age now?	177
S04C01	- General Doctor,specialist,physician assistant, or nurse	177
S04C02	- Months/years been going to personal Doctor	178
S04C03	- Physical or mental condition that interferes with your work	178
S04C04	- Doctor undrstdns how your health problems affect your daily life.....	178
S04C05	- In last year: # of times you went to a specialist.....	179
S04C06	- In last year were any decisions made about your health care	179
S04C07	- In last year: involved as much as you wanted with your health care decisions	179
S04C08	- In last year: how much of a problem to agree on best care.....	180
S04C09	- In last year: did you need special medical equipment	180
S04C10	- In last year: How much of a problem was it to get special medical equipment.....	180
S04C11	- In last year: did you need special therapy.....	181
S04C12	- In last year: how much of a problem was it to get special therapy.....	181
S04C13	- In last year: did you need home health care or assistance.....	181
S04C14	- In last year: how much of a problem to get care or assistance needed.....	182
S04C15	- Need help with personal care needs.....	182
S04C16	- Need help with routine needs	182
S04C17	- Physical or mental condition that interferes with independence	183
S04C18	- Rating of equipment, services, or help provided.....	183
S04C19	- In last year: patient overnight or longer.....	183
S04C20	- Have a Physical or mental condition that has lasted 3 months.....	184
S04C21	- In last year: seen Doctor more than twice for condition lasting > 3 months.....	184
S04C22	- Taking prescription medications for at least 3 months	184
S04V01	- In last year: Amount of healthcare from TRICARE civilian network(TCN).....	185
S04V02	- In last year: Problem getting wanted healthcare from TCN	185
S04V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	185
S04V05	- In last year: Learn physician whom you wanted to see left TCN	186
S04V06	- In last year: Problem finding convenient doctor from TCN	186
S04V07	- In last year: Problem finding specialist in Civilian network.....	186

SURVEY FIELDING VARIABLES

ONTIME	- Responded Within 8 weeks of Mail-Out.....	187
FLAG_FIN	- Final Disposition.....	187
DUPFLAG	- Multiple Response Indicator.....	187
FNSTATUS	- Final Status	187
KEYCOUNT	- Number of Key Questions Answered.....	188
WEB	- Web survey indicator	188

CODING SCHEME FLAGS AND COUNTS

N1	- Coding Scheme Note 1	188
N2	- Coding Scheme Note 2	189
N2A	- Coding Scheme Note 2A	189
N3	- Coding Scheme Note 3	189
N4	- Coding Scheme Note 4	190
N5	- Coding Scheme Note 5	190
N5A	- Coding Scheme Note 5A	190
N6	- Coding Scheme Note 6	191
N7	- Coding Scheme Note 7	191
N8	- Coding Scheme Note 8	191
N9	- Coding Scheme Note 9	192
N10	- Coding Scheme Note 10.....	192

N11	- Coding Scheme Note 11.....	192
N11A	- Coding Scheme Note 11A	193
N11B	- Coding Scheme Note 11B	193
N11C	- Coding Scheme Note 11C	193
N11D	- Coding Scheme Note 11D	194
N12	- Coding Scheme Note 12.....	194
N13	- Coding Scheme Note 13.....	194
N14	- Coding Scheme Note 14.....	195
N15	- Coding Scheme Note 15.....	195
N16	- Coding Scheme Note 16.....	195
N17	- Coding Scheme Note 17.....	196
N18	- Coding Scheme Note 18.....	196
N19	- Coding Scheme Note 19.....	196
N20A	- Coding Scheme Note 20A	197
N20B	- Coding Scheme Note 20B	197
N20C	- Coding Scheme Note 20C	197
N21	- Coding Scheme Note 21.....	198
N22	- Coding Scheme Note 22.....	198
N23	- Coding Scheme Note 23.....	198
MISS_1	- Count of: Violates Skip Pattern	198
MISS_4	- Count of: Incomplete grid error	199
MISS_5	- Count of: Scalable response of Don't know	199
MISS_6	- Count of: Not applicable - valid skip.....	199
MISS_7	- Count of: Out-of-range error	200
MISS_8	- Count of: Multiple response error.....	200
MISS_9	- Count of: No response - invalid skip	201
MISS_TOT	- Total number of missing responses.....	202

CONSTRUCTED VARIABLES

XENRLLMT	- Enrollment in TRICARE Prime.....	203
XENR_PCM	- Enrollment by PCM type	203
XINS_COV	- Insurance Coverage.....	203
XREGION	- Region.....	204
CONUS	- CONUS/OCONUS Indicator	204
OUTCATCH	- Out of Catchment Area Indicator	204
XSEXA	- Male or Female (Recode)	205
XBNFGRP	- Constructed Beneficiary Group.....	205
KDISENRL	- Intention to disenroll	205
KMIOFFC	- Office wait of 15 min or more at Military facility.....	205
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	206
KBGPRB1	- Big problem getting referrals to specialist.....	206
KBGPRB2	- Big problem getting necessary care.....	206
KMILOPQY	- Outpatient visits to Military facility	206
KCIVOPQY	- Outpatient visits to Civilian facility	207
KCIVINS	- Beneficiary covered by civilian insurance	207
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam.....	207
HP_PRNTL	- Pregnant in last year received care in 1st trimester.....	207
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	208
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	208
HP_PAP	- All women Pap smear in last 3 years.....	208
HP_BP	- Blood pressure check in last 2 years know results	208
HP_FLU	- Age 65 and older flu shot in last 12 months.....	209
HP_PROS	- Men age 50 or over prostate exam in last 12 months	209
HP_BRST	- Women age 40 and over breast exam in last 12 months	209
HP_CHOL	- Cholesterol screening in last 5 years	209
HP_SMOKE	- Advised to quit smoking in last 12 months.....	210
HP_SMOKH	- Smoker under HEDIS definition.....	210
HP_CESS	- Had smoking cessation counseling	210
ADJ_CELL	- Adjusted STRATUM cell	211

WEIGHTS	
WRWT1	- Replicated/JackKnife Weight 1
WRWT2	- Replicated/JackKnife Weight 2
WRWT3	- Replicated/JackKnife Weight 3
WRWT4	- Replicated/JackKnife Weight 4
WRWT5	- Replicated/JackKnife Weight 5
WRWT6	- Replicated/JackKnife Weight 6
WRWT7	- Replicated/JackKnife Weight 7
WRWT8	- Replicated/JackKnife Weight 8
WRWT9	- Replicated/JackKnife Weight 9
WRWT10	- Replicated/JackKnife Weight 10
WRWT11	- Replicated/JackKnife Weight 11
WRWT12	- Replicated/JackKnife Weight 12
WRWT13	- Replicated/JackKnife Weight 13
WRWT14	- Replicated/JackKnife Weight 14
WRWT15	- Replicated/JackKnife Weight 15
WRWT16	- Replicated/JackKnife Weight 16
WRWT17	- Replicated/JackKnife Weight 17
WRWT18	- Replicated/JackKnife Weight 18
WRWT19	- Replicated/JackKnife Weight 19
WRWT20	- Replicated/JackKnife Weight 20
WRWT21	- Replicated/JackKnife Weight 21
WRWT22	- Replicated/JackKnife Weight 22
WRWT23	- Replicated/JackKnife Weight 23
WRWT24	- Replicated/JackKnife Weight 24
WRWT25	- Replicated/JackKnife Weight 25
WRWT26	- Replicated/JackKnife Weight 26
WRWT27	- Replicated/JackKnife Weight 27
WRWT28	- Replicated/JackKnife Weight 28
WRWT29	- Replicated/JackKnife Weight 29
WRWT30	- Replicated/JackKnife Weight 30
WRWT31	- Replicated/JackKnife Weight 31
WRWT32	- Replicated/JackKnife Weight 32
WRWT33	- Replicated/JackKnife Weight 33
WRWT34	- Replicated/JackKnife Weight 34
WRWT35	- Replicated/JackKnife Weight 35
WRWT36	- Replicated/JackKnife Weight 36
WRWT37	- Replicated/JackKnife Weight 37
WRWT38	- Replicated/JackKnife Weight 38
WRWT39	- Replicated/JackKnife Weight 39
WRWT40	- Replicated/JackKnife Weight 40
WRWT41	- Replicated/JackKnife Weight 41
WRWT42	- Replicated/JackKnife Weight 42
WRWT43	- Replicated/JackKnife Weight 43
WRWT44	- Replicated/JackKnife Weight 44
WRWT45	- Replicated/JackKnife Weight 45
WRWT46	- Replicated/JackKnife Weight 46
WRWT47	- Replicated/JackKnife Weight 47
WRWT48	- Replicated/JackKnife Weight 48
WRWT49	- Replicated/JackKnife Weight 49
WRWT50	- Replicated/JackKnife Weight 50
WRWT51	- Replicated/JackKnife Weight 51
WRWT52	- Replicated/JackKnife Weight 52
WRWT53	- Replicated/JackKnife Weight 53
WRWT54	- Replicated/JackKnife Weight 54
WRWT55	- Replicated/JackKnife Weight 55
WRWT56	- Replicated/JackKnife Weight 56
WRWT57	- Replicated/JackKnife Weight 57

2004 HEALTH CARE SURVEY OF DOD BENEFICIARIES – QUARTER II

WRWT58	- Replicated/JackKnife Weight 58	237
WRWT59	- Replicated/JackKnife Weight 59	237
WRWT60	- Replicated/JackKnife Weight 60	237
WRWT	- Final Weight.....	238

H04004	- Currently Covered Medicare Part B 140
H04005	- Currently Covered Medicare Supplemental 141

H04006	- Which health plan did you use most in the past 12 months?.....	141
H04007	- Years in a row with health plan	142
H04008	- Have one person you think of as personal doctor.....	142
H04009	- Rating of your personal doctor or nurse.....	142
H04010	- Had same personal Dr/nurse before joining health plan.....	143
H04011	- Health plan: problem to get a personal doctor or nurse you are happy with.....	143
H04012	- In last year: you or a doctor or nurse think you needed to see a specialist	143
H04013	- In last year: how much of a problem to see a specialist you needed to see.....	144
H04014	- In last year: did you see a specialist	144
H04015	- Rating of specialist seen most often in last year.....	144
H04016	- In last year: specialist saw was the same as personal doctor	145
H04017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself.....	145
H04018	- In last year: when you called during regular office hours how often got help or advice you needed.....	145
H04019	- In last year: have illness/injury/condition that needed care right away.....	146
H04020	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	146
H04021	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	146
H04022	- In last year: made any appointment for regular or routine health care	147
H04023	- In last year: how often made appointments for regular or routine health care as soon as you wanted	147
H04024	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	147
H04025	- In last year: times went to an emergency room for own care	148
H04026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room)	148
H04027	- In last year: Did you/Dr believe you needed any care, tests, or treatment.....	148
H04028	- In last year: problem to get necessary care	149
H04029	- In last year: Need approval from health plan for any care, tests, or treatment.....	149
H04030	- In last year: problem with delays in healthcare while waiting for approval from health plan	149
H04031	- In last year: how often taken to exam room within 15 minutes of appointment	150
H04032	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect	150
H04033	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	151
H04034	- In last year: how often doctors or other health providers listen carefully to you.....	151
H04035	- In last year: how often doctors or other health providers explain things in way you could understand	152
H04036	- In last year: how often doctors or other health providers show respect for what you had to say.....	152
H04037	- In last year: how often doctors or other health providers spend enough time with you.....	153
H04038	- Rating of all healthcare in last year	153
H04039	- In last year: facility used most for health care.....	154
H04040	- In last year: sent in any claims to your health plan	154
H04041	- In last year: health plan handled claims in a reasonable time	154
H04042	- In last year: how often health plan handled claims correctly.....	155
H04043	- In last year: before went for care knew amount to pay	155
H04044	- In last year: look for any information in written materials/internet on how health plan works.....	155
H04045	- In last year: problem to find or understand information in the written materials/internet	156
H04046	- In last year: called health plan's customer service to get information or help.....	156
H04047	- In last year: problem to get the help you needed when called health plan's customer service	156

H04048	- Called or written health plan with a complaint or problem	157
H04049	- How long for health plan to resolve complaint	157
H04050	- Complaint or problem settled to satisfaction.....	157
H04051	- How long waiting for health plan to resolve complaint	158
H04052	- In last year: have to fill out paperwork for your health plan.....	158
H04053	- In last year: how much problem with paperwork for your health plan	158
H04054	- Rating of all experience with health plan	159
H04055	- In next year: likely to disenroll in TRICARE Prime	159
H04056	- Blood pressure: when last reading.....	160
H04057	- Blood pressure: know if blood pressure is too high or not	160
H04058	- When did you last have a cholesterol screening	160
H04059	- When did you last have a flu shot.....	161
H04060	- Smoked at least 100 cigarettes in life	161
H04061	- Smoke everyday, some days, or not at all	161
H04062	- How long since you quit smoking.....	162
H04063	- Last year: number of visits advised to quit smoking	162
H04064	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking	162
H04065	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking.....	163
H04066	- Are you male or female.....	163
H04067	- Male: Last prostate disease exam or blood test	163
H04068	- Female: Last have a Pap smear test.....	164
H04069	- Female: Are you under age 40	164
H04070	- Female: Last time breasts checked mammography.....	164
H04071	- Female: Last time breast exam by professional	165
H04072	- Female: Been pregnant in last year or pregnant now	165
H04073	- Female: In what trimester is your pregnancy	165
H04074	- Female: Trimester first received prenatal care	166
H04075	- In general how would you rate your overall health.....	166
H04076	- Limited in any way in any activities because of any impairment or health problem.....	166
H04077	- Last 30 days: Number of Days when your physical health not good	167
H04078	- Last 30 days: Number of Days when your mental health not good	168
H04079	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	169
H04080	- Last 30 days: Number of Days when pain made it hard to do your usual activities	170
H04081	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	171
H04082	- Last 30 days: Number of Days when you have felt worried, tense or anxious	172
H04083	- Last 30 days: Number of Days when you did not get enough rest or sleep.....	173
H04084	- Last 30 days: Number of Days when you have felt very healthy and full of energy	174
H04085	- Are you Spanish/Hispanic/Latino	175
HP_BP	- Blood pressure check in last 2 years know results	208
HP_BRST	- Women age 40 and over breast exam in last 12 months	209
HP_CESS	- Had smoking cessation counseling	210
HP_CHOL	- Cholesterol screening in last 5 years	209
HP_FLU	- Age 65 and older flu shot in last 12 months.....	209
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	208
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	208
HP_PAP	- All women Pap smear in last 3 years.....	208
HP_PRNTL	- Pregnant in last year received care in 1st trimester.....	207
HP_PROS	- Men age 50 or over prostate exam in last 12 months	209
HP_SMOKE	- Advised to quit smoking in last 12 months.....	210
HP_SMOKH	- Smoker under HEDIS definition.....	210
KBGPRB1	- Big problem getting referrals to specialist.....	206
KBGPRB2	- Big problem getting necessary care.....	206

KBRSTCR	- Women age 40 and over ever had mammogram and breast exam	207
KCIVINS	- Beneficiary covered by civilian insurance	207
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	206
KCIVOPQY	- Outpatient visits to Civilian facility	207
KDISENRL	- Intention to disenroll.....	205
KEYCOUNT	- Number of Key Questions Answered.....	188
KMIOFFC	- Office wait of 15 min or more at Military facility.....	205
KMILOPQY	- Outpatient visits to Military facility	206
LEGDDSCD	- DDS Code.....	134
MBRRELCD	- Member Relationship Code	136
MEDTYPE	- Medicare Type	136
MISS_1	- Count of: Violates Skip Pattern	198
MISS_4	- Count of: Incomplete grid error	199
MISS_5	- Count of: Scalable response of Don't know	199
MISS_6	- Count of: Not applicable - valid skip.....	199
MISS_7	- Count of: Out-of-range error	200
MISS_8	- Count of: Multiple response error.....	200
MISS_9	- Count of: No response - invalid skip	201
MISS_TOT	- Total number of missing responses.....	202

NHFF	- Stratum Sample Size	103
ONTIME	- Responded Within 8 weeks of Mail-Out.....	187
OUTCATCH	- Out of Catchment Area Indicator	204
PATCAT	- Aggregated Beneficiary Category	137

PCM	- Primary Manager Code (Civilian or Military)	135
PNLCATCD	- Personnel Category Code (Duty Status).....	137
PNSEXCD	- Person Gender.....	134
QUARTER	- Survey Quarter.....	104
RACEETHN	- Race/Ethnic Code	133
S04C01	- General Doctor,specialist,physician assistant, or nurse	177
S04C02	- Months/years been going to personal Doctor	178
S04C03	- Physical or mental condition that interferes with your work	178
S04C04	- Doctor undrstdns how your health problems affect your daily life.....	178
S04C05	- In last year: # of times you went to a specialist.....	179
S04C06	- In last year were any decisions made about your health care	179
S04C07	- In last year: involved as much as you wanted with your health care decisions	179
S04C08	- In last year: how much of a problem to agree on best care.....	180
S04C09	- In last year: did you need special medical equipment	180
S04C10	- In last year: How much of a problem was it to get special medical equipment.....	180
S04C11	- In last year: did you need special therapy.....	181
S04C12	- In last year: how much of a problem was it to get special therapy.....	181
S04C13	- In last year: did you need home health care or assistance	181
S04C14	- In last year: how much of a problem to get care or assistance needed.....	182
S04C15	- Need help with personal care needs.....	182
S04C16	- Need help with routine needs	182
S04C17	- Physical or mental condition that interferes with independence	183
S04C18	- Rating of equipment, services, or help provided.....	183
S04C19	- In last year: patient overnight or longer.....	183
S04C20	- Have a Physical or mental condition that has lasted 3 months.....	184
S04C21	- In last year: seen Doctor more than twice for condition lasting > 3 months.....	184
S04C22	- Taking prescription medications for at least 3 months	184
S04V01	- In last year: Amount of healthcare from TRICARE civilian network(TCN).....	185
S04V02	- In last year: Problem getting wanted healthcare from TCN.....	185
S04V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	185
S04V05	- In last year: Learn physician whom you wanted to see left TCN	186
S04V06	- In last year: Problem finding convenient doctor from TCN	186
S04V07	- In last year: Problem finding specialist in Civilian network.....	186
SERVAFF	- Service Affiliation	132
SERVAREA	- Service Area	103
SEXMPL	- Sex Sampling Variable.....	91
SRAGE	- What is your age now?	177
SREDA	- Highest grade completed	175

Chapter
1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2004 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to facilitate users in creating tables and generating analyses above and beyond those associated with this project.

This version of the Codebook and User's Guide describes the second quarter data set. It presents the frequency counts of all variables from the second quarter survey.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

How to Use This Guide

Chapter 2 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 3 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 4, where we describe each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata
- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

What is the HCSDB?

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2004 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002 and 2003. The annotated questionnaire appears in Appendix A. A crosswalk between the 2004 questions and the questions from the 1994-1995, 1996, 1997, 1998, 1999, 2000, 2002 and 2003 surveys appears as Appendix B.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. TRICARE Prime enrollees are asked about their satisfaction with Prime and about their likelihood of possibly disenrolling. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, processing paperwork, and resolving complaints.

- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including blood pressure readings, cholesterol screening, and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography and breast examination by a health care professional. Men are asked about prostate examinations. All respondents are asked whether they smoke. Smokers are asked whether, and how often, they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health, as well as the number of days in the past month they have felt their physical or mental health was not good. They are further asked to indicate how many days they have experienced more specific physical or mental health problems, and if these problems prevented them from performing usual activities. Finally, respondents are asked to report their education level, race, and age.

CAHPS Questions

To make responses comparable to civilian surveys, the questions are similar in content and format to questions used in the Consumer Assessment of Health Plans Survey (CAHPS). CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2004, CAHPS version 2.0 questions were replaced with questions from version 3.0. As a result there are many changes in question wording.

Quarter II Supplements

- **Chronic conditions.** Questions in this supplemental concern the experience of beneficiaries with chronic health problems. Respondents are asked to describe their experience obtaining special medical equipment, therapy, assistance and assess how well their condition has been managed.
- **TRICARE Civilian Network.** These supplemental questions provide information about respondents' experiences with the TRICARE civilian network. Questions concern the amount of care received, problems getting wanted care, convenience of care, and physician retention within the TRICARE civilian network.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified sample design was used to select DoD health care beneficiaries for the Quarter II 2004 Adult HCSDB. Strata were defined by a combination of enrollment status groups, and beneficiary groups, and geographic areas. Specific information on the sample design appears in "Health Care

Survey of DoD Beneficiaries: 2004 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 50,000 beneficiaries, 14,360 adult MHS beneficiaries completed and returned a 2004 Adult HCSDB questionnaire for the second quarter during the period, yielding a response rate of 29 percent. Information on developing response rates can be found in the "2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

Other Documents on the 2004 HCSDB

This document is intended for programmers and analysts using the 2004 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- Health Care Survey of DoD Beneficiaries: 2004 Adult Sampling Report
- The 2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (available February 2005)
- The 2004 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (available February 2005)

Chapter
2

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

Variable Naming Conventions

The conventions used to name variables on the 2004 Adult HCSDB data file are listed below and summarized in Table 2.1. The naming conventions will remain constant across the four quarters of the 2004 HCSDB.

- **Survey Variables.** Core survey variable names consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("04") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. The supplements in the second quarter contained questions relating to beneficiaries' chronic conditions, and TRICARE's civilian network. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("04"). The variable ends with an alpha character and the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N23, reference the notes in the Coding Scheme for Adult Survey. See Appendix C for the Coding Scheme for Quarter II for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable SRSEX was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "W."

TABLE 2.1

NAMING CONVENTIONS FOR 2004 HCSDB VARIABLES – QUARTER II

1 st Character: Survey Type	2 nd – 3 rd Character S: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire)	04	001 to 085	A to O are used to label responses associated with a multiple response question _O denotes an original version of a recoded variable
S = Supplemental Question		Quarter II C01-C22 – Supplemental questions about beneficiaries' chronic conditions. V01-V02, V04-V07 – Supplemental questions about TRICARE's civilian network.	

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People</i> 2010 variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)

Cleaning and Editing Conventions

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme appears in Appendix C. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when NRC created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
 - Multiple responses, where there should be a single response, were encoded with SAS missing value ‘A’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the 2004 Adult HCSDB Quarter II data file appear in Chapter 4 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 26 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (thirteen or more) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H04006, H04008, H04009, H04010, H04011, H04012, H04014, H04015, H04017, H04018, H04019, H04020, H04022, H04025, H04026, H04028, H04031, H04038, H04039, H04044, H04046, H04052, H04054, H04075, SREDA, H04085.

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2004 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. Sampling weights are further adjusted for nonresponse within classes defined by sampling strata: a cross-classification of enrollment status, geographic area, and beneficiary group. Chapter 4 contains the weighted and unweighted frequencies for each variable in the second quarter of 2004.

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

Chapter
3

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the second quarter of data from the 2004 HCSDB.

How To Make a Table Using SAS

The 2004 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the adult dataset for Quarter II is located on a CD-ROM in the subdirectory HCSDB04\FORMA\Q2, your LIBNAME statement must look like this:

LIBNAME INFORMA 'F:\HCSDB04\FORMA\Q2';

The adult dataset can then be referred to as INFORMA.HCSDB04, where INFORMA is the location of the file HCSDB04.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

LIBNAME LIBRARY 'C:\HCSDB04\FORMA\Q2\FMTLIB';

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

OPTIONS PS=79 LS=132;

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

OPTIONS PS=50 LS=175 NOCENTER;

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;
* Active duty females;
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H04057 H04014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only region 3 observations */
IF XREGION = 3;
```

- Create a new temporary dataset. For example, CAC_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB04\FORMA';
DATA CAC_1;
/* Input file is HCSDB04 */
SET INFORMA.HCSDB04;
IF CACSMPL = 1;
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC_9901 is a permanent dataset only of Region 1 out-of-catchment respondents:

```
LIBNAME INFORMA 'F:\HCSDB04\FORMA';
LIBNAME OUT 'C:\HCSDB04\FORMA';
DATA OUT.CAC_9901;
SET INFORMA.HCSDB04;
IF CACSMPL = 9901;
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT WRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XREGION, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE state, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for 2004, the weight variable is WRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

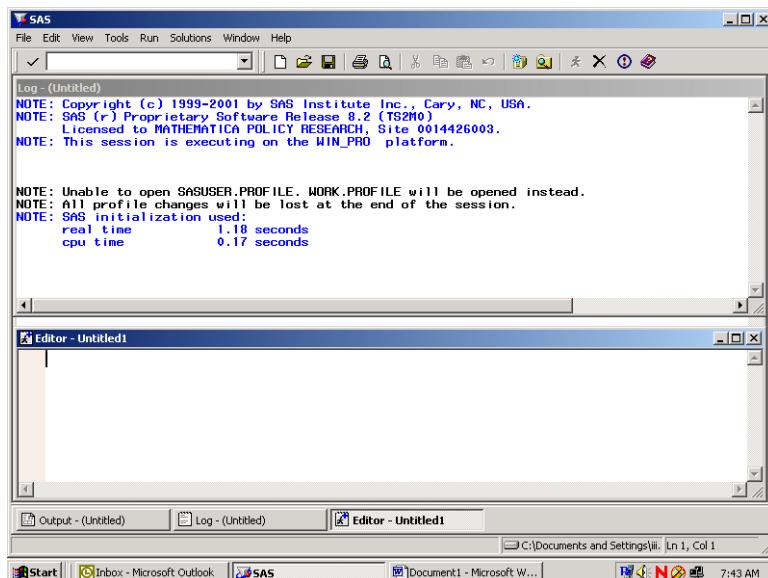

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form ='*label*'; for example, XREGION='Region' or MEAN=' ' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H04038 *MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H04038 H04054.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 8, the following screen opens.

