Mathematica Reference No.: 40309.34H

2017 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

July 2017
Quarter II
Survey Fielded: January 2017

Submitted to:
Defense Health Agency
7700 Arlington Boulevard, Suite 5101
Falls Church, VA 22042-5101
(703) 681-3636

Task Order Officer:
Richard R. Bannick, Ph. D., FACHE

Submitted by:
Mathematica Policy Research, Inc.
1100 First Street, NE, 12th Floor
Washington, DC 20002-4221
(202) 484-9220

Project Director:
Nancy A. Clusen

TABLE OF VARIABLES

Sample Variables	Label	Page
MPRID	- Unique MPR identifier	141
SVCSMPL	- Branch of service sampling variable	141
SEXSMPL	- Sex sampling variable	141
STRATUM	- Sampling stratum	141
ENBGSMPL	- Enrollment by beneficiary category	148
MPCSMPL	- Military personnel category	148
NHFF	- Stratum sample size	149
QUARTER	- Survey quarter	149
D_HEALTH	- Health service region	149
TNEXREG	- TRICARE next generation of contracts region grouping	149
SERVAFF	- Service affiliation	150
BWT	- Basic sampling weight	150
DEERS		
Variables	Label	Page
RACEETHN	- Race/Ethnic code	150
PNSEXCD	- Person gender	151
RDAGEQY	- Age at time of sample preparation-Capped (18 and below, 86 and above)	151
RFLDAGE	- Age at start of fielding period-Capped (18 and below, 86 and above)	151
PCM	- Primary manager code (civilian or military)	151
ACV	- Alternate care value	152
DBENCAT	- Beneficiary category	152
DSPONSVC	- Derived sponsor branch of service	153
PATCAT	- Aggregated beneficiary category	153
PNTYPECD	- Person type code	153
Questionnaire Responses		
Responses	Label	Page
H17001	- Are you the person listed on the cover letter	153
H17002A	- Health plan(s) covered: TRICARE Prime	153
H17002C	- Health plan(s) covered: TRICARE Extra/Standard	154
H17002N	- Health plan(s) covered: TRICARE Plus	154
H17002O	- Health plan(s) covered: TRICARE For Life	154
H17002P	- Health plan(s) covered: TRICARE Supplemental Insurance	154
H17002Q	- Health plan(s) covered: TRICARE Reserve Select	154
H17002S	- Health plan(s) covered: TRICARE Retired Reserve	154
H17002T	- Health plan(s) covered: TRICARE Young Adult Prime	155
H17002V	- Health plan(s) covered: TRICARE Young Adult Extra or Standard	155
H17002K	- Health plan(s) covered: Uniformed Services Family Health Plan (USFHP)	155
H17002U	- Health plan(s) covered: Continued Health Care Benefit Program (CHCBP)	155
H17002F	- Health plan(s) covered: Medicare	155
H17002G	- Health plan(s) covered: Federal Employees Health Benefit Program (FEHBP)	155
H17002H	- Health plan(s) covered: Medicaid	156
H17002I	- Health plan(s) covered: civilian HMO	156
H17002J	- Health plan(s) covered: other civilian health insurance	156
H17002M	- Health plan(s) covered: Veterans Administration (VA)	156
H17002R	- Health plan(s) covered: other Non-US government health insurance	156
H17002L	- Health plan(s) covered: not sure	156
H17003	- Which health plan did you use most in the past 12 months?	157
H17004	- Months or years in a row with health plan	157
H17005	- In last year: facility used most for health care	158
H17006	- In last year: have illness/injury/condition that needed care right away	158

Questionnaire Responses	Label	Page
H17007	- In last year: how often got care as soon as you needed it.....	158
H17008	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	159
H17009	- In last year: made appointments for non-urgent health care	159
H17010	- In last year: how often got appointments for non-urgent health care as soon as you wanted.....	159
H17011	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	160
H17012	- In last year: times went to an emergency room for yourself	160
H17013	- In last year: times went to a doctor's office or clinic for yourself (not counting times went to an emergency room)	160
H17014	- In last year: how often talk to doctor or other health care provider about illness prevention	161
H17015	- In last year: doctor or other health care provider talked about more than 1 choice for treatment.....	161
H17016	- In last year: doctor talked about pros/cons of each treatment/health care choice	161
H17017	- In last year: doctor/health care provider asked which treatment option you thought was best for you when there was more than one choice of treatment	161
H17018	- Rating of all health care in last year	162
H17019	- Have one person you think of as your personal doctor.....	162
H17020	- In last year: number of times visited personal doctor for care for self	162
H17021	- In last year: how often personal doctor listened carefully to you.....	163
H17022	- In last year: how often personal doctor explained things in a way that was easy to understand	163
H17023	- In last year: how often your personal doctor showed respect for what you have to say.....	163
H17024	- In last year: how often your personal doctor spent enough time with you	164
H17025	- In last year: got care from doctor or other health provider other than personal doctor	164
H17026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors.....	164
H17027	- Rating of your personal doctor	165
H17028	- In last year: tried to make appointment to see a specialist	165
H17029	- In last year: how often it was easy to get appointments with specialists.....	165
H17030	- In last year: how many specialists seen.....	166
H17031	- Rating of specialist seen most often in last year.....	166
H17033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan	166
H17034	- In last year: looked for information in written material or on the Internet about how health plan works	167
H17035	- In last year: how often written material/Internet provide information you needed about how your plan works	167
H17036	- In last year: looked for information from health plan on cost of health care service or equipment	167
H17037	- In last year: how often able to find out from health plan cost of health care service or equipment	167
H17038	- In last year: looked for information from health plan on cost of prescription medications.....	168
H17039	- In last year: how often able to find out cost of prescription medications.....	168
H17040	- In last year: tried to get information or help from health plan's customer service	168
H17041	- In last year: how often did customer service give needed information or help	168
H17042	- In last year: how often did customer service treat with courtesy and respect.....	169
H17043	- In last year: health plan gave forms to fill out.....	169
H17044	- In last year: how often forms from health plan were easy to fill out	169

Questionnaire Responses	Label	Page
H17045	- In last year: sent in any claims to your health plan.....	169
H17046	- In last year: how often health plan handled claims quickly	170
H17047	- In last year: how often health plan handled claims correctly.....	170
H17048	- Rating of all experience with health plan.....	170
H17049	- Blood pressure: when last reading.....	171
H17050	- Blood pressure: know if blood pressure is too high or not	171
H17051	- When did you last have a flu shot	171
H17052	- Smoked at least 100 cigarettes in life	171
H17053	- Smoke or use tobacco every day, some days, or not at all	171
H17054	- Last year: how often advised by doctor to quit smoking or use tobacco.....	172
H17055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco.....	172
H17056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco	172
H17057A	- Do you smoke or use: cigarettes	172
H17057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus.....	173
H17057C	- Do you smoke or use: cigars	173
H17057D	- Do you smoke or use: pipes, bidis, or kreteks	173
H17058	- Are you male or female	173
H17059B	- Female: last have a Pap smear test	174
H17060	- Female: are you under age 40	174
H17061	- Female: last time breasts checked by mammography	174
H17062	- Female: been pregnant in last year or pregnant now.....	175
H17063	- Female: in what trimester is your pregnancy	175
H17064	- Female: trimester first received prenatal care	175
H17065	- In general how would you rate your overall health	175
H17066	- Limited in any way in any activities because of any impairment or health problem	176
H17067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem	176
H17068	- Condition lasted for at least 3 months.....	176
H17069	- Need to take medicine prescribed by a doctor.....	176
H17070	- Medicine to treat condition that has lasted for at least 3 months	176
H17071F	- Feet portion of height without shoes	177
H17071I	- Inches portion of height without shoes.....	177
H17072	- Weight without shoes in pounds	177
SREDA	- Highest grade completed	182
H17073	- Are you Spanish, Hispanic, or Latino	182
H17073A	- No, not Spanish, Hispanic, or Latino.....	182
H17073B	- Yes, Mexican, Mexican American, Chicano.....	182
H17073C	- Yes, Puerto Rican	183
H17073D	- Yes, Cuban	183
H17073E	- Yes, other Spanish, Hispanic, or Latino	183
SRRACEA	- Race: White	183
SRRACEB	- Race: Black or African American	183
SRRACEC	- Race: American Indian or Alaska native	183
SRRACED	- Race: Asian.....	184
SRRACEE	- Race: Native Hawaiian/other Pacific Islander	184
SRAGE	- What is your age now?	184
H17074	- Currently covered by Medicare	184
H17075	- Currently covered by Medicare part A.....	184
H17076	- Currently covered by Medicare part B.....	185
H17077	- Enrolled in a Medicare Advantage plan	185
H17078	- Currently covered Medicare supplemental	185
H17079	- Enrolled in Medicare Part D	185
S17009	- Had the same personal doctor or nurse before joining this health plan.....	186

Questionnaire Responses	Label	Page
S17010	- Since joined health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?	186
S17011	- Agree/disagree: Able to see provider when needed	186
S17014	- How satisfied with health care during last visit	186
S17B01	- Self rating of overall mental/emotional health	187
S17B02	- Last year: needed treatment/counseling for personal/family problem	187
S17B03	- Last year: problem getting needed treatment/counseling	187
S17B04	- Last year: rating of treatment/counseling received	187
S17BC01A	- Past 12 months: did you try making appt at MTF? Yes, by calling	188
S17BC01B	- Past 12 months: did you try making appt at MTF? Yes, online	188
S17BC01C	- Past 12 months: did you try making appt at MTF? Yes, in person	188
S17BC01D	- Past 12 months: did you try making appt at MTF? No	188
S17BC04A	- Reasons did not try to make MTF appointment: Didnt need healthcare	188
S17BC04B	- Reasons did not try to make MTF appointment: Wouldnt get when needed	188
S17BC04C	- Reasons did not try to make MTF appointment: Wouldnt get convenient time	189
S17BC04D	- Reasons did not try to make MTF appointment: Did not have needed referral for specialist	189
S17BC04E	- Reasons did not try to make MTF appointment: Inconvenient MTF location	189
S17BC04F	- Reasons did not try to make MTF appointment: Only use civilian providers	189
S17BC04G	- Reasons did not try to make MTF appointment: Prefer civilian providers	189
S17BC02A	- Why make appt at MTF? New illness, condition, or injury	190
S17BC02B	- Why make appt at MTF? I was referred for specialist care	190
S17BC02C	- Why make appt at MTF? Routine wellness	190
S17BC02D	- Why make appt at MTF? Follow-up on illness, condition, or injury	190
S17BC03A	- True when you tried to make appt at MTF: No appts available	190
S17BC03B	- True when you tried to make appt at MTF: Appt too far in future	191
S17BC03C	- True when you tried to make appt at MTF: No convenient times	191
S17BC03D	- True when you tried to make appt at MTF: Time not convenient	191
S17BC03E	- True when you tried to make appt at MTF: Always able to make appt	191
S17BC05A	- Past 12 months: did you try making appt with civilian provider? Yes, by calling	191
S17BC05B	- Past 12 months: did you try making appt with civilian provider? Yes, online	192
S17BC05C	- Past 12 months: did you try making appt with civilian provider? Yes, in person	192
S17BC05D	- Past 12 months: did you try making appt with civilian provider? No	192
S17BC06A	- Why make appt with civilian provider? New illness, condition, or injury	192
S17BC06B	- Why make appt with civilian provider? I was referred for specialist care	192
S17BC06C	- Why make appt with civilian provider? Routine wellness	192
S17BC06D	- Why make appt with civilian provider? Follow-up on illness, condition, or injury	193
S17BC07A	- True when you tried to make appt with civilian provider: No appts available	193
S17BC07B	- True when you tried to make appt with civilian provider: Appt too far in future	193
S17BC07C	- True when you tried to make appt with civilian provider: No convenient times	193
S17BC07D	- True when you tried to make appt with civilian provider: Time not convenient	193
S17BC07E	- True when you tried to make appt with civilian provider: Always able to make appt	194
S17BC08A	- Reasons did not try to make appointment with civilian provider: Didnt need healthcare	194
S17BC08B	- Reasons did not try to make appointment with civilian provider: Get all health care from MTF	194
S17BC08C	- Reasons did not try to make appointment with civilian provider: Would not have gotten when needed	194
S17BC08D	- Reasons did not try to make appointment with civilian provider: Would not have gotten convenient time	194
S17BC08E	- Reasons did not try to make appointment with civilian provider: Did not have needed referral for specialist	195

Questionnaire Responses	Label	Page
S17BC08F	- Reasons did not try to make appointment with civilian provider: Inconvenient location	195
S17BC09	- Were you asked to call back at a future date when appts might be available [MTF]	195
S17BC10	- Were you asked to call back at a future date when appts might be available [Civilian]	195
S17BF1	- Have you heard of e-cigarettes before today	195
S17BF2	- Have you ever used an e-cigarette	196
S17BF3	- How many times in your life have you used an e-cigarette	196
S17BF4	- Often do you use e-cigarettes	196
S17BF5	- Did you use flavored e-cigarettes in the past 30 days	197
S17BF6	- Did you completely switch to e-cigarettes in the past 12 months	197

Survey Fielding Variables	Label	Page
ONTIME	- Responded within 8 weeks of mail-out	197
FLAG_FIN	- Final disposition	197
DUPFLAG	- Multiple response indicator	197
FNSTATUS	- Final status.....	198
KEYCOUNT	- Number of key questions answered.....	198
WEB	- Web survey indicator	198
EMAILRES	- Email response	198
SURVTYPE	- Web or Mail Survey.....	198

Coding Scheme Flags and Counts	Label	Page
N1	- Coding Scheme Note 1	199
N2	- Coding Scheme Note 2	199
N3	- Coding Scheme Note 3.....	199
N3_BC1	- Coding Scheme Note 3_BC1	199
N3_BC2	- Coding Scheme Note 3_BC2	200
N3_BC3	- Coding Scheme Note 3_BC3	200
N3_BC4	- Coding Scheme Note 3_BC4	200
N3_BC5	- Coding Scheme Note 3_BC5	200
N3_BC6	- Coding Scheme Note 3_BC6	200
N3_BC7	- Coding Scheme Note 3_BC7	200
N3_BC8	- Coding Scheme Note 3_BC8	201
N4	- Coding Scheme Note 4	201
N5	- Coding Scheme Note 5	201
N6	- Coding Scheme Note 6	201
N7	- Coding Scheme Note 7	202
N8	- Coding Scheme Note 8	202
N8_01	- Coding Scheme Note 8_01	202
N9	- Coding Scheme Note 9	202
N10	- Coding Scheme Note 10	202
N10_B1	- Coding Scheme Note 10_B1	203
N12	- Coding Scheme Note 12	203
N13	- Coding Scheme Note 13	203
N14	- Coding Scheme Note 14	203
N15	- Coding Scheme Note 15	204
N16	- Coding Scheme Note 16	204
N17	- Coding Scheme Note 17	204
N18	- Coding Scheme Note 18	204

Coding Scheme Flags and Counts	Label	Page
N18_BF1	- Coding Scheme Note 18_BF1	205
N18_BF2	- Coding Scheme Note 18_BF2	205
N19A	- Coding Scheme Note 19A	205
N19B	- Coding Scheme Note 19B	205
N20	- Coding Scheme Note 20	206
N21	- Coding Scheme Note 21	206
N22	- Coding Scheme Note 22	206
N23	- Coding Scheme Note 23	206
N23_HT	- Coding Scheme Note 23_HT	207
N23_WT	- Coding Scheme Note 23_WT	207
N24	- Coding Scheme Note 24	207
N25	- Coding Scheme Note 25	207
MISS_1	- Count of original survey responses (pre-cleaning): violates skip pattern	207
MISS_4	- Count of original survey responses (pre-cleaning): incomplete grid error	207
MISS_5	- Count of original survey responses (pre-cleaning): scalable response of don't know	208
MISS_6	- Count of original survey responses (pre-cleaning): not applicable - valid skip	208
MISS_7	- Count of original survey responses (pre-cleaning): out-of-range error	208
MISS_9	- Count of original survey responses (pre-cleaning): no response - invalid skip	209
MISS_TOT	- Total number of missing responses (pre-cleaning)	210
<hr/>		
Constructed Variables	Label	Page
JSFLAG	- Joint Service Flag	211
XENRLLMT	- Enrollment in TRICARE prime	211
XENR_PCM	- Enrollment by PCM type	211
XINS_COV	- Insurance coverage	212
XBENCAT	- Beneficiary category	212
XENR_RSV	- Enrollment by PCM type - reservist	213
XINS_RSV	- Insurance coverage - reservist	213
XREGION	- Region	214
XTNEXREG	- TRICARE next generation of contracts region grouping	214
USA	- CONUS/OCONUS indicator	214
XOCONUS	- Overseas Europe/Pacific/Latin indicator	214
OUTCATCH	- Out of catchment area indicator	215
XSEXA	- Male or female (recode)	215
XBMI	- Body mass index	215
XBMICAT	- Body mass index category	215
XBNFGRP	- Constructed beneficiary group	215
XSERVAFF	- Service affiliation	216
KMILOPQY	- Outpatient visits to military facility	216
KCIVOPQY	- Outpatient visits to civilian facility	216
KCIVINS	- Beneficiary covered by civilian insurance	216
HP_PRNTL	- Pregnant in last year received care in 1st trimester	217
HP_MAMOG	- Women age 40 and over: mammography in past 2 years	217
HP_MAM50	- Women age 50 and over: mammography in past 2 years	217
HP_PAP	- All women: pap smear in last 3 years	217
HP_BP	- Blood pressure check in last 2 years and know results	217
HP_FLU	- Age 65 and older: flu shot in last 12 months	218
HP_OBESE	- Obese or morbidly obese	218
HP_SMOKE	- Advised to quit smoking in last 12 months	218
HP_SMKH3	- Smoker under HEDIS definition (modified)	218
HP_CESH3	- Had smoking cessation counseling - HEDIS (modified)	218
XCATCH	- XCATCH - Catchment area (reporting)	219

Post-stratification	Label	Page
POSTCELL	- Poststratification cell for new weights	222

H17003	- Which health plan did you use most in the past 12 months?.....	157
H17004	- Months or years in a row with health plan.....	157
H17005	- In last year: facility used most for health care	158
H17006	- In last year: have illness/injury/condition that needed care right away.....	158
H17007	- In last year: how often got care as soon as you needed it.....	158
H17008	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	159
H17009	- In last year: made appointments for non-urgent health care	159
H17010	- In last year: how often got appointments for non-urgent health care as soon as you wanted.....	159
H17011	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	160
H17012	- In last year: times went to an emergency room for yourself	160
H17013	- In last year: times went to a doctor's office or clinic for yourself (not counting times went to an emergency room)	160
H17014	- In last year: how often talk to doctor or other health care provider about illness prevention	161

Variables	Label	Page
H17015	- In last year: doctor or other health care provider talked about more than 1 choice for treatment.....	161
H17016	- In last year: doctor talked about pros/cons of each treatment/health care choice	161
H17017	- In last year: doctor/health care provider asked which treatment option you thought was best for you when there was more than one choice of treatment	161
H17018	- Rating of all health care in last year	162
H17019	- Have one person you think of as your personal doctor.....	162
H17020	- In last year: number of times visited personal doctor for care for self	162
H17021	- In last year: how often personal doctor listened carefully to you.....	163
H17022	- In last year: how often personal doctor explained things in a way that was easy to understand	163
H17023	- In last year: how often your personal doctor showed respect for what you have to say.....	163
H17024	- In last year: how often your personal doctor spent enough time with you	164
H17025	- In last year: got care from doctor or other health provider other than personal doctor	164
H17026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors.....	164
H17027	- Rating of your personal doctor	165
H17028	- In last year: tried to make appointment to see a specialist	165
H17029	- In last year: how often it was easy to get appointments with specialists.....	165
H17030	- In last year: how many specialists seen.....	166
H17031	- Rating of specialist seen most often in last year.....	166
H17033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan	166
H17034	- In last year: looked for information in written material or on the Internet about how health plan works	167
H17035	- In last year: how often written material/Internet provide information you needed about how your plan works	167
H17036	- In last year: looked for information from health plan on cost of health care service or equipment	167
H17037	- In last year: how often able to find out from health plan cost of health care service or equipment	167
H17038	- In last year: looked for information from health plan on cost of prescription medications.....	168
H17039	- In last year: how often able to find out cost of prescription medications.....	168
H17040	- In last year: tried to get information or help from health plan's customer service	168
H17041	- In last year: how often did customer service give needed information or help	168
H17042	- In last year: how often did customer service treat with courtesy and respect.....	169
H17043	- In last year: health plan gave forms to fill out.....	169
H17044	- In last year: how often forms from health plan were easy to fill out	169
H17045	- In last year: sent in any claims to your health plan.....	169
H17046	- In last year: how often health plan handled claims quickly	170
H17047	- In last year: how often health plan handled claims correctly.....	170
H17048	- Rating of all experience with health plan.....	170
H17049	- Blood pressure: when last reading.....	171
H17050	- Blood pressure: know if blood pressure is too high or not	171
H17051	- When did you last have a flu shot.....	171
H17052	- Smoked at least 100 cigarettes in life	171
H17053	- Smoke or use tobacco every day, some days, or not at all	171
H17054	- Last year: how often advised by doctor to quit smoking or use tobacco.....	172
H17055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco.....	172
H17056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco	172

Variables	Label	Page
H17057A	- Do you smoke or use: cigarettes	172
H17057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus.....	173
H17057C	- Do you smoke or use: cigars	173
H17057D	- Do you smoke or use: pipes, bidis, or kreteks	173
H17058	- Are you male or female	173
H17059B	- Female: last have a Pap smear test	174
H17060	- Female: are you under age 40	174
H17061	- Female: last time breasts checked by mammography	174
H17062	- Female: been pregnant in last year or pregnant now.....	175
H17063	- Female: in what trimester is your pregnancy	175
H17064	- Female: trimester first received prenatal care	175
H17065	- In general how would you rate your overall health	175
H17066	- Limited in any way in any activities because of any impairment or health problem	176
H17067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem	176
H17068	- Condition lasted for at least 3 months.....	176
H17069	- Need to take medicine prescribed by a doctor.....	176
H17070	- Medicine to treat condition that has lasted for at least 3 months	176
H17071F	- Feet portion of height without shoes	177
H17071I	- Inches portion of height without shoes.....	177
H17072	- Weight without shoes in pounds	177
H17073	- Are you Spanish, Hispanic, or Latino	182
H17073A	- No, not Spanish, Hispanic, or Latino.....	182
H17073B	- Yes, Mexican, Mexican American, Chicano.....	182
H17073C	- Yes, Puerto Rican	183
H17073D	- Yes, Cuban	183
H17073E	- Yes, other Spanish, Hispanic, or Latino	183
H17074	- Currently covered by Medicare	184

Chapter

1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the Quarter II, 2017 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to assist users in creating tables and generating analyses above and beyond those associated with this project.

Beginning with 2006, reporting and documentation of the HCSDB are performed on a fiscal year basis. In previous years, reporting and documentation were based on calendar years. Thus, the current codebook describes the Quarter II, 2017 dataset for fiscal year 2017. Throughout, 2017 Quarter II dataset refers to the fiscal year 2017.

This version of the Codebook and User's Guide describes the Quarter II data set. It contains frequency counts of all variables in the second quarter of fiscal year 2017.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

HOW TO USE THIS GUIDE

Chapter 2 describes the survey fielding process.

Chapter 3 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 4 provides table-making instructions in both Statistical Analysis System (SAS) and Statistical Package for the Social Sciences (SPSS) and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or SAS/STAT® V8 or higher. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 5, where we give the quarterly counts for each variable in the database, including a list of all existing values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata

- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Poststratification variables
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for a quick-reference list intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or Mathematica's report production procedures may refer to "The 2017 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available in late 2017 from the Defense Health Agency Office.

What is the HCSDB?

The HCSDB is a health care survey of Active Duty military personnel, retirees, and their adult family members. Prior to 2011, it was comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. In 2011, only the adult survey was fielded to a representative sample of beneficiaries. Prior to 2013, the adult survey was fielded every quarter, whereas the child survey was fielded only in one quarter of each fiscal year. Beginning in FY 2013, the surveys for quarter four were canceled as a result of sequestration. Results from each quarter of the adult survey are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The survey collects data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly (with a change to 3 quarters starting in 2013 as noted above) and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2017 HCSDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, and 2012, as well as 3 quarters of 2013, 2014, 2015, and 2016. The annotated questionnaire for this quarter, including the percent of responses for each variable value by all respondents to each question, appears in Appendix A. A crosswalk between the 2017 questions and the questions from the 2009, 2010, 2011, 2012, 2013, 2014, 2015, and 2016 surveys appears as Appendix C.

CAHPS Questions

To make responses comparable to civilian surveys, the HCSDB core questions are similar in content and format to questions used in the Consumer Assessment of Healthcare Providers and Systems

(CAHPS) Health Plan Survey. CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality (AHRQ), U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2017, the questionnaire was based on CAHPS version 5.

Core questions are described below.