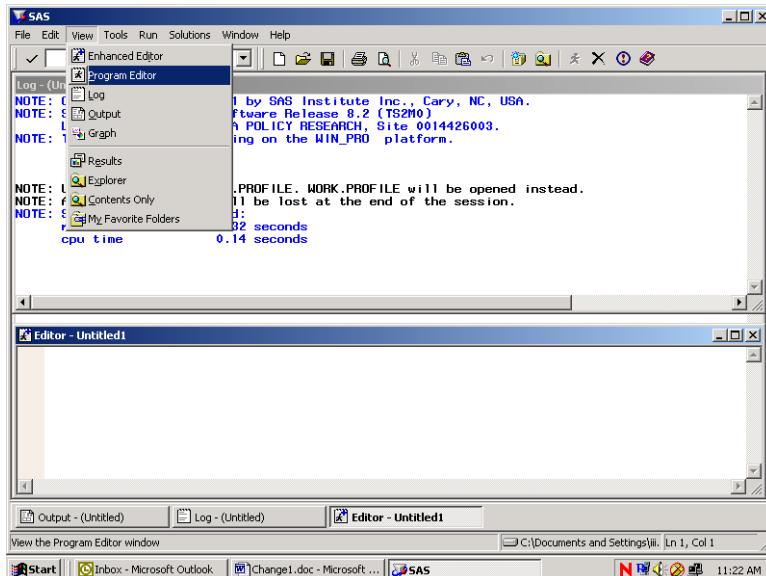

The screen is divided into two windows, a Log window above and an Editor window below.

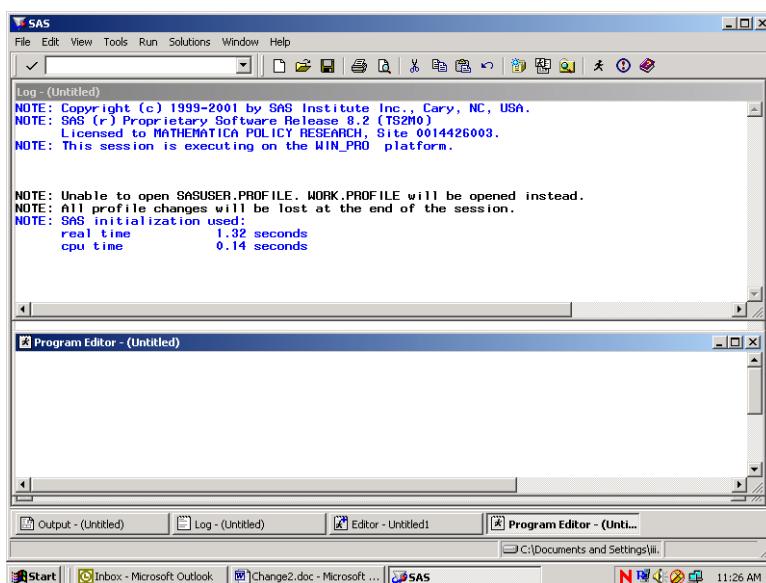

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 8 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

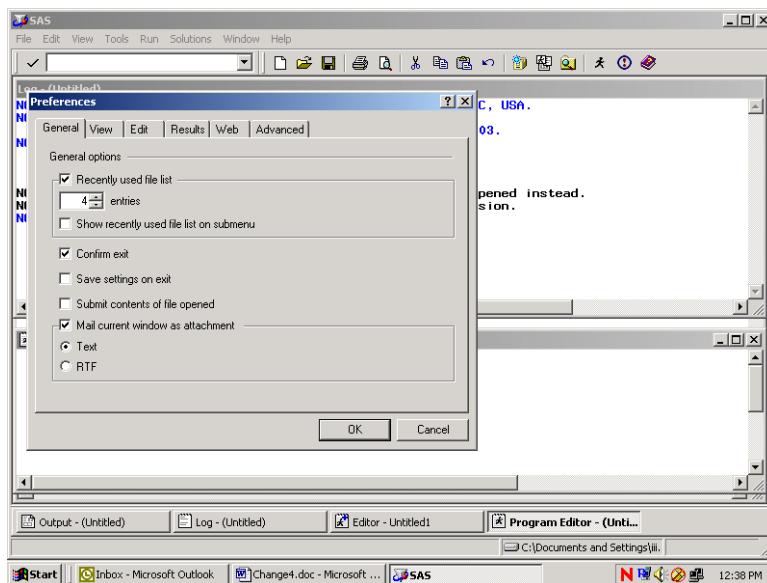

Click on View and select Program Editor as in the following:

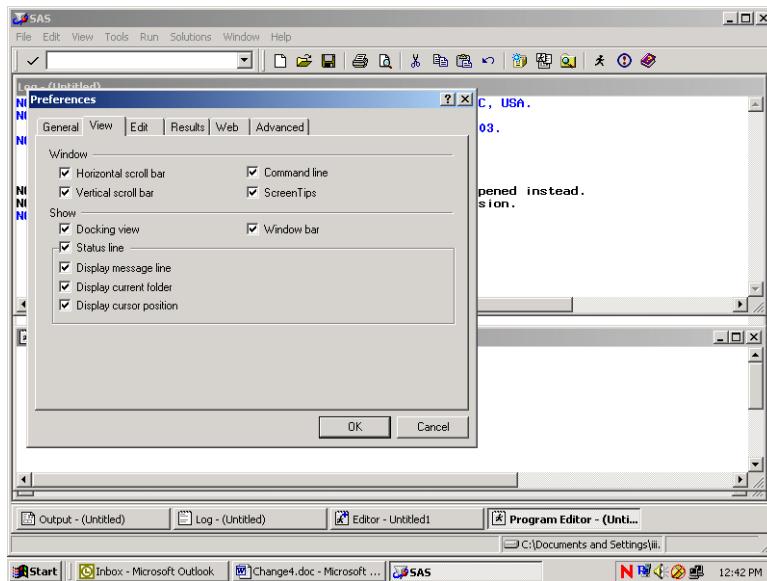

The lower Editor Window has now changed to Program Editor as in the following screen:

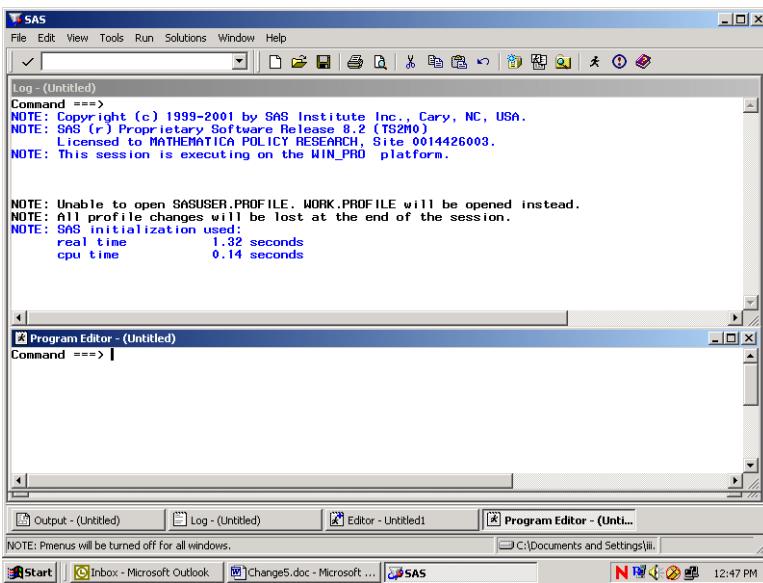

Open the Tools menu and choose Options and preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

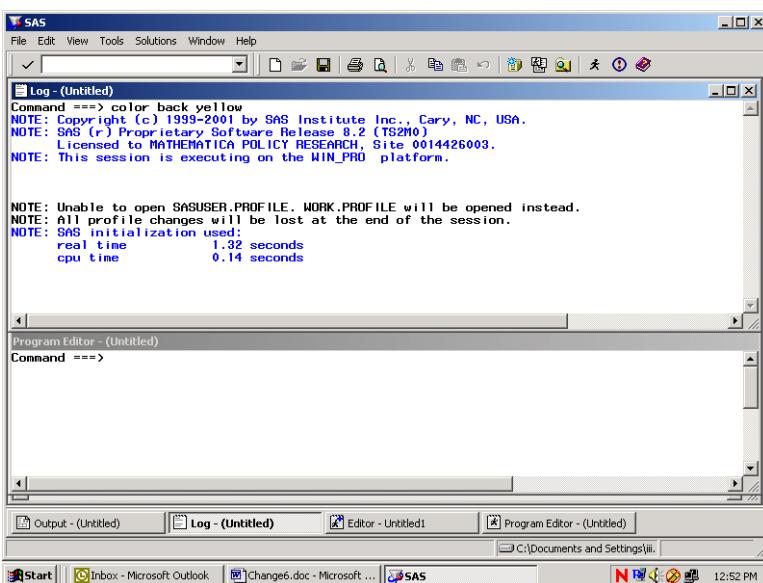

Click on OK and a command line will be added as in the screen below.

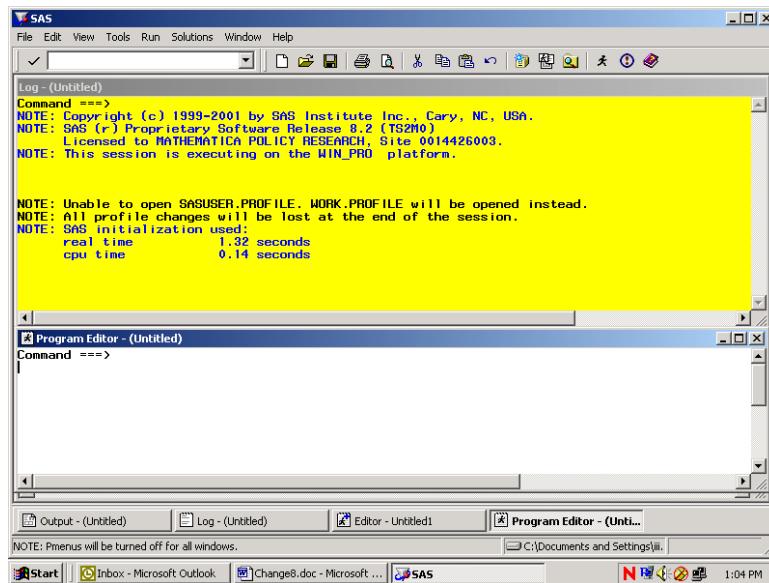

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allows you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

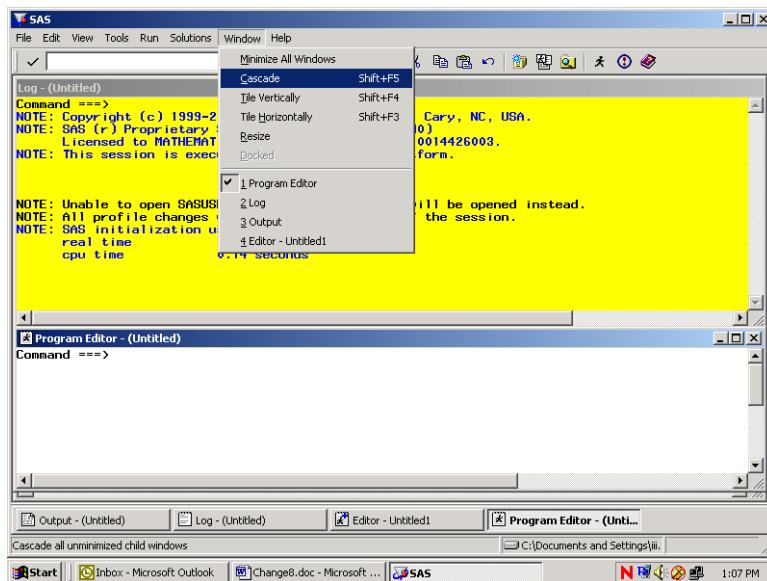

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

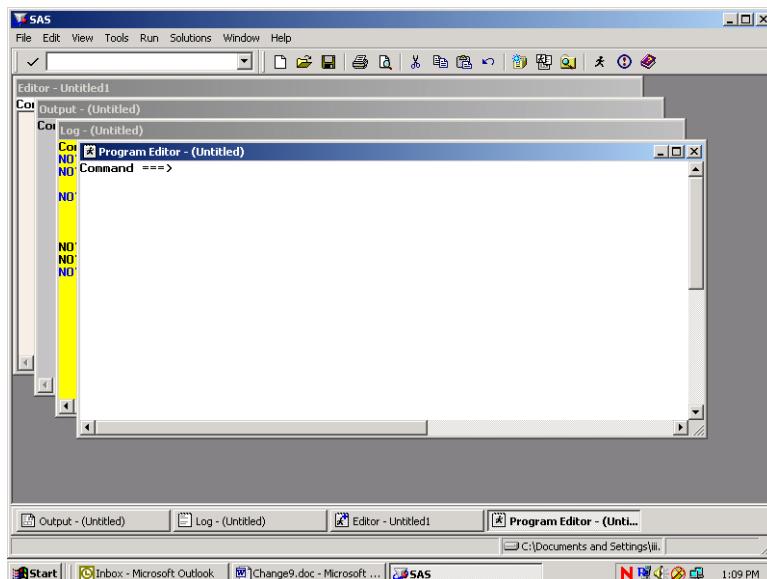

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

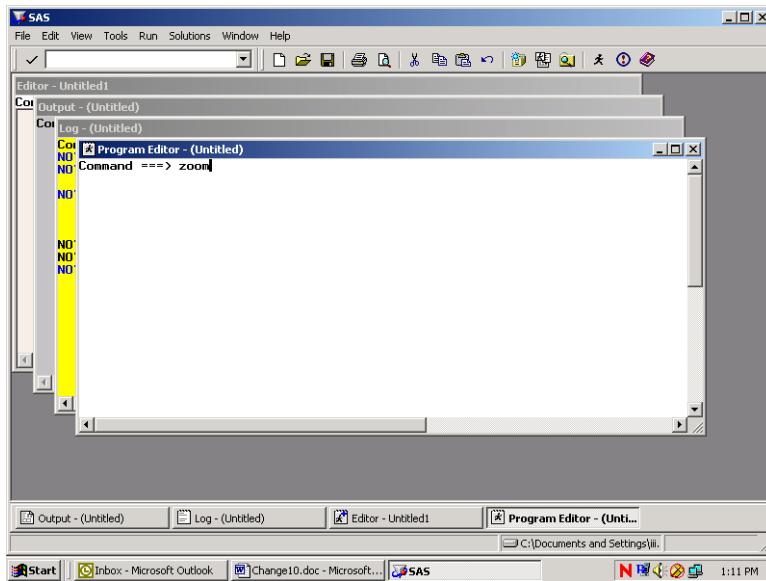

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

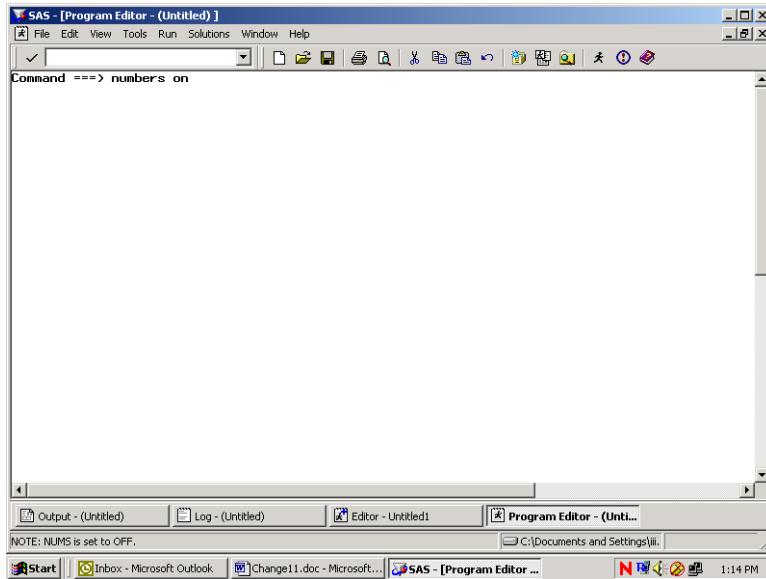

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

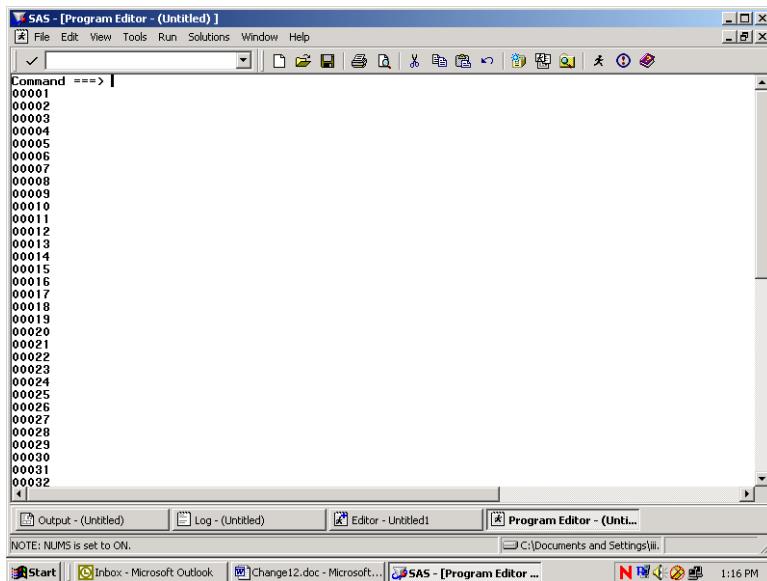

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health care variables by beneficiary group by gender for respondents in region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The health care variables (H04054 and H04075) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';
PROC TABULATE DATA=IN.HCS042_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H04054 H04075;
WEIGHT WRWT;
TABLE (H04054 H04075)*MEAN, /* Row Dimension */
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */
TITLE "Table 3.1";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

The screenshot shows the SAS Program Editor window with the title bar "SAS - [Program Editor - TABLEIII.1.sas]". The editor contains the following SAS code:

```
Command ===> SUBMIT
00001 OPTIONS PS=79 LS=95;
00002 LIBNAME IN 'C:\FILES\DOA\ADULT 2004';
00003 LIBNAME LIBRARY 'C:\FILES\DOA\ADULT 2004\FMTLIB';
00004 PROC TABULATE DATA=IN.HCS042_1;
00005 WHERE XREGION = 3; /* LIMIT TO REGION 3 */
00006 CLASS XBNFGRP XSEX;
00007 VAR H04054 H04075;
00008 WEIGHT CRWT;
00009 TABLE ( H04054 H04075)*MEAN, /* ROW DIMENSION */
00010 XBNFGRP*(XSEX ALL) ALL; /* COLUMN DIMENSION */
00011 TITLE 'Table 3.1';
00012 TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
00013 RUN;
00014
00015
00016
00017
00018
00019
00020
00021
00022
00023
00024
00025
00026
00027
00028
00029
00030
00031
00032
```

The status bar at the bottom shows the path "C:\Documents and Settings\mloewenberg" and the time "12:21 PM".

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

The screenshot shows the SAS Log window with the title bar "SAS [Log - (Untitled)]". The log output is as follows:

```
Command ===>
14  OPTIONS PS=79 LS=95;
15  LIBNAME IN 'C:\FILES\DOA\ADULT 2004';
NOTE: Library IN was successfully assigned as follows:
      Engine:      VS
      Physical Name: C:\FILES\DOA\ADULT 2004
16  LIBNAME LIBRARY 'C:\FILES\DOA\ADULT 2004\FMTLIB';
NOTE: Library LIBRARY was successfully assigned as follows:
      Engine:      VS
      Physical Name: C:\FILES\DOA\ADULT 2004\FMTLIB

17  PROC TABULATE DATA=IN.HCS042_1;
18  WHERE XREGION = 3; /* LIMIT TO REGION 3 */
19  CLASS XBNFGRP XSEX;
20  VAR H04054 H04075;
21  WEIGHT CRWT;
ERROR: Variable CRWT not found.
22  TABLE ( H04054 H04075)*MEAN, /* ROW DIMENSION */
23  XBNFGRP*(XSEX ALL) ALL; /* COLUMN DIMENSION */
24  TITLE 'Table 3.1';
25  TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
26  RUN;

NOTE: The SAS System stopped processing this step because of errors.
NOTE: PROCEDURE TABULATE used:
      real time         0.09 seconds
      cpu time         0.01 seconds
```

The status bar at the bottom shows the path "C:\Documents and Settings\mloewenberg" and the time "12:22 PM".

The variable *CRWT* was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering WRWT, the correct variable name, in the weight statement. Then, rerunning the procedure.

The corrected program produces the following output.

The screenshot shows the SAS Output window with the title "Table 3.1 12:10 Monday, August 2, 2004". The table is titled "Constructed Beneficiary Group" and has a multi-level header. The first level header spans two columns and contains "Active Duty <65" and "Family of Active <65". The second level header contains "Male or Female - R" and "Male or Female - R". The third level header contains "Male", "Female", "All", "Male", and "Female". The data is presented in two rows. The first row corresponds to the question "Rating of all experience with hlth plan" and the second row to "In gnrl, how would you rate overall hlth". The "Mean" column header is present in both rows. The data values are: Rating of all experience with hlth plan (Mean): 6.95 (Male), 7.40 (Female), 7.05 (All), 6.97 (Male), 7.37 (Female); In gnrl, how would you rate overall hlth (Mean): 3.77 (Male), 3.82 (Female), 3.78 (All), 3.45 (Male), 3.72 (Female). The table concludes with "(Continued)" at the bottom.

The result of this process is Table 3.1.

Note that the TITLE statement defines the heading for each page. Titles of more than one line are entered as TITLE, TITLE2, etc.

Table 3.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group				
		Active Duty <65			Family of Active <65	
		Male or Female - R		All	Male or Female - R	
		Male	Female		Male	Female
Rating of all experience with hlth plan	Mean	6.95	7.40	7.05	6.97	7.37
In gnrl, how would you rate overall hlth	Mean	3.77	3.82	3.78	3.45	3.72

(Continued)

Table 3.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group				Ret/Surv/Fam 65+	
		Family of Active <65	Ret/Surv/Fam <65		Male or Female - R		
			All	Male	Female		
Rating of all experienc- e with hlth plan	Mean		7.34	7.52	7.79	7.66	8.68
In gnrl, how would you rate ovrall hlth	Mean		3.70	3.43	3.45	3.44	3.18

(Continued)

Table 3.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group		All		
		Ret/Surv/Fam 65+				
		Male or Female - R	Female			
Rating of all experienc- e with hlth plan	Mean			9.04	8.86	7.90
In gnrl, how would you rate ovrall hlth	Mean			3.16	3.17	3.44

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2004\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 3.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP=' '

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN=' *F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA='Gender'
ALL='Group Total' for the ALL that is crossed with XBNFGRP
ALL='Total' for the Region 3 total

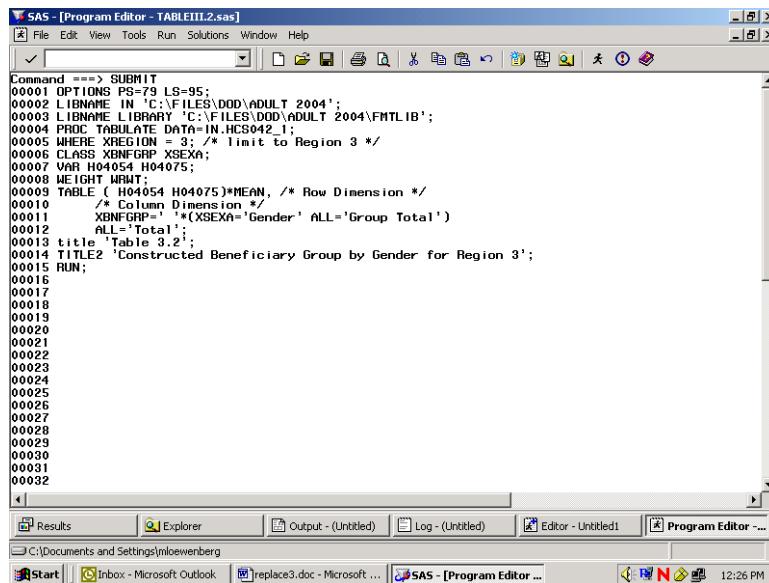

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';
PROC TABULATE DATA=IN.HCS042_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H04054 H04075;
```

```
WEIGHT WRWT;  
TABLE (H04054 H04075)*MEAN='*F=6.2, /* Row Dimension */  
/* Column Dimension */  
XBNFGRP='*(XSEXA='Gender' ALL='Group Total')  
ALL='Total';
```

```

		Gender		Group		
		Male	Female			
Rating of all experience with hlth plan		8.68	9.04	8.86	7.90	
In gnrl, how would you rate ovrall hlth		3.18	3.16	3.17	3.44	

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';
PROC TABULATE DATA=IN.HCS042_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H04054 H04075;
WEIGHT WRWT;
TABLE (H04054 H04075)*MEAN=' **F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP=' *(XSEXA=' ' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
TITLE "Table 3.3";
TITLE2 ' Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

```

Calculating Percents

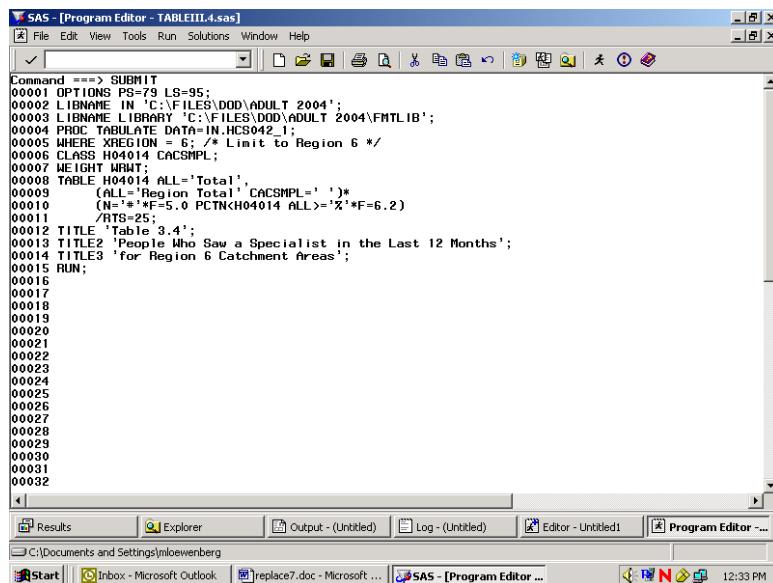

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all class variables that define the row. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, ‘In the last 12 months, did you see a specialist?’, your TABLE statement in the TABULATE procedure would look like this:

WHERE XREGION = 6;

TABLE H04014 ALL='Total',

(All='Region Total' CACSMPL)*PCTN<H04014 ALL>='Percent';

Table 3.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

```

People Who Saw a Specialist in the Last 12 Months
for Region 6 Catchment Areas

	Lackland AFB		NH Corpus Christi		Randolph AFB	
	#	%	#	%	#	%
In 1st yr: did you see a specialist						
Yes	58	49.57	60	60.61	42	43.30
No	59	50.43	39	39.39	55	56.70
Total	117	100.00	99	100.00	97	100.00

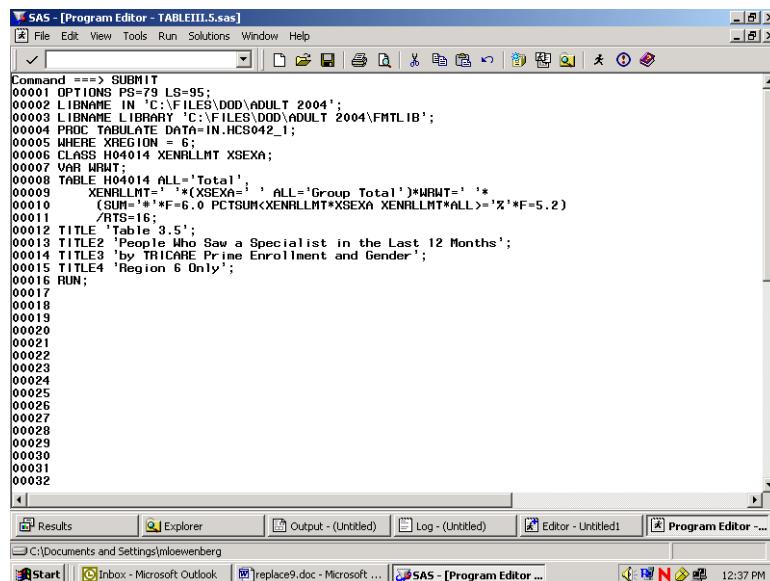

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 3.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report seeing a specialist in the past 12 months, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

**TABLE H04014 ALL='Total',
XENRLLMT *(XSEXA= ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';**

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include WRWT (the 2004 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 3.5.

The following screen shows the new program typed into the Program Editor.

How to Make a Table Using SPSS

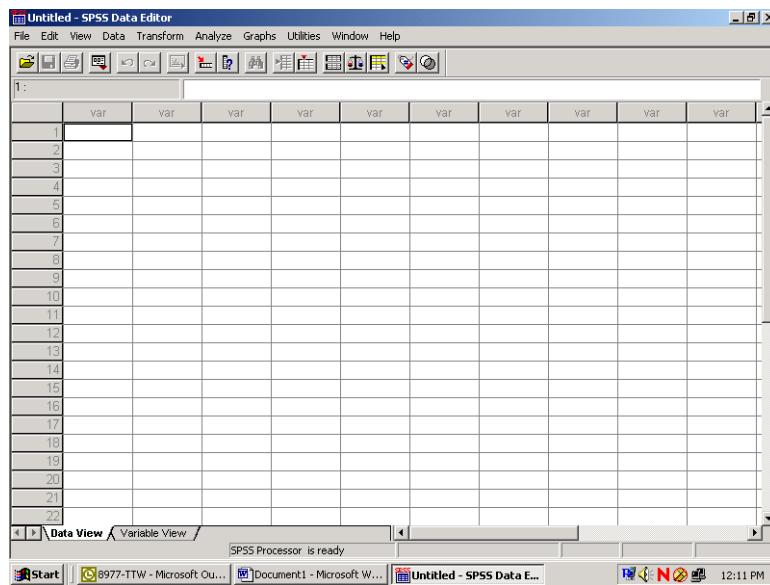

The 2004 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

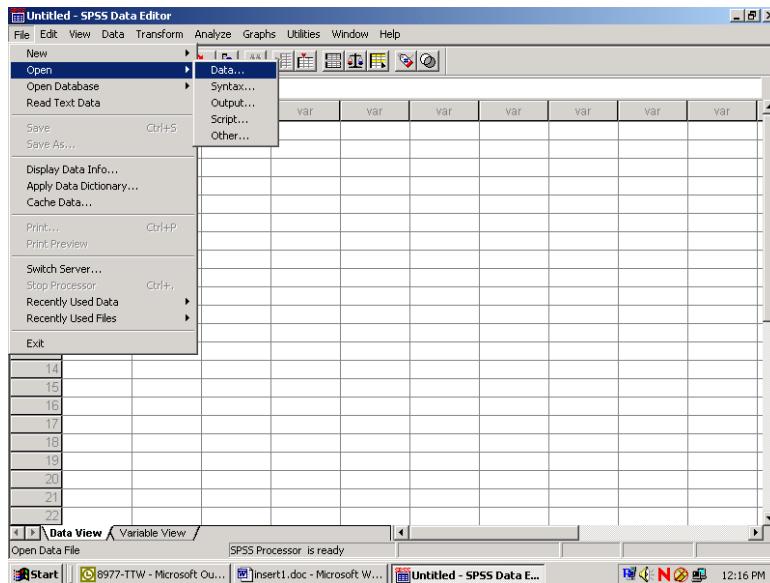

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

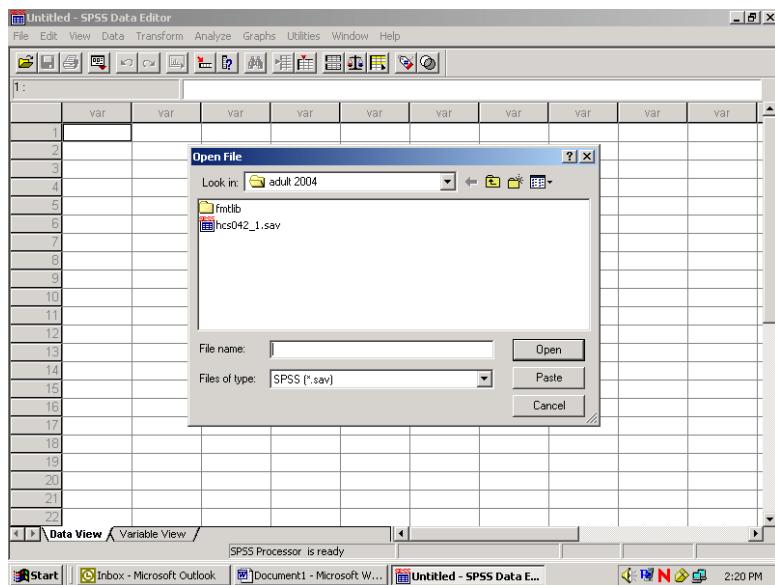

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The 2004 Adult HCSDB dataset has been opened and is displayed below.

Constructing new variables

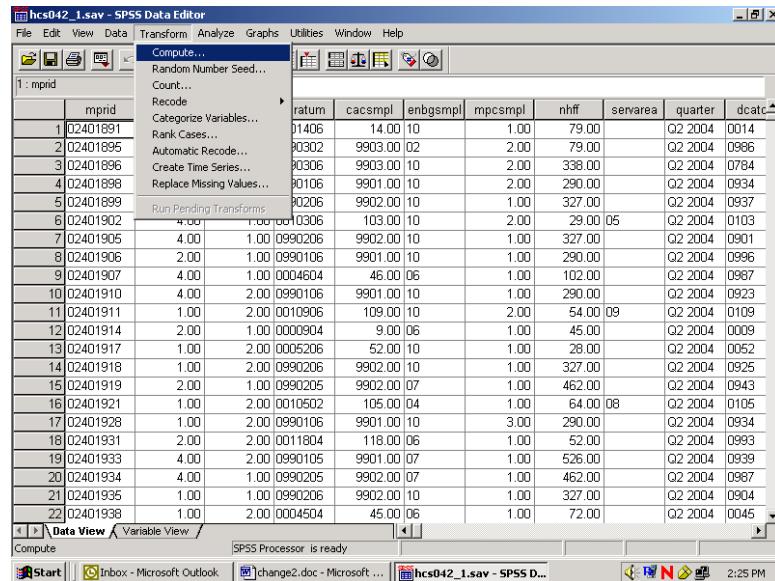

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called xbnfgrp, and the variable for sex is xsex. The value 1 for xbnfgrp indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

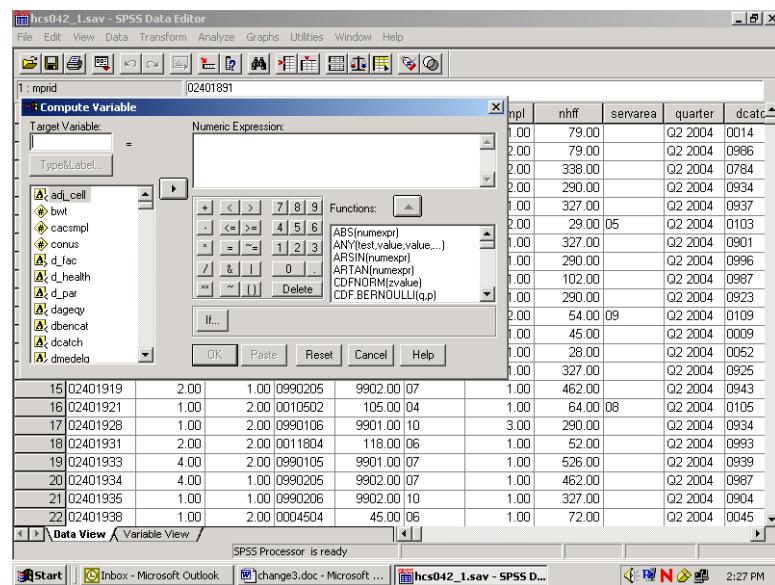

Active-duty-males: **xsex=1 and XBNFGRP=1**

Active-duty-females: **xsex=2 and XBNFGRP=1**

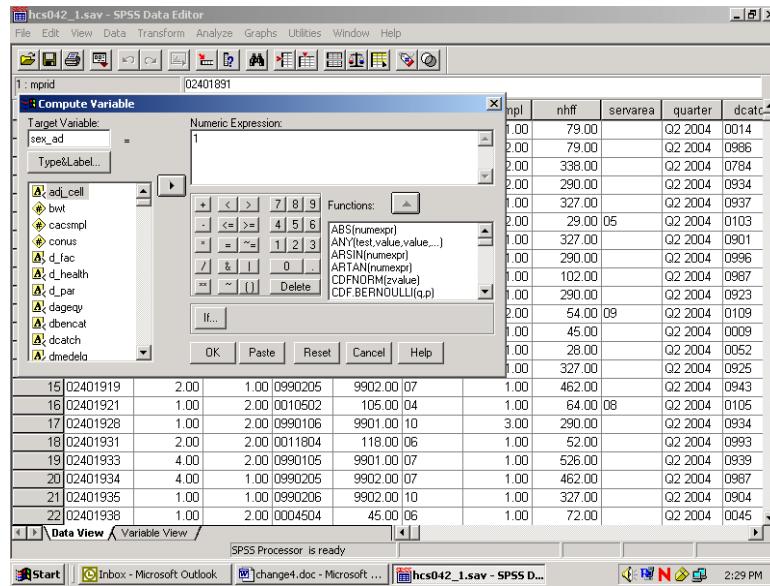

Open the Transform menu and select Compute as in the following:

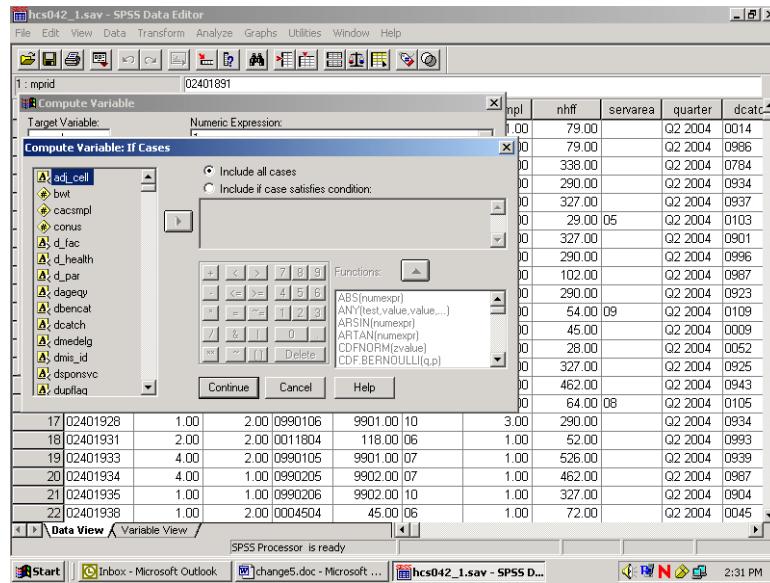

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable **sex_ad**. Next, assign the value 1 to **sex_ad** by entering it into the slot for Numeric Expression. Your screen should look like the following:

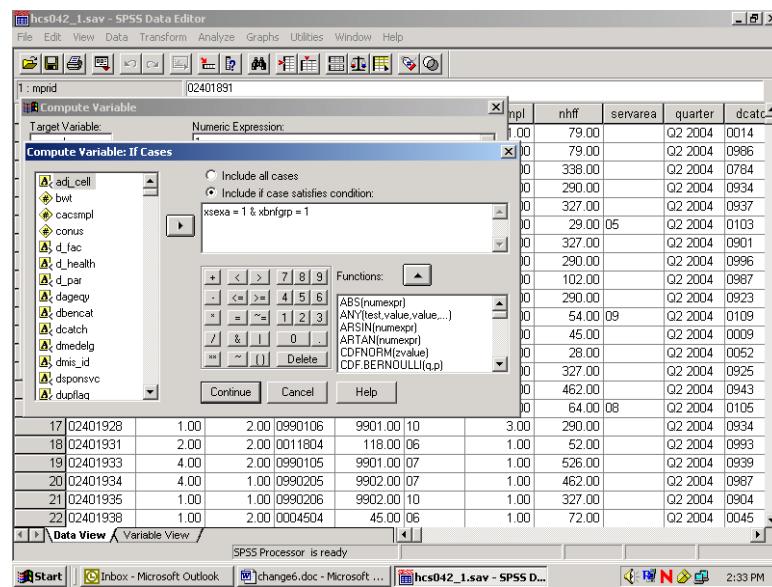

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If..and open the following dialog box:

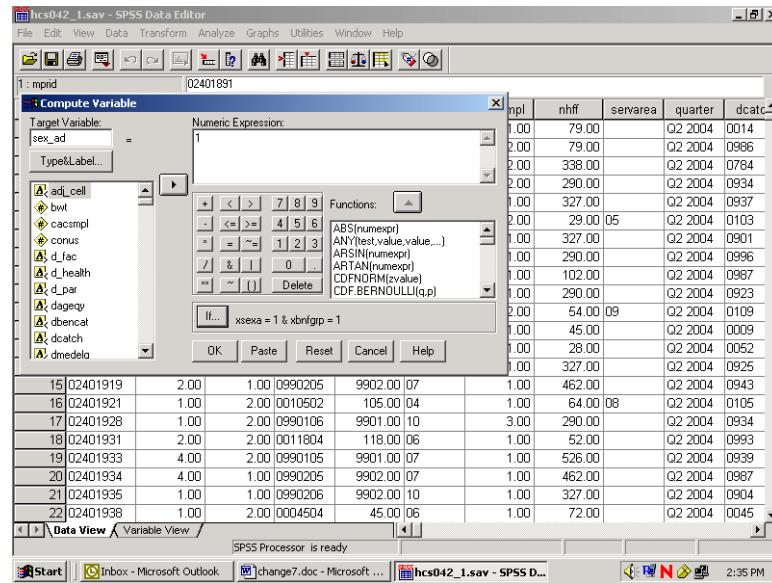

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexa = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to sex_ad, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if xsexa = 2 and xbnfgrp = 1, will be added to the new variable sex_ad.

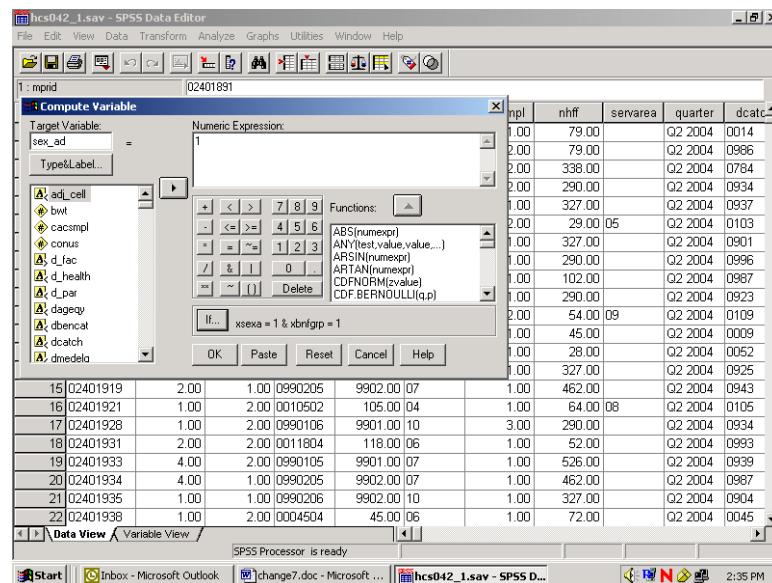

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

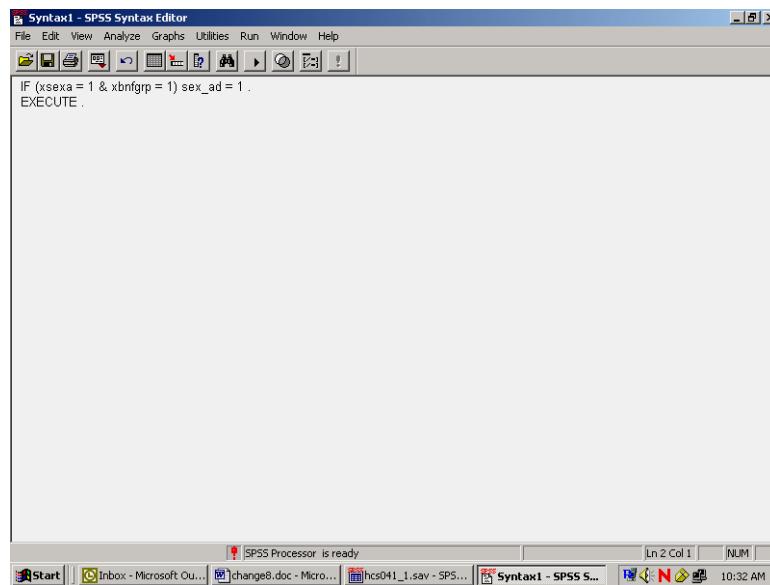

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

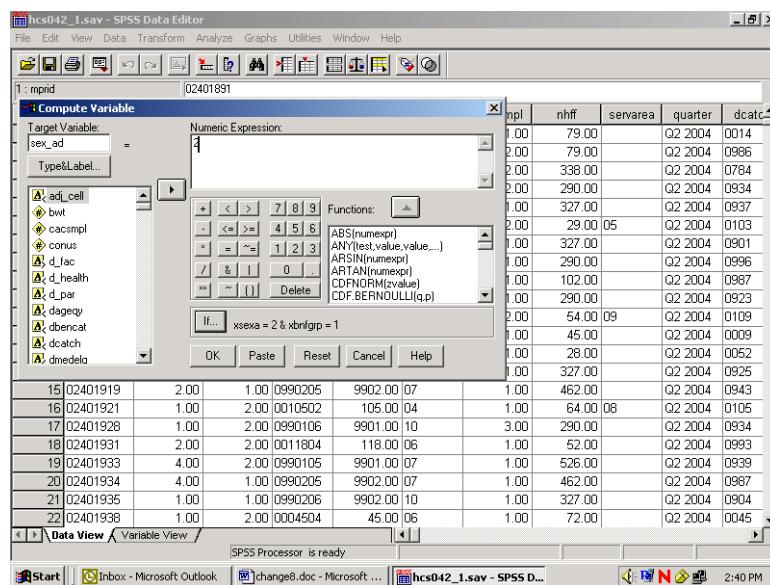

Recall the compute example for the new variable sex_ad. The screen below is the result of assigning 1 to sex_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

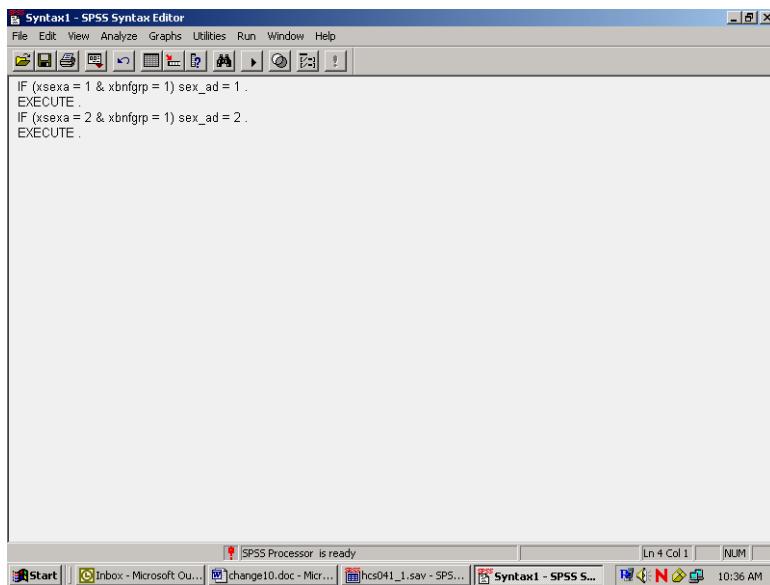

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 94, which can be grouped into four age categories:

- 18 to 34 = 1 - label: “young adult”
- 35 to 49 = 2 - label: “mature adult”
- 50 to 65 = 3 – label: “middle-age”
- 66 to 94 = 4 – label: “senior citizen”

The new variable is called **age_grp**.