Core questions

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance. Respondents are also asked about their Medicare coverage.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It covers topics such as the availability of providers and their staff for both urgent and regular care. Respondents are asked to rate their health care on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. They are also asked if the health care providers informed them of the available treatment options.
- **Your Personal Doctor.** In this section, respondents are asked about their relationship with their personal doctor. They are asked to rate their personal doctor on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. It also covers topics like the ability of the personal doctor to listen carefully and respectfully, clearly explain things, and be informed about care received from another doctor.
- **Getting Health Care from a Specialist.** This section collects information about respondents' access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. Additionally, respondents are asked questions about any problems they may have encountered with getting necessary care, claims processing, customer service, processing paperwork, and finding necessary information in written materials or from the Internet.
- **Preventive Care.** This section collects information on the use of preventive health care services, including blood pressure readings and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography. All respondents are asked whether they smoke or use tobacco products. Tobacco users are asked to identify the type of tobacco products they used and how often they received cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health. They are further asked to report their height, weight, education level, race, and age.

Quarter II Supplements

- **Health Care Appointments.** Questions in this supplement ask about various aspects of making appointments at both military treatment facilities (MTFs) and with civilian health care providers.

Respondents are asked about their reasons for making, and not making, appointments, as well as the availability of the appointments that were needed.

- **Personal Doctor.** Questions in this supplement ask about the respondent's personal doctor. Respondents are asked whether they had the same personal doctor prior to joining their current health plan and whether they were happy with their personal doctor once they joined the health plan, the availability of their doctor, and their satisfaction with their health care on their last visit.
- **Mental or Emotional Health.** Questions in this supplement concern overall mental or emotional health. Respondents are asked to rate their mental or emotional health. They are also asked questions about any mental or emotional health treatment or counseling they may have received.
- **Electronic Cigarettes.** Questions in this supplement ask about use of electronic cigarettes, or e-cigarettes. Respondents are asked about frequency of e-cigarette use, whether they use flavored e-cigarettes, and whether they have switched entirely from using regular cigarettes to using e-cigarettes.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on Active Duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days), and other special categories of people who qualify for benefits
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members of people from the first two categories.

A stratified sample design was used to select DoD health care beneficiaries for the Quarter II, 2017 Adult HCSDB. Specific information on the sample design appears in "Health Care Survey of DoD Beneficiaries: FY 2017 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 100,532 beneficiaries, 12,455 adult MHS beneficiaries completed and returned a 2017 Adult HCSDB questionnaire for the second quarter, yielding a response rate of 12.4 percent. Information on developing response rates will be found in the "2017 Health Care Survey of DoD Beneficiaries: Adult Technical Manual".

Other Documents on the 2017 HCSDB

This document is intended for programmers and analysts using the Quarter II, 2017 Adult HCSDB data. The following is a list of other documents that may be requested from the Defense Health Agency Office:

- 2017 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (Available late 2017)
- 2017 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (Available late 2017)

Chapter

2

Survey of Adults

This chapter presents information on the survey administration cycle for the Quarter II, 2017 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys returned.

A. SURVEY OPERATIONS ACTIVITIES

The Health Care Survey of DoD Beneficiaries (HCSDB) converted from a mail survey with Internet option in previous years to an all-Internet survey in FY2014. Beginning in Quarter III of FY2015, a sub-sample of beneficiaries – excluding Active Duty, Guard/Reserve, and some Inactive Guard/Reserve with e-mail addresses – received a paper questionnaire along with the reminder letter in addition to the mail version of the pre-notification letter. In Quarter II, 2017, the sub-sample receiving the paper questionnaire consisted of 37,985 beneficiaries who had not yet responded to the survey halfway through the 12 week field period.

Operational support for the Quarter II, 2017 HCSDB involved two mailings to all beneficiaries on January 9, 2017 and February 15, 2017 and nine emailings to Active Duty members from January 17, 2017 to March 21, 2017.

The mailings include:

1. Invitation letter with instructions on how to access the Internet survey.
2. Reminder letter with instructions on how to access the internet survey.
3. A paper questionnaire.

Both the Invitation Letter and the Reminder Letter include instructions on how to do the survey via the Internet and provide the respondent with their internet password. The Reminder Letter encourages the beneficiary to complete the survey if they have not yet done so. Furthermore, Mathematica emailed the Active Duty members nine times over the course of the Quarter II survey period. Each email included the service members' password for the survey.

B. SAMPLE

A change in the sample file to increase response rate was initiated in Quarter I, 2014. Up to Quarter I, 2009, the Adult HCSDB was conducted quarterly on a sample of 50,000 beneficiaries, and starting in Quarter II, 2009, the sample size was increased to 51,000. In Quarter I, 2014 the sample size was again increased, this time to approximately 100,000 records.

The Quarter II, 2017 sample contained 100,532 records. This quarter the HCSDB invitation letter was mailed/emailed out to 100,145 respondents. The remaining 387 records did not include either the respondents' names or addresses (or in the case of Active Duty, the email or mailing address) and so were not able to be mailed/emailed.

C. SURVEY PROCESSING

Ipsos applies a Bar Code, Control Number (MIQ) and Password to each beneficiary upon receipt of the sample. This system ensures that all data collected is aggregated and available throughout the survey lifecycle. Each of the identifying labels is detailed below:

Barcode

Digit 1 - Quarter Marker (1-4)

Digit 2 - Wave Marker (1-4)

Digit 3 - Study Marker (1=sample, 2=supplemental, 3=child)

Digits 4-8 - Sequential ID#

Control Number (MIQ) - 10-digit unique identifier

Digits 1-9 – Sequential ID #

Digit 10 – Check Digit

Password

Non-sequential 7-digit password (for online response access) – To ensure that the password is unique across all samples and across all DoD studies, the first digit is assigned to a specific quarter and study.

D. ADDRESSES

The HCSDB is designed so that beneficiaries may receive up to three mailings. Ipsos may collect up to seven addresses for each beneficiary in order to maximize the receipt rate for mailing. Addresses from Center for Health Care Strategies, Inc (CHCS) were used starting in Quarter I, 2008.

The first available address in the following order was used for each mailing.

Respondent Updated

United States Postal Service (USPS) Updated

National Change of Address (NCOA)

CHCS

Residential

Sponsor

Unit

The origin of the addresses is as follows:

- NCOA Address

Upon receipt of the initial sample and prior to the Pre-Notification mailing, Ipsos selects the best available address for each beneficiary and sends it to an NCOA vendor for updating and hygiene services. The updated address returned by the vendor is marked as the NCOA address. The definition of “best address” changed in Quarter I, 2009. Ipsos compared the date on the Residential address to the date on the CHCS address. The address that had the more current date was sent off for NCOA processing. If the dates were the same or if one/both were missing dates, then the hierarchy of CHCS then Residential would prevail.

- Respondent Updates

Respondents were able to report address and status changes via regular mail, telephone, fax, and email. Address changes submitted by respondent were considered priority over any other address type.

- Address Correction via USPS

The USPS provided address corrections on returned mail if available.

- Sample Refreshes

Another change made in Quarter I, 2009 was the use of the sample refreshes sent by Altarum for the first and second questionnaire mailings. Prior to Quarter I, 2009, Ipsos used information on recently deceased beneficiaries, information regarding beneficiaries who were no longer in the TRICARE program (nomatch), and any updated addresses for the subsequent mailings. Starting in Quarter I, 2009, Ipsos only used the deceased and nomatch information, and did not use any refreshed addresses in order to maintain the integrity of the NCOA address. Starting in Quarter IV, 2011, the only Active Duty respondents who were mailed surveys were those who did not have a valid/known email address.

Table 2.1 gives the address breakdown for each mailing by beneficiary category.

Table 2.1
Frequency of Address by Beneficiary Category – Total Sample – Quarter II, 2017

E. SURVEY ADMINISTRATION TIMELINE

Quarter I

Event	Date
File Receipt	19 December
NCOA Update	21 December
Invitation letter	9 January
Email 1 reminder to AD	17 January
Altarum-DEERS Update	1 February
Email 2 reminder to AD	24 January
Email 3 reminder to AD	31 January
Email 4 reminder to AD	7 February
Reminder letter	15 February
Email 5 reminder to AD	14 February
Email 6 reminder to AD	28 February
Email 7 reminder to AD	7 March
Email 8 reminder to AD	14 March
Email 9 reminder to AD	21 March
Close of Field	31 March
File to MPR	14 April

F. DISPOSITION CODES

Ipsos assigns disposition codes to each sample member as the information is received and questionnaire is returned. These codes are outlined below.

- FLAG_FIN=1
Returned survey – survey was completed and returned.
- FLAG_FIN=2
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by mail, phone, fax, or the survey itself.
- FLAG_FIN=3
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=4
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG_FIN=5
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.

- FLAG_FIN=6
Returned blank – left military or divorced after date of initial sample pull, or retired. Survey was returned blank along with information that the beneficiary left the military after initial sample pull, divorced after initial sample pull, or retired. These sample members were eligible.
- FLAG_FIN=7
Returned blank – not eligible on date of initial sample pull. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on initial sample pull. These sample members were ineligible.
- FLAG_FIN=8
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG_FIN=9
Returned blank – no reason. Survey was returned blank without an explanation. These sample members were eligible.
- FLAG_FIN=10
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=11
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG_FIN=12
No return – deceased. Survey was not returned and beneficiary deceased. These sample members were ineligible.
- FLAG_FIN=13
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=14
No return – left military or divorced after date of initial sample pull, or retired. Survey was not returned, beneficiary left service after initial sample pull, divorced after initial sample pull, or retired. These sample members were eligible.
- FLAG_FIN=15
No return – not eligible on date of initial sample pull. Survey was not returned, and beneficiary was not eligible for Military Health System Plan on initial sample pull. These sample members were ineligible.

Example: Beneficiary turned 21 and is no longer covered under parents' plan.

- FLAG_FIN=16
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.

Examples: Beneficiary claims they have not used benefits in past 12 months.
 Beneficiary is away at college, on a religious mission, or lives overseas.
 Received information that beneficiary chosen for survey does not speak English well enough to participate.

- FLAG_FIN=17
No return – no reason. Survey was not returned, and beneficiary gave no reason. These sample members had unknown eligibility.
- FLAG_FIN=18
Postal Non Deliverable (PND) – no address remaining. All addresses were attempted, mailing was returned PND. These sample members had unknown eligibility.
- FLAG_FIN=19
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted. These sample members had unknown eligibility.
- FLAG_FIN=20
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, and no mailings attempted. These sample members had unknown eligibility.
- FLAG_FIN=21
Beneficiary provides written documentation declining to participate but doesn't specify a reason. These sample members were eligible.
- FLAG_FIN=22
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination can not be made. These sample members had unknown eligibility.
- FLAG_FIN=23
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed. These sample members were eligible.
- FLAG_FIN=24
No return – deployed. Survey was not returned, and beneficiary was deployed. These sample members were eligible.
- FLAG_FIN=25
Deceased. Beneficiary coded as deceased due to refresh sample sent by Altarum. These sample members were ineligible.
- FLAG_FIN=26
No match. Not eligible indicated by Altarum-DEERS update. Beneficiary coded as no longer having TRICARE coverage due to sample refresh.

Table 2.2 shows frequencies of these disposition codes by beneficiary category.

Table 2.2

Frequency of Disposition by Beneficiary Category – Total Sample – Quarter II, 2017

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and discusses the database file layout.

VARIABLE NAMING CONVENTIONS

The conventions used to name variables on the 2017 Adult HCSDB data file are listed below and summarized in Table 3.1. The naming conventions remain constant across the three quarters of the 2017 HCSDB.

- **Survey Variables.** Variable names for core survey questions consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("17") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the annotated survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Like the core questions, supplemental questions also include up to eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("17"). The variable ends with an alphanumeric character or characters denoting the supplemental topic followed by the question number in the supplemental series as necessary.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables like N1-N25, reference the notes in the Coding Scheme for the Adult Survey. See Appendix D for the Coding Scheme for Quarter II for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable PNSEXCD was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2020 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Constructed Restricted Use Variables.** Original DEERS variables that have been recoded to maintain the confidentiality of the respondent are prefixed with "R."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "FW".

TABLE 3.1

NAMING CONVENTIONS FOR 2017 HCSDB VARIABLES – QUARTER II

1 st Character: Survey Type	2 nd – 3 rd Characters: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire) ----- S = Supplemental Question	17	001 to 079 ----- Quarter II 009-011, 014 – Supplemental questions about visits to the respondent's healthcare provider. B01-B04 – Supplemental questions about overall mental or emotional health. BF1-BF6 – Supplemental questions about electronic cigarettes	A to V are used to label responses associated with a multiple response question
1 st Character: Survey Type	2 nd – 3 rd Characters: Survey Year	4 th – 7 th Characters: Question #	Additional Characters: Additional Information
S = Supplemental Question	17	Quarter II BC01-BC10 – Supplemental questions about electronic cigarettes.	A to G are used to label responses associated with a multiple response question

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding Scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People 2020</i> variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
R=Constructed restricted use variables	Descriptive text, e.g., RDAGEQY (Age at time of data collection-capped-grouped those 18 and below, 86 and above)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)
FW=Quarterly weighting variables	Descriptive text, e.g., FWRWT for the overall final quarterly weight; Number referring to replicate weights, e.g., FWRWT10

CLEANING AND EDITING CONVENTIONS

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme for Quarter II appears in Appendix D. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when Ipsos created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “.N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “.C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “.O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in Quarter II, 2017 Adult HCSDB data file appear in Chapter 5 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

RECORD SELECTION CRITERIA

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database. If there are multiple questionnaires received from a single respondent, only the most complete questionnaire is retained.

To determine if a questionnaire is “complete”, 20 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (more than nine) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H17003, H17005, H17006, H17009, H17013, H17018, H17019, H17027, H17028, H17031, H17033, H17040, H17043, H17048, H17051, H17052, H17065, H17073, SREDA, and the race indicator variables (SRRACEA-SRRACEE).

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2017 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Basic sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. These basic sampling weights are further adjusted for nonresponse within the classes formed based on the percentiles of the propensity scores from the propensity model. Finally, we poststratified the nonresponse adjusted weights to the frame totals to obtain specific domain weighted totals equal to the population totals. Chapter 5 contains the weighted and unweighted frequencies for each variable in Quarter II. For further details on the 2017 weighting, see “2017 Health Care Survey of DoD Beneficiaries: Technical Manual”.

Chapter

4

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, and SUDAAN to create estimates are explained. Examples provided in the text are based on the Quarter II, 2017 HCSDB dataset.

HOW TO MAKE A TABLE USING SAS

The Quarter II, 2017 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 9 format. SAS is a computer software system used for data management, summarization, and analysis. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the Quarter II, 2017 adult dataset is located on a CD-ROM in the subdirectory HCSDB17\FORMA\Q2, your LIBNAME statement must look like this:

```
LIBNAME INFORMA 'F:\HCSDB17\FORMA\Q2';
```

The adult dataset can then be referred to as INFORMA.HCSDB17, where INFORMA is the location of the file HCSDB17.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

```
LIBNAME LIBRARY 'C:\HCSDB17\FORMA\Q2\FMTLIB';
```

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

```
OPTIONS PS=79 LS=132;
```

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

```
OPTIONS PS=50 LS=175 NOCENTER;
```

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of Active Duty by sex:

```
/* Active Duty males */  
IF XSEX = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;  
* Active Duty females;  
ELSE IF XSEX = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;  
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8;
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION SVCSMPL H17050 H17052;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only TNEX region 3 observations */  
IF XTNEXREG = 3;
```

- Create a new temporary dataset. For example, SVC_1 is a temporary file of observations for only those respondents in service branch 1 (Army):

```
LIBNAME INFORMAT 'F:\HCSDB17\FORMA\Q2';  
DATA SVC_1;  
/* Input file is HCSDB17 */  
SET INFORMAT.HCSDB17;  
IF SVCSMPL = 1;  
RUN;
```