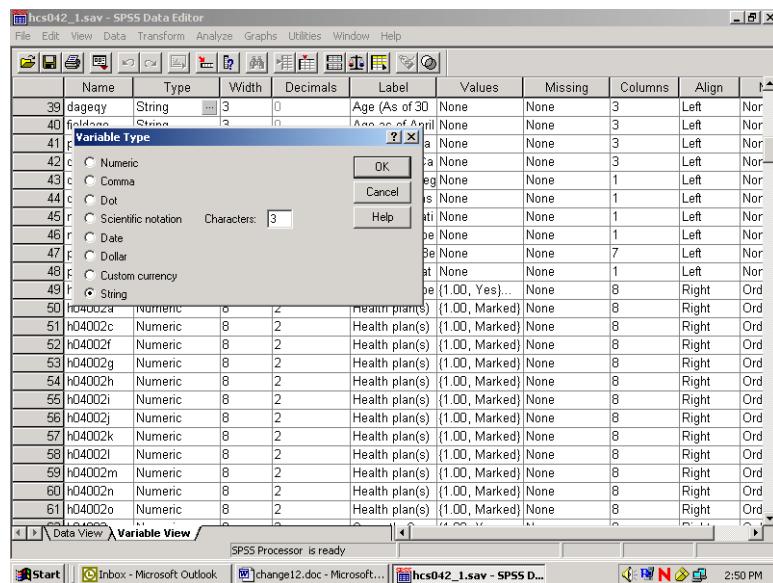

DAGEQY is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

	pnsecccd	legddscd	dageqy	fieldage	pcm	dbencat	dmedelg	dsponsvc	mbrrelcd	medtype	patcat	pnlicd

21	M	20	084	085		RET	7	A	A	C	NADD65+ R	
22	F	30	042	042	MTF	DR	2	A	B	N	NADD<65 R	

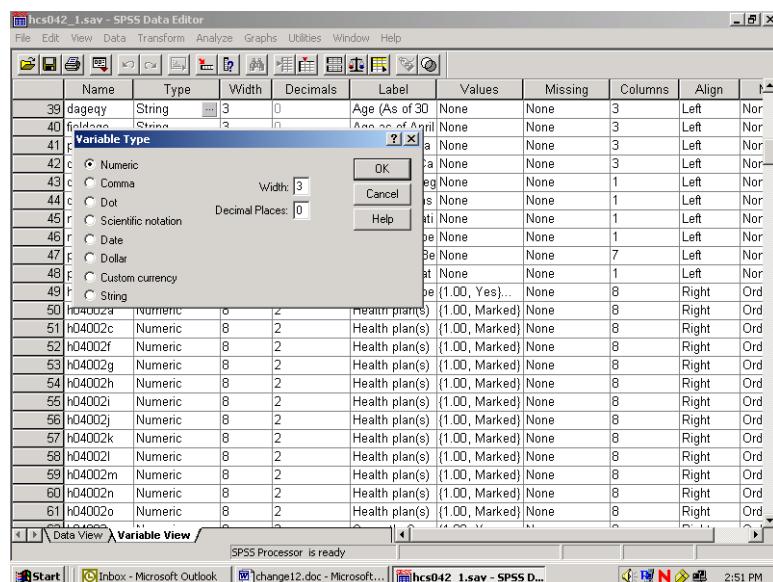

Click on the Variable View tab at the Lower Left of your screen and the screen will change to the following:

	Name	Type	Width	Decimals	Label	Values	Missing	Columns	Align	Type
39	dagey	String	3	0	Age (As of 30)	None	None	3	Left	None
40	fieldage	String	3	0	Age as of April	None	None	3	Left	None

58	h04002l	Numeric	8	2	Health plan(s)	{1,00, Marked}	None	8	Right	Ord
59	h04002m	Numeric	8	2	Health plan(s)	{1,00, Marked}	None	8	Right	Ord
60	h04002n	Numeric	8	2	Health plan(s)	{1,00, Marked}	None	8	Right	Ord
61	h04002o	Numeric	8	2	Health plan(s)	{1,00, Marked}	None	8	Right	Ord

In the Type column click on the gray square and the following Menu will open.

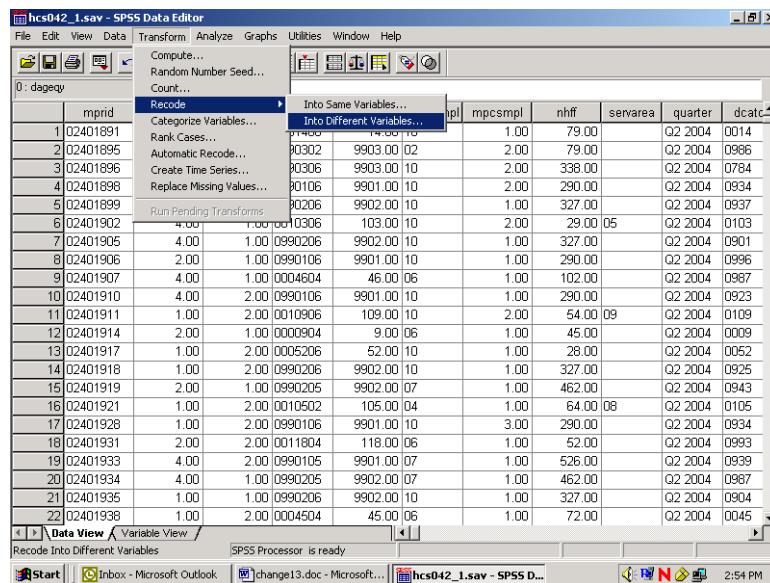

Transfer the black dot from String to Numeric as follows:

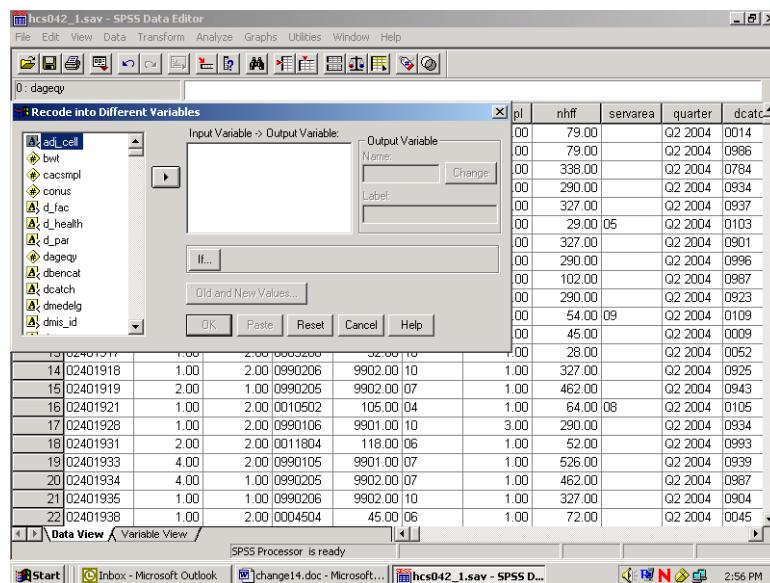

Click on OK to set the changes. Click on the Data View tab to return to the Data Editor window.

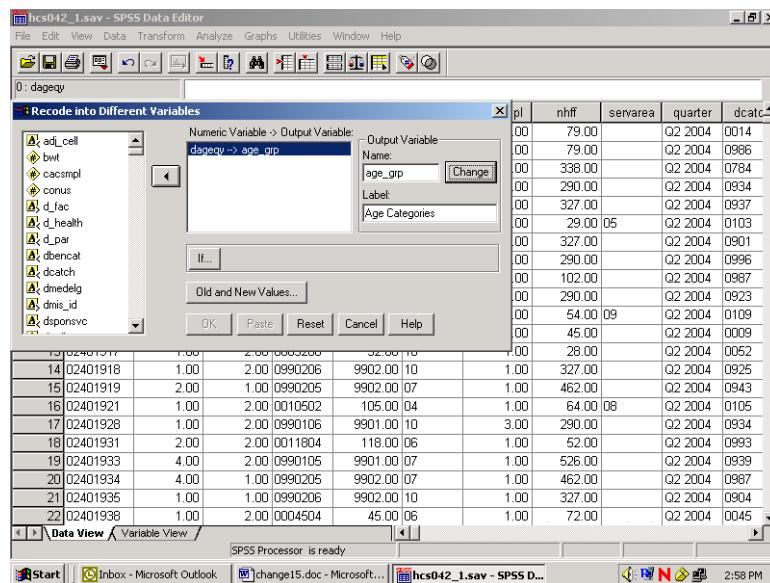

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

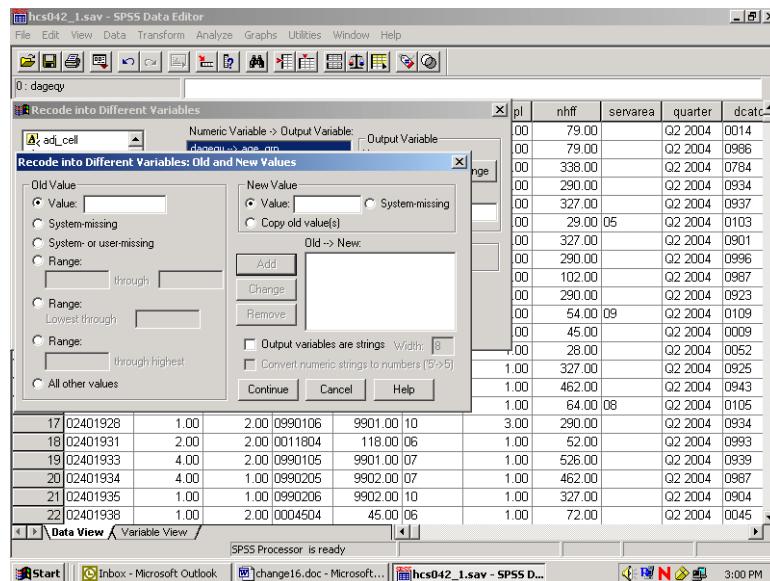

The following dialog box will open:

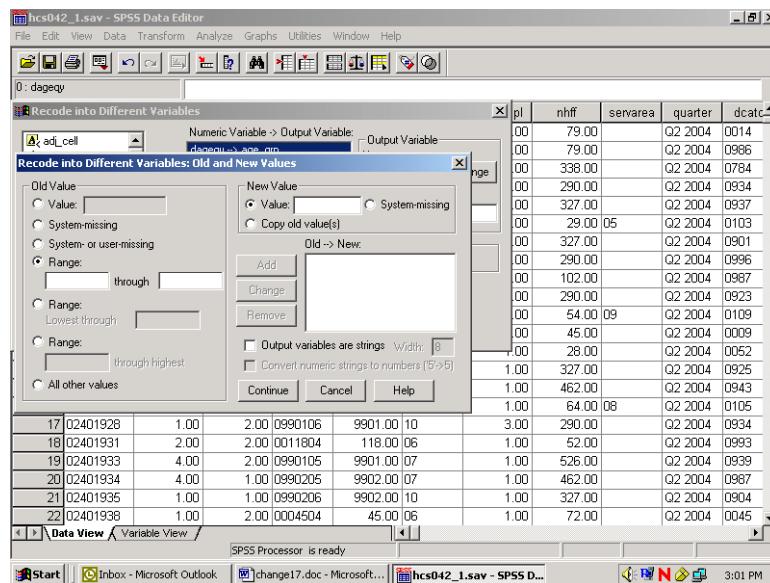

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

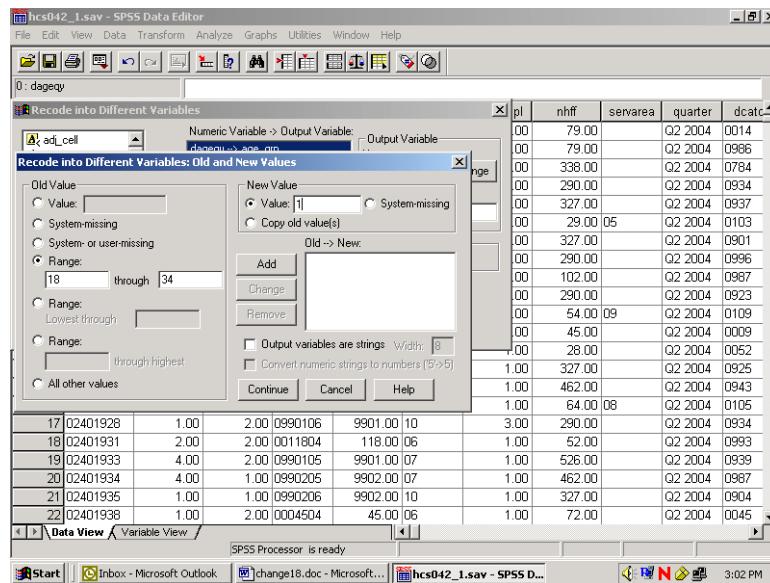

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

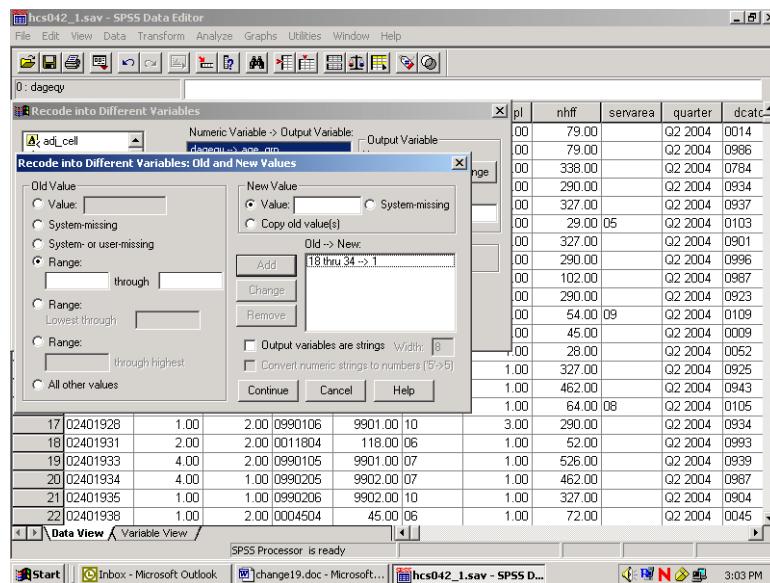

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 through 34 in the slots provided under **Range**. Next, enter the value 1 in the **New Value**. **Add** is now illuminated.

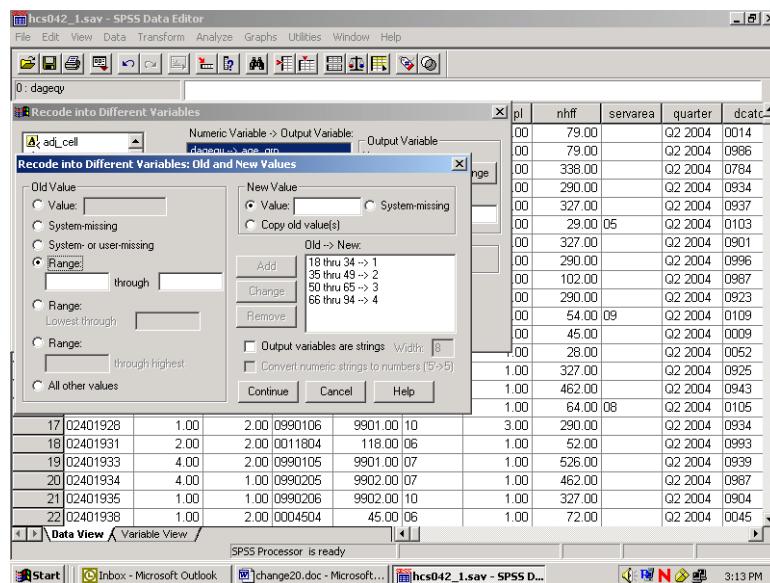

Clicking on Add produces the following result:

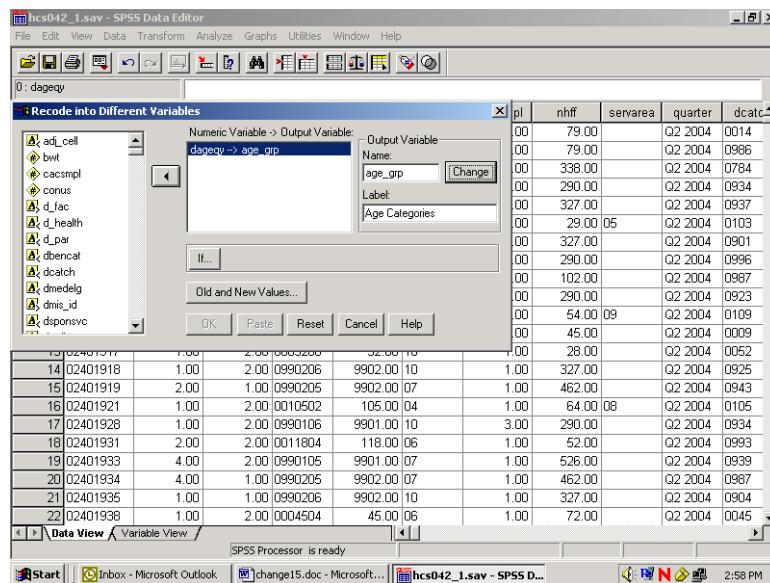

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

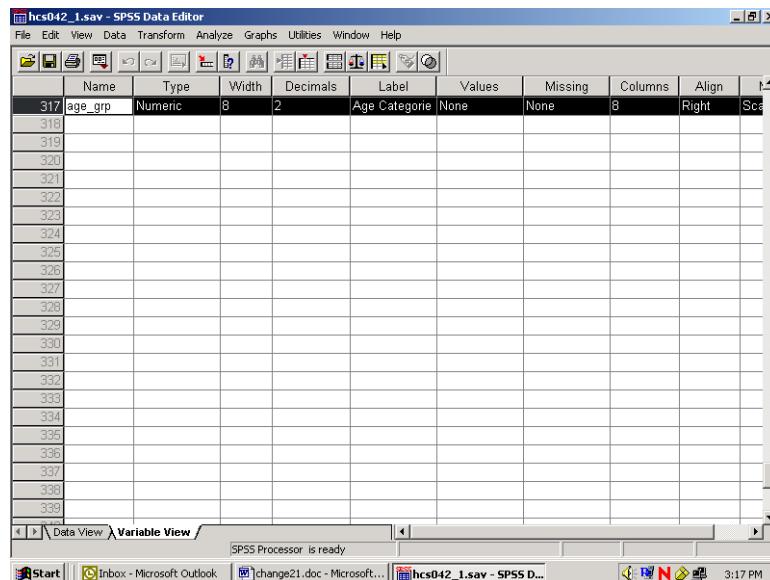

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

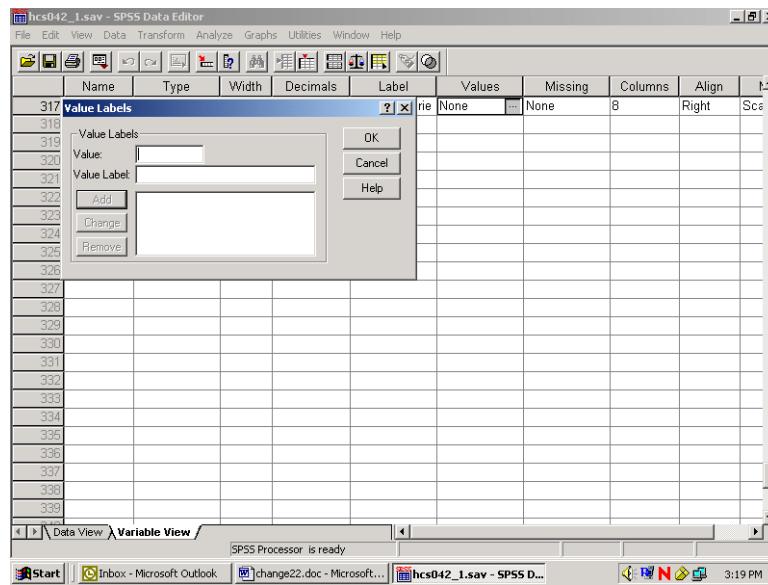

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

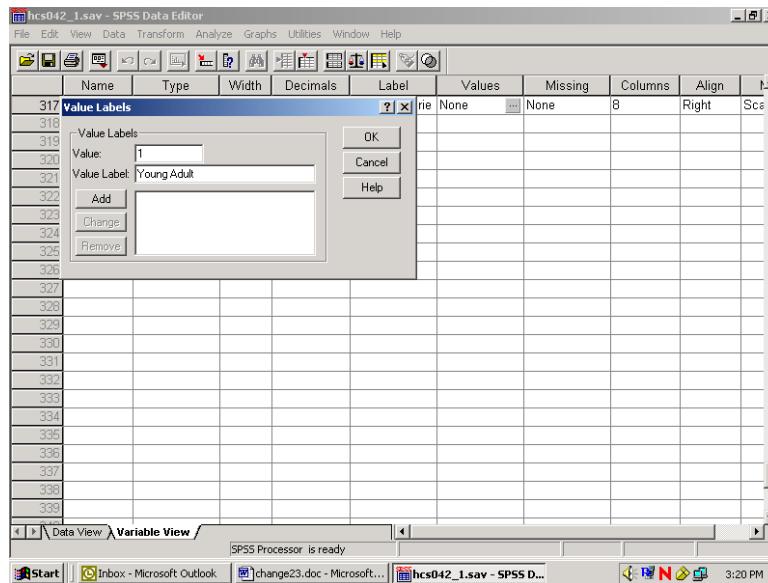

The variable **age_grp** is shown with its attributes.

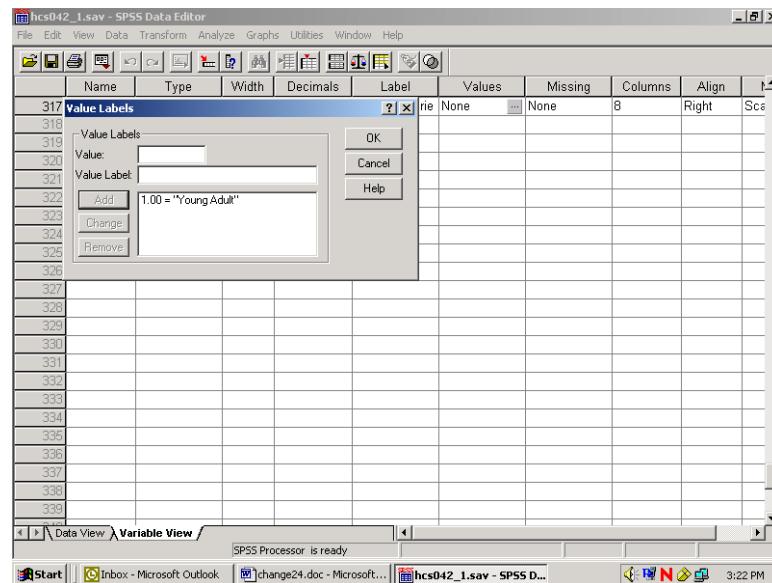

Click in the cell under **Values** and the following dialog box will open:

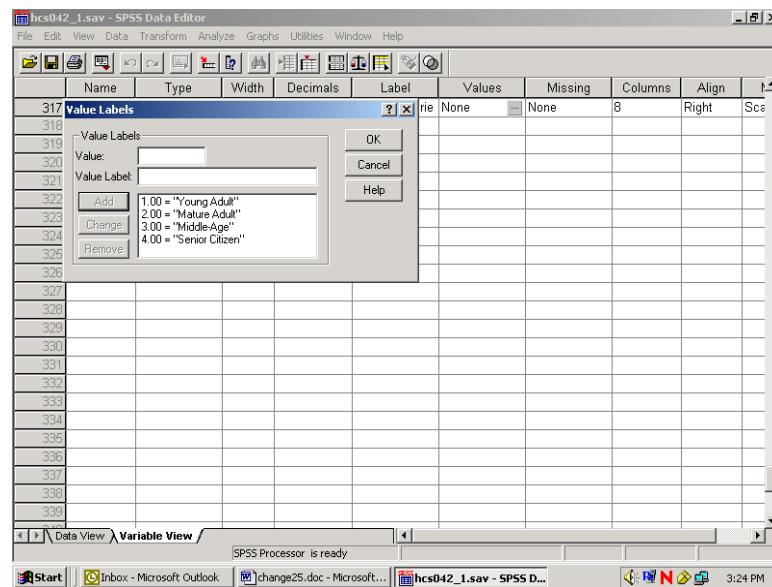

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked Value Label. The screen will look like the following:

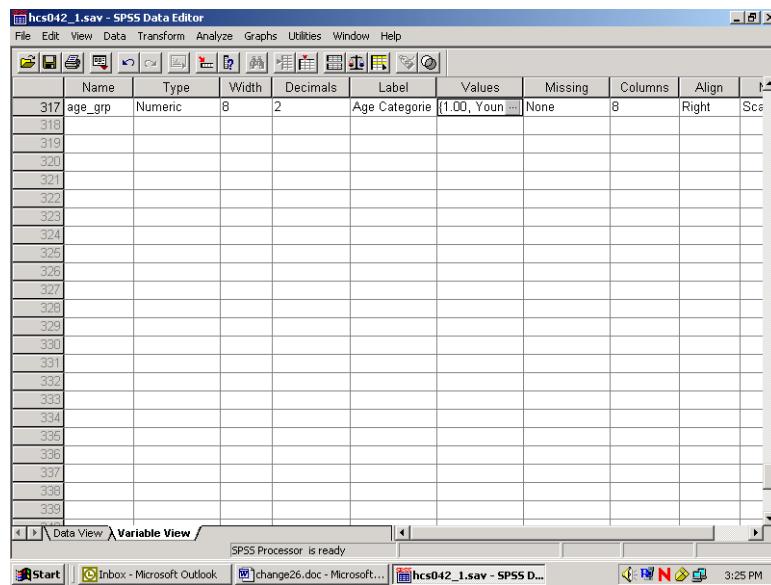

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

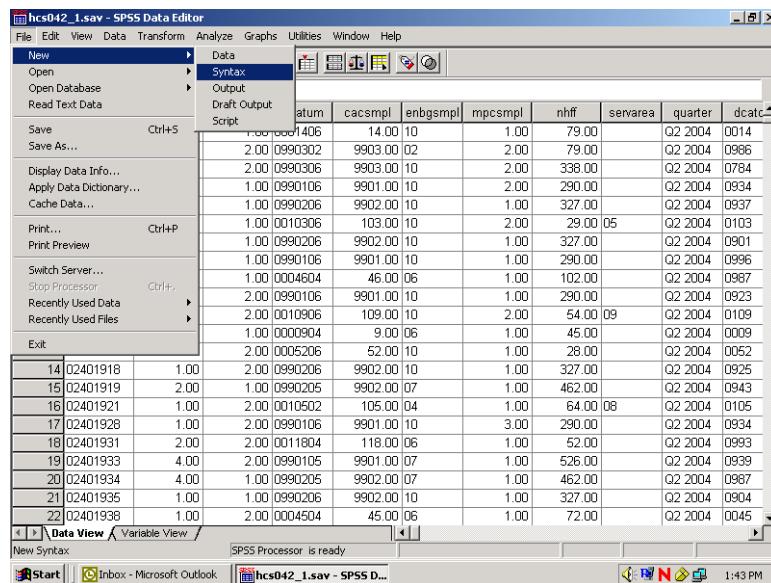

Limiting the Number of Variables

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in the differences between military and civilian services, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas. You can do all the work on a subset of only nine variables, saving them in a separate file.