- Create a new permanent dataset. For example, OUT.SVC_2 is a permanent dataset only of Navy respondents:

```
LIBNAME INFORMAT 'F:\HCSDB17\FORMA\Q2';  
LIBNAME OUT 'C:\HCSDB17\FORMA\Q2';  
DATA OUT.SVC_2;  
SET INFORMAT.HCSDB17;  
IF SVCSMPL = 2;  
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT FWRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in service branch 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE SVCSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XTNEXREG, XSEX, and SVCSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE statement, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSD for Quarter II, 2017, the weight variable is FWRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

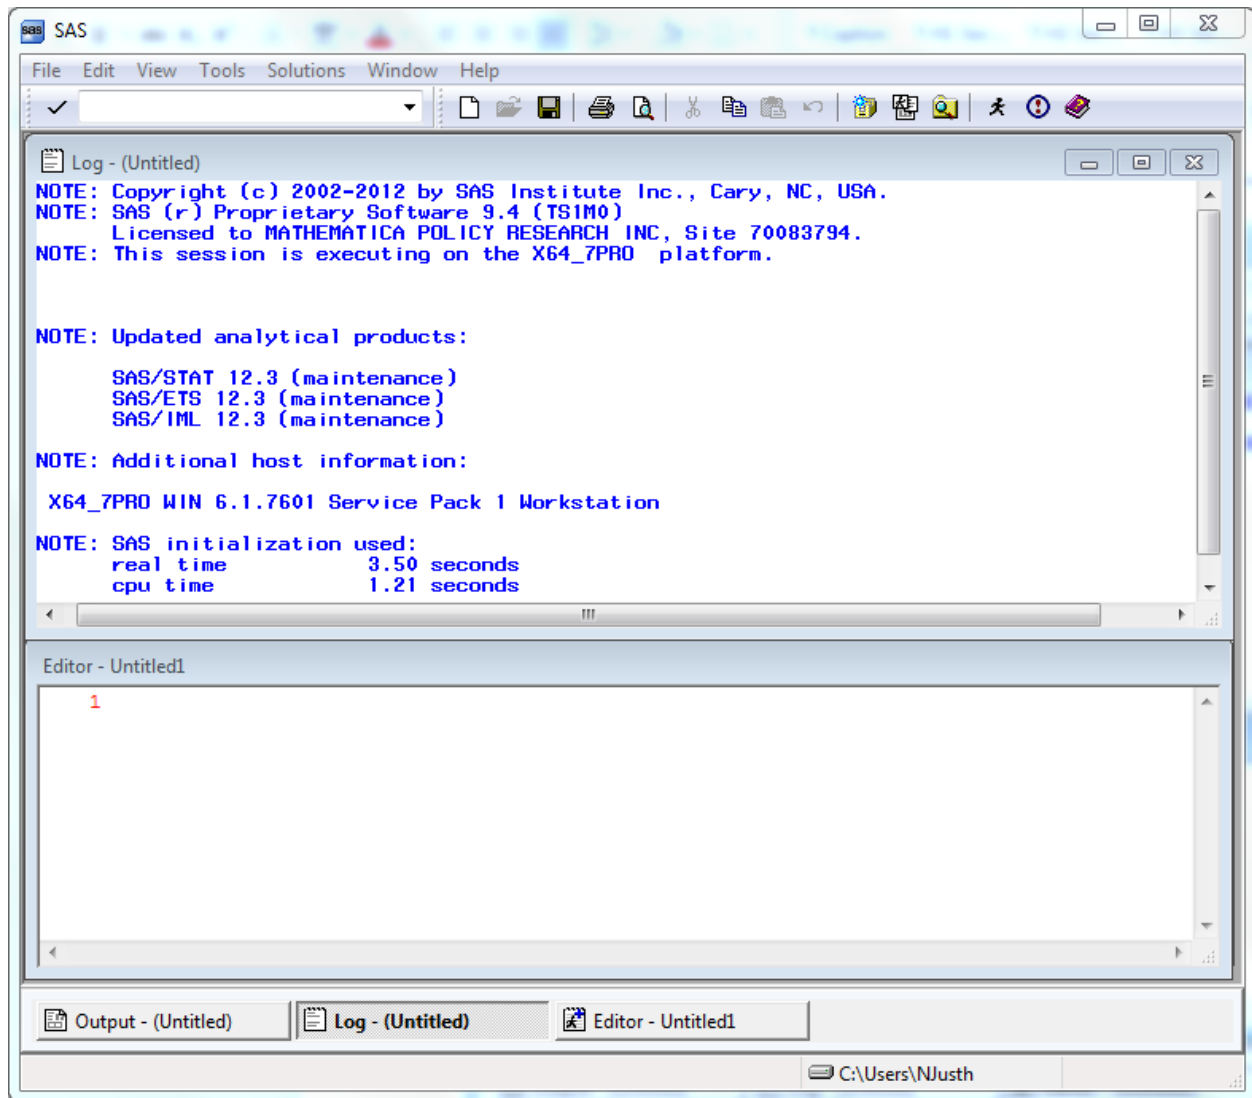

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form =*label*; for example, XTNEXREG=TNEX Region' or MEAN=' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H17018*MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H17018 H17048.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 9, the following screen opens.

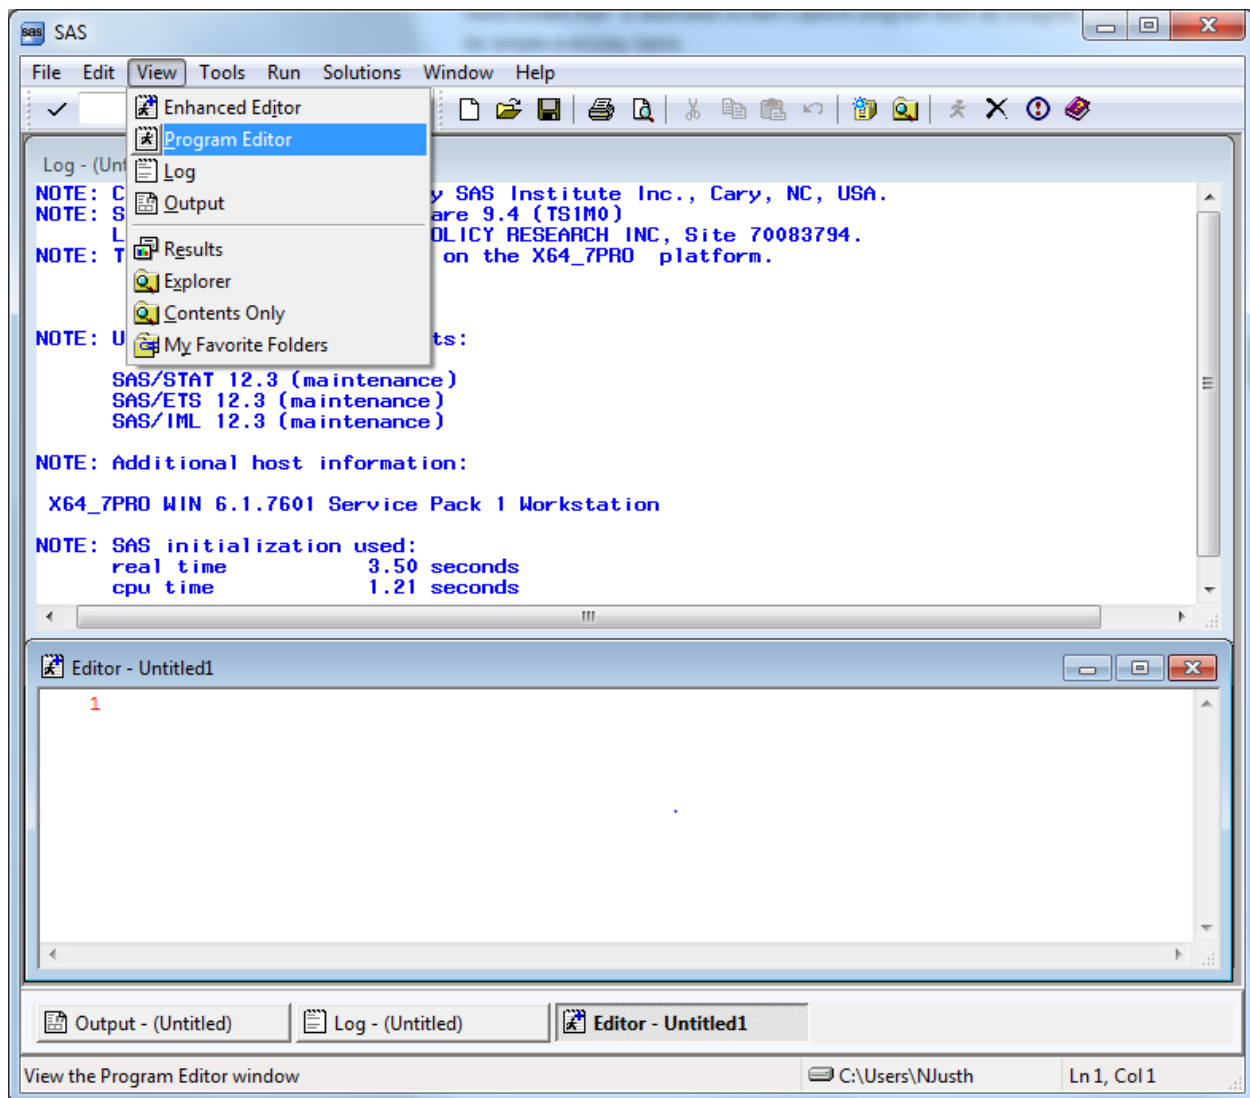

The screen is divided into two windows, a Log window above and an Editor window below.

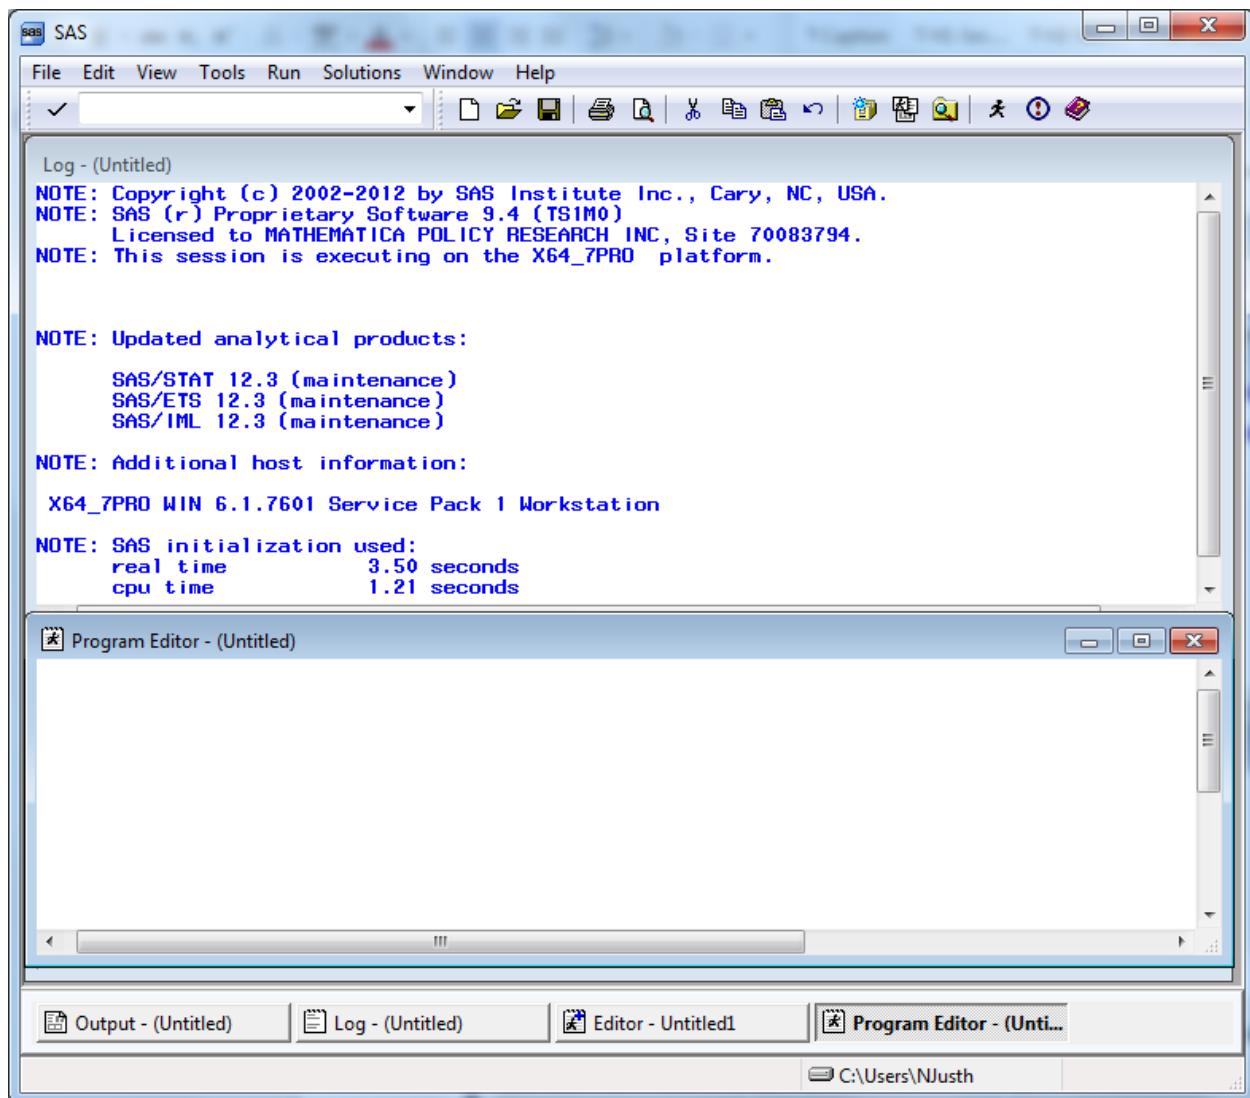

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 9 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

Click on View and select Program Editor as in the following:

The lower Editor Window has now changed to Program Editor as in the following screen:

Open the Tools menu and choose Options and Preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

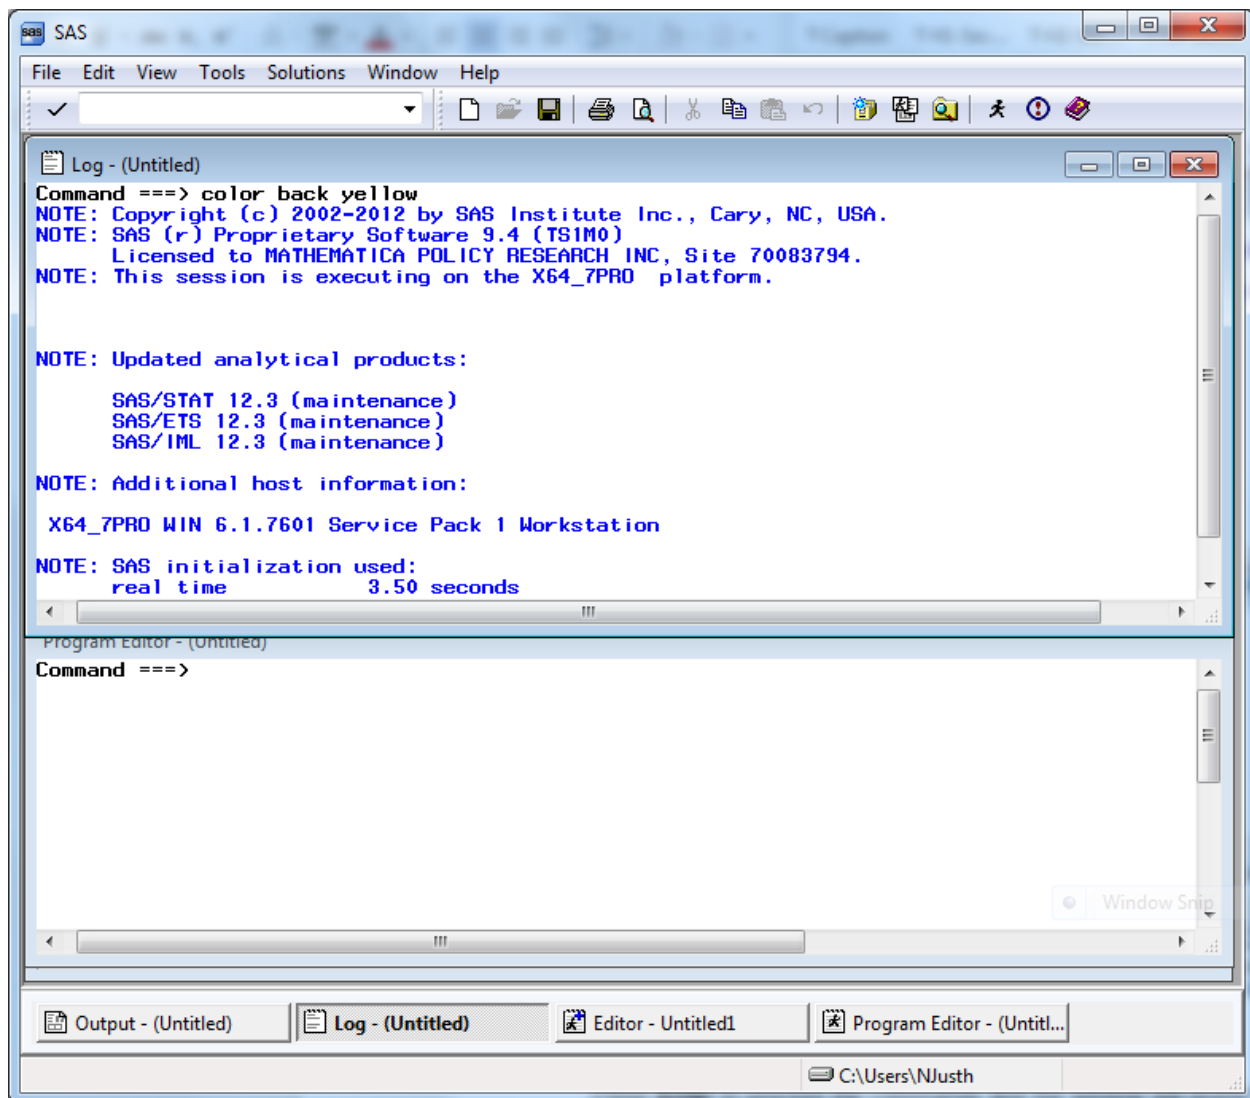

Click on OK and a command line will be added as in the screen below.

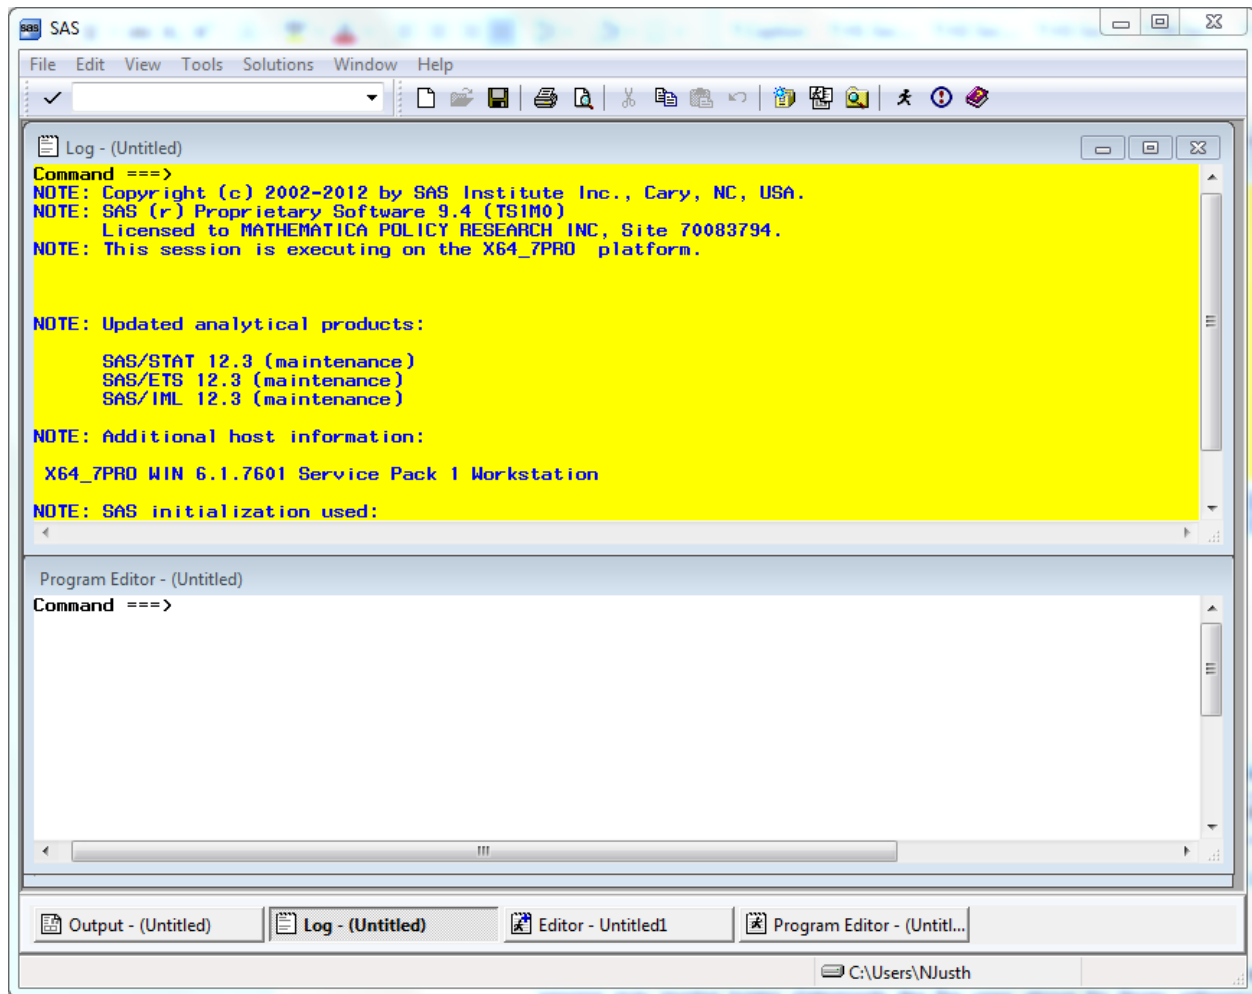

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allow you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

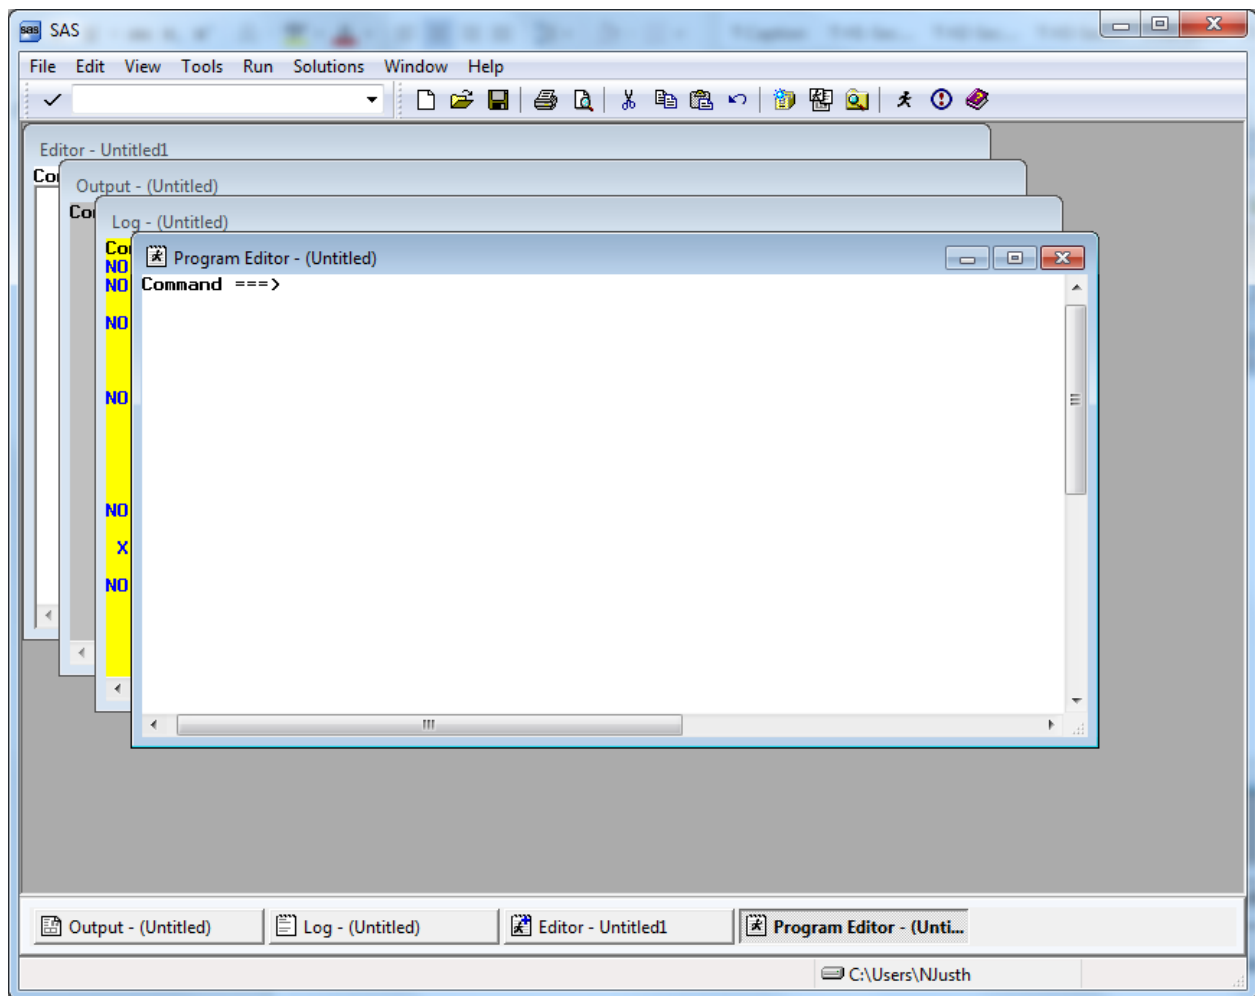

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

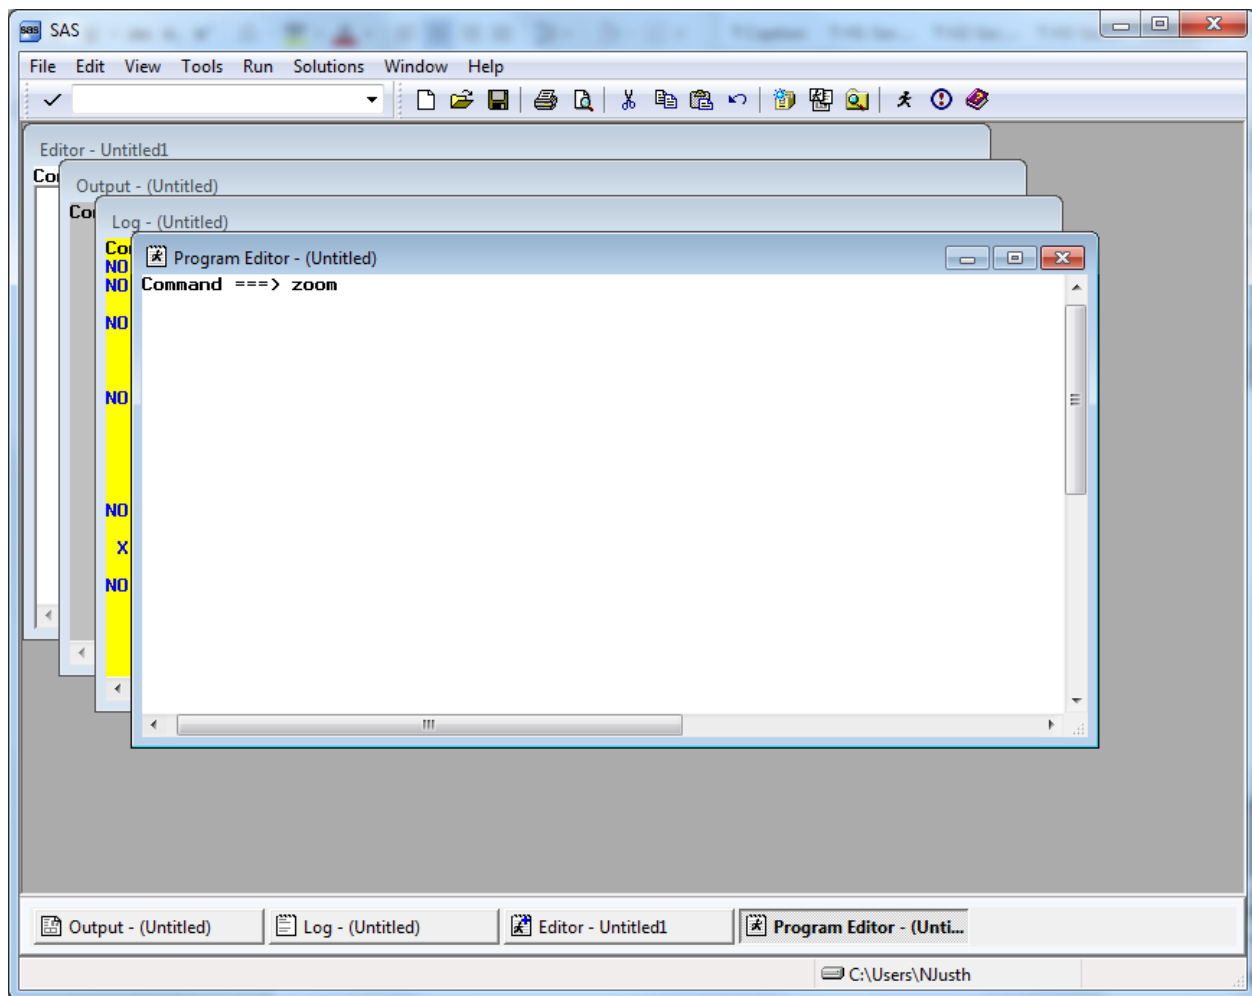

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

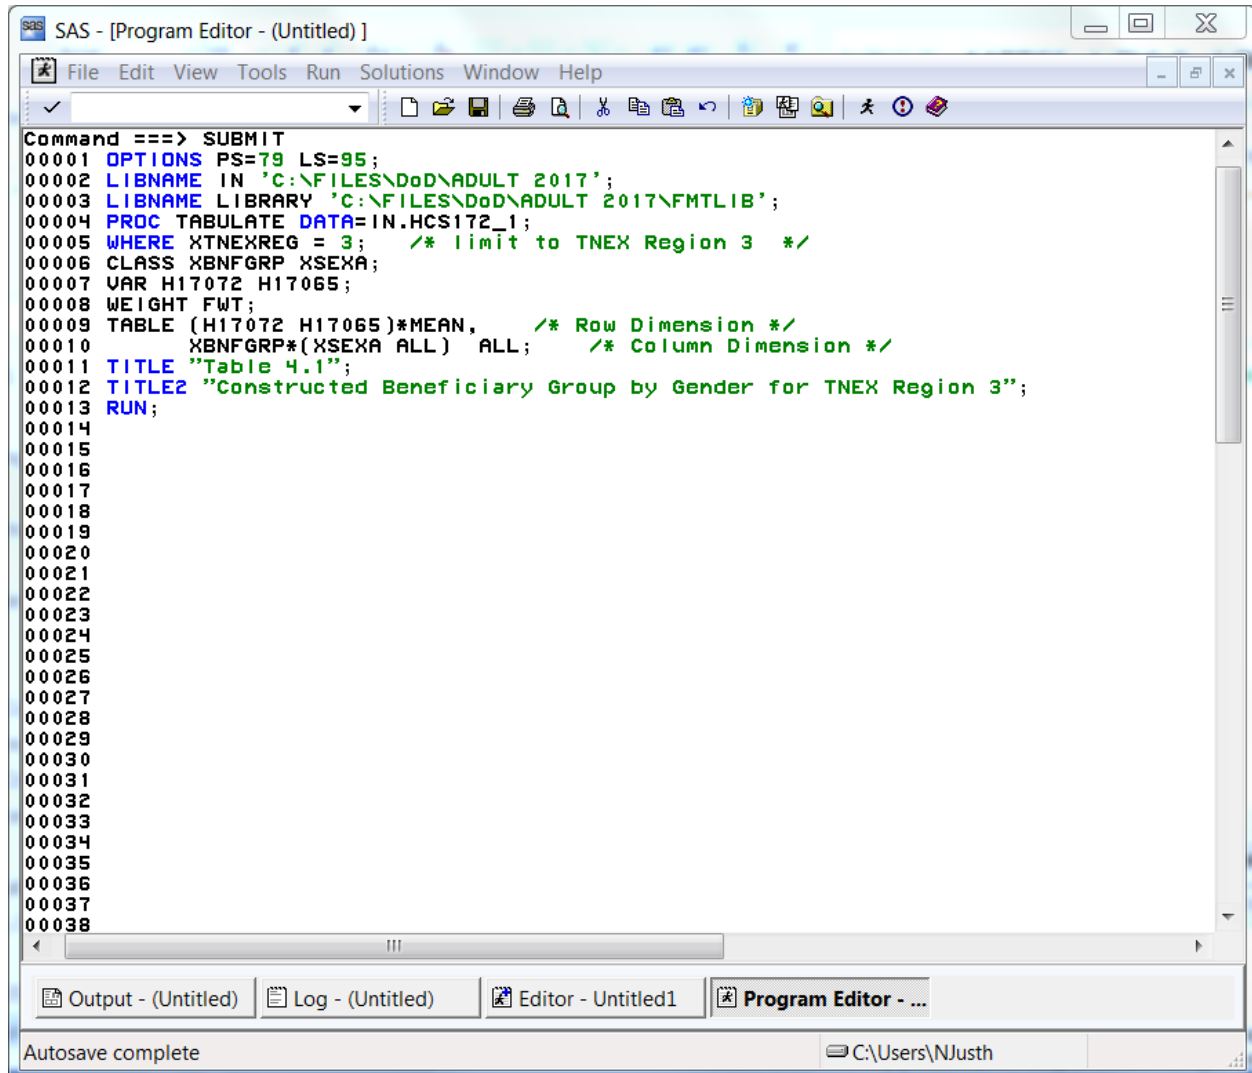

Below is an example of a PROC TABULATE to construct a table of health status and respondent's weight by beneficiary group and gender for respondents in TNEX region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The variables (H17072 and H17065) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2017';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2017\FMTLIB';
PROC TABULATE DATA=IN.HCS172_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H17072 H17065;
WEIGHT FWT;
TABLE (H17072 H17065)*MEAN, /* Row Dimension */
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */
TITLE "Table 4.1";
TITLE2 "Constructed Beneficiary Group by Gender for TNEX Region 3";
```