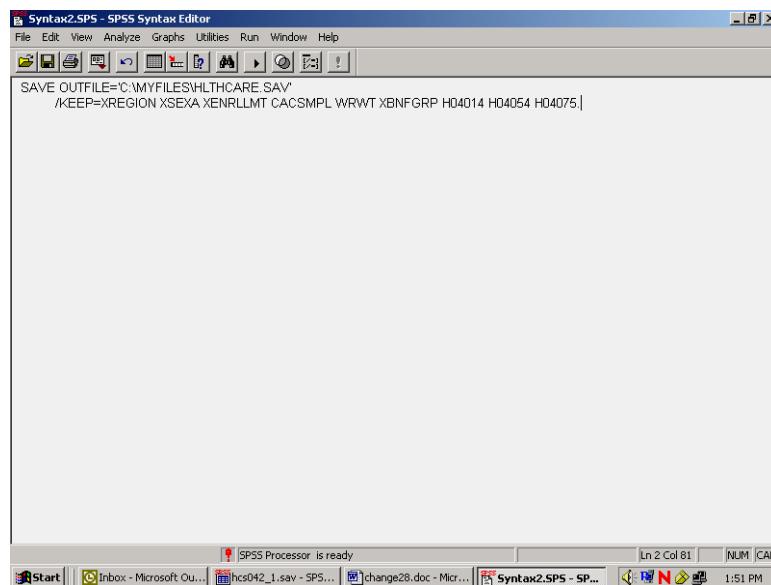

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New**, **Syntax** on the **File** menu as in the following:

A blank syntax window will open.

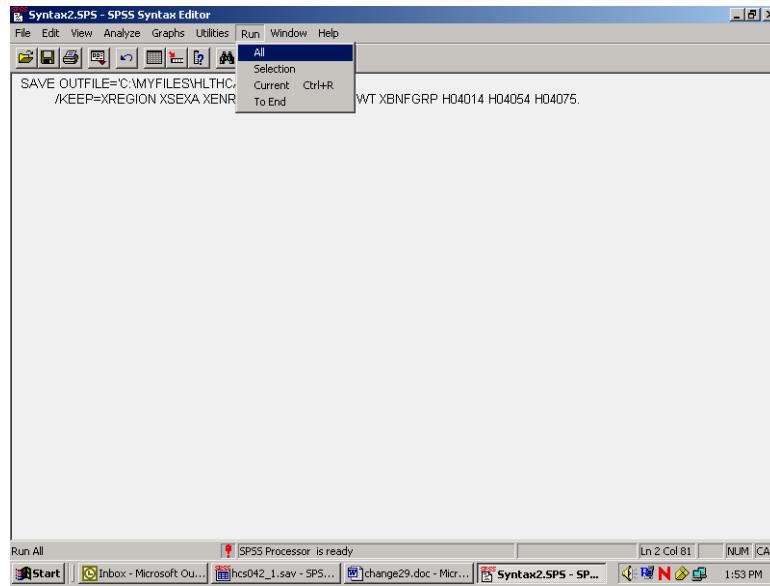

Write the following command, substituting the file name and directory specification:

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XREGION XSEXA XENRLLMT
CACSMPL WRWT XBNFGRP H04014 H04054 H04075.** as in the following:

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

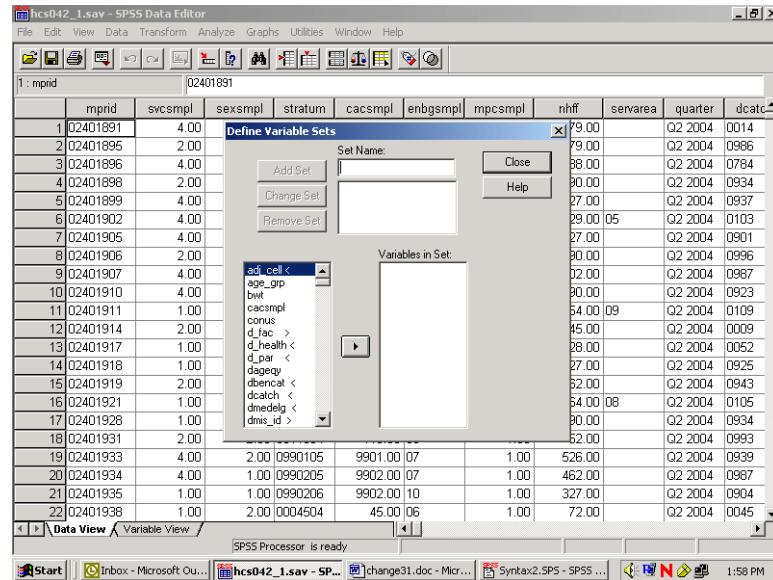

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

	mpnid	svcsmpl	sexsmp	enbgsmpl	mpccmpl	nhif	servarea	quarter	dcatt		
1	02401891	4.00	1.00	010	1.00	79.00	Q2 2004	0014			
2	02401895	2.00	2.00	02	2.00	79.00	Q2 2004	0966			
3	02401896	4.00	2.00	010	2.00	338.00	Q2 2004	0784			
4	02401898	2.00	1.00	0990106	9901.00	2.00	290.00	Q2 2004	0934		
5	02401899	4.00	1.00	0990206	9902.00	1.00	327.00	Q2 2004	0937		
6	02401902	4.00	1.00	0010306	103.00	10	29.00	05	Q2 2004	0103	
7	02401905	4.00	1.00	0990206	9902.00	10	327.00	Q2 2004	0901		
8	02401906	2.00	1.00	0990106	9901.00	10	290.00	Q2 2004	0996		
9	02401907	4.00	1.00	0004604	46.00	06	102.00	Q2 2004	0987		
10	02401910	4.00	2.00	0990106	9901.00	10	290.00	Q2 2004	0923		
11	02401911	1.00	2.00	0010906	109.00	10	2.00	54.00	09	Q2 2004	0109
12	02401914	2.00	1.00	0000904	9.00	06	1.00	45.00		Q2 2004	0009
13	02401917	1.00	2.00	0005206	52.00	10	1.00	28.00		Q2 2004	0052
14	02401918	1.00	2.00	0990206	9902.00	10	1.00	327.00		Q2 2004	0925
15	02401919	2.00	1.00	0990026	9902.00	07	1.00	462.00		Q2 2004	0943
16	02401921	1.00	2.00	0010502	105.00	04	1.00	64.00	08	Q2 2004	0105
17	02401928	1.00	2.00	0990106	9901.00	10	3.00	290.00		Q2 2004	0934
18	02401931	2.00	2.00	0011804	118.00	06	1.00	52.00		Q2 2004	0993
19	02401933	4.00	2.00	0990105	9901.00	07	1.00	526.00		Q2 2004	0939
20	02401934	4.00	1.00	0990205	9902.00	07	1.00	462.00		Q2 2004	0987
21	02401935	1.00	1.00	0990206	9902.00	10	1.00	327.00		Q2 2004	0904
22	02401936	1.00	2.00	0004504	45.00	06	1.00	72.00		Q2 2004	0045

Select Define Sets.

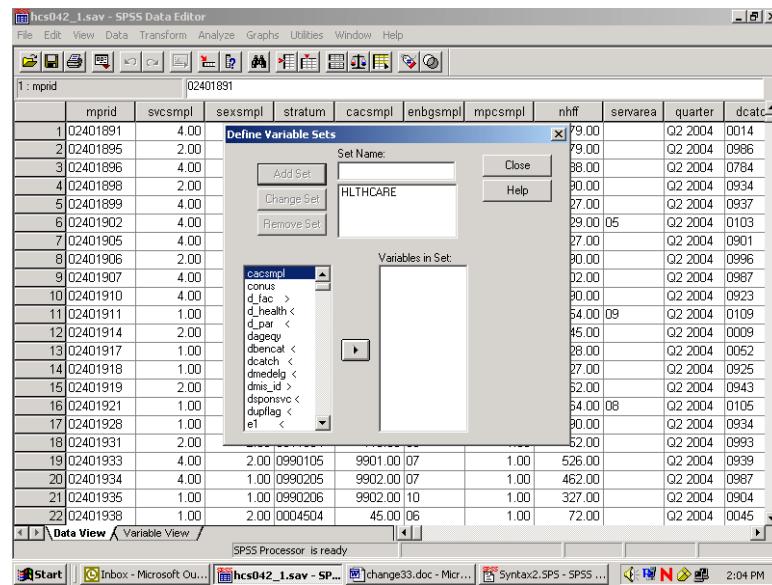

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

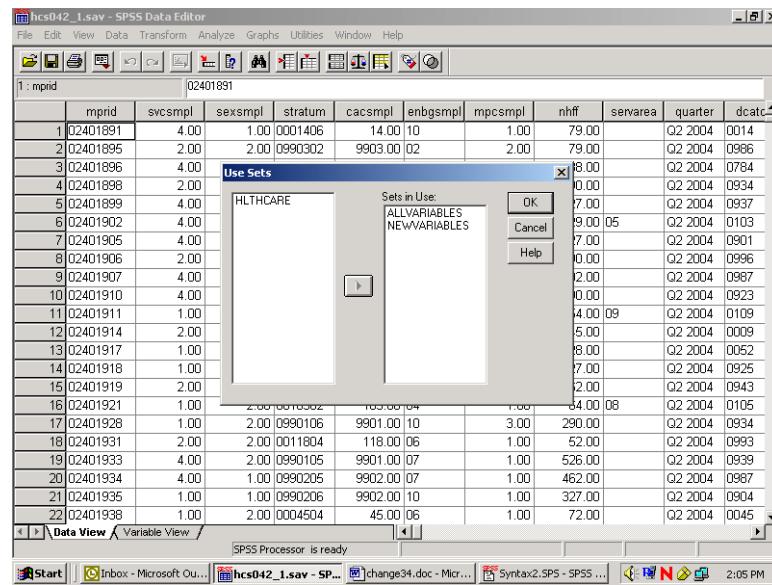

The screen should look like the following:

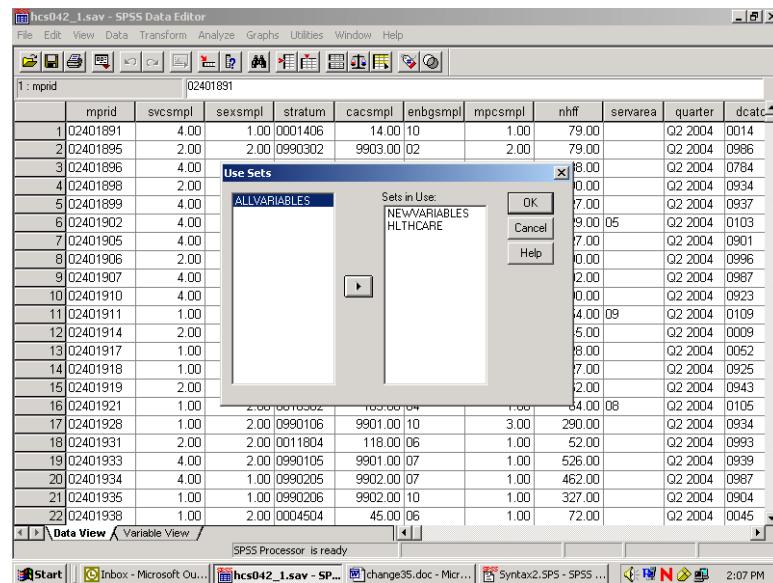

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...**, and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

Limiting the Number of Observations

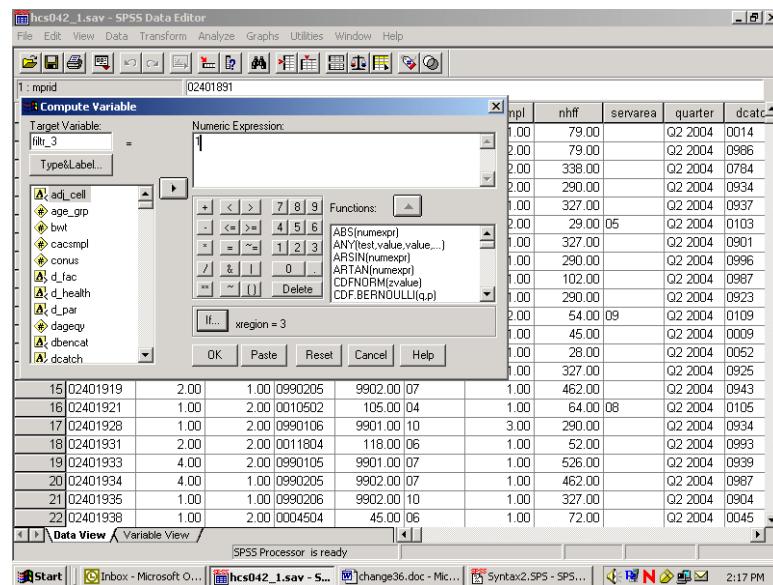

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file.

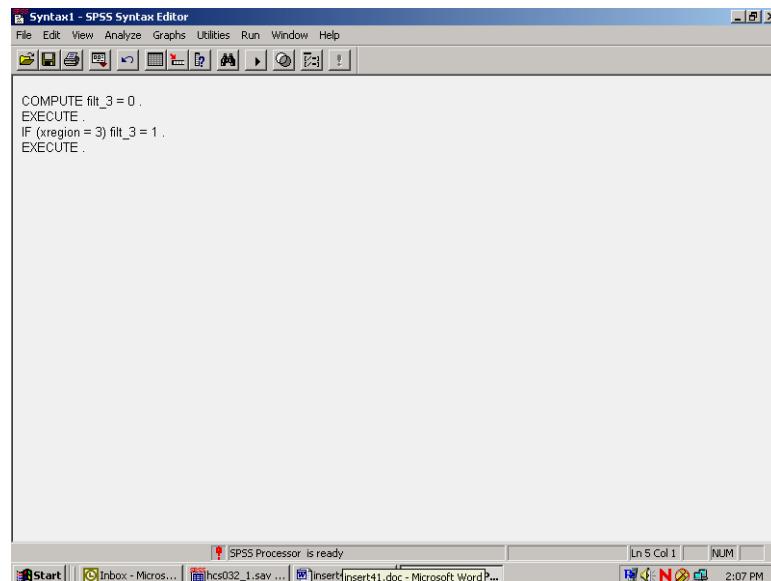

A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the Southeast, i.e., cases for which the variable **xregion = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the Southeast and 0 for all the other cases in the file. The logic is: if **xregion = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

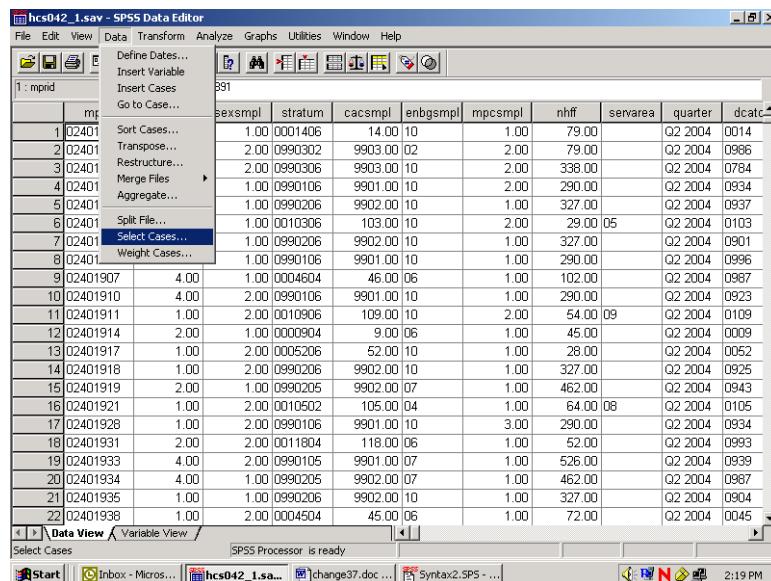

The screen that follows shows the syntax that was generated as you built the variable `filtr_3`.

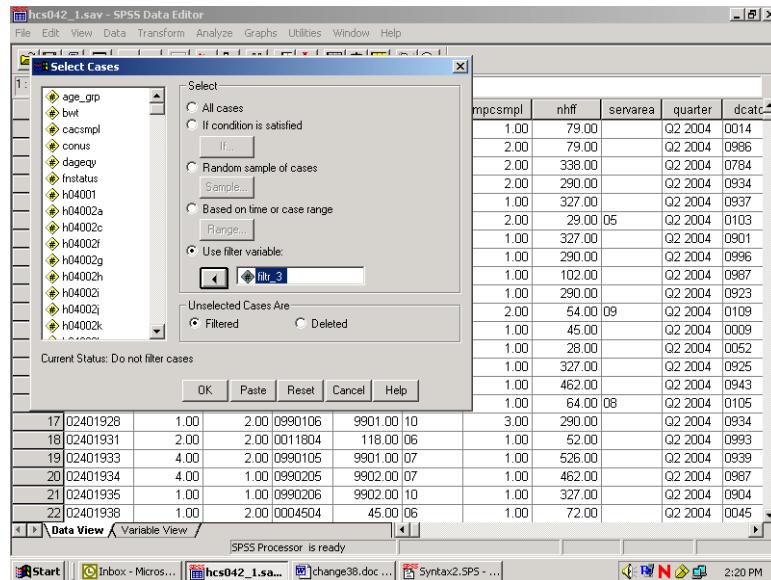

Once you build the filter variable, you can apply it for analyzing only those people from the Southeast.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

	mprid	svcsmpl	sexsmpl	stratum	cacsmp	enbgsmpl	mpcsmpl	nhff	servarea	quarter	dcats

15	02401919	2.00	1.00	0990205	9902.00	07	1.00	462.00	Q2 2004	0943		
16	02401921	1.00	2.00	0010502	105.00	04	1.00	64.00	08	Q2 2004	0105	
17	02401928	1.00	2.00	0990106	9901.00	10	3.00	290.00	Q2 2004	0934		
18	02401931	2.00	2.00	0011804	118.00	06	1.00	52.00	Q2 2004	0993		
19	02401933	4.00	2.00	0990105	9901.00	07	1.00	526.00	Q2 2004	0939		
20	02401934	4.00	1.00	0990205	9902.00	07	1.00	462.00	Q2 2004	0987		
21	02401935	1.00	1.00	0990206	9902.00	10	1.00	327.00	Q2 2004	0904		
22	02401938	1.00	2.00	0004504	45.00	06	1.00	72.00	Q2 2004	0045		

You can now produce tables for the subset of cases.

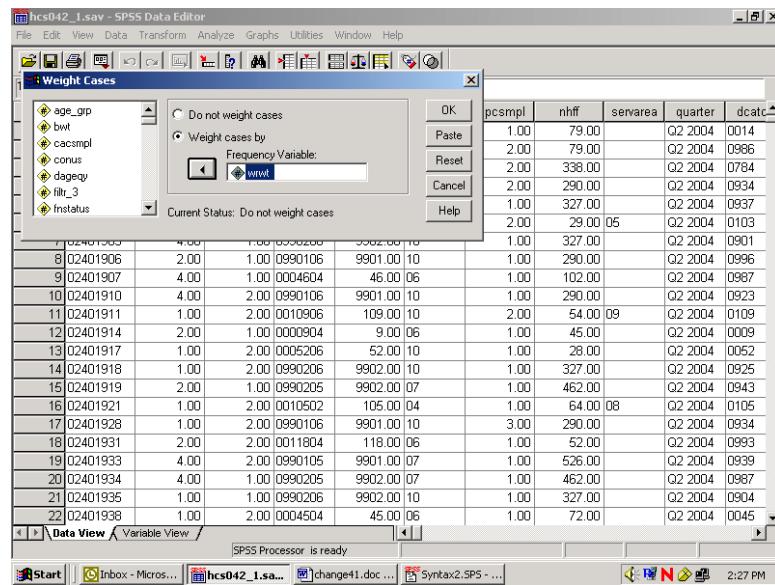

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see which filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

	mprid	mpcsmpl	nhff	servarea	quarter	dcats					
17	02401928	1.00	2.00	0990106	9901.00	10	3.00	290.00	Q2 2004	0934	
18	02401931	2.00	2.00	0011804	118.00	06	1.00	52.00	Q2 2004	0993	
19	02401933	4.00	2.00	0990105	9901.00	07	1.00	526.00	Q2 2004	0939

22	02401938	1.00	2.00	0004504	45.00	06	1.00	72.00	Q2 2004	0045	

Weighting Data

The data file includes a weighting variable, **WRWT**, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H04014, H04054, H04075, cacsmpl, xbnfgrp, xsexa, xregion, xenrlmt, wrwt, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

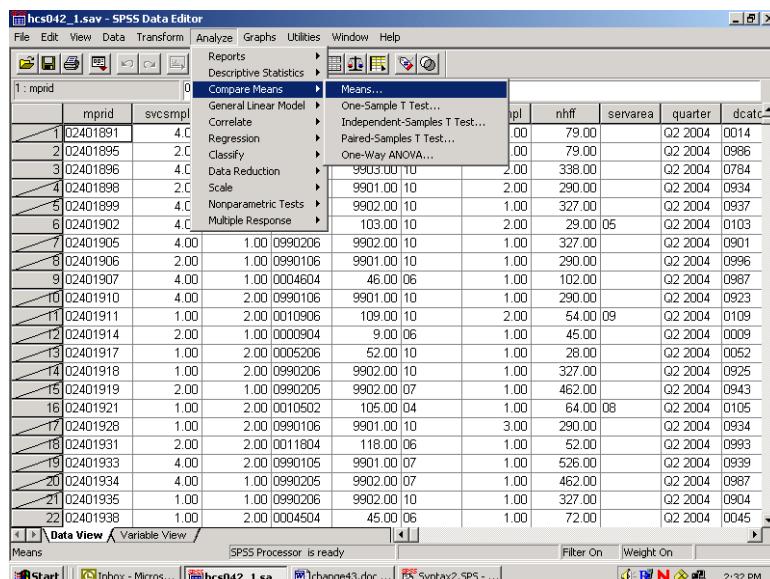

As an example, suppose you want to analyze the health care variables and you want to focus on the Southeast (**xregion** = 3). Suppose you are also interested in overall differences in the mean rating for care received as it relates to the beneficiary's self-evaluation of his health for the Southeast region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H04054** – rating of the health plan, and **H04075** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

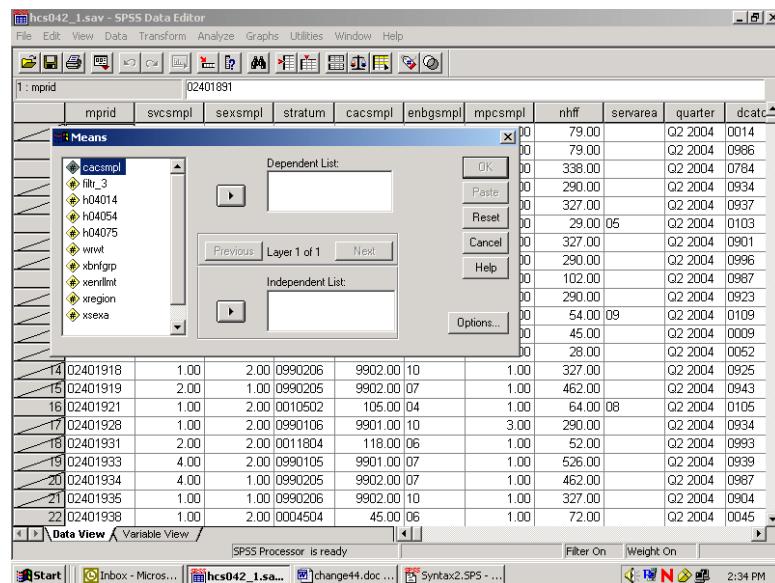

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **wrwt**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the Southeast.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **wrwt**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

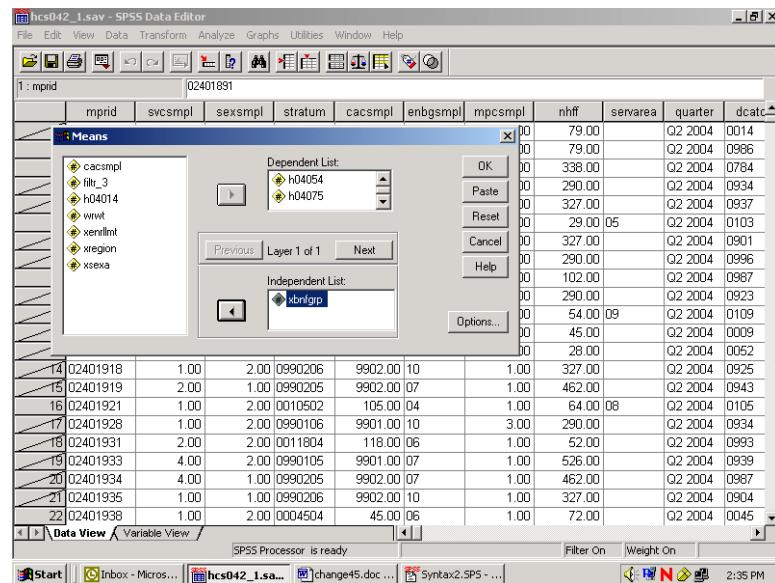

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

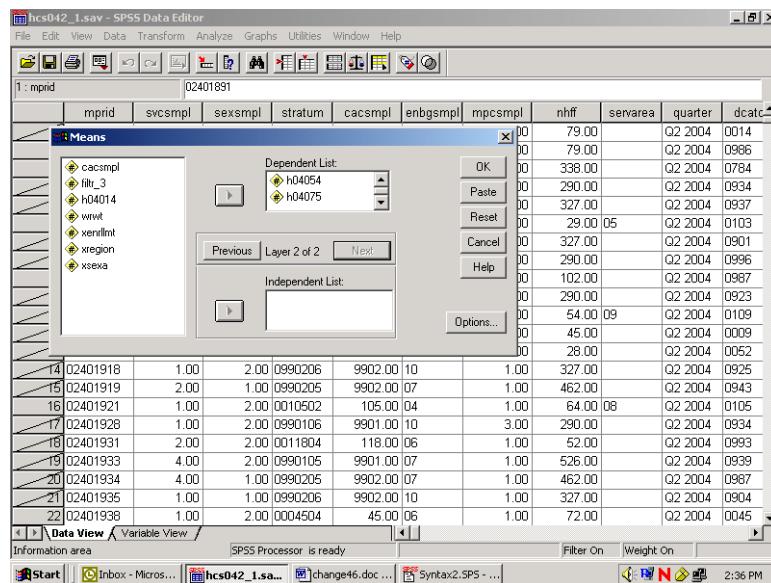

The dialog box for the Means procedure will open as in the following screen:

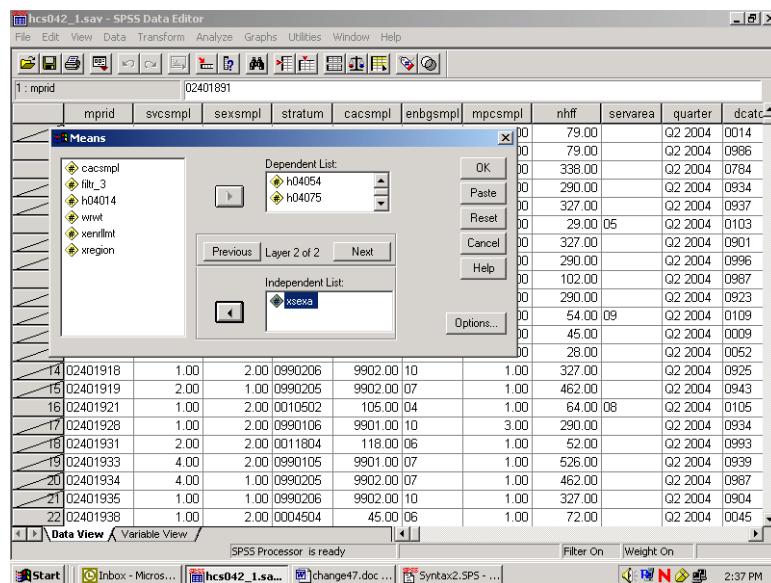

Move the health care variables **H04054** and **H04075**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

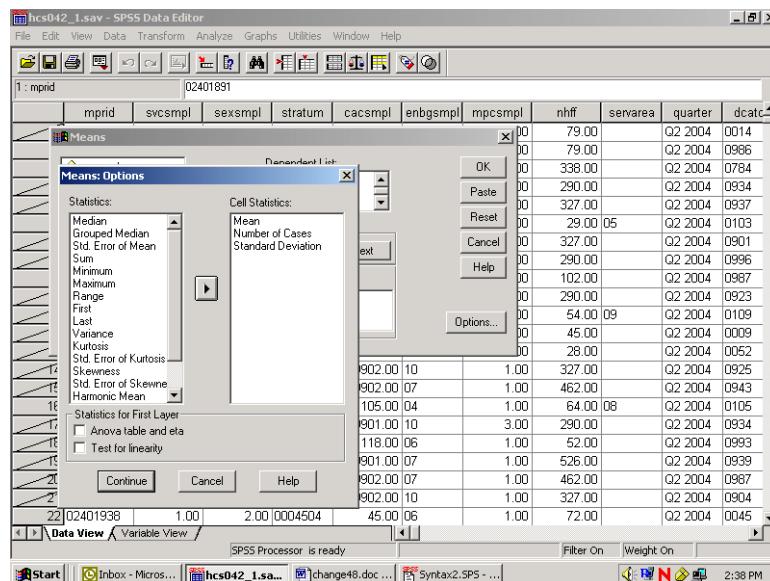

Click on **Next** in the center of the box to create a second layer. The following screen will open:

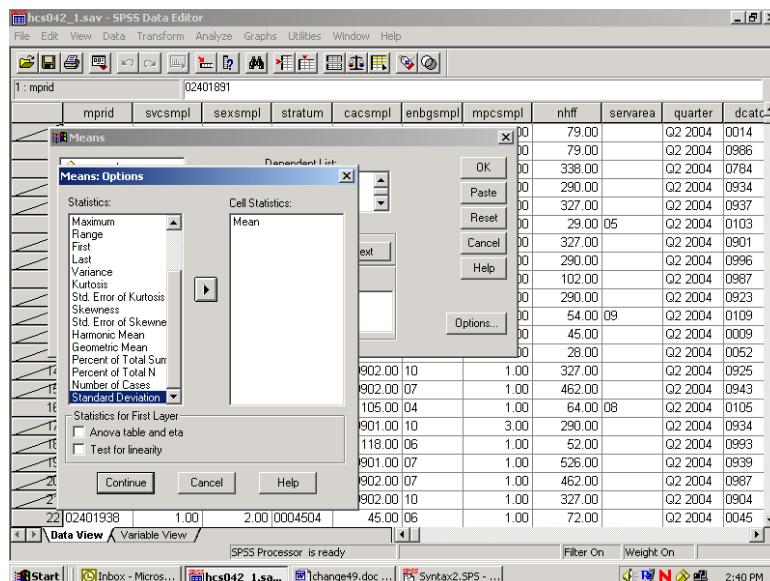

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsexa** from the variable list on the left into the box under **Independent List**. **Xsexa** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

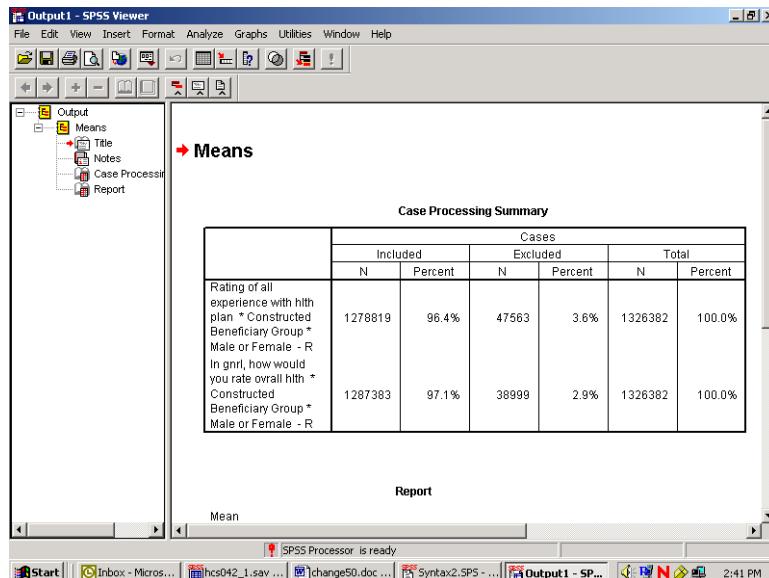

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

The screenshot shows the SPSS Viewer window with the title bar "Output1 - SPSS Viewer". The left pane displays a tree structure with "Output" selected, followed by "Means", "Title", "Notes", "Case Processor", and "Report". The right pane contains a section titled "Means" with a sub-section "Case Processing Summary". A table titled "Case Processing Summary" is displayed:

	Cases					
	Included		Excluded		Total	
N	Percent	N	Percent	N	Percent	
Rating of all experience with health plan * Constructed Beneficiary Group * Male or Female - R	1278819	96.4%	47563	3.6%	1326382	100.0%
In genl, how would you rate overall health * Constructed Beneficiary Group * Male or Female - R	1287383	97.1%	38999	2.9%	1326382	100.0%

Below the table, there is a "Report" section with a "Mean" button. The status bar at the bottom indicates "1 items selected (0 hidden/collapsed)" and "SPSS Processor is ready". The taskbar shows various open files including "change51.doc...", "Syntax2.SPS...", and "Output1 - SP...".

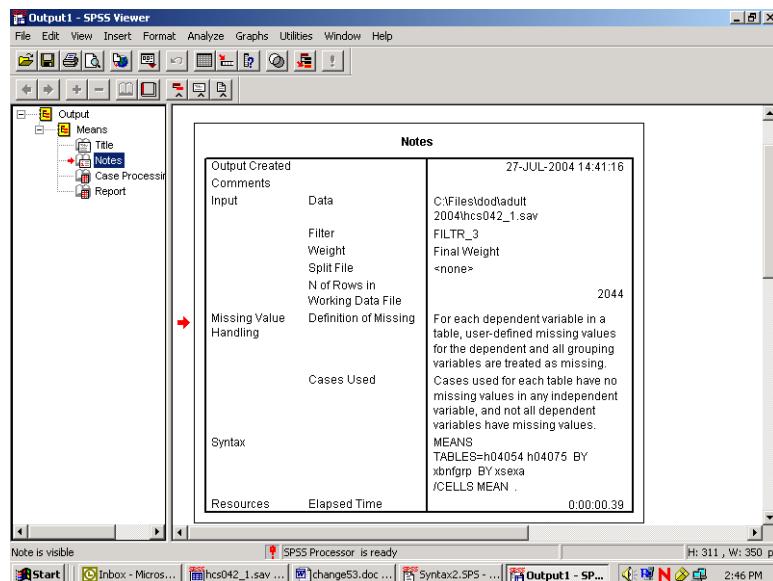

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

The screenshot shows the SPSS Viewer window with the title bar "Output1 - SPSS Viewer". The left pane displays a tree structure with "Output" selected, followed by "Means", "Title", "Notes", "Case Processor", and "Report". The right pane contains a section titled "Mean Rating of Health Plan w/ Health Assessment" with a sub-section "Case Processing Summary". A table titled "Case Processing Summary" is displayed:

	Cases					
	Included		Excluded		Total	
N	Percent	N	Percent	N	Percent	
Rating of all experience with health plan * Constructed Beneficiary Group * Male or Female - R	1278819	96.4%	47563	3.6%	1326382	100.0%
In genl, how would you rate overall health * Constructed Beneficiary Group * Male or Female - R	1287383	97.1%	38999	2.9%	1326382	100.0%

Below the table, there is a "Report" section with a "Mean" button. The status bar at the bottom indicates "1 items selected (0 hidden/collapsed)" and "SPSS Processor is ready". The taskbar shows various open files including "change52.doc...", "Syntax2.SPS...", and "Output1 - SP...".

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

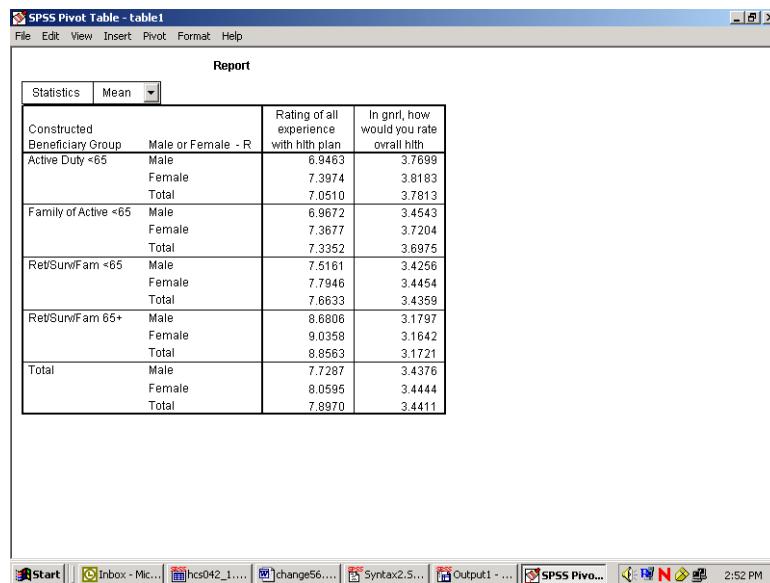

The screenshot shows the SPSS Viewer window with the title "Output1 - SPSS Viewer". The menu bar includes File, Edit, View, Insert, Format, Analyze, Graphs, Utilities, Window, and Help. The toolbar contains various icons for file operations. On the left, the "Output" tree view shows "Mean", "Title", "Notes", "Case Processor", and "Report". The main area displays a "Report" titled "Mean" with a table of data. A context menu is open over the last cell of the table, listing options: Cut, Copy, Copy objects, Paste After, Create/Edit Autoscript, Export..., and "SPSS Pivot Table Object...". A red arrow points to the "SPSS Pivot Table Object..." option.

Report		What's This?
Mean		
Constructed Beneficiary Group	Male or Female - R	Rating of all experience with health plan
Active Duty <65	Male	6.94
	Female	7.39
	Total	7.05
Family of Active <65	Male	6.96
	Female	7.36
	Total	7.33
Ret/Surv/Fam <65	Male	7.51
	Female	7.7946
	Total	7.6633
Ret/Surv/Fam 65+	Male	8.6806
	Female	9.0358
	Total	8.8563
Total	Male	7.7287
	Female	8.0595
	Total	7.8970

Select **SPSS Pivot Table Object** and **Open** as pictured below:

This screenshot is identical to the one above, showing the SPSS Viewer window with the "SPSS Pivot Table Object..." option selected in the context menu. A red arrow points to the "Edit" option in the submenu.

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

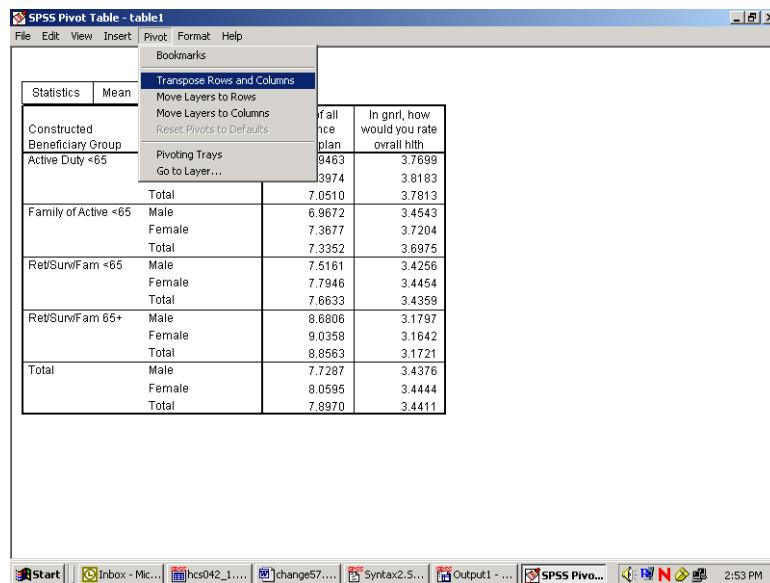

The screenshot shows the SPSS Pivot Table interface with a menu bar (File, Edit, View, Insert, Pivot, Format, Help) and a toolbar below it. The main window displays a table titled 'Report' with three tabs: Statistics, Mean (selected), and Custom. The table has 'Constructed Beneficiary Group' as the row dimension and 'Male or Female - R' as the column dimension. The columns represent 'Rating of all experience with hth plan' and 'In grnl, how would you rate overall hth'. The data includes sub-totals for Active Duty <65, Family of Active <65, Ret/Surv/Fam <65, Ret/Surv/Fam 65+, and a final Total row.

Report			
		Statistics	Mean
Constructed Beneficiary Group	Male or Female - R	Rating of all experience with hth plan	In grnl, how would you rate overall hth
Active Duty <65	Male	6.9463	3.7699
	Female	7.3974	3.8183
	Total	7.0510	3.7813
Family of Active <65	Male	6.9672	3.4543
	Female	7.3677	3.7204
	Total	7.3352	3.6975
Ret/Surv/Fam <65	Male	7.5161	3.4256
	Female	7.7946	3.4454
	Total	7.6633	3.4359
Ret/Surv/Fam 65+	Male	8.6806	3.1797
	Female	9.0358	3.1642
	Total	8.8563	3.1721
Total	Male	7.7287	3.4376
	Female	8.0595	3.4444
	Total	7.8970	3.4411

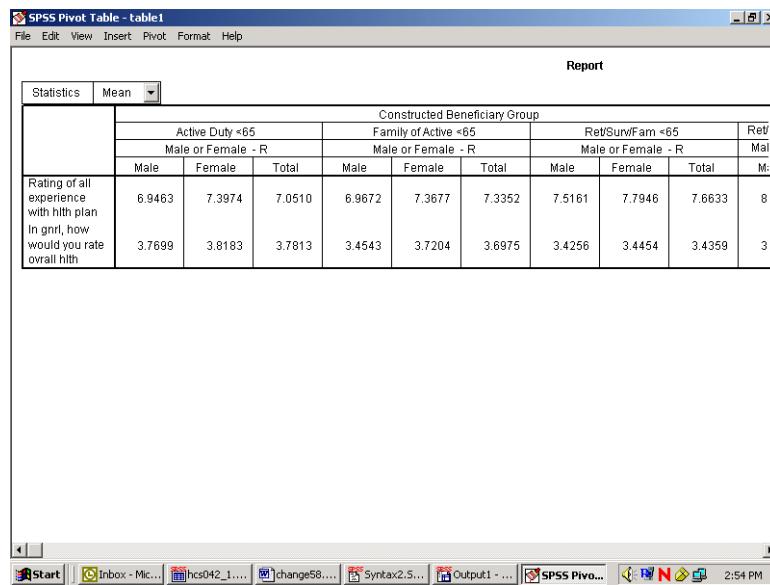

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

This screenshot is identical to the one above, but the 'Pivot' menu is open, and the 'Transpose Rows and Columns' option is highlighted with a gray background. The rest of the menu items (Bookmarks, Move Layers to Rows, Move Layers to Columns, Reset Pivot to Defaults, Pivoting Trays, Go to Layer...) are visible but not selected.

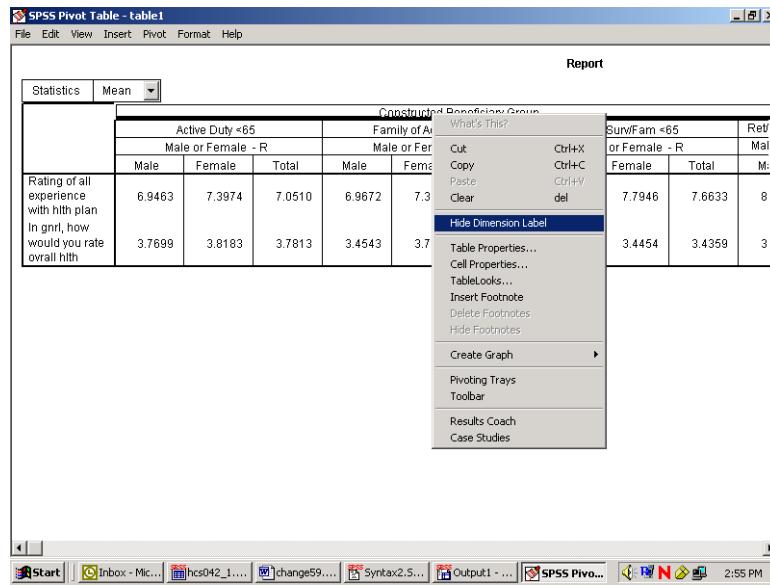

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

The screenshot shows the SPSS Pivot Table interface with a report titled "Report". The table has three main sections: "Constructed Beneficiary Group", "Active Duty <65", and "Family of Active <65". The "Constructed Beneficiary Group" section contains sub-sections for "Male or Female - R" and "Male or Female - M". The "Active Duty <65" and "Family of Active <65" sections also have sub-sections for "Male or Female - R" and "Male or Female - M". The table includes columns for Male, Female, Total, and various summary statistics like Mean and Standard Deviation.

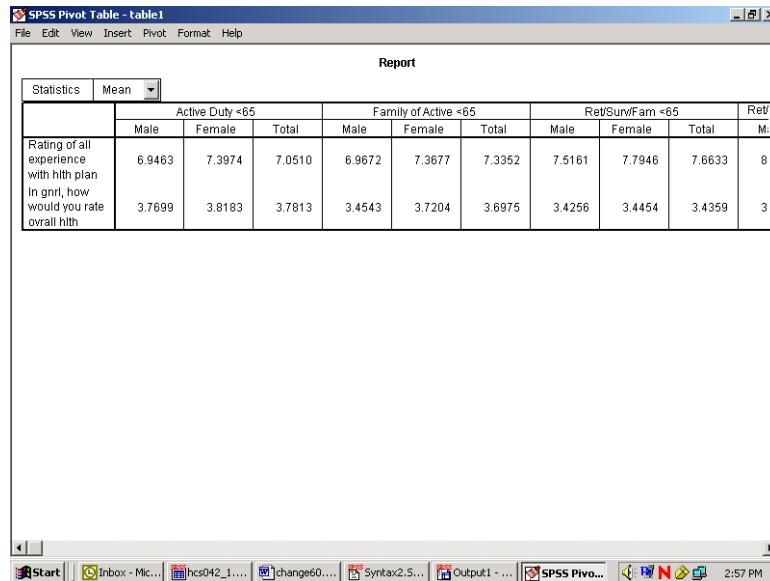

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

The screenshot shows the same SPSS Pivot Table interface as above, but with a context menu open over the "Constructed Beneficiary Group" label in the first column of the "Constructed Beneficiary Group" section. The menu is titled "What's This?" and includes options like Cut, Copy, Paste, Clear, Hide Dimension Label, Table Properties..., Cell Properties..., Table Looks..., Insert Footnote, Delete Footnote, Hide Footnote, Create Graph, Pivoting Trays, Toolbar, Results Coach, and Case Studies. The "Hide Dimension Label" option is highlighted.

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

The screenshot shows the SPSS Pivot Table interface with a title bar "SPSS Pivot Table - table1". The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. A toolbar with various icons is at the top. The main area displays a table titled "Report" with three columns: Statistics, Mean, and a dropdown menu. The table has four rows: a header row with "Active Duty <65", "Family of Active <65", "RetSurv/Fam <65", and "RetFam <65"; a second row with sub-labels "Male", "Female", and "Total"; and two data rows for "Rating of all experience with hth plan" and "In gmtl, how would you rate overall hth". The data values are as follows:

	Active Duty <65			Family of Active <65			RetSurv/Fam <65			RetFam <65
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M
Rating of all experience with hth plan	6.9463	7.3974	7.0510	6.9672	7.3677	7.3352	7.5161	7.7946	7.6633	8
In gmtl, how would you rate overall hth	3.7699	3.8183	3.7813	3.4543	3.7204	3.6975	3.4256	3.4454	3.4359	3

The status bar at the bottom shows "2:57 PM".

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the word, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

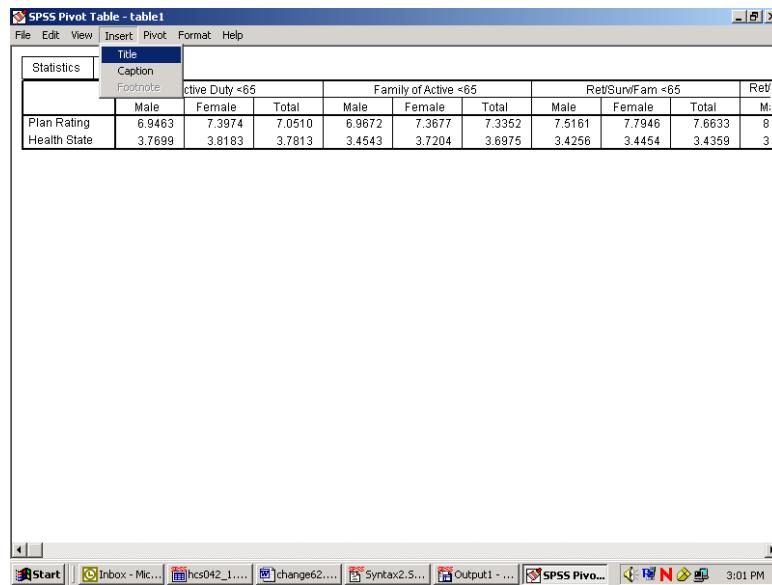

The screenshot shows the SPSS Pivot Table interface with a title bar "SPSS Pivot Table - table1". The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. A toolbar with various icons is at the top. The main area displays a table with three columns: Statistics, Mean, and a dropdown menu. The table has four rows: a header row with "Active Duty <65", "Family of Active <65", "RetSurv/Fam <65", and "RetFam <65"; a second row with sub-labels "Male", "Female", and "Total"; and two data rows for "Plan Rating" and "Health State". The data values are as follows:

	Active Duty <65			Family of Active <65			RetSurv/Fam <65			RetFam <65
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M
Plan Rating	6.9463	7.3974	7.0510	6.9672	7.3677	7.3352	7.5161	7.7946	7.6633	8
Health State	3.7699	3.8183	3.7813	3.4543	3.7204	3.6975	3.4256	3.4454	3.4359	3

The status bar at the bottom shows "3:00 PM".