RUN;

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

Enter the **Submit** command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2017\FMTLIB indicates that a Value of 1 for XSEXa means male, and a value of 2 for XSEXa means female. Similarly, if XBNFGRP equals 1, the respondent is Active Duty; if XBNFGRP equals 2, the respondent is a family member of Active Duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 4.1, the values of the statistics are of the form xxx.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are Active Duty, family members of Active Duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP= ' '

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN= ' '*F=6.2

The headings for XSEXa and ALL can be improved:

XSEXa='Gender'

ALL='Group Total' for the ALL that is crossed with XBNFGRP

ALL='Total' for the TNEX Region 3 total

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2017';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2017\FMTLIB';
PROC TABULATE DATA=IN.HCS172_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
```

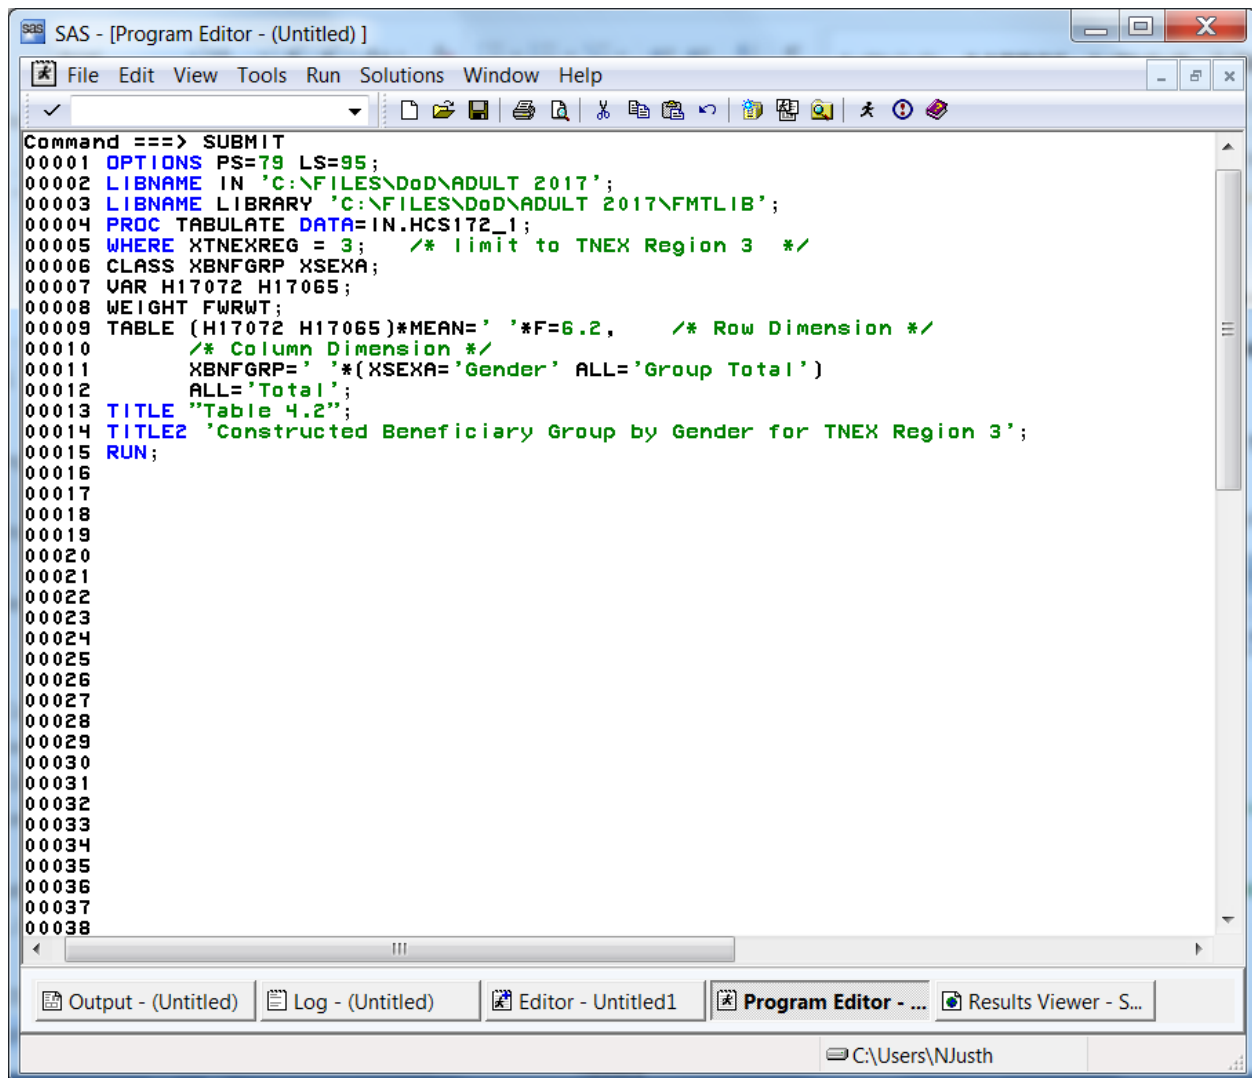

```

CLASS XBNFGRP XSEX;
VAR H17072 H17065;
WEIGHT FWRWT;
TABLE (H17072 H17065)*MEAN=' *F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP=' *(XSEX='Gender' ALL='Group Total')
ALL='Total';

TITLE "Table 4.2";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;

```

Typing these statements into the Program Window produces the following screen.

After the **Submit** command is entered, the following table is displayed in the Results Viewer window.

	Gender		
	Group		
	Female	Total	Total
Weight without shoes	151.99	174.26	173.63
In gnrl, how would you rate ovrall hlth	3.43	3.40	3.60

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2017';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2017\FMTLIB';
PROC TABULATE DATA=IN.HCS172_1;

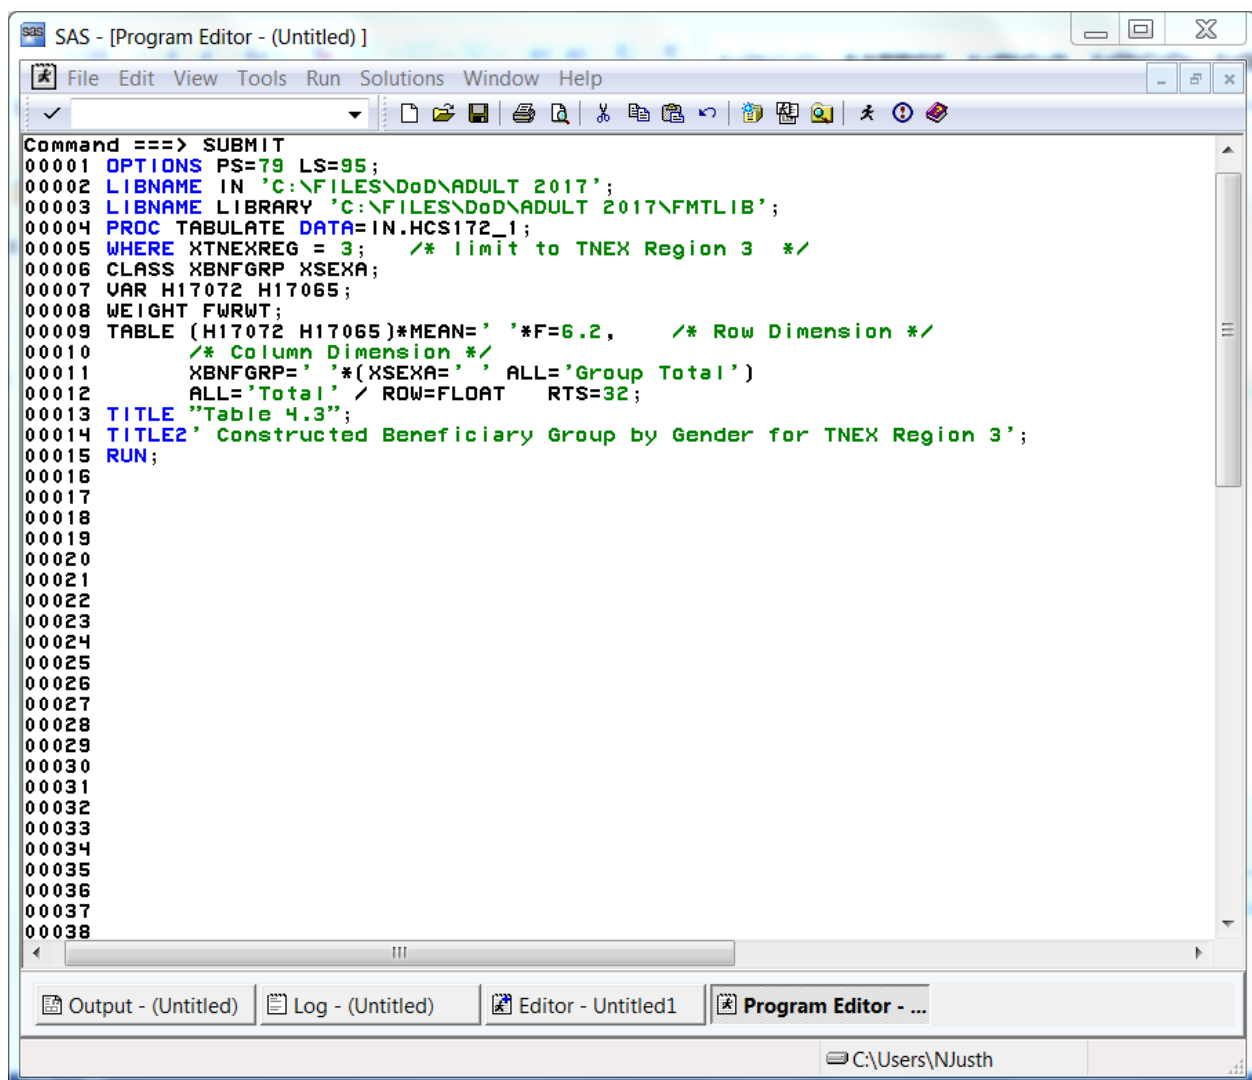

```

```

WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEX;
VAR H17072 H17065;
WEIGHT FWRWT;
TABLE (H17072 H17065)*MEAN=' *F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP=' *(XSEX=' ' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
TITLE "Table 4.3";
TITLE2' Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;

```

Typed into the Program Window, the revised program appears as follows.

The screenshot shows the SAS Program Editor window with the following code:

```

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in region 2 and each branch of service who answered yes (or no) to variable H17052, 'Have you ever smoked at least 100 cigarettes in your entire life?', your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XTNEXREG = 2;  
TABLE H17052 ALL='Total',  
(All='Region Total' SVCSMPL=' ')*(N='#'*F=5.0 PCTN<H17052 ALL>='%'*F=6.2)  
/RTS=25;
```

Table 4.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

```
Command ==> SUBMIT

No	2340	67.09	748	65.90	340	65.38	77	62.60	1094	68.81
Total	3488	100.00	1135	100.00	520	100.00	123	100.00	1590	100.00

(Continued)

Table 4.4
Have You Ever Smoked At Least 100 Cigarettes In Your Entire Life
for Service Branches within TNEX Region 2

	Coast Guard		Other/Unkno- wn	
	#	%	#	%
Smoked at least 100 cigarettes in life				
Yes	36	34.62	3	18.75
No	68	65.38	13	81.25
Total	104	100.00	16	100.00

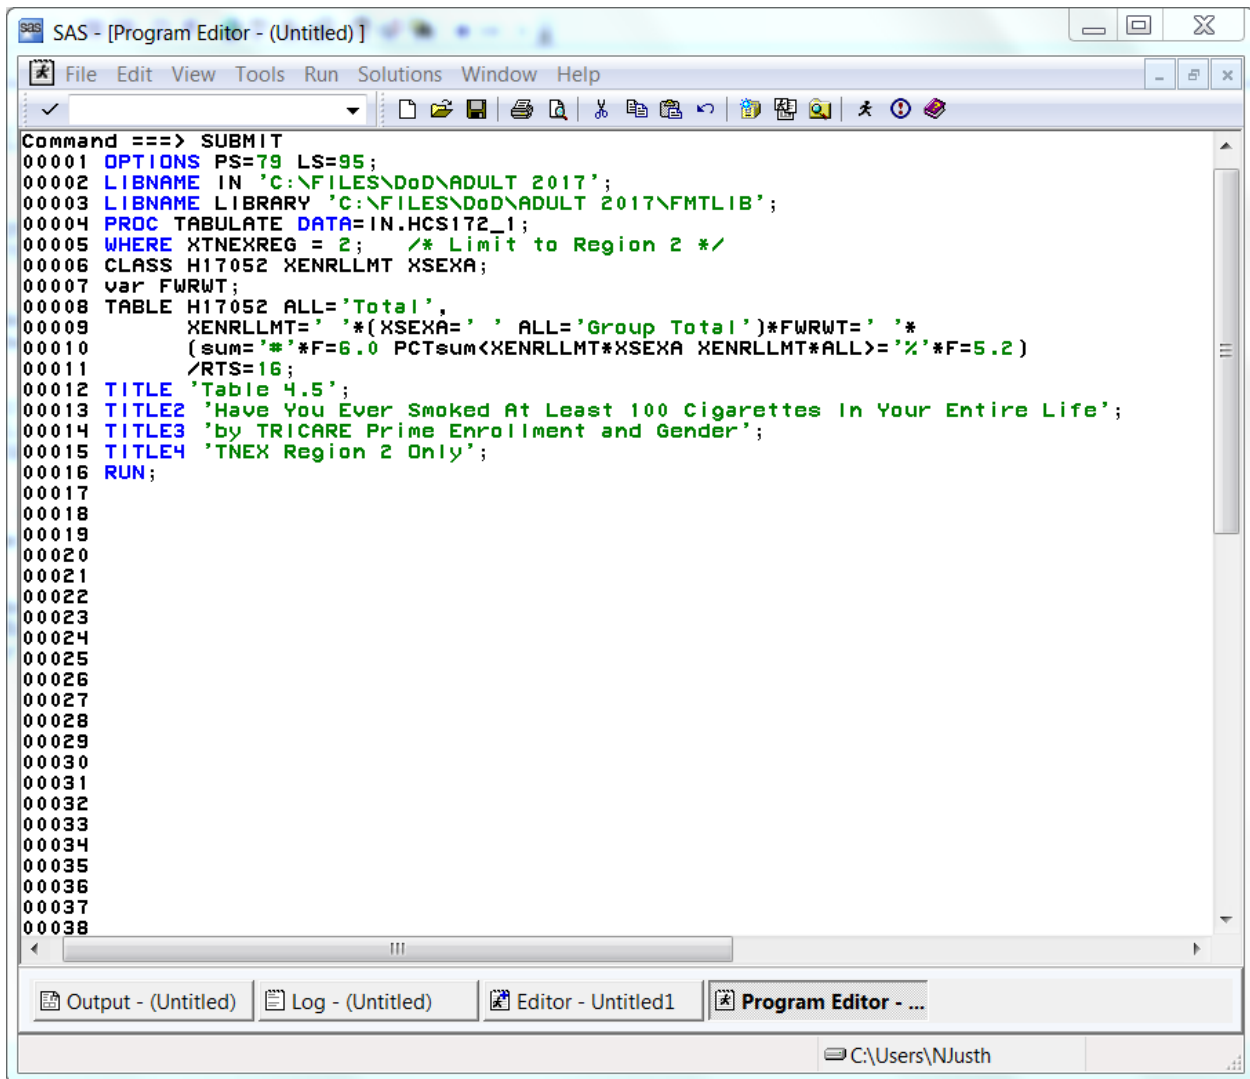

The statistic N(#) is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 4.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report having smoked at least 100 cigarettes in their lifetime, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

```
TABLE H17052 ALL='Total',
XENRLLMT *(XSEXA=' ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';
```

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include FWRWT (the 2017 quarterly weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 4.5.

The following screen shows the new program typed into the Program Editor.

```

HOW TO MAKE A TABLE USING SPSS

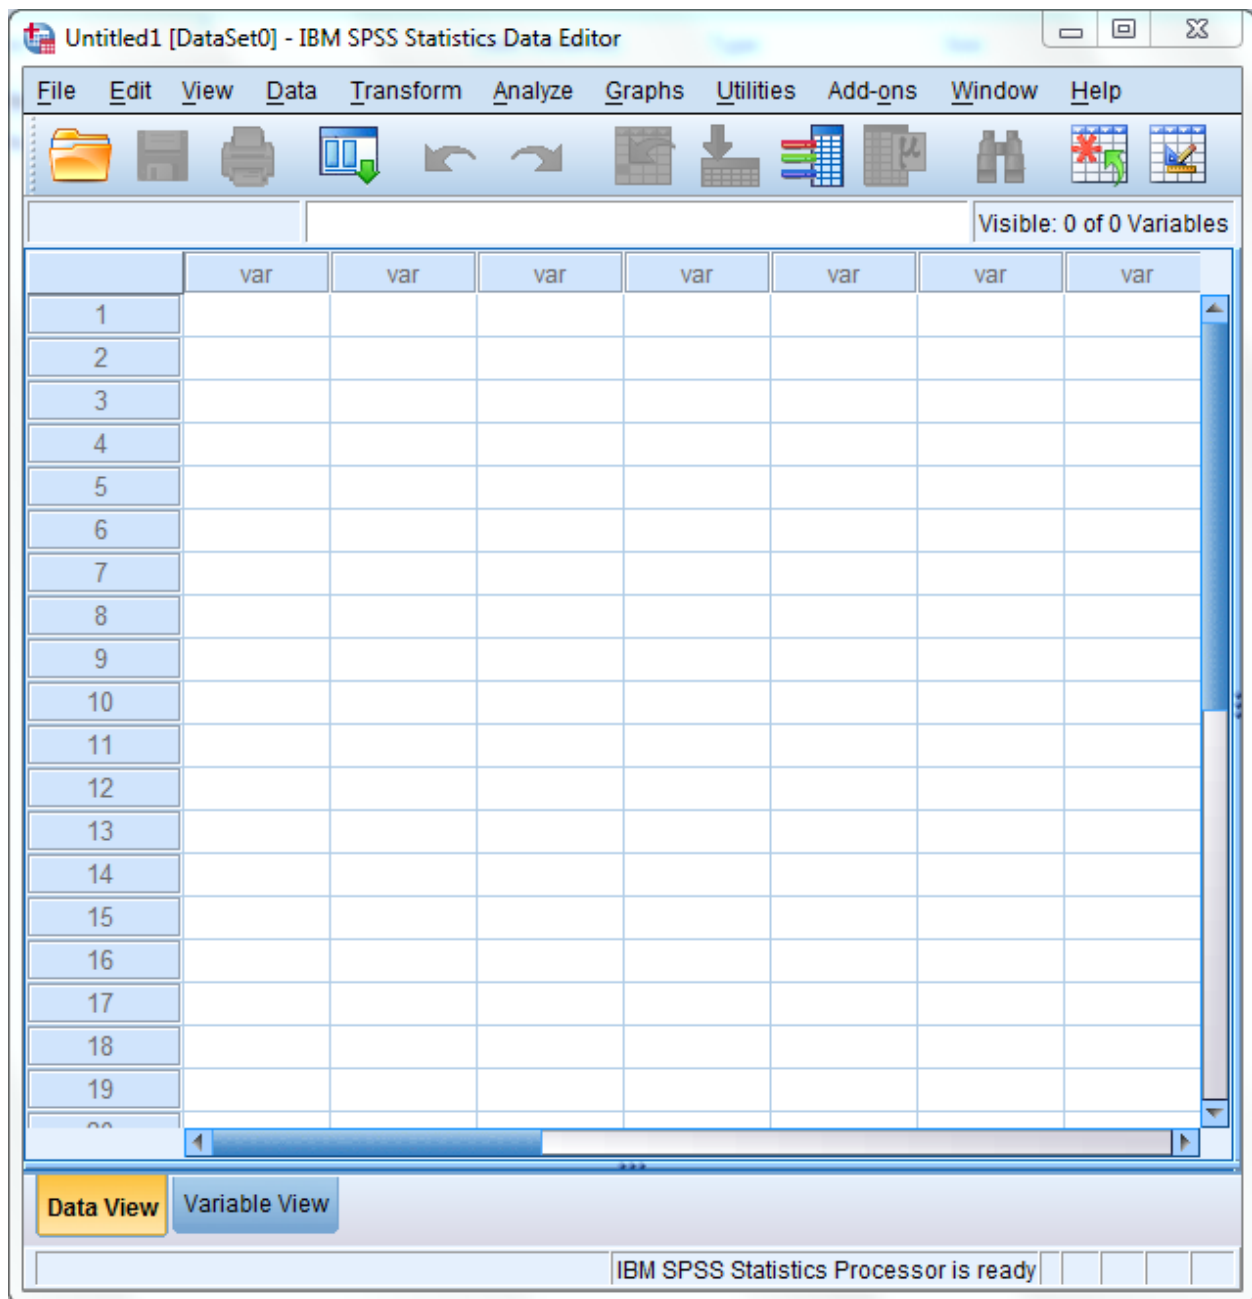

The Quarter II, 2017 Adult HCSDb dataset is available in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

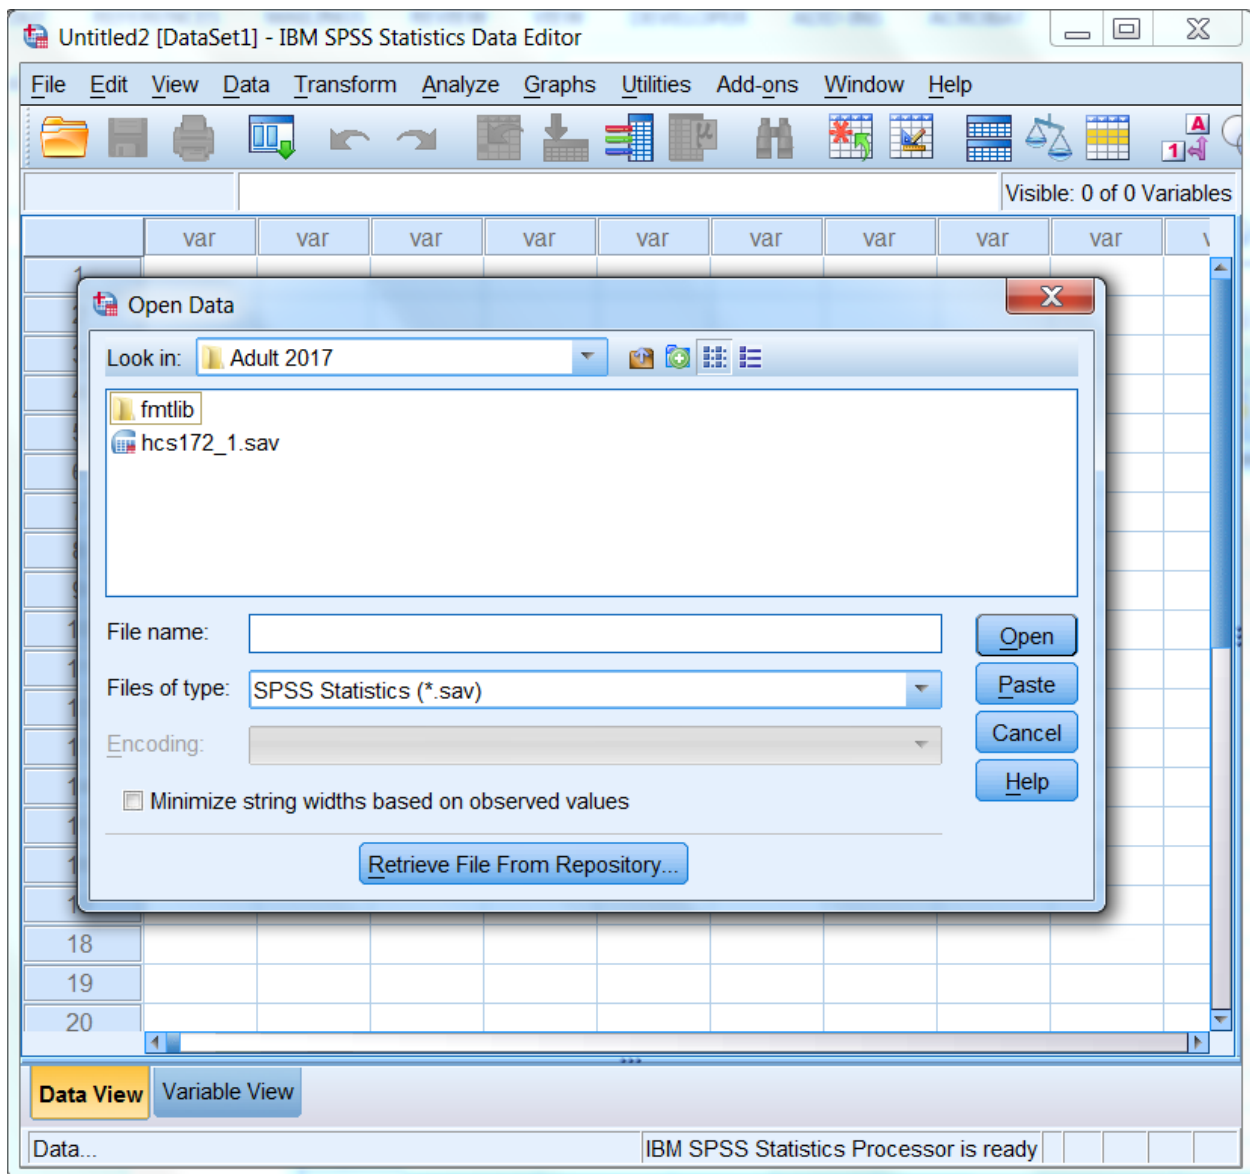

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a spreadsheet with a dialog box. Click Cancel in the bottom right corner to close the dialog box and a blank dataset will appear:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** and **data** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The Quarter II, 2017 Adult HCSDb dataset has been opened and is displayed below.