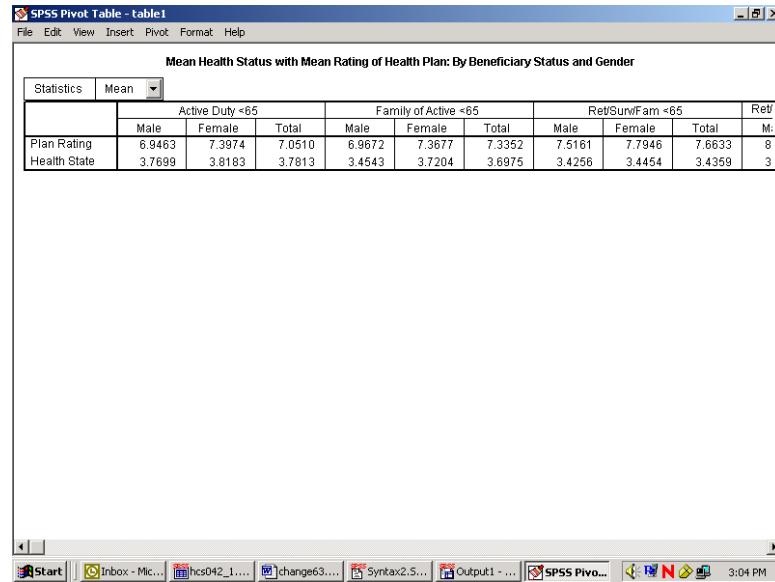

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Open the **Insert** menu and choose **Title** as in the following:

This screenshot shows the SPSS Pivot Table interface with a table titled "Title". The table has three columns: "Active Duty <65", "Family of Active <65", and "Ret/Sun/Fam <65". Each column contains three rows: "Male", "Female", and "Total". The data values are as follows:

	Active Duty <65	Family of Active <65	Ret/Sun/Fam <65							
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M.
Plan Rating	6.9463	7.3974	7.0510	6.9872	7.3677	7.3352	7.5161	7.7946	7.6633	8
Health State	3.7699	3.8183	3.7813	3.4543	3.7204	3.6975	3.4256	3.4454	3.4359	3

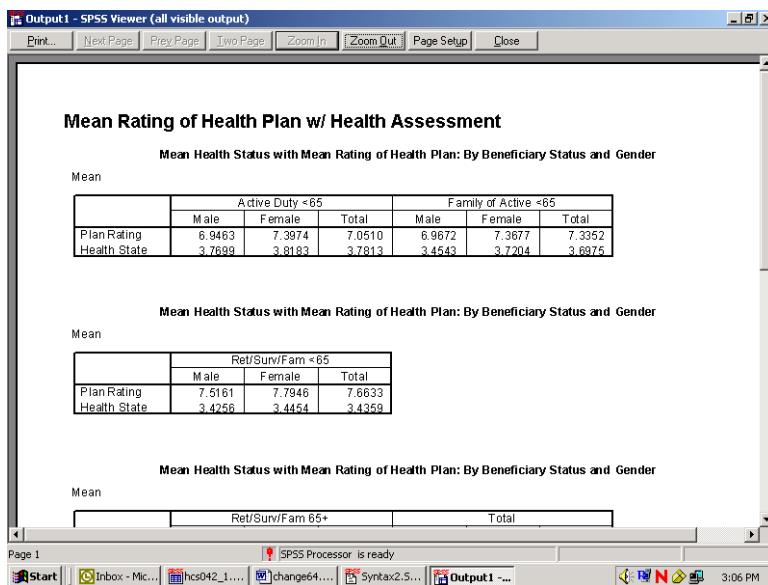

Type in a new title for the table. The final result appears below.

This screenshot shows the SPSS Pivot Table interface with a table titled "Mean Health Status with Mean Rating of Health Plan: By Beneficiary Status and Gender". The table has three columns: "Active Duty <65", "Family of Active <65", and "Ret/Sun/Fam <65". Each column contains three rows: "Male", "Female", and "Total". The data values are identical to the previous table:

	Active Duty <65	Family of Active <65	Ret/Sun/Fam <65							
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M.
Plan Rating	6.9463	7.3974	7.0510	6.9872	7.3677	7.3352	7.5161	7.7946	7.6633	8
Health State	3.7699	3.8183	3.7813	3.4543	3.7204	3.6975	3.4256	3.4454	3.4359	3

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

Calculating Percents

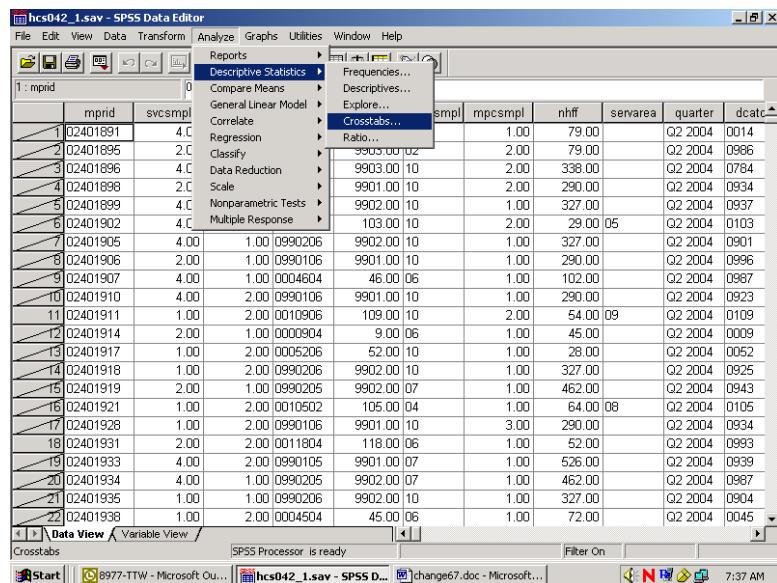

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

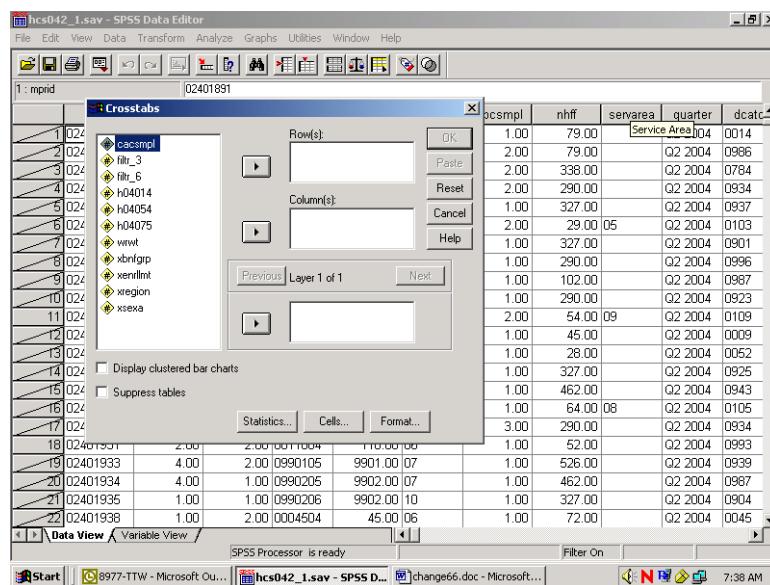

For example, suppose you want to see the percentage of people in the Southwest catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmp1** – the catchment area, and **H04014** – the question variable. The cases for the analysis are from the Southwest only.

The first task is to build a new filter variable, assigning **1** to the variable when **xregion = 6**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the Southwest are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

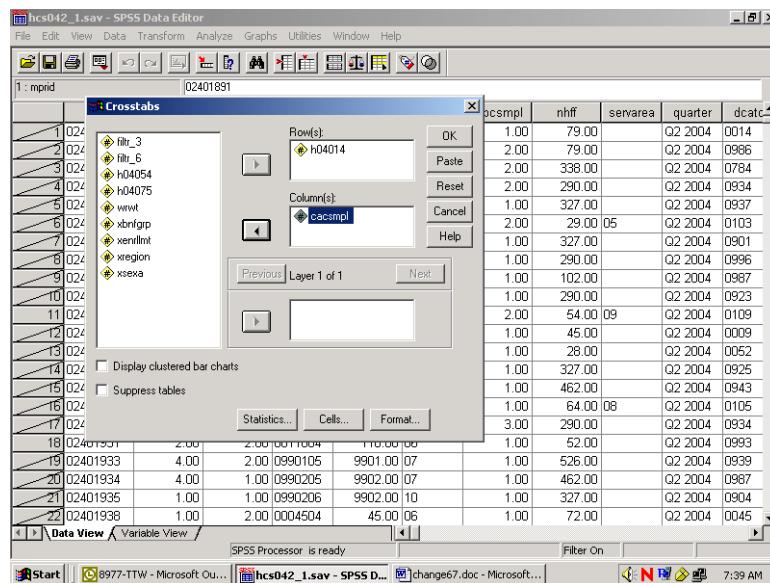

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

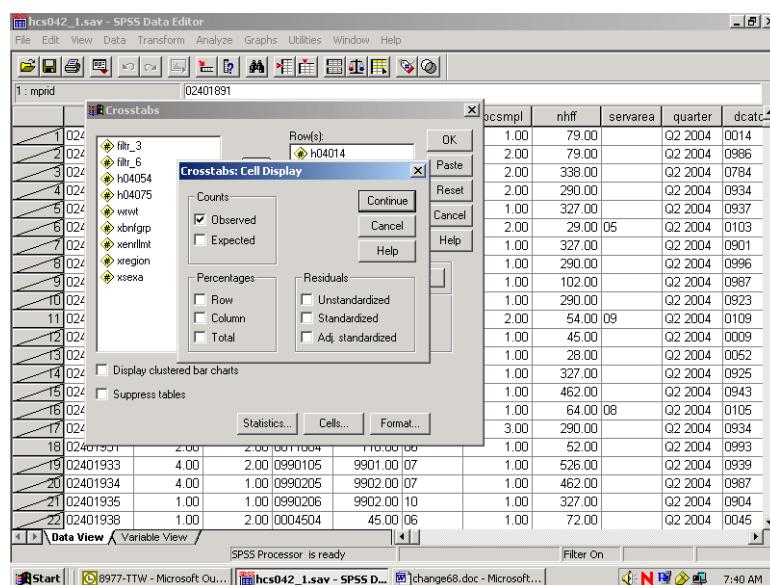

Move **H04014** from the variable list on the left into the box marked **Row(s):**, and move the variable **cacsmpl** into the box marked **Column(s):**. The screen will resemble the following:

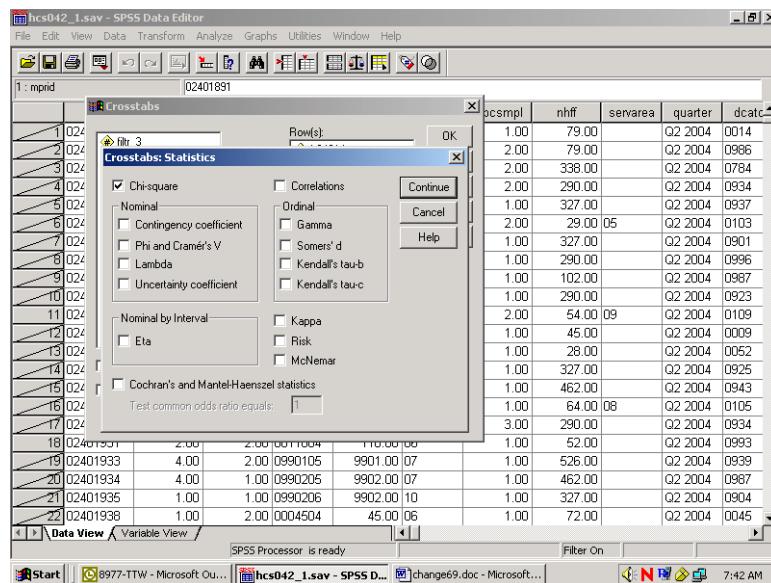

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

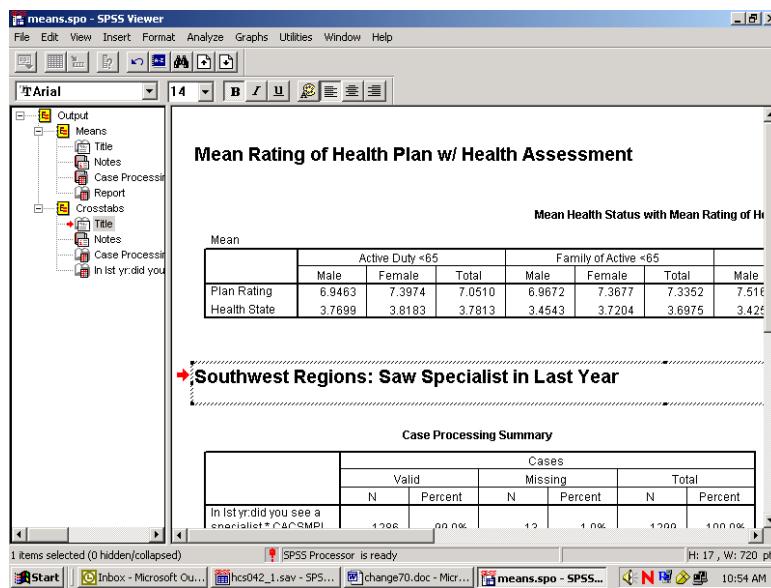

Under **Counts**, **Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output—in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

		CACSMPL - Catchment Area					
		Little Rock AFB	Barksdale AFB	Ft. Polk	Tinker AFB	Ft. Sill	Brooke AMC-Ft Sam Houston
In Ist yr:did you see a specialist	Yes	Count 46	47	54	59	51	94
	No	Count 47	39	43	61	45	50
Total		Count 93	86	97	120	96	144
		% within CACSMPL - Catchment Area 100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

		CACSMPL - Catchment Area					
		Little Rock AFB	Barksdale AFB	Ft. Polk	Tinker AFB	Ft. Sill	Brooke AMC-Ft Sam Houston
In Ist yr:did you see a specialist	Yes	Count 46	47	54	59	51	94
	No	Count 47	39	43	61	45	50
Total		Count 93	86	97	120	96	144
		% within CACSMPL - Catchment Area 100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The pivoting tool will appear:

The screenshot shows the SPSS Pivot Table interface. At the top is the menu bar: File, Edit, View, Insert, Pivot, Format, Help. Below the menu is a title bar: SPSS Pivot Table - table2. The main area displays a crosstabulation titled "In Ist yr did you see a specialist * CACSMPL - Catchment Area Crosstabulation". The table has "In Ist yr did you see a specialist" as the row variable and "CACSMPL - Catchment Area" as the column variable. The columns represent catchment areas: Little Rock AFB, Barksdale AFB, Ft. Polk, Tinker AFB, Ft. Sill, and Brooke AMC-Ft Sam Houston. The rows represent responses: Yes, No, and Total. The table includes counts and percentages for each cell.

Below the table is the "Pivoting Trays2" dialog box. It contains four trays: "Layers" (with icons for Rows, Columns, and Cells), "Rows" (with icons for Rows, Columns, and Cells), "Columns" (with icons for Rows, Columns, and Cells), and "Cells" (with icons for Rows, Columns, and Cells). Icons for "Statistics" and "Variables" are also present.

The taskbar at the bottom shows several open files: hcs042_1.sav, change73.doc, means.spo, and SPSS Pivot T... The system tray shows the date and time: 12:18 PM.

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H04014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmpl** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

The screenshot shows the SPSS Pivot Table interface with the same crosstabulation table as the previous screen. The "Pivoting Trays2" dialog box is still visible. The table has been reformatted. The columns now represent the variables: "Little Rock AFB", "% within CACSMPL - Catchment Area", "Barksdale AFB", "% within CACSMPL - Catchment Area", "Ft. Polk", and "% within CACSMPL - Catchment Area". The rows remain the same: Yes, No, and Total. The table includes counts and percentages for each cell.

The taskbar at the bottom shows several open files: hcs042_1.sav, change74.doc, means.spo, and SPSS Pivot T... The system tray shows the date and time: 12:19 PM.

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmp1**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

		Southwest Region: Catchment Areas					
		Little Rock AFB		Barksdale AFB		Ft. Polk	
		Count	Percent	Count	Percent	Count	Percent
In 1st yr:did you see a specialist	Yes	46	49.5%	47	54.7%	54	55.7%
	No	47	50.5%	39	45.3%	43	44.3%
	Total	93	100.0%	86	100.0%	97	100.0%

Next, notice that the label for **H04014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

		Southwest Region: Catchment Areas					
		Little Rock AFB		Barksdale AFB		Ft. Polk	
		Count	Percent	Count	Percent	Count	Percent
Saw Specialist in Last Year	Yes	46	49.5%	47	54.7%	54	55.7%
	No	47	50.5%	39	45.3%	43	44.3%
	Total	93	100.0%	86	100.0%	97	100.0%

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H04014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlmt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsexxa**, among the groupings. **Xsexxa** is the **Layer** variable. You want to remain in the Southwest region, using **filtr_6** as the filter variable. The cases will be weighted by **wrwt**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

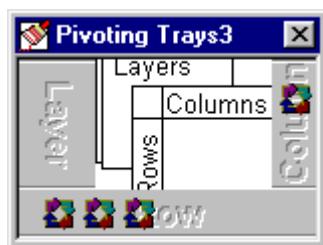

Do the following:

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

				Enrollment in TRICARE Prime			
				Active Duty - under 65	Enrolled - under 65	Not enrolled - under 65	Not enrolled - 65 or over
Male or Female - R	In Ist yr did you see a specialist	Yes	Count	53981	25604	8933	25301
Male			% within Enrollment in TRICARE Prime	41.6%	53.2%	59.5%	71.5%
		No	Count	75919	22532	6081	10099
			% within Enrollment in TRICARE Prime	58.4%	46.8%	40.5%	28.5%
	Total		Count	129900	48136	15014	35400
			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%
Female	In Ist yr did you see a specialist	Yes	Count	16619	66771	10679	23167
			% within Enrollment in TRICARE Prime	39.5%	52.9%	69.4%	70.3%
		No	Count	25431	59526	4705	9782
			% within Enrollment in TRICARE Prime	60.5%	47.1%	30.6%	29.7%
	Total		Count	42050	126297	15384	32949
			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

The screenshot shows the SPSS Pivot Table interface. The main window displays a crosstabulation titled "In 1st yr did you see a specialist * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation". The table structure is as follows:

		Enrollment in TRICARE Prime						
		Active Duty - under 65		Enrolled - under 65		Not enrolled - under 65		
		Male or Female - R		Male or Female - R		Male or Female - R		
		Male	Female	Male	Female	Male	Female	
In 1st yr did you see a specialist	Yes	Count	53981	16618	25604	66771	8933	10679
		% within Enrollment in TRICARE Prime	41.6%	39.5%	53.2%	52.9%	59.5%	69.4%
	No	Count	75919	25431	22532	59526	6081	4705
		% within Enrollment in TRICARE Prime	58.4%	60.5%	46.8%	47.1%	40.5%	30.6%
Total		Count	129900	42050	48136	126297	15014	15384
		% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The "Pivoting Trays3" dialog box is open, showing the current dimensions: Rows, Columns, and Layers.

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

The screenshot shows the SPSS Pivot Table interface again. The main window displays the same crosstabulation table as before. The "Pivoting Trays3" dialog box is open, showing the current dimensions: Rows, Columns, and Layers. The data in the table has changed slightly due to the column reordering:

		Enrollment in TRICARE Prime					
		Active Duty - under 65		Enrolled - under 65		Male or Female - R	
		Male	Female	Male	Female	Male	Female
		% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	Count
In 1st yr did you see a specialist	Yes	41.6%	53981	39.5%	16618	53.2%	25604
	No	58.4%	75919	60.5%	25431	46.8%	22532
Total		100.0%	129900	100.0%	42050	100.0%	48136

Close the **Pivoting Trays** and hide the dimension label, **Male or Female - R**, in the table. Then, change the percent label to “Percent” and delete the label for **H04014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

		Enrollment in TRICARE Prime			
		Active Duty - under 65		Enrolled - under 65	
		Male	Female	Male	Female
		Count	Percent	Count	Percent
Yes		53981	41.6%	16619	39.5%
No		75919	58.4%	25431	60.5%
Total		129900	100.0%	42050	100.0%

The Print Preview, as in the view below, shows how the report will print.

		Enrollment in TRICARE Prime			
		Active Duty - under 65		Enrolled - under 65

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the 2004 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

To account for the sample design,¹ it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the Quarter II 2004 Adult HCSDB include the following variables:

- The stratum variable (ADJ_CELL) for the Taylor series linearization method
- Quarterly final weight (WRWT) and jackknife replicate weights (WRWT01 to WRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAAN™ (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.² The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

Taylor Series Linearization Method

For most sample designs (including the 2004 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual” to be issued February 2005.

To calculate variance estimates based on Taylor series linearization method with HCSDB’s stratified sampling design, both the stratum variable (ADJ_CELL) and the final weight (WRWT) specified for each data record are needed.

¹The 2004 HCSDB uses a stratified sampling design. For details, see “Health Care Survey of DoD Beneficiaries: 2004 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, November 2003.

²The latest version for SUDAAN 8.0 can be used for replication methods including jackknife variance estimation. SAS 8.0 also includes procedures for performing Taylor series utilization, but SUDAAN contains more options.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter II 2004 Adult HCSDB, the data file for adults must be sorted by ADJ_CELL before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is WRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H04015), among all beneficiaries in the past 12 months who saw a specialist (H04014=1) for each region (XREGION)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    H04014=1;  
  SUBGROUP    XREGION;  
  LEVELS      16;  
  VAR         H04015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H04056) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    XREGION = 3;  
  SUBGROUP    H04056 XENRLLMT;  
  LEVELS      3 5;  
  TABLES     H04056 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.

- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (WRWT01-WRWT60) for the 2004 Adult HCSDB in the Quarter II file. Construction of these weights is described in the Adult Technical Manual to be issued February 2005. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.5. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the 2004 Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H04015) by beneficiaries who went to a specialist in the past 12 months (H04014=1) for each region (XREGION). You would use WesVarPc as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the **Prep** menu, choose the **Import Data Files** screen and import all variables for the analysis. For this example, input H04015, and XREGION into the **Variables** box, WRWT01-WRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the **Subpop WesVarPC Data File** from the **Prep** menu: H04014=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H04015 as the **Analysis** variable, MEAN (H04015) as the **Compute Statistics**, and XREGION as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H04011 - Health plan: problem to get a personal doctor or nurse you are happy with						
Value	Unweighted		Weighted			
	Count	Percent	Count	Percent	Formatted Value	
.	583	4.06	285694.40	4.03	Did not answer	
A	8	0.06	5877.63	0.08	Invalid multiple responses	
N	1414	9.85	983214.10	13.87	Valid skip	
1	1913	13.32	852013.80	12.02	A big problem	
2	3047	21.22	1317109.00	18.58	A small problem	
3	7395	51.50	3645862.00	51.42	Not a problem	

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages “75 years and older” includes 849 respondents age 75 and older.

DAGEQY - Age at time of data collection					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
018 -- 034	4134	28.79	1629501.00	22.98	018--034
035 -- 044	3187	22.19	1223250.00	17.25	035--044
045 -- 054	2304	16.04	1134105.00	16.00	045--054
055 -- 064	2323	16.18	1365352.00	19.26	055--064
065 -- 074	1563	10.88	1098211.00	15.49	065--074
075 -- 094	849	5.91	639351.50	9.02	075 yrs and older

MPRID - Unique MPR Identifier					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
02401891 -- 09129699	14360	100.00	7089771.00	100.00	00000001--99999999

Health Care Survey of DoD Beneficiaries

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes **Go to Question 1**
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-2660

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Section 572, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

----- SURVEY STARTS HERE -----

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes Go to Question 2
- No Please give this questionnaire to the person addressed on the envelope.

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. Currently, are you covered by Medicare Part A?

Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. Currently, are you covered by Medicare Part B?

Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. Currently, are you covered by Medicare supplemental insurance? Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. Which health plan did you use for all or most of your health care in the last 12 months? MARK ONLY ONE.

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plans (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months
→ Go to Question 8

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months
- 6 up to 12 months
- 12 up to 24 months
- 2 up to 5 years
- 5 up to 10 years
- 10 or more years

----- YOUR PERSONAL DOCTOR, OR NURSE -----

The next questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant. Do you have one person you think of as your personal doctor or nurse?

- Yes
- No → Go to Question 15

9. Is this person a general doctor, a specialist doctor, a physician assistant, or a nurse?

- General doctor (Family practice or internal medicine)
- Specialist doctor
- Physician assistant
- Nurse
- I don't have a personal doctor or nurse

10. How many months or years have you been going to your personal doctor or nurse?

- Less than 6 months
- At least 6 months but less than 1 year
- At least 1 year but less than 2 years
- At least 2 years but less than 5 years
- 5 years or more
- I don't have a personal doctor or nurse

11. Do you have a physical or medical condition that seriously interferes with your ability to work, attend school, or manage your day-to-day activities?

- Yes
- No → Go to Question 13

12. Does your personal doctor or nurse understand how any health problems you have affect your day-to-day life?

- Yes
- No
- I don't have any health problems or I don't have a personal doctor or nurse.

13. Using any number from 0 to 10, where 0 is the worst personal doctor or nurse possible and 10 is the best personal doctor or nurse possible, what number would you use to rate your personal doctor or nurse?

- 0 Worst personal doctor or nurse possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best personal doctor or nurse possible
- I don't have a personal doctor or nurse.

14. Did you have the same personal doctor or nurse before you joined this health plan?

- Yes → Go to Question 16
- No

15. Since you joined your health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem
- A small problem
- Not a problem

--- GETTING HEALTH CARE FROM A SPECIALIST ---

When you answer the next questions, do not include dental visits.

16. **Specialists** are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes
 No → Go to Question 18

17. In the last 12 months, how much of a problem, if any, was it to see a specialist that you needed to see?

- A big problem
 A small problem
 Not a problem
 I didn't need to see a specialist in the last 12 months.

18. In the last 12 months, did you see a specialist?

- Yes
 No → Go to Question 22

19. In the last 12 months, how many times did you go to specialists for care for yourself?

- None → Go to Question 22
 1
 2
 3
 4
 5 to 9
 10 or more

20. We want to know your rating of the specialist you saw most often in the last 12 months. Using any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible, what number would you use to rate the specialist?

- 0 Worst specialist possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best specialist possible
 I didn't see a specialist in the last 12 months.

21. In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?

- Yes
 No
 I don't have a personal doctor or I didn't see a specialist in the last 12 months.

----- CALLING DOCTORS' OFFICES -----

22. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- Yes
 No → Go to Question 24

23. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

- Never
 Sometimes
 Usually
 Always
 I didn't call for help or advice during regular office hours in the last 12 months.

- YOUR HEALTHCARE IN THE LAST 12 MONTHS -

24. In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

- Yes
- No → Go to Question 27

25. In the last 12 months, when you needed care right away for an illness, injury, or condition, how often did you get care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I didn't need care right away for an illness, injury or condition in the last 12 months.

26. In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

- Same day
- 1 day
- 2 days
- 3 days
- 4-7 days
- 8-14 days
- 15 days or longer
- I didn't need care right away for an illness, injury or condition in the last 12 months.

27. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for health care.

In the last 12 months, not counting the times you needed health care right away, did you make any appointments with a doctor or other health care provider for health care?

- Yes
- No → Go to Question 30

28. In the last 12 months, not counting times you needed health care right away, how often did you get an appointment for health care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I had no appointments in the last 12 months

29. In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?

- Same day
- 1 day
- 2-3 days
- 4-7 days
- 8-14 days
- 15-30 days
- 31 days or longer
- I had no appointments in the last 12 months

30. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

- None
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

31. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

- None → Go to Question 47
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

32. In the last 12 months, did you or a doctor believe you needed any care, tests or treatment?

- Yes
- No → Go to Question 34

33. In the last 12 months, how much of a problem, if any, was it to get the care, tests or treatment you or a doctor believed necessary?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

34. In the last 12 months, did you need approval from your health plan for any care, tests or treatment?

- Yes
- No → Go to Question 36

35. In the last 12 months, how much of a problem, if any, were delays in health care while you waited for approval from your health plan?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

36. In the last 12 months, how often were you taken to the exam room within 15 minutes of your appointment?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

37. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

38. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

39. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

40. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

41. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

42. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

43. We want to know how you, your doctors, and other health providers make decisions about your health care.

In the last 12 months, were any decisions made about your health care?

- Yes
- No → Go to Question 46

44. In the last 12 months, how often were you involved as much as you wanted in these decisions about your health care?

- Never
- Sometimes
- Usually
- Always
- No decisions were made about my health care in the last 12 months.

45. In the last 12 months, how much of a problem, if any, was it to get your doctors or other health providers to agree with you on the best way to manage your health conditions or problems?

- A big problem
- A small problem
- Not a problem
- No decisions were made about my health care in the last 12 months

46. Using any number from 0 to 10 where 0 is the worst health care possible, and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?

- 0 Worst healthcare possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best healthcare possible
- I had no visits in the last 12 months.

47. In the last 12 months, where did you go most often for your health care? MARK ONLY ONE ANSWER.

- A military facility - This includes: Military clinic, Military hospital, PRIMUS clinic, NAVCARE clinic
- A civilian facility - This includes: Doctor's office, Clinic, Hospital, Civilian TRICARE contractor
- Uniformed Services Family Health Plan facility (USFHP)
- Veterans Affairs (VA) clinic or hospital
- I went to none of the listed types of facilities in the last 12 months.

48. In the last 12 months, did you have a health problem for which you needed special medical equipment, such as a cane, wheelchair, or oxygen equipment?

- Yes
- No → Go to Question 50

49. In the last 12 months, how much of a problem, if any, was it to get the special medical equipment you needed through your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't need to get any special medical equipment in the last 12 months.

50. In the last 12 months, did you have any health problems that needed special therapy, such as physical, occupational, or speech therapy?

- Yes
- No → Go to Question 52

51. In the last 12 months, how much of a problem, if any, was it to get the special therapy you needed through your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't need special therapy in the last 12 months

52. **Home health care or assistance** means home nursing, help with bathing or dressing, and help with basic household tasks.

In the last 12 months, did you need someone to come into your home to give you home health care or assistance?

- Yes
- No → Go to Question 54

53. In the last 12 months, how much of a problem, if any, was it to get the care or assistance you needed through your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't need home health care or assistance in the last 12 months

----- TRICARE'S CIVILIAN NETWORK -----

The following questions ask about your experiences with the TRICARE civilian provider network. TRICARE, including TRICARE Prime and Extra, is the health care system of the Department of Defense that provides care for active duty and retired military personnel and their dependents. TRICARE includes the hospitals, clinics and pharmacies of the three services, supplemented by a civilian network.

The TRICARE civilian provider network is made up of the doctors, clinics, hospitals and other health care providers who are part of DoD's preferred provider pool. The next six questions refer to health services you received from the civilian network.

54. In the past 12 months, how much of your health care did you receive from the TRICARE civilian provider network?

- All of my healthcare
- Most of my healthcare
- Some of my healthcare
- None of my healthcare
- I did not need healthcare in the past 12 months
→ Go to Question 60

55. In the past 12 months, how much of a problem was it to get the health care you wanted from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to get healthcare from the civilian network

56. **A personal doctor or nurse** is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

In the past 12 months, how much of a problem was it to find a conveniently located personal doctor or nurse from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a personal doctor from the civilian network

57. In the past 12 months, how much of a problem was it to find a conveniently located lab or x-ray facility in the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a lab or x-ray facility in the civilian network

58. **Specialists** are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the past 12 months, how much of a problem was it to find a conveniently located specialist from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a specialist in the civilian network.

59. In the past 12 months, did you learn that a doctor whom you wanted to see had left the TRICARE civilian provider network?

- Yes
- No
- I did not want to see any network doctors

----- YOUR HEALTH PLAN -----

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 5.

60. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you. In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes
- No → Go to Question 64
- Don't know → Go to Question 64

61. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

62. In the last 12 months, how often did your health plan handle your claims correctly?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

63. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

64. In the last 12 months, did you look for any information about how your health plan works in written material or on the Internet?

- Yes
- No → Go to Question 66

65. In the last 12 months, how much of a problem, if any, was it to find or understand this information?

- A big problem
- A small problem
- Not a problem
- I didn't look for information from my health plan in the last 12 months

66. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes
- No → Go to Question 68

67. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem
- A small problem
- Not a problem
- I didn't call my health plan's customer service in the last 12 months.

68. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes
- No → Go to Question 72

69. How long did it take for the health plan to resolve your complaint?

- Same day
- 2-7 days
- 8-14 days
- 15-21 days
- More than 21 days
- I am still waiting for it to be settled.
→ Go to Question 71
- I haven't called or written with a complaint or problem in the last 12 months.

70. Was your complaint or problem settled to your satisfaction?

- Yes → Go to Question 72
- No → Go to Question 71
- I haven't called or written with a complaint or problem in the last 12 months.

71. How long have you been waiting for your health plan to resolve your complaint?

- 1-7 days
- 8-14 days
- 15-21 days
- More than 21 days
- I haven't called or written with a complaint or problem in the last 12 months.

72. In the last 12 months, did you have to fill out any paperwork for your health plan?

- Yes
- No → Go to Question 74

73. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't have any experiences with paperwork for my health plan in the last 12 months.

74. Using any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible, what number would you use to rate your health plan?

- 0 Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health plan possible

75. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime

----- PREVENTIVE CARE -----

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventive care.

76. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

77. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

78. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a cholesterol screening

79. When did you last have a flu shot?

- Less than 12 months ago
- 1 - 2 years ago
- More than 2 years ago
- Never had a flu shot

80. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes
- No → Go to Question 86
- Don't know → Go to Question 86

81. Do you now smoke everyday, some days or not at all?

- Every day → Go to Question 83
- Some days → Go to Question 83
- Not at all → Go to Question 82
- Don't know → Go to Question 86

82. How long has it been since you quit smoking cigarettes?

- Less than 12 months → Go to Question 83
- 12 months or more → Go to Question 86
- Don't know → Go to Question 86

83. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

84. On how many visits was medication recommended or discussed to assist you with quitting smoking (for example: nicotine gum, patch, nasal spray, inhaler, prescription medication)?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

85. On how many visits did your doctor or health provider recommend or discuss methods and strategies (other than medication) to assist you with quitting smoking?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

86. Are you male or female?

- Male → Go to Question 87
- Female → Go to Question 88

87. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a prostate gland examination

Go to Question 95

88. When did you last have a Pap smear test?

- Within the last 12 months
- 1 to 3 years ago
- More than 3 but less than 5 years ago
- 5 or more years ago
- Never had a Pap smear test

89. Are you under age 40?

- Yes → Go to Question 92
- No

90. When was the last time your breasts were checked by mammography?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 years ago but less than 5 years ago
- 5 or more years ago
- Never had a mammogram

91. When was the last time you had a breast exam by a health care professional?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a breast exam

92. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant
→ Go to Question 93
- No, I am not currently pregnant, but have been pregnant in the past 12 months
→ Go to Question 94
- No, I am not currently pregnant, and have not been pregnant in the past 12 months
→ Go to Question 95

93. In what trimester is your pregnancy?

- First trimester
- Second trimester
- Third trimester

94. In which trimester did you first receive prenatal care?

- First trimester
- Second trimester
- Third trimester
- Did not receive prenatal care

----- ABOUT YOU -----

95. In general, how would you rate your overall health now?

- Excellent
- Very Good
- Good
- Fair
- Poor

96. Are you limited in any way in any activities because of any impairment or health problem?

- Yes
- No

97. Because of any impairment or health problem, do you need the help of other persons with your personal care needs, such as eating, dressing, or getting around the house?

- Yes
- No

98. Because of any impairment or health problem, do you need help with your routine needs, such as everyday household chores, doing necessary business, shopping, or getting around for other purposes?

- Yes
- No

99. Do you have a physical or medical condition that seriously interferes with your independence, participation in the community, or quality of life?

- Yes
- No

100. We want to know your rating of how well your health plan has done in providing the equipment, services, and help you need.

Using any number from 0 to 10 where 0 is the worst your plan could do and 10 is the best your plan could do, what number would you use to rate your health plan now?

0 Worst your health plan could do

- 6
- 13
- 20
- 27

109. In the last 12 months, have you been a patient in a hospital overnight or longer?

- Yes
- No

110. Do you now have any physical or medical conditions that have lasted for at least 3 months? [Women: DO NOT include pregnancy.]

- Yes
- No → Go to Question 113

111. In the last 12 months, have you seen a doctor or other health provider more than twice for any of these conditions?

- Yes
- No
- I have no conditions that have lasted 3 months.

112. Have you been taking prescription medicine for at least 3 months for any of these conditions?

- Yes
- No
- I have no conditions that have lasted 3 months.

113. What is the highest grade or level of school that you have completed?

- 8th grade or less
- Some high school, but did not graduate
- High school graduate or GED
- Some college or 2-year degree
- 4-year college graduate
- More than 4-year college degree

114. Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- No, not Spanish, Hispanic, or Latino
- Yes, Mexican, Mexican American, Chicano
- Yes, Puerto Rican
- Yes, Cuban
- Yes, other Spanish, Hispanic, or Latino

115. What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

- White
- Black or African American
- American Indian or Alaska Native
- Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)

116. What is your age now?

- 18 to 24
- 25 to 34
- 35 to 44
- 45 to 54
- 55 to 64
- 65 to 74
- 75 or older

THANK YOU FOR TAKING THE TIME TO COMPLETE THE SURVEY! Your generous contribution will greatly aid efforts to improve the health of our military community.

Return your survey in the postage-paid envelope. If envelope is missing, please send to: National Research Corporation, Survey Processing Center, PO BOX 82660, Lincoln, NE 68501-2660

CODING SCHEME AND CODING TABLES

2004 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB)
CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	
Numeric	Numeric	Description
.	-9	No response
.A	-8	Multiple response error
.O	-7	Out of range error
.N	-6	Not Applicable or valid skip
.D	-5	Scalable response of “Don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

Coding Table for Note 1:**H04006, H04007**

N1	H04006 is:	H04007 is:	H04006 is coded as:	H04007 is coded as:	*
1	1-11, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H04008, S04C01-S04C04, H04009, H04010**

N2	H04008 is: Are:	S04C01-S04C04, H04009, H04010	H04008 is coded as: Are:	S04C01-S04C04, H04009, H04010 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	., missing if .N; Stand as original value, otherwise	F
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped	B F
3	2: no, missing, or multiple response	At least one is marked	1: yes	., missing if .N; Stand as original value, otherwise	B F
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	All are blank	Stands as original value	Stands as original value	
6	Multiple response	All are blank	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 2:
Responses to S04C01-S04C04, H04009 and H04010 are all missing.

Definition of “blank or NA” in Coding Table for Note 2:
All of the following are true: S04C01-S04C04, H04009 and H04010 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 2:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 2A:
S04C03, S04C04**

N2A	S04C03 is:	S04C04 is:	S04C03 is coded as:	S04C04 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1, 2, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: don’t have health problems or don’t have personal doctor or nurse	2: No	.C, question should be skipped	B F
4	2: no, missing, or multiple response	1, 2, multiple	1: yes	Stands as original value	B
5	2: no	Missing, or -6: don’t have health problems or don’t have personal doctor or nurse	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3:
H04010, H04011

N3	H04010 is: .N, valid skip, or .C, question should be skipped	H04011 is: Any Value	H04010 is coded as: Stands as original value	H04011 is coded as: Stands as original value	*
1	.N, valid skip, or .C, question should be skipped	Any Value	Stands as original value	Stands as original value	
2	1:yes, missing, or multiple response	1- 3, multiple response	2: no	Stands as original value	B
3	1: yes	Missing	Stands as original value	.N, valid skip if missing	F
4	2: no	1-3, missing, or multiple response	Stands as original value	Stands as original value	
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	1: yes	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 4:
H04012, H04013

N4	H04012 is: 1: yes	H04013 is: 1, 2, 3, missing, or multiple response	H04012 is coded as: Stands as original value	H04013 is coded as: Stands as original value	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 5:
H04014, S04C05, H04015, H04016**

N5	H04014 is: Are:	S04C05, H04015, H04016 Are:	H04014 is coded as:	S04C05, H04015, H04016 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 5:
S04C05, H04015 and H0416 are all missing.

Definition of “blank or NA” in Coding Table for Note 5:
S04C05, H04015 and H0416 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 5:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 5A:
S04C05, H04015 & H04016**

N5A	S04C05 is:	H04015 & H04016 are:	S04C05 is coded as:	H04015 & H04016 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or, .C, question should be skipped	Stands as original value	Stand as original value	
2	-6: None	Any Value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
3	missing, or multiple response	At least one is “marked”	Stands as original value	Stand as original value	
4	1-6, missing, or multiple response	“Blank or NA”	-6: None	.N, valid skip if missing, .C, question should be skipped if marked	B F
5	1-6	At least one is “marked” or “All are blank”	Stands as original value	Stand as original value	
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	-6:None	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 5A:
Both H04015 and H04016 are missing.

Definition of “blank or NA” in Coding Table for Note 5A:
Responses to questions H04015 and H04016 are either both not applicable (-6), or a combination of not applicable (-6)
and missing.

Definition of “marked” in Coding Table for Note 5A:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 6:
H04017, H04018**

N6	H04017 is:	H04018 is:	H04017 is coded as:	H04018 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often, multiple response	1: yes	Stands as original value	B
4	2: no	-6: no calls or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 7:
H04019, H04020, H04021**

N7	H04019 is:	H04020 & H04021 are:	H04019 is coded as:	H04020 & H04021 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:

Responses to H04020 and H04021 are both missing.

Definition of “blank or NA” in Coding Table for Note 7:

Responses to H04020 and H04021 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 8:
H04022, H04023, H04024**

N8	H04022 is:	H04023 & H04024 are:	H04022 is coded as:	H04023 & H04024 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:

Responses to H04023 and H04024 are both missing.

Definition of “blank or NA” in Coding Table for Note 8:

Responses to H04023 and H04024 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 8:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 9:
H04026, H04027-H04037, S04C06-S04C08, H04C038

N9	H04026 is: H04038 are:	H04027-H04037, S04C06-S04C08, H04038	H04026 is coded as:	H04027-H04037, S04C06- S04C08, H04038 are coded as:	*
1	1: None	At least one is “marked”, “All are blank”, or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
4	Missing response	“All are blank”	Stands as original value	Stand as original value	
5	Multiple response	“All are blank”	1: None	.N, valid skip	B F
6	Missing or Multiple Response	At least one is “Marked”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:

Responses to H04027-H04037, S04C06-S04C08, H04038 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9:

Responses to H04027-H04037, S04C06-S04C08, H04038 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 10:
H04027, H04028

N10	H04027 is:	H04028 is:	H04027 is coded as:	H04028 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing or multiple response	1-3: how much of a problem, multiple response	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11:
H04029, H04030

N11	H04029 is:	H04030 is:	H04029 is coded as:	H04030 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing or multiple response	1-3: how much of a problem, multiple response	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11A:
S04C06, S04C07, S04C08

N11A	S04C06 is: .N, valid skip .C, question should be skipped	S04C07 & S04C08 are: .N, valid skip .C, question should be skipped	S04C06 is coded as: Stands as original value	S04C07 & S04C08 are coded as: Stand as original value	*
1	.N, valid skip .C, question should be skipped	.N, valid skip .C, question should be skipped	Stands as original value	Stand as original value	
2	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
4	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
5	2: no	“Blank or NA” or “All are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11A:
 Responses to S04C07 and S04C08 are both missing.

Definition of “Blank or NA” in Coding Table for Note 11A:
 Responses to S04C07 and S04C08 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 11A:
 Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”

Coding Table for Note 11B:
S04C09, S04C10

N11B	S04C09 is:	S04C10 is:	S04C09 is coded as:	S04C10 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need special medical equipment	2: No	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need special medical equipment	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11C:
S04C11, S04C12

N11C	S04C11 is:	S04C12 is:	S04C11 is coded as:	S04C12 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need special therapy	2: No	.C, question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need special therapy	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11D:
S04C13, S04C14

N11D	S04C13 is:	S04C14 is:	S04C13 is coded as:	S04C14 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need home healthcare	2: No	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need home healthcare	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 12:
S04V01, S04V02, S04V04-S04V07

N12	S04V01 is: Are:	S04V02, S04V04-S04V07	S04V01 is coded as:	S04V02, S04V04-S04V07	*
1	1,2,3,4: some or no healthcare	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1,2,3: at least some healthcare, missing, or multiple response	"Blank or NA"	-6: didn't need healthcare in past 12 months	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	4: no healthcare	"Blank or NA"	Stands as original value	Stands as original value	
4	-6: didn't need healthcare in past 12 months	Any value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank"	-6, didn't need healthcare in past 12 months	.N, valid skip	B F
7	Missing or Multiple response	At least one is "marked"	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 12:
S04V02, S04V04-S04V07 are all missing.

Definition of "blank or NA" in Coding Table for Note 12:
S04V02, S04V04-S04V07 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 12:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

Coding Table for Note 13:
H04040, H04041-H04043

N13 H04040 is:		H04041-H04043 are:	H04040 is coded as:	H04041-H04043 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, -5: don’t know, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, -5: don’t know, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	-5: don’t know, Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 13:

Responses to H04041-H04043 are all missing.

Definition of “blank or NA” in Coding Table for Note 13:

Responses to H04041-H04043 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 13:

Responses to H04041-H04043 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 14:

Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

Table for Note 14:
H04044, H04045

N14	H04044 is:	H04045 is:	H04044 is coded as:	H04045 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't look for information in health plan	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't look for information in health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 15:
H04046, H04047

N15	H04046 is:	H04047 is:	H04046 is coded as:	H04047 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't call health plan	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't call health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 16:
H04048, H04049-H04051**

N16	H04048 is:	H04049-H04051 are:	H04048 is coded as:	H04049-H04051 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 16:

Responses to H04049-H04051 are both missing.

Definition of “blank or NA” in Coding Table for Note 16:

Responses to H04049-H04051 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 16:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 17:
H04049, H04050, H04051

N17	H04049 is:	H04050 is:	H04051 is:	H04049 is coded as:	H04050 is coded as:	H04051 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1-5	1: Yes	Any value	Stands as original value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
3	1-5	2: No, -6: no complaint	Any value	Stands as original value	Stands as original value	Stands as original value	
4	1-5	Missing, or multiple response	Marked or multiple response	Stands as original value	2: no	Stands as original value	F
5	1-5	Missing, or multiple response	Missing	Stands as original value	1: Yes	.N, valid skip if missing	F
6	6: still waiting	Marked or multiple response, or missing	Any Value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
7	Missing response, -6: no complaint	Marked, missing, or multiple response	Any Value	Stands as original value	Stands as original value	Stands as original value	
8	Multiple response	Marked or multiple response, or missing	Any Value	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 18:
H04052, H04053

N18	H04052 is:	H04053 is:	H04052 is coded as:	H04053 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't have any experience	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't have any experience	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19:

H04060--H04065

N19	H04060 Is:	H04061 is:	H04062 is:	H04063- H04065 are:	H04060 is coded as:	H04061 is coded as:	H04062 is coded as:	H04063- H04065 are coded as:	*
1	1: ever smoked	3 or 4: still smoke	Any value	Any value	Stands as original value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	Stands as original value	F
2	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Any value	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
3	1: ever smoked	2: quit	3: quit <1 year ago, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
4	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Any value	Stands as original value	2: quit	Stands as original value	.C, question should be skipped	F B
5	1: ever smoked	-5: don't know, missing, or multiple response	3: quit <1 year ago	Any value	Stands as original value	2: quit	Stands as original value	Stands as original value	B
6	1: ever smoked	-5:don't know, missing, or multiple response	-5: don't know, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
7	2: never, -5: don't know, missing, or multiple response	3 or 4: still smoke	Any value	Any value	1: ever smoked	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	Stands as original value	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19 continued:

N19	H04060 Is:	H04061 is:	H04062 is:	H04063- H04065 is:	H04060 is coded as:	H04061 is coded as:	H04062 is coded as:	H04063- H04065 is coded as:	*
8	2: never or -5: don't know	2: quit, -5: don't know, multiple response, or Missing response	Any value	Any value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	.C, question should be skipped if marked, .N, valid skip if missing	.C, question should be skipped	F
9	Missing or multiple response	2: quit	Missing or multiple response	2-5: some visits	1: ever smoked	Stands as original value	3: quit <1 year ago	Stands as original value	B
10	Missing or multiple response	2: quit, missing, or multiple response	3: quit <1 year ago	2-5: some visits	1: ever smoked	Stands as original value	Stands as original value	Stands as original value	B
11	Missing or multiple response	2: quit, missing, or multiple response	3: quit <1 year ago	1: none, -6: no visits, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
12	Missing or multiple response	2: quit, missing, or multiple response	2: quit >1 year ago, -5: don't know	Any value	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
13	Missing or multiple response	2: quit, missing, or multiple response	Missing or multiple response	1: none, -6: no visits, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
14	Missing or multiple response	Missing, or multiple response	Missing or multiple response	2-5: some visits	1: ever smoked	Stands as original value	Stands as original value	Stands as original value	B
15	Missing or multiple response	-5: don't know	Any value	Any value	Stands as original value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	.C, question should be skipped	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 20:

Note 20 (Part a)

H04066, SEX, XSEXA, H04067-H04074

N20A	H04066 is :	SEX is:	H04067 is:	H04068--H04074 are:	XSEXA is coded as:
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male

16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H04066), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 20 (Part B):
XSEXA, H04067

N20B	XSEXA is:	H04067 is:	H04067 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Note 20 (Part C):
XSEXA, H04068 - H04074

N20C	XSEXA is:	H04068--H04074 are:	H04068 --H04074 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 20c:

All variables H04068 --H04074 are missing.

Definition of “marked” in Coding Table for Note 20c:

Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 21
XSEXA, AGE, H04069, H04070, H04071

N21	XSEXA is:	AGE is:	H04069 is:	H04070 & H04071 are:	H04069 is coded as:	H04070 & H04071 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Either question is Marked or multiple response	2: > 40	Stand as original value	B
5	2: Female	Any value	Multiple response	Both Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Either question is Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Both Missing	1: < 40	.N, valid skip	F B
8	2: Female	>=40	Missing	Both Missing	1: < 40	.N, valid skip	F B
9	2: Female	Missing	Missing	Both Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

AGE is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

Coding Table for Note 22:
XSEXA, H04072, H04073, H04074

N22	XSEXA	H04072 is: is:	H04073 is:	H04074 are:	H04072 is coded as:	H04073 is coded as:	H04074 are coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 23:
S04C20, S04C21, S04C22

N23	S04C020 is:	S04C21 & S04C22 are:	S04C20 is coded as:	S04C21 & S04C22 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	N, valid skip if missing; .C, question should be skipped if marked	F B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “All are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 23:

Responses to S04C21 and S04C22 are both missing.

Definition of “Blank or NA” in Coding Table for Note 23:

Responses to S04C21 and S04C22 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 23:

Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”