Data View Variable View

IBM SPSS Statistics Processor is ready

Constructing new variables

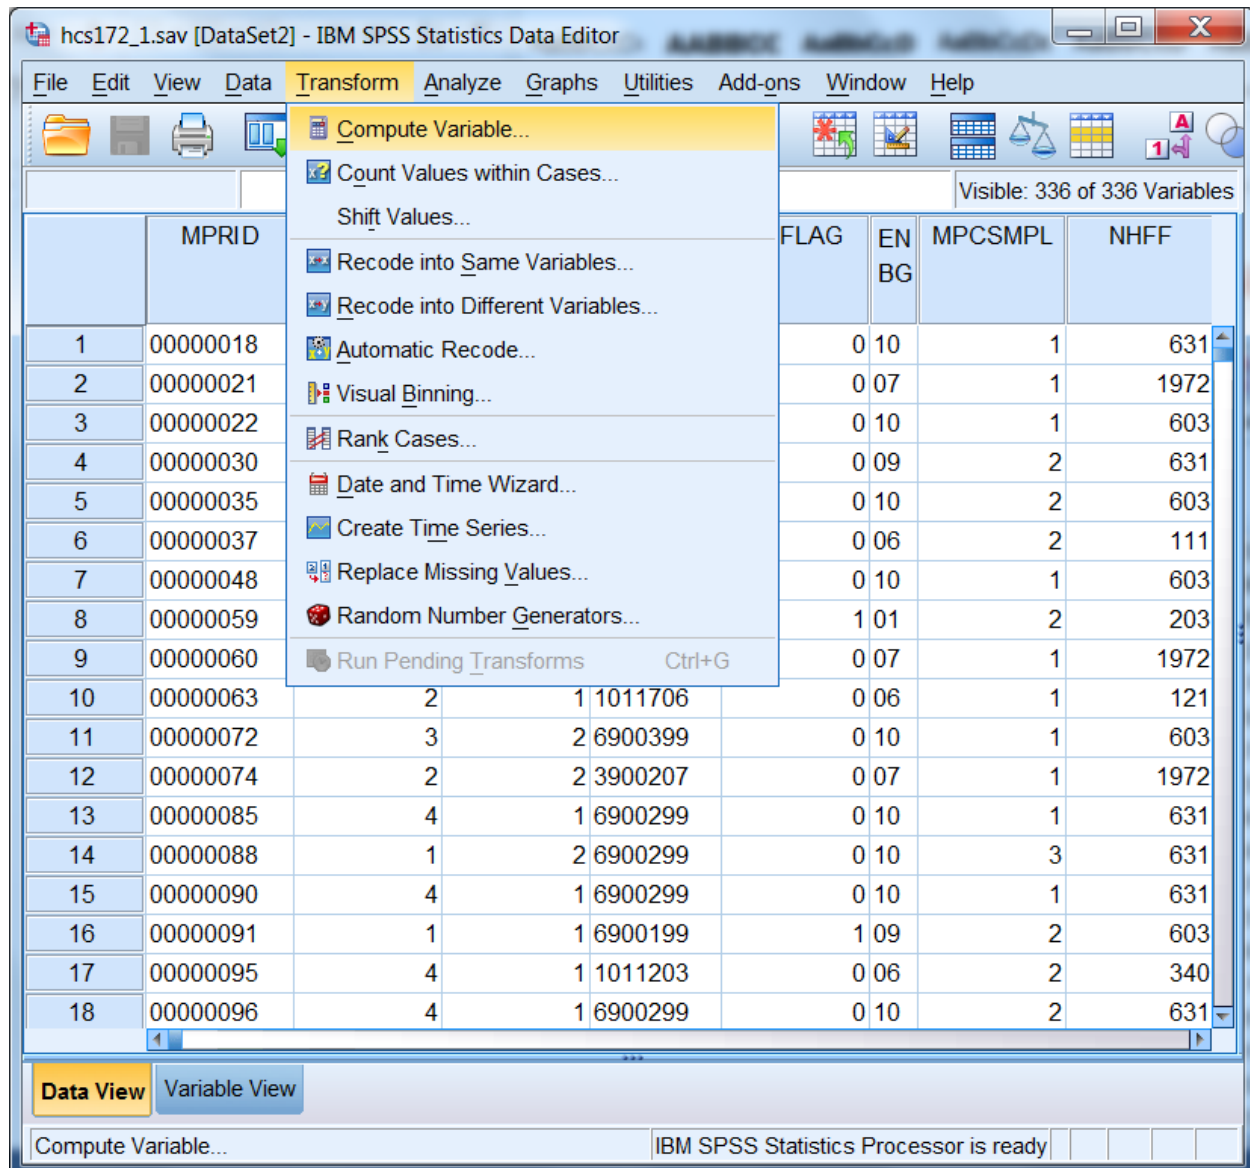

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called *xbnfgrp*, and the variable for sex is *xsexa*. The value 1 for *xbnfgrp* indicates that the individual is on Active Duty. The relationships for constructing a new variable of Active Duty by sex are:

Active-Duty-males: ***XSEXA=1 and XBNFGRP=1***

Active-Duty-females: ***XSEXA=2 and XBNFGRP=1***

Open the Transform menu and select Compute Variable as in the following:

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable `sex_ad`. Next, assign the value 1 to `sex_ad` by entering it into the slot for Numeric Expression. Your screen should look like the following:

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If and open the following dialog box:

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the "if" condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexa = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to sex_ad, press If, and enter the new condition to identify Active Duty females. Click Continue, and finish with OK. The condition, if xsexa = 2 and xbnfgrp = 1, will be added to the new variable sex_ad.

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

Recall the compute example for the new variable sex_ad. The screen below is the result of assigning 1 to sex_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

Click on the Paste button. A dialog box that says “Change existing variable?” will pop up. Click on OK, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** and build the “if” condition as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **RFLDAGE**, which exists on our dataset. **RFLDAGE** is coded in years from 18 to 86, which can be grouped into four age categories:

18 to 34 = 1 - label: "young adult"

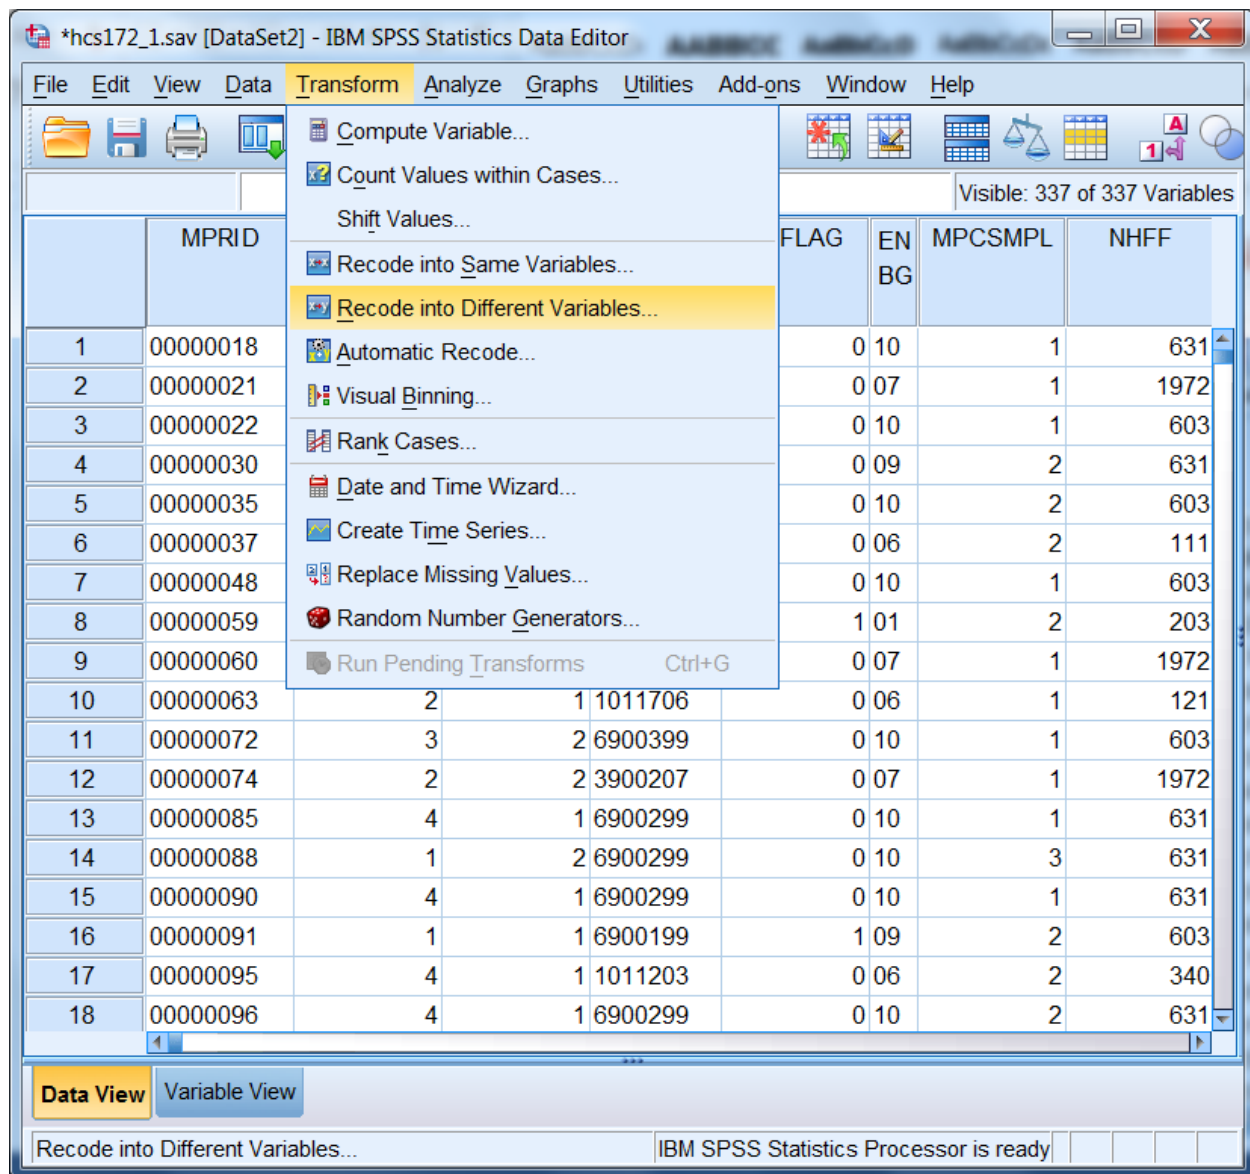

35 to 49 = 2 - label: "mature adult"

50 to 65 = 3 – label: "middle-age"

66 to 86 = 4 – label: "senior citizen"

The new variable is called **age_grp**.

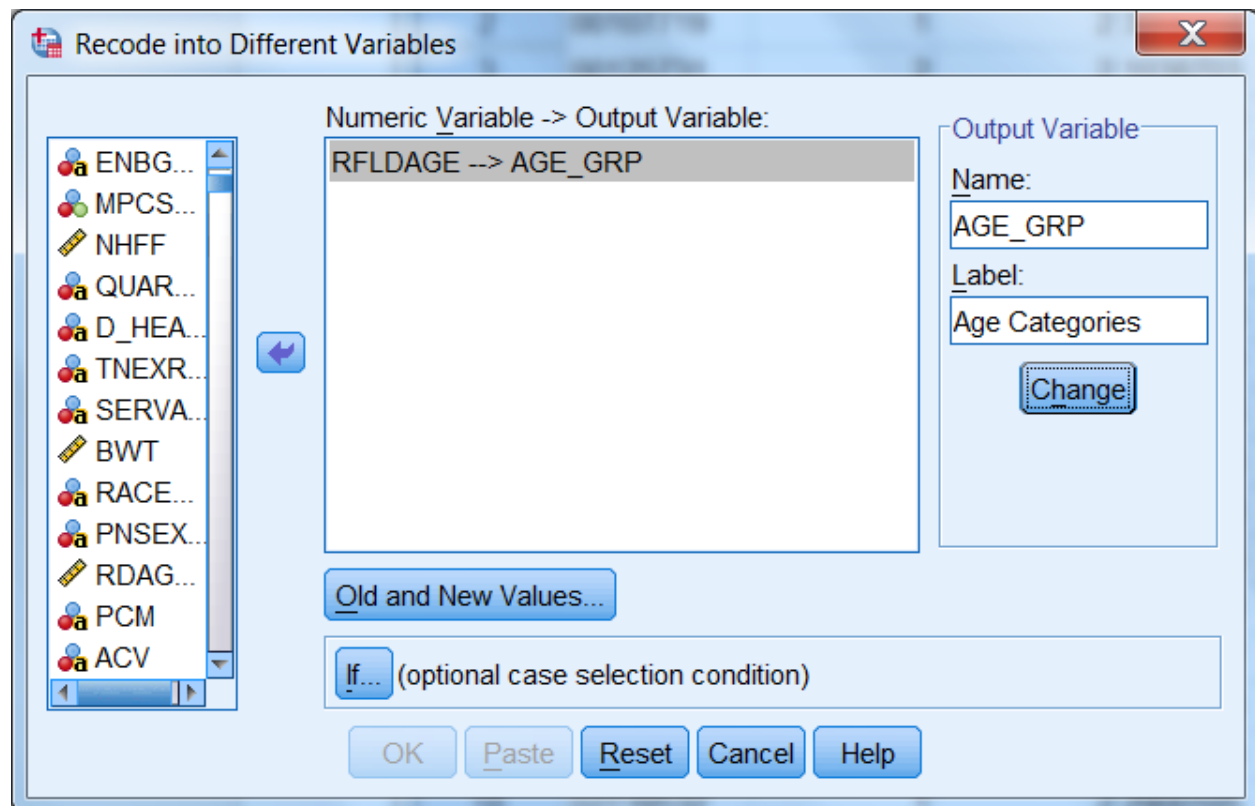

From the **Transform** menu, choose **Recode Into Different Variables** as pictured below:

The following dialog box will open:

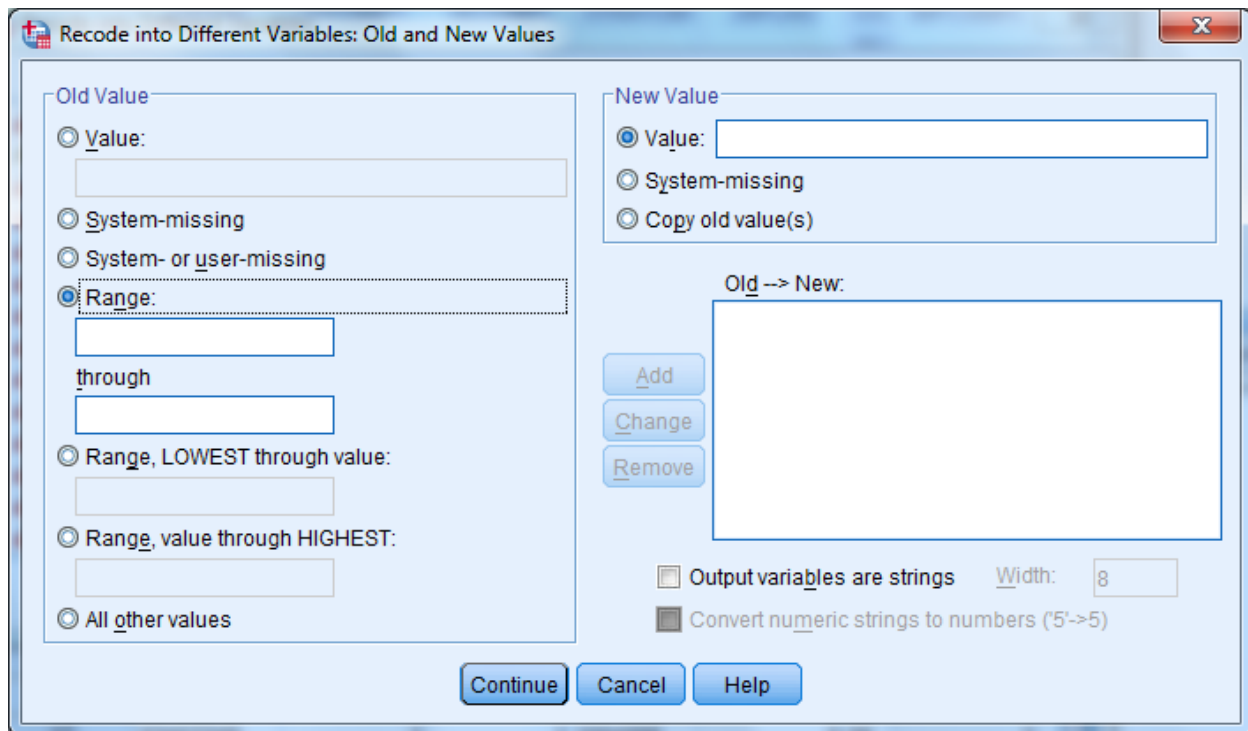

Move **RFLDAGE** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

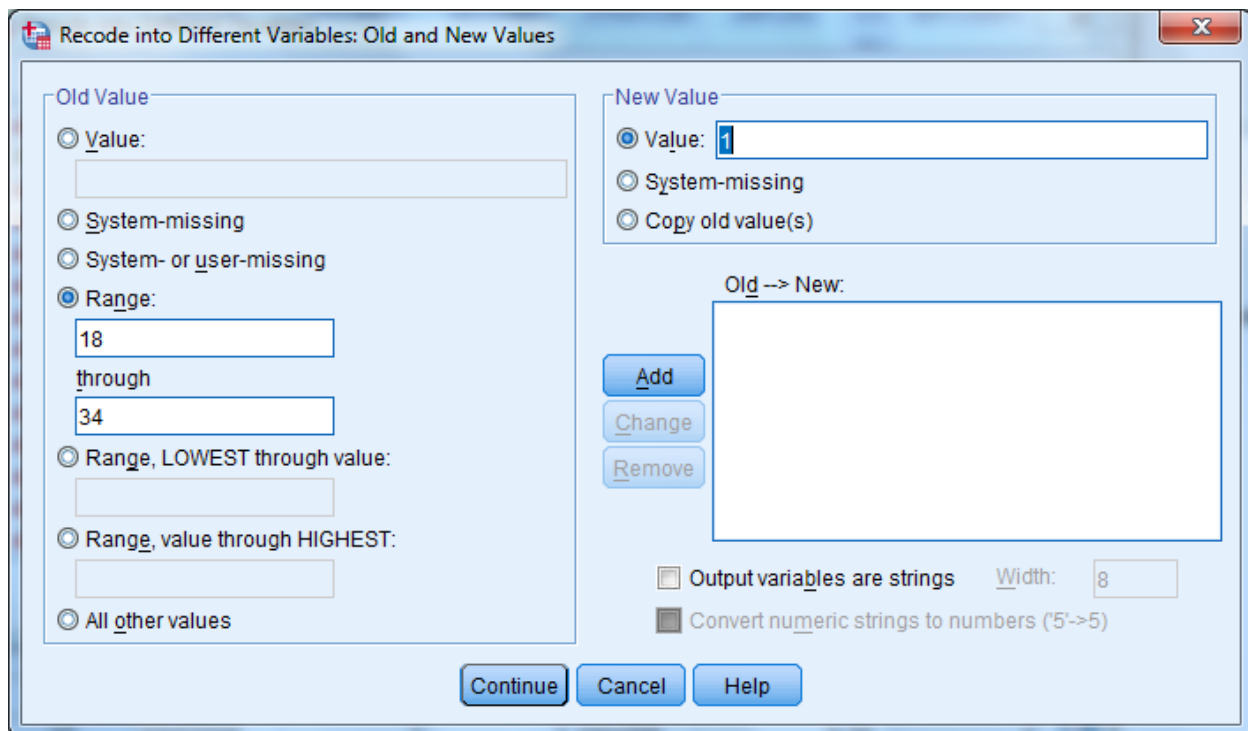

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

The image shows the 'Recode into Different Variables: Old and New Values' dialog box in SPSS. The 'Old Value' section on the left has the 'Range' radio button selected. Below it are two empty text boxes for the range, followed by the word 'through' and another empty text box. The 'New Value' section on the right has the 'Value' radio button selected, with an empty text box next to it. Below this are 'System-missing' and 'Copy old value(s)' options. A large empty box labeled 'Old --> New:' is in the center. At the bottom right are checkboxes for 'Output variables are strings' (unchecked) and 'Convert numeric strings to numbers' (checked). The 'Width' is set to 8. At the bottom are 'Continue', 'Cancel', and 'Help' buttons.

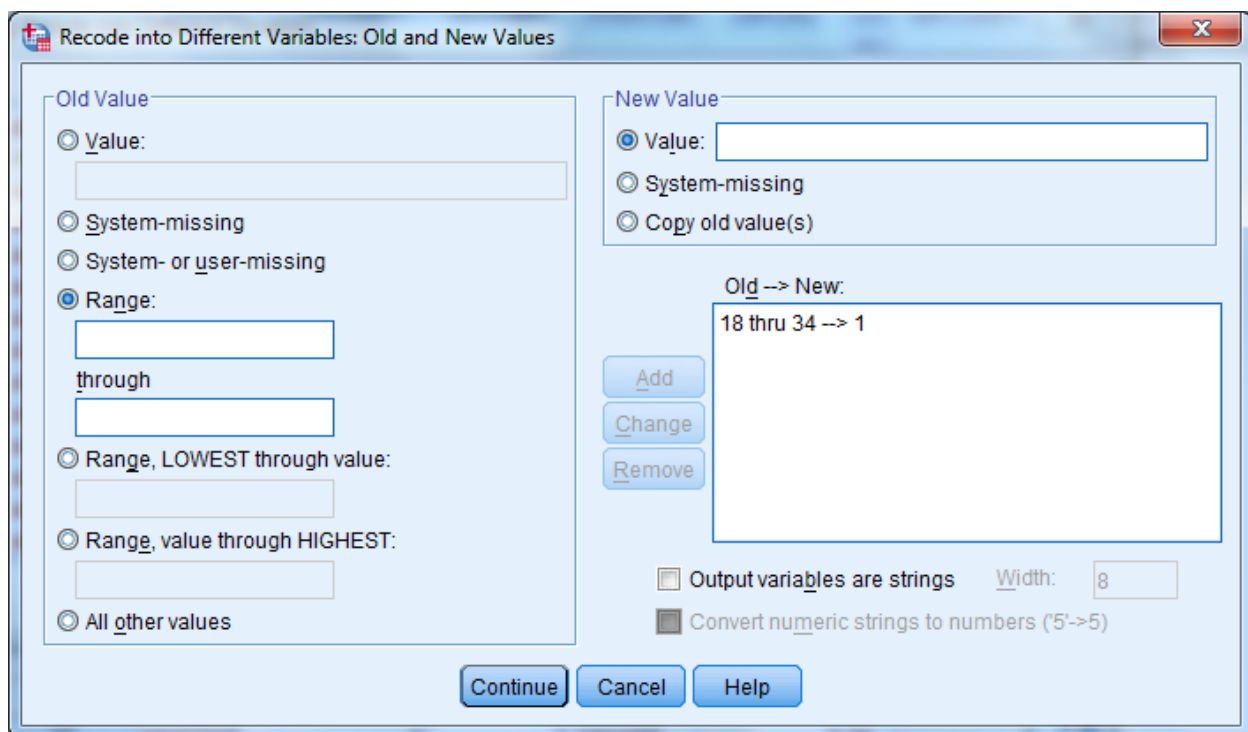

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 **through** 34 in the slots provided under **Range**. Next, enter the value 1 in the **Value** slot under **New Value**. **Add** is now illuminated.

The image shows the 'Recode into Different Variables: Old and New Values' dialog box in SPSS. The 'Old Value' section on the left has the 'Range' option selected, with '18' in the first input box and '34' in the second. The 'New Value' section on the right has the 'Value' option selected, with '1' in the input box. Below these sections are buttons for 'Add', 'Change', and 'Remove'. At the bottom right, there are checkboxes for 'Output variables are strings' (unchecked) and 'Convert numeric strings to numbers' (checked), along with a 'Width' of 8. At the bottom are 'Continue', 'Cancel', and 'Help' buttons.

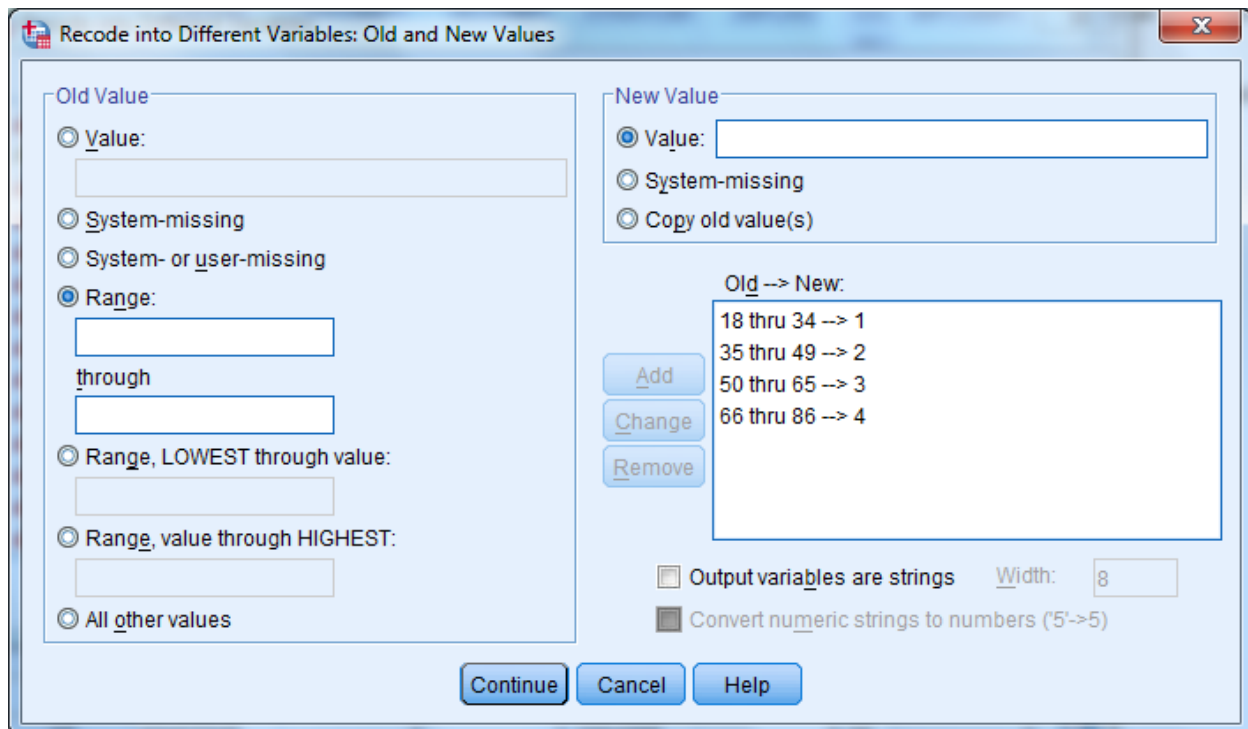

Clicking on Add produces the following result:

The image shows the same 'Recode into Different Variables: Old and New Values' dialog box, but now the 'Old --> New:' list in the 'New Value' section contains the mapping '18 thru 34 --> 1'. The 'Add' button is highlighted. All other settings, including the 'Range' selection in the 'Old Value' section and the checkboxes at the bottom, remain the same as in the previous image.

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

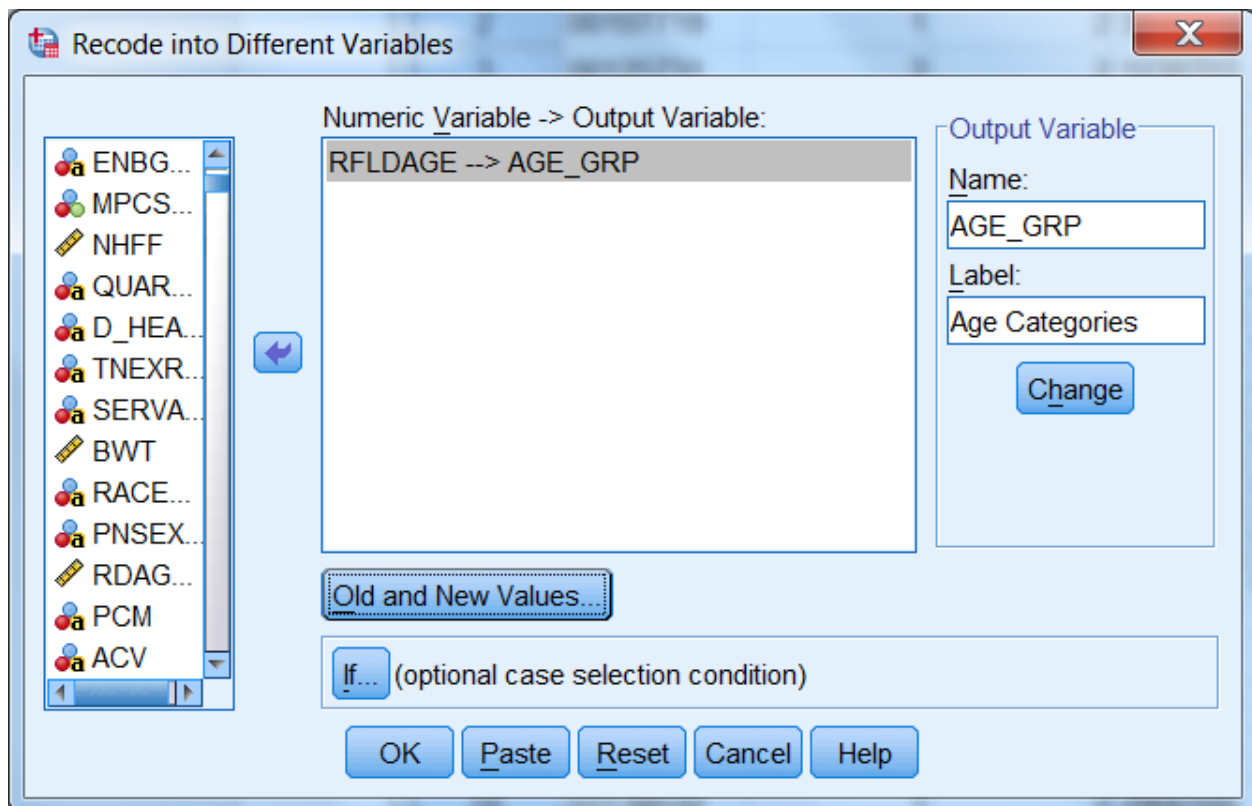

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

The image shows the 'Recode into Different Variables: Old and New Values' dialog box in SPSS. The 'Old Value' section on the left has the 'Range' radio button selected. The 'New Value' section on the right has the 'Value' radio button selected. In the center, the 'Old -> New:' list contains four entries: '18 thru 34 --> 1', '35 thru 49 --> 2', '50 thru 65 --> 3', and '66 thru 86 --> 4'. Below this list are 'Add', 'Change', and 'Remove' buttons. At the bottom right, there are checkboxes for 'Output variables are strings' (unchecked) and 'Convert numeric strings to numbers ('5'-->5)' (checked), along with a 'Width' field set to 8. At the bottom center are 'Continue', 'Cancel', and 'Help' buttons.

Old Value	New Value
18 thru 34	1
35 thru 49	2
50 thru 65	3
66 thru 86	4

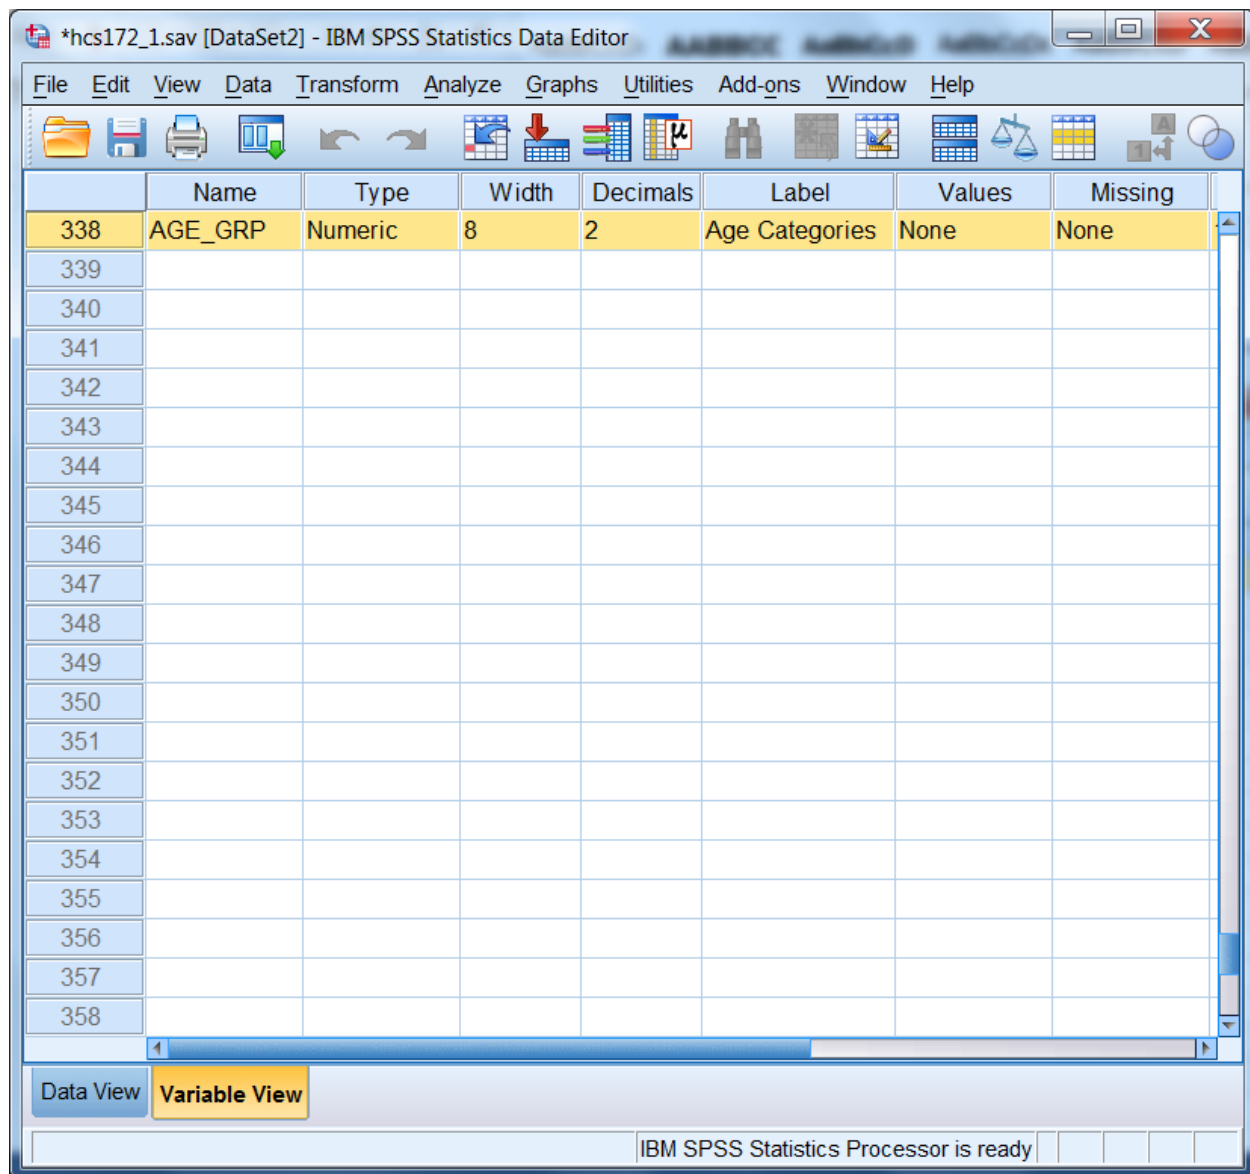

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

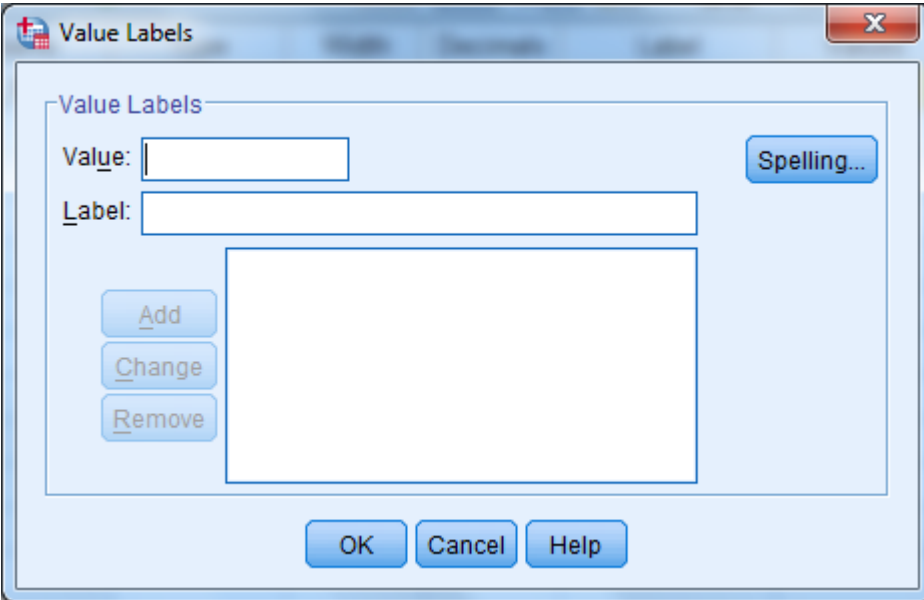

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

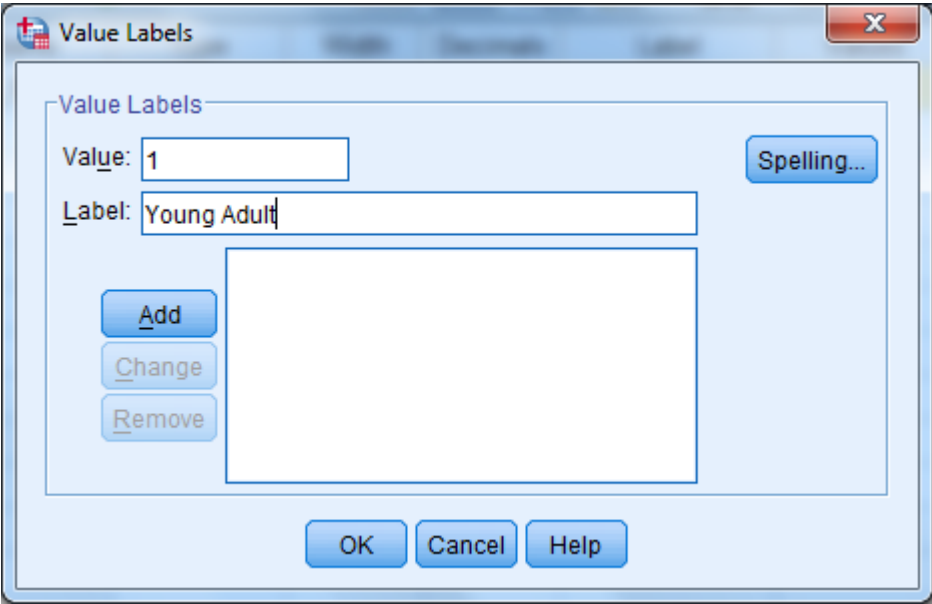

The variable **age_grp** is shown with its attributes.

Click in the cell under **Values** and the following dialog box will open:

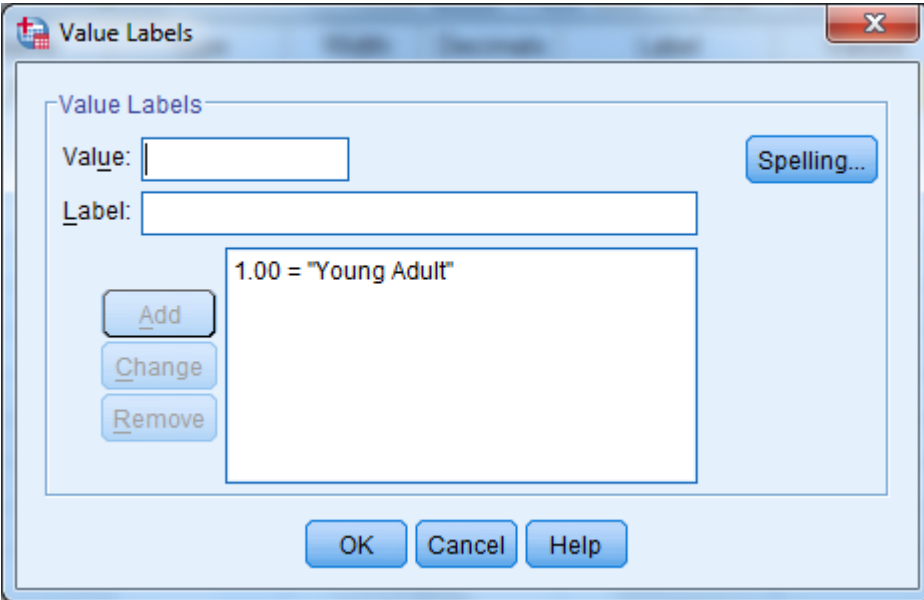

The image shows a Windows-style dialog box titled "Value Labels". It has a standard title bar with a red close button (X). The dialog contains a "Value Labels" section with two input fields: "Value:" and "Label:". To the right of these fields is a "Spelling..." button. Below the input fields are three buttons: "Add", "Change", and "Remove". To the right of these buttons is a large, empty rectangular box. At the bottom of the dialog are three buttons: "OK", "Cancel", and "Help".

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked Value Label. The screen will look like the following:

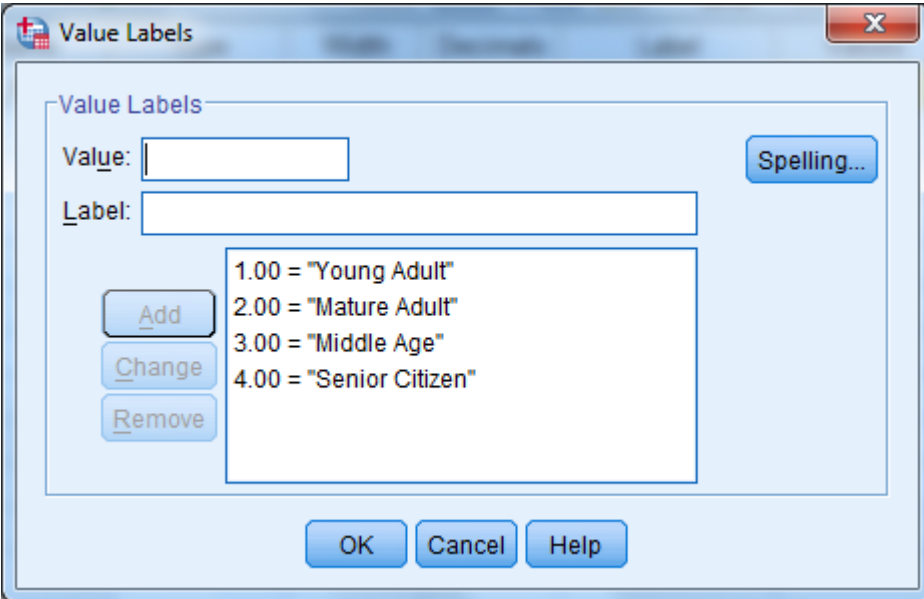

The image shows the same "Value Labels" dialog box, but now with data entered. The "Value:" field contains the number "1". The "Label:" field contains the text "Young Adult". The "Add" button is now highlighted with a blue background. The "Spelling..." button is still present to the right of the input fields. The "Change" and "Remove" buttons are still present below the input fields. The large empty rectangular box is still present to the right of the buttons. The "OK", "Cancel", and "Help" buttons are still present at the bottom.

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

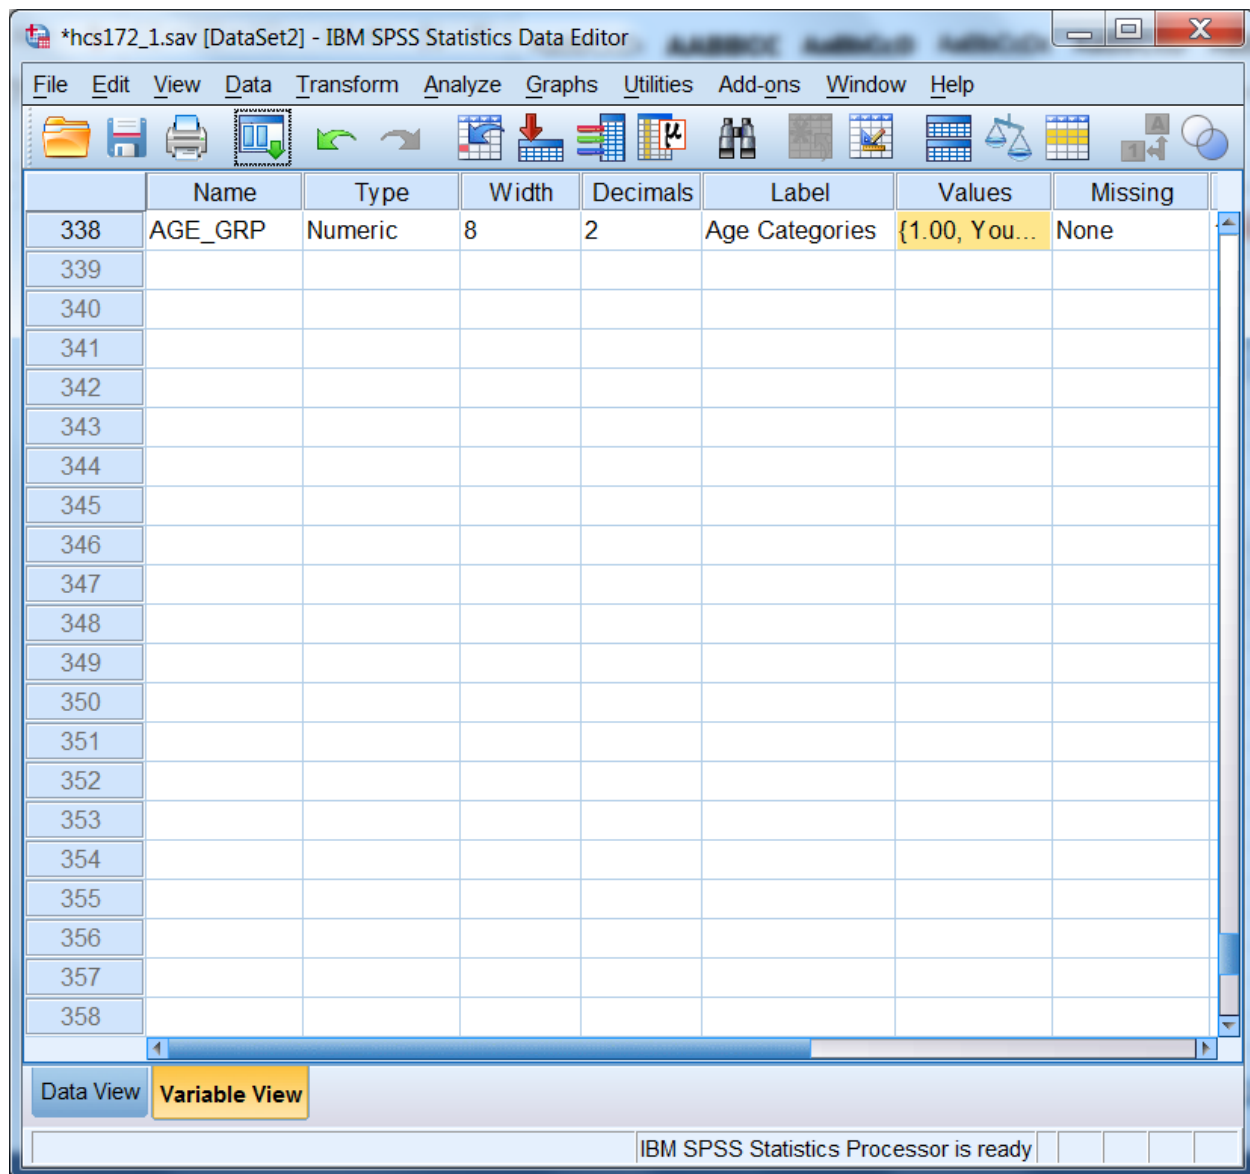

The "Value Labels" dialog box is shown. It has a title bar with a red "X" button. The main area is titled "Value Labels" and contains a "Value:" text box, a "Label:" text box, and a list box. The list box contains one entry: "1.00 = 'Young Adult'". To the left of the list box are three buttons: "Add", "Change", and "Remove". To the right of the list box is a "Spelling..." button. At the bottom are three buttons: "OK", "Cancel", and "Help".

Build the other three labels until the screen looks like the following:

The "Value Labels" dialog box is shown with four entries in the list box: "1.00 = 'Young Adult'", "2.00 = 'Mature Adult'", "3.00 = 'Middle Age'", and "4.00 = 'Senior Citizen'". The other elements (Value and Label text boxes, Add/Change/Remove buttons, Spelling... button, and OK/Cancel/Help buttons) are the same as in the previous image.

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

Limiting the Number of Variables

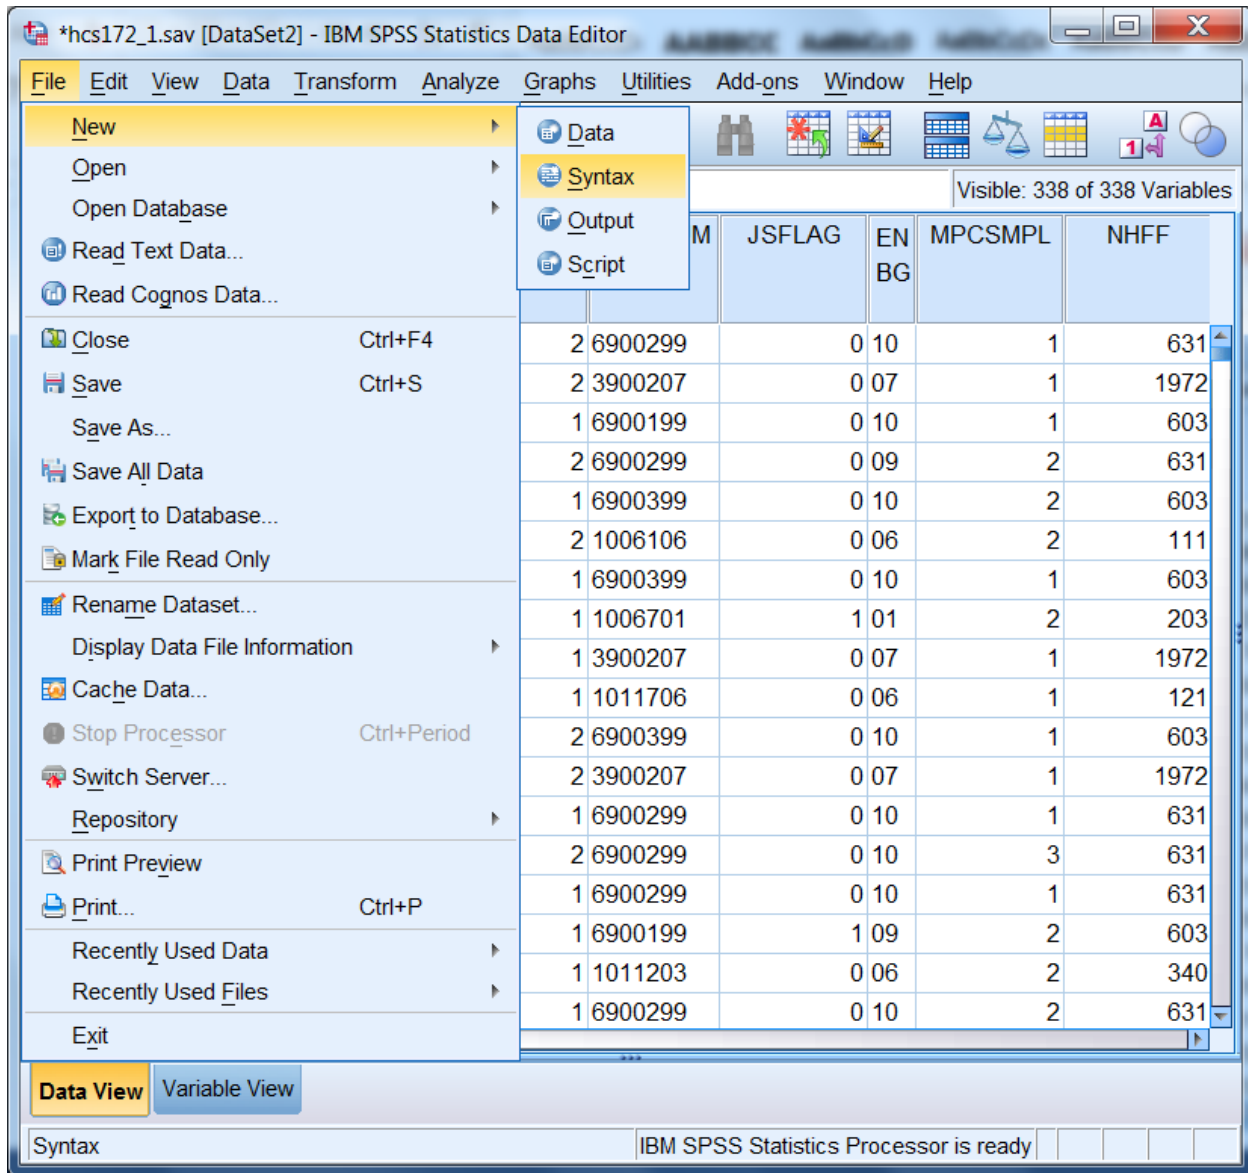

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are several ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate respondent's weight as it relates to their state of health. You are also interested in people that have smoked at least 100 cigarettes in

their lifetime, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among branches of service by beneficiary group and enrollment. You can do all the work on a subset of only nine variables, saving them in a separate file.

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New, Syntax** on the **File** menu as in the following:

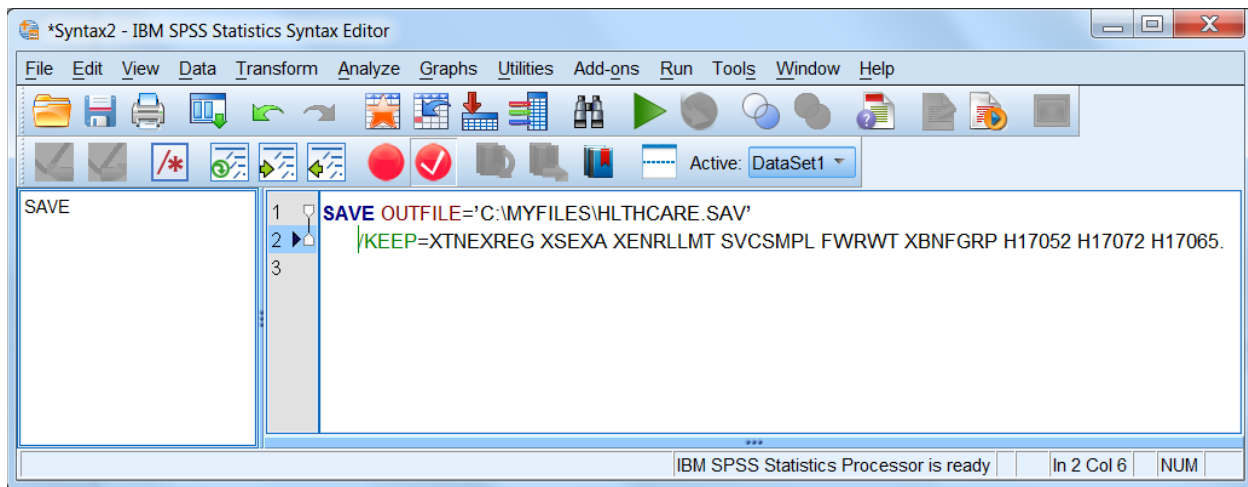

A blank syntax window will open.

Write the following command, substituting the file name and directory specification:

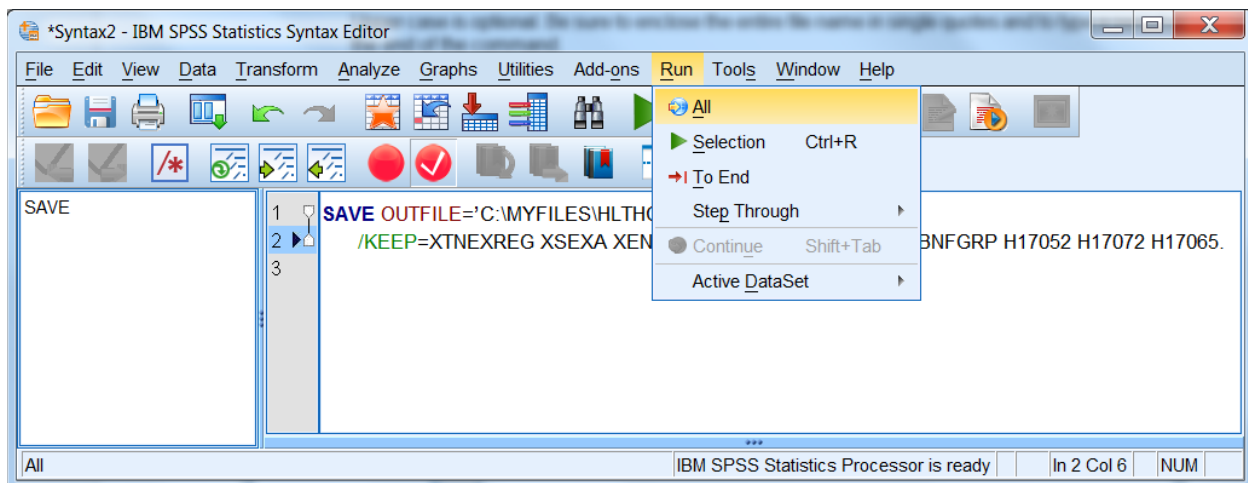

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XTNEXREG XSEXA XENRLLMT
SVCSMPL FWRWT XBNFGRP H17052 H17072 H17065.**

as in the following:

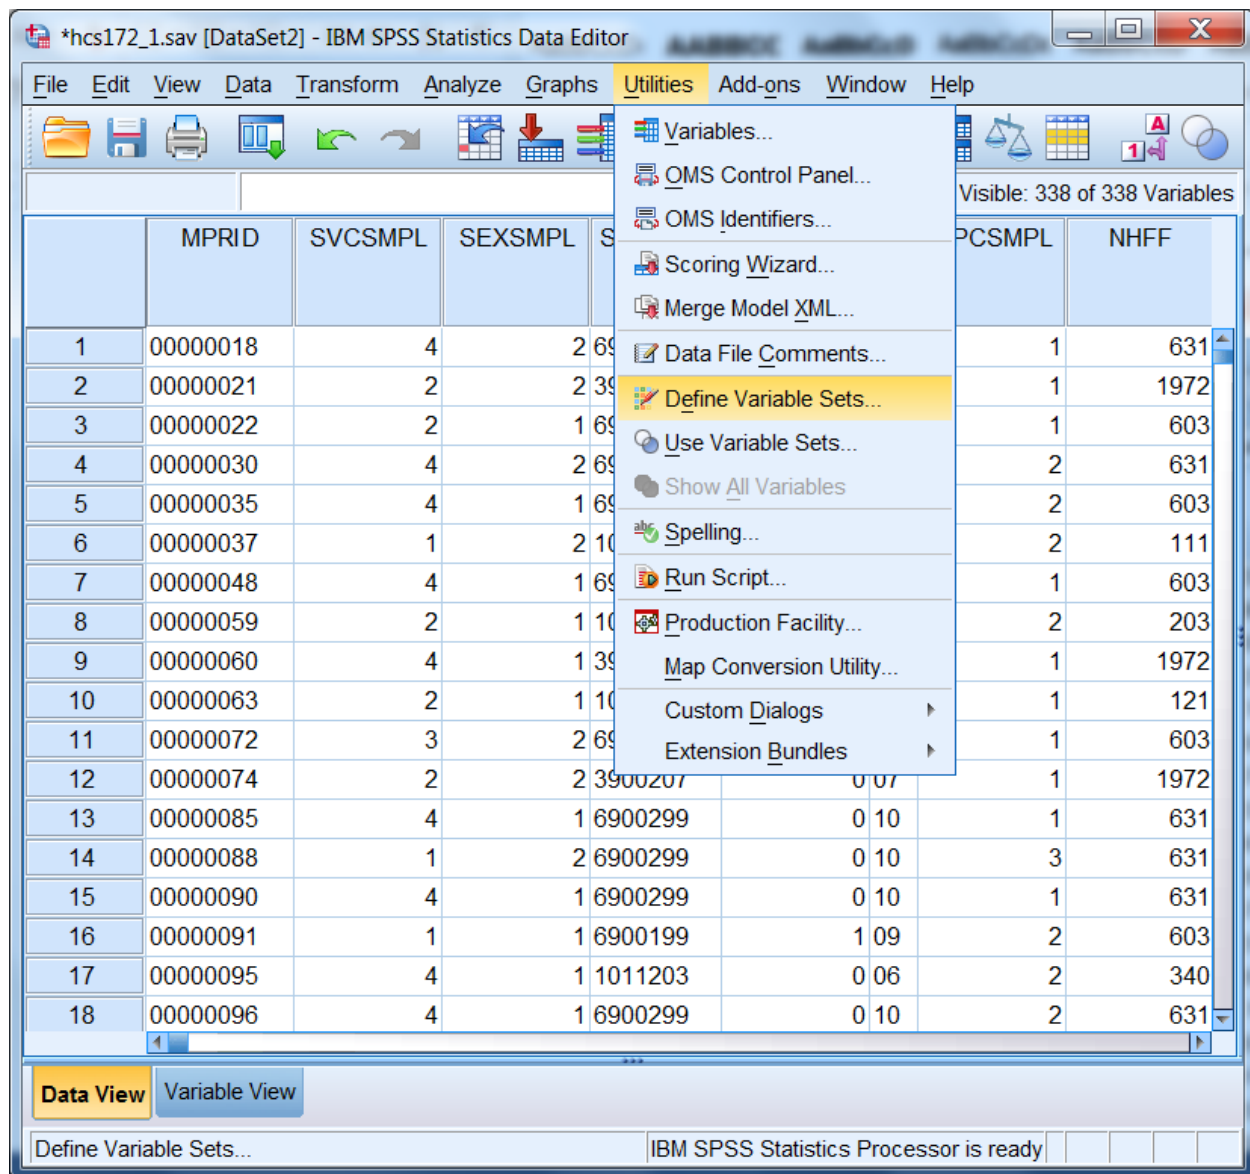

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utilities** menu, define a subset of variables as in the following:

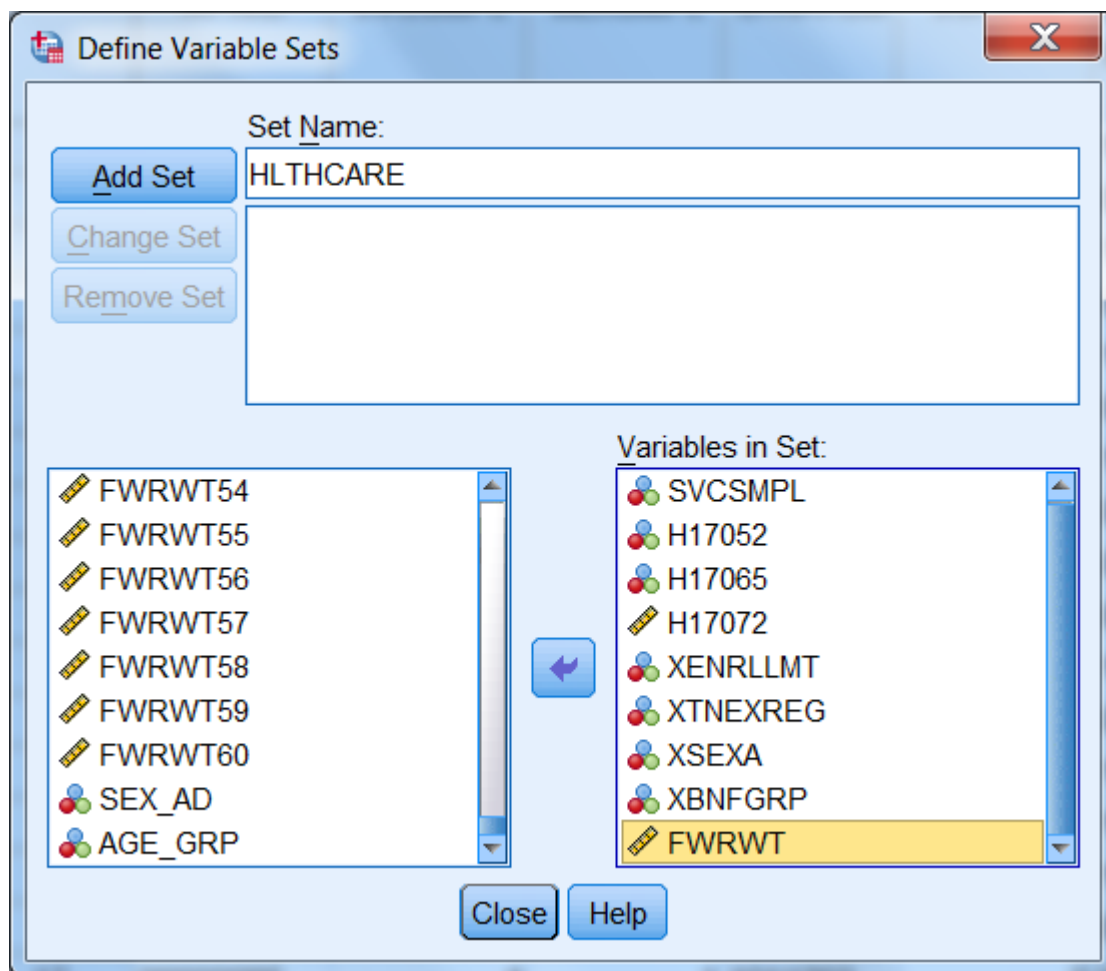

Select Define Variable Sets.

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

The screen should look like the following:

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Variable Sets...**, and receive this screen:

Click the checkbox next to HLTHCARE, and unclick the checkbox next to ALLVARIABLES. Leave NEWVARIABLES as is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

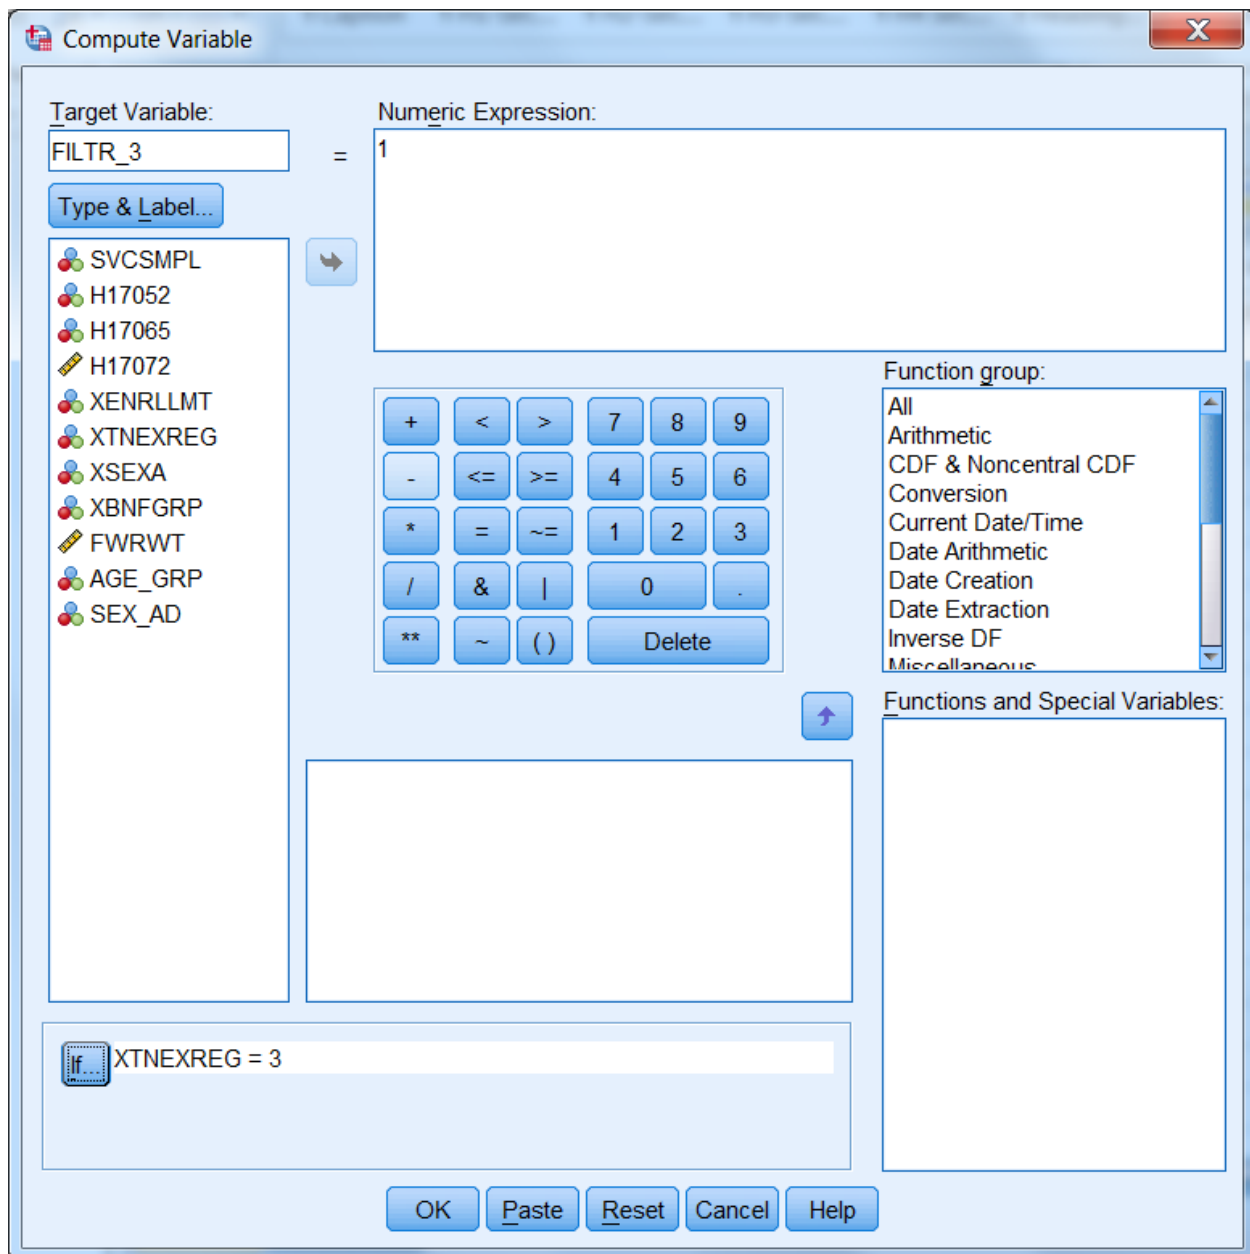

Limiting the Number of Observations

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file. A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the West, i.e., cases for which the variable **xtnexreg = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the West and 0 for all the other cases in the file. The logic is: if **xtnexreg = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the “If” condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

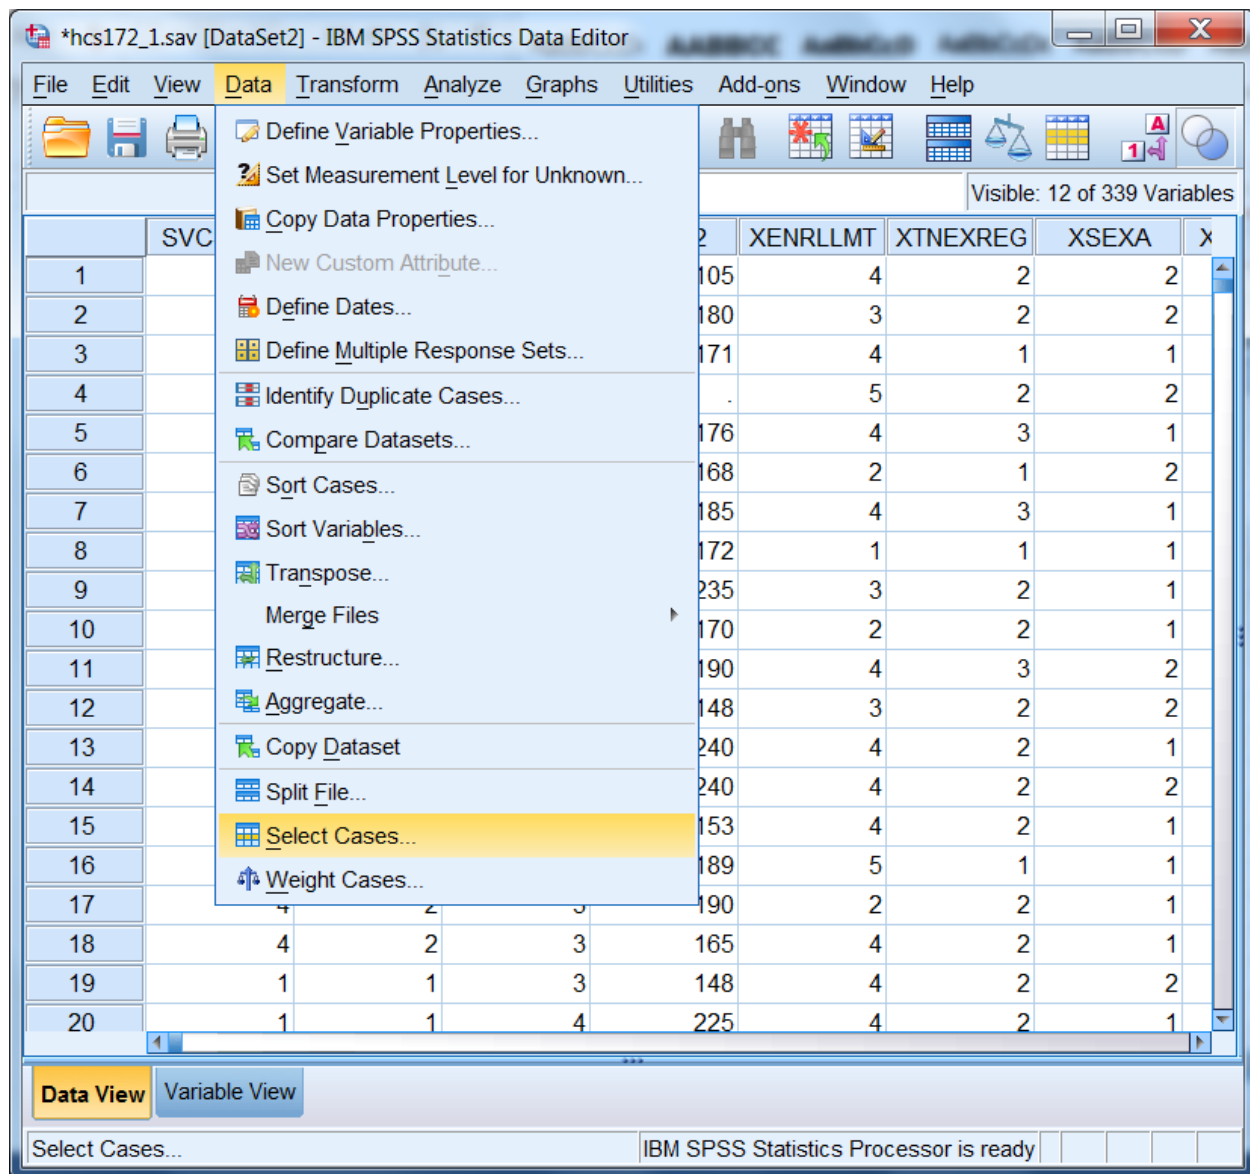

The screen that follows shows the syntax that was generated as you built the variable filtr_3.

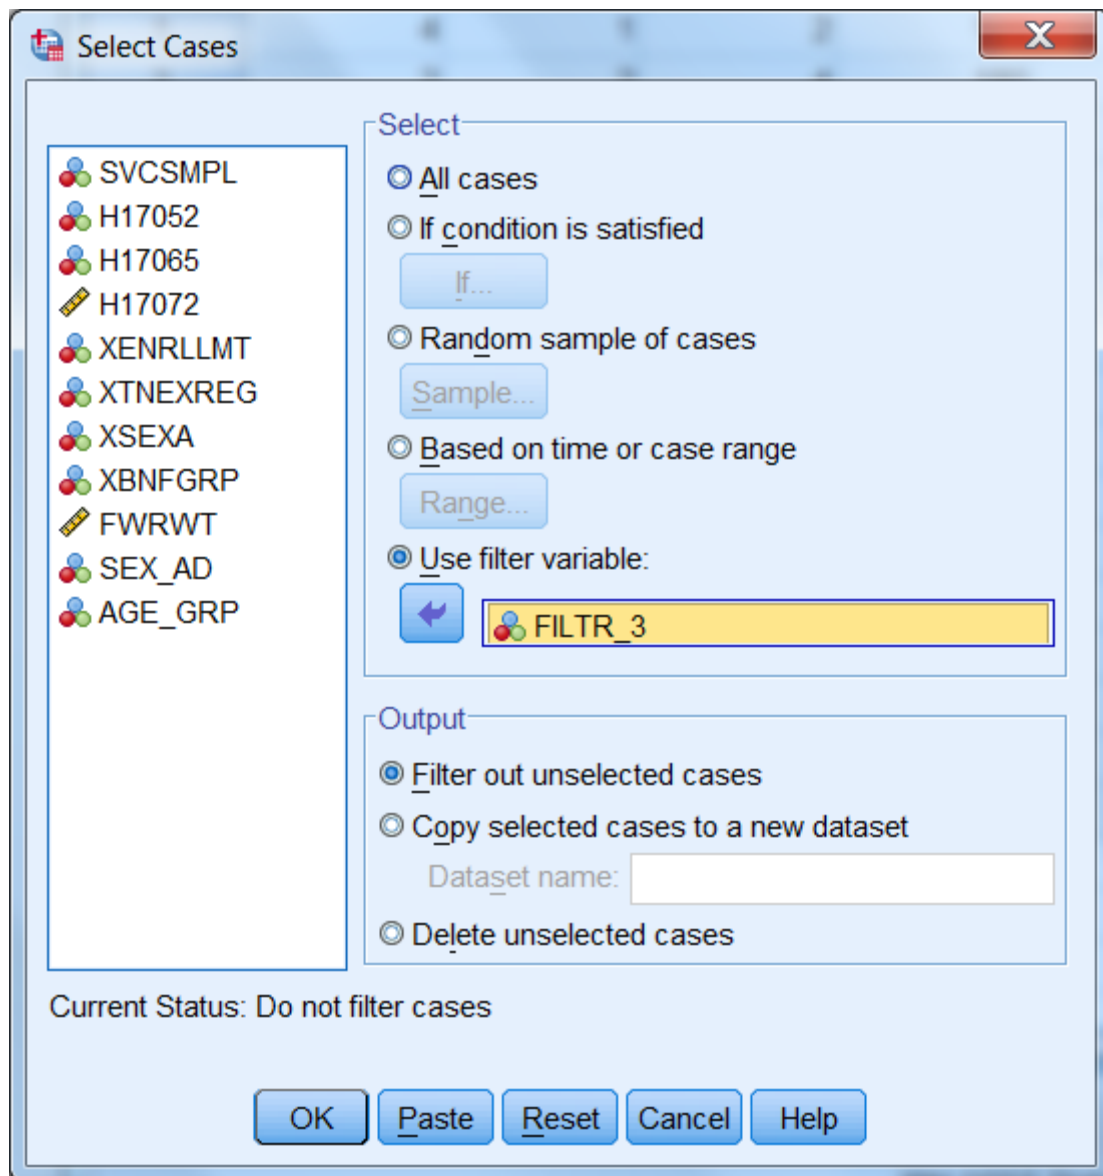

Once you build the filter variable, you can apply it for analyzing only those people from the West.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filter out unselected cases** is checked under **Output**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

*hcs172_1.sav [DataSet2] - IBM SPSS Statistics Data Editor

Data View Variable View

IBM SPSS Statistics Processor is ready Filter On

You can now produce tables for the subset of cases.

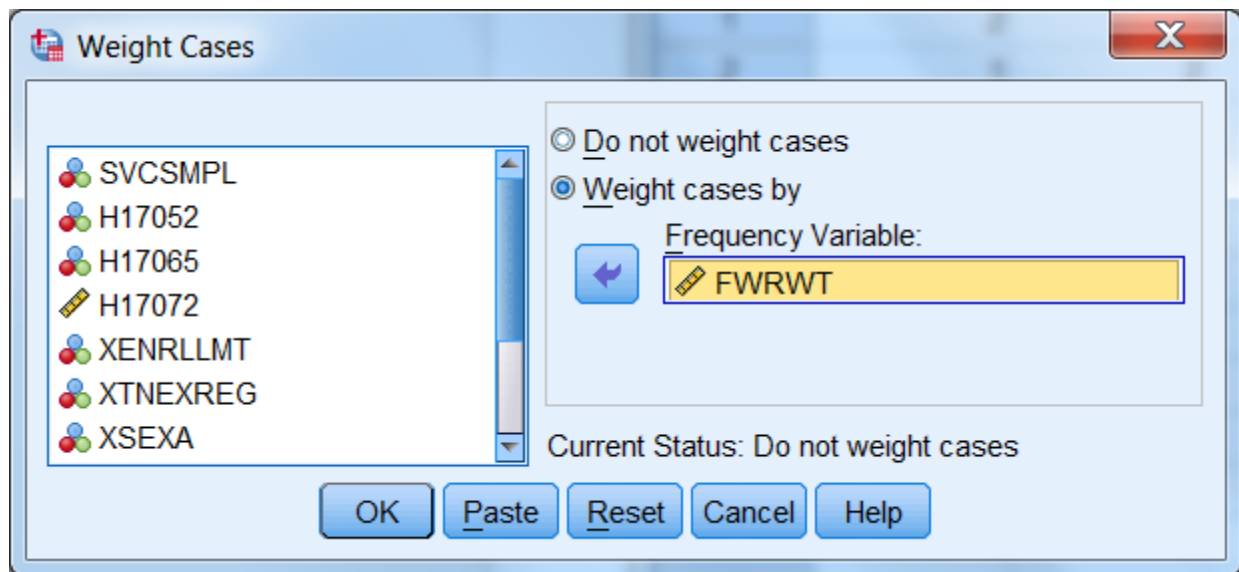

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see *which* filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

Weighting Data

The data file includes a weighting variable, FWRWT, which should be applied to all procedures and runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

Data View Variable View

IBM SPSS Statistics Processor is ready Weight On

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H17052, H17072, H17065, svcsmpl, xbnfgrp, xsexa, xtneqreg, xenrllmt, FWRWT, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

As an example, suppose you want to analyze the health care variables and you want to focus on the West (**xtneqreg = 3**). Suppose you are also interested in how the respondent's weight relates to his

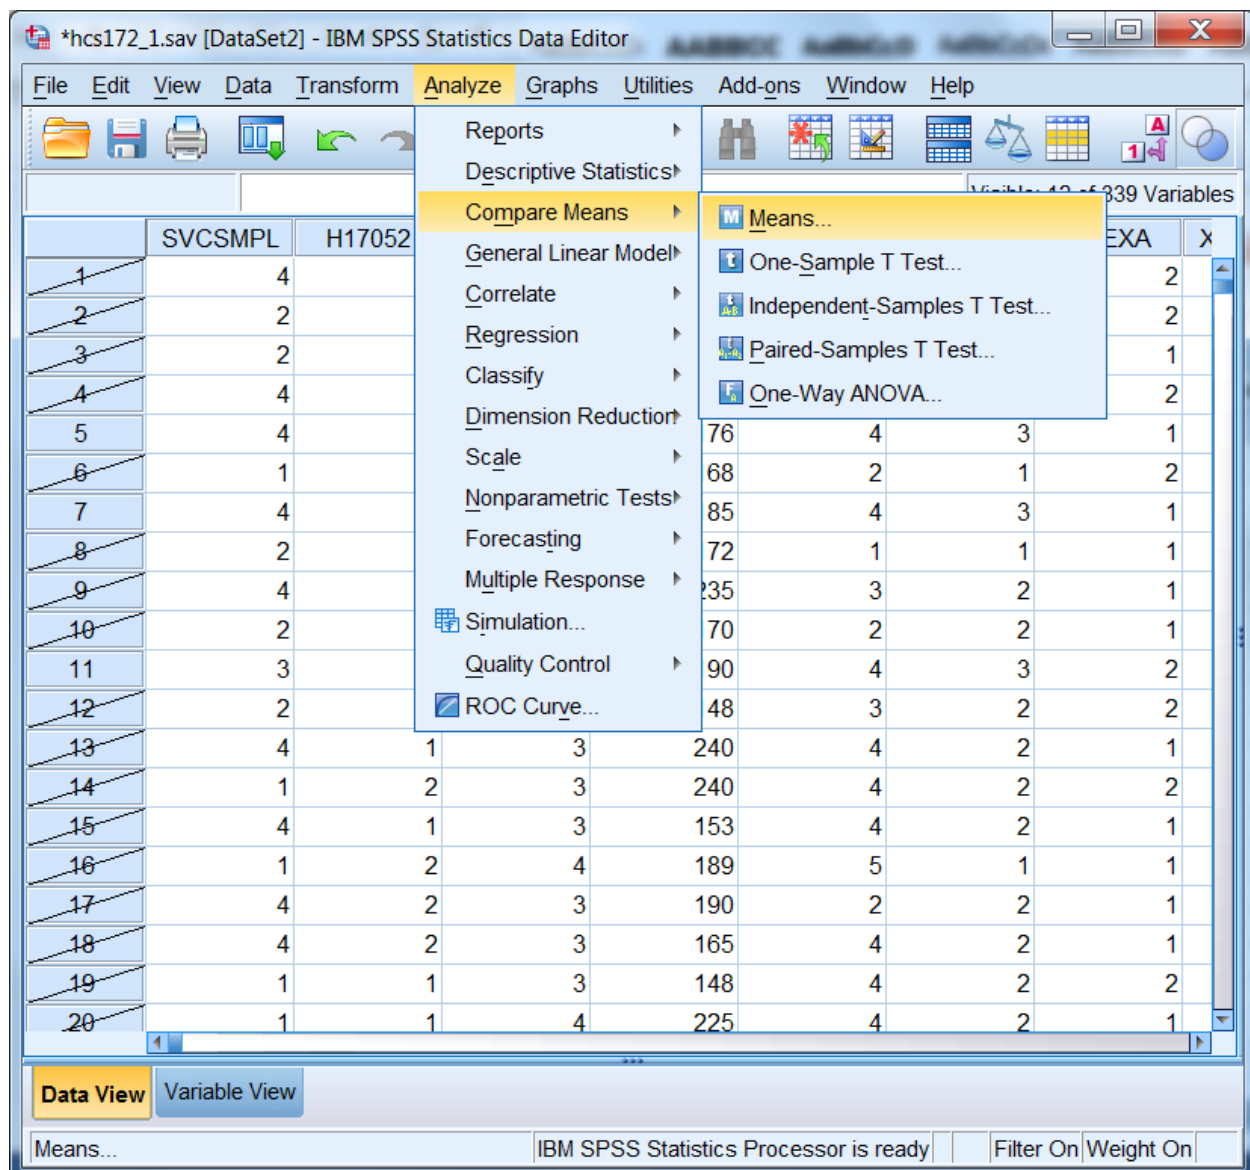

self-evaluation of his health for the West region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H17072** (respondent's weight), and **H17065** (assessment of the state of health). The statistic you want to see is the mean of the health care variables for each group in our breakdown.

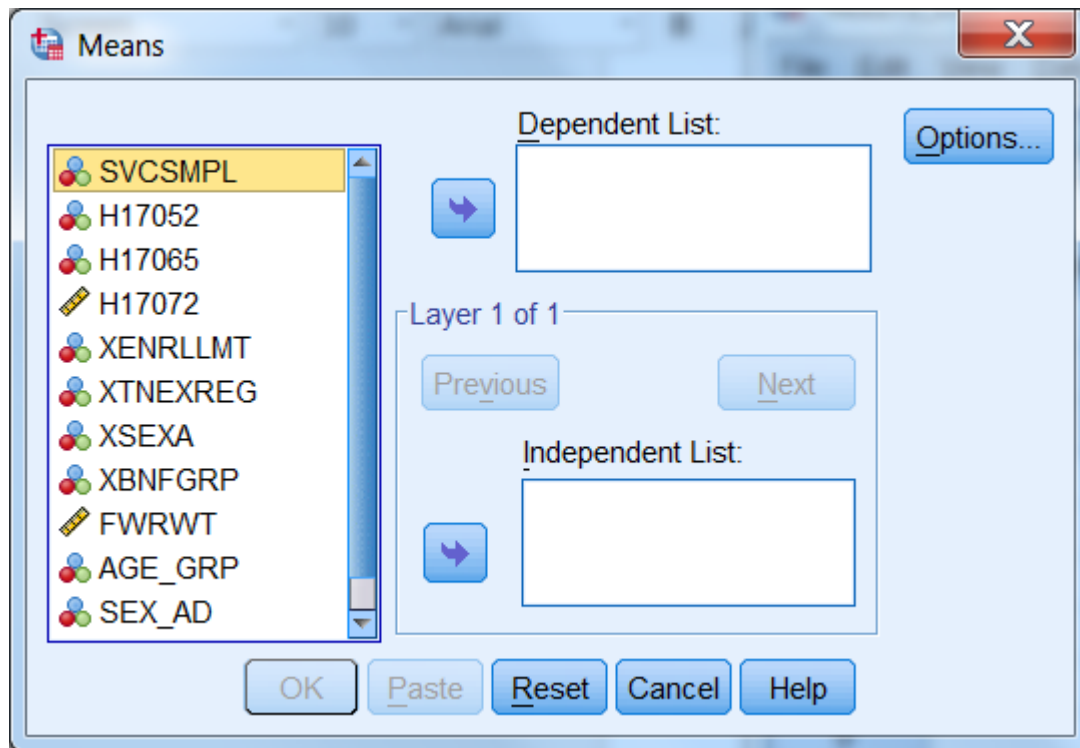

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **FWRWT**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the West.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **FWRWT**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

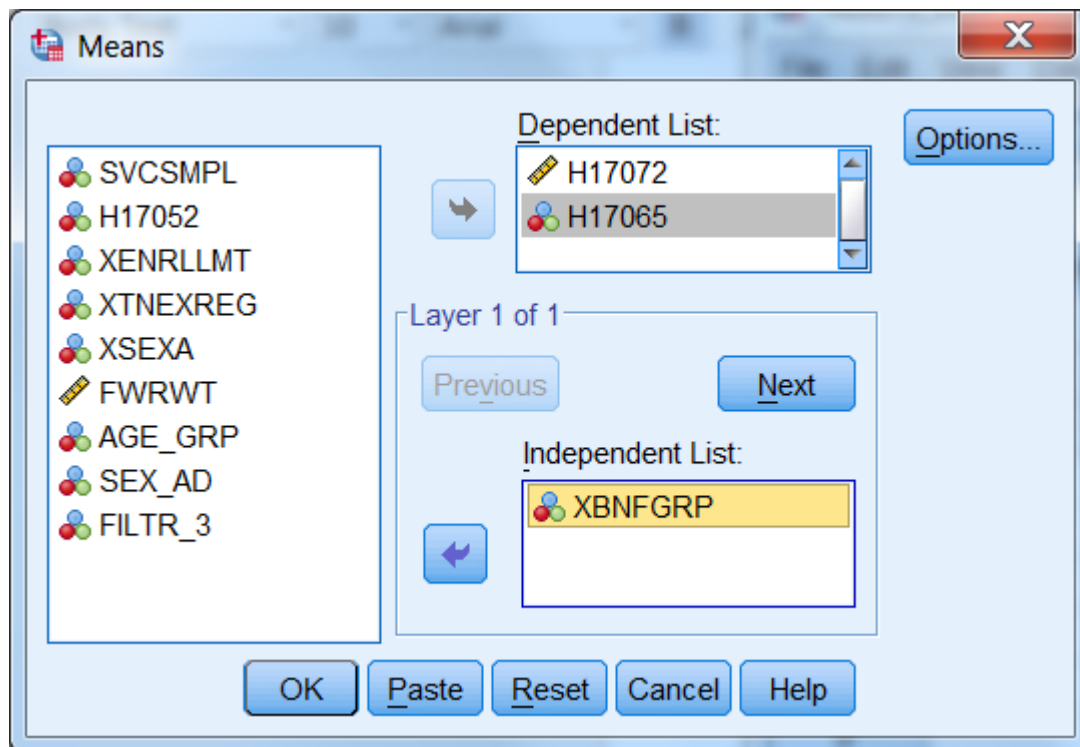

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

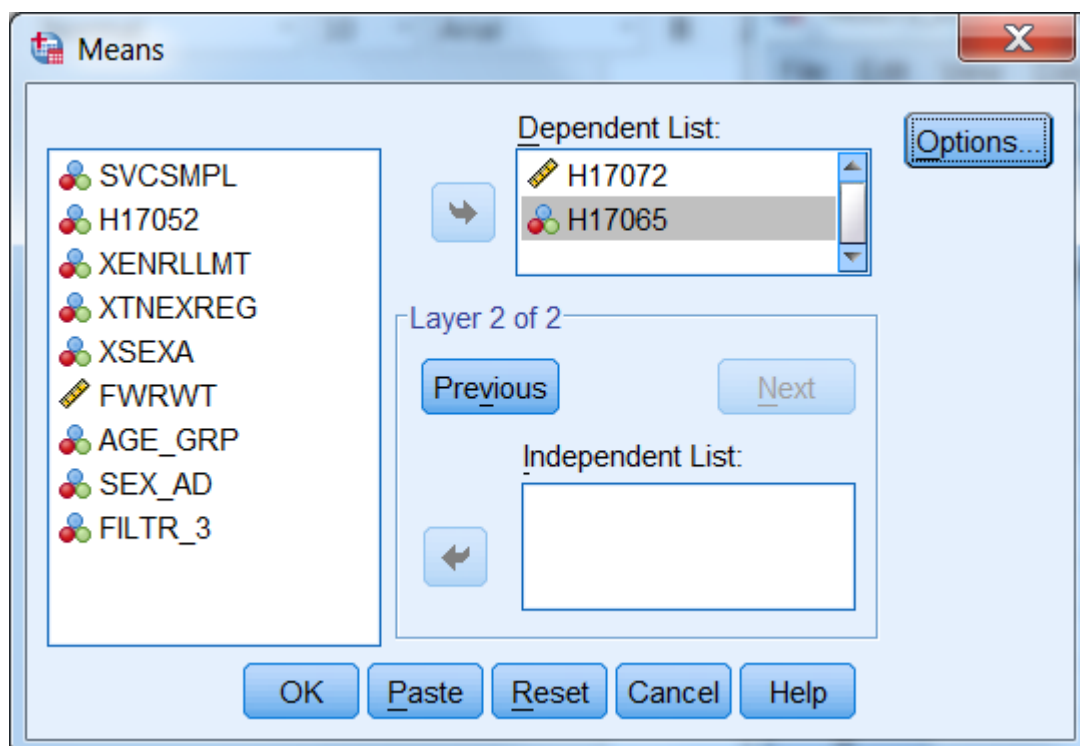

The dialog box for the Means procedure will open as in the following screen:

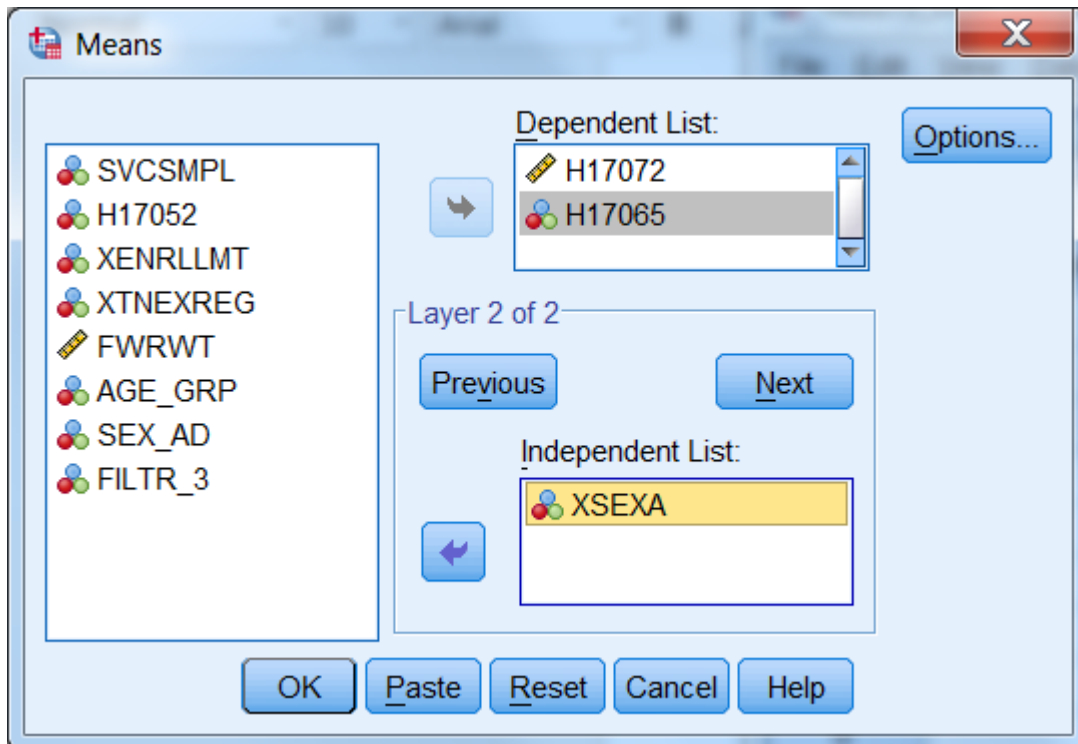

Move the variables **H17072** and **H17065** from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

Click on **Next** in the center of the box to create a second layer. The following screen will open:

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsexa** from the variable list on the left into the box under **Independent List**. **Xsexa** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

Means

Case Processing Summary

	Cases					
	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
Weight without shoes * Beneficiary Group * Male or Female - R	2050671	90.7%	209591	9.3%	2260262	100.0%
In gnrl, how would you rate ovrrll hlth * Beneficiary Group * Male or Female - R	2121049	93.8%	139213	6.2%	2260262	100.0%

Report

Mean

Beneficiary Group Male or Female - R		Weight without shoes	In gnrl, how would you rate ovrrll hlth
Active Duty <65	Male	185.78	3.72
	Female	145.84	3.70
	Total	175.96	3.71
Family of Active <65	Male	187.29	3.59
	Female	155.43	3.77

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

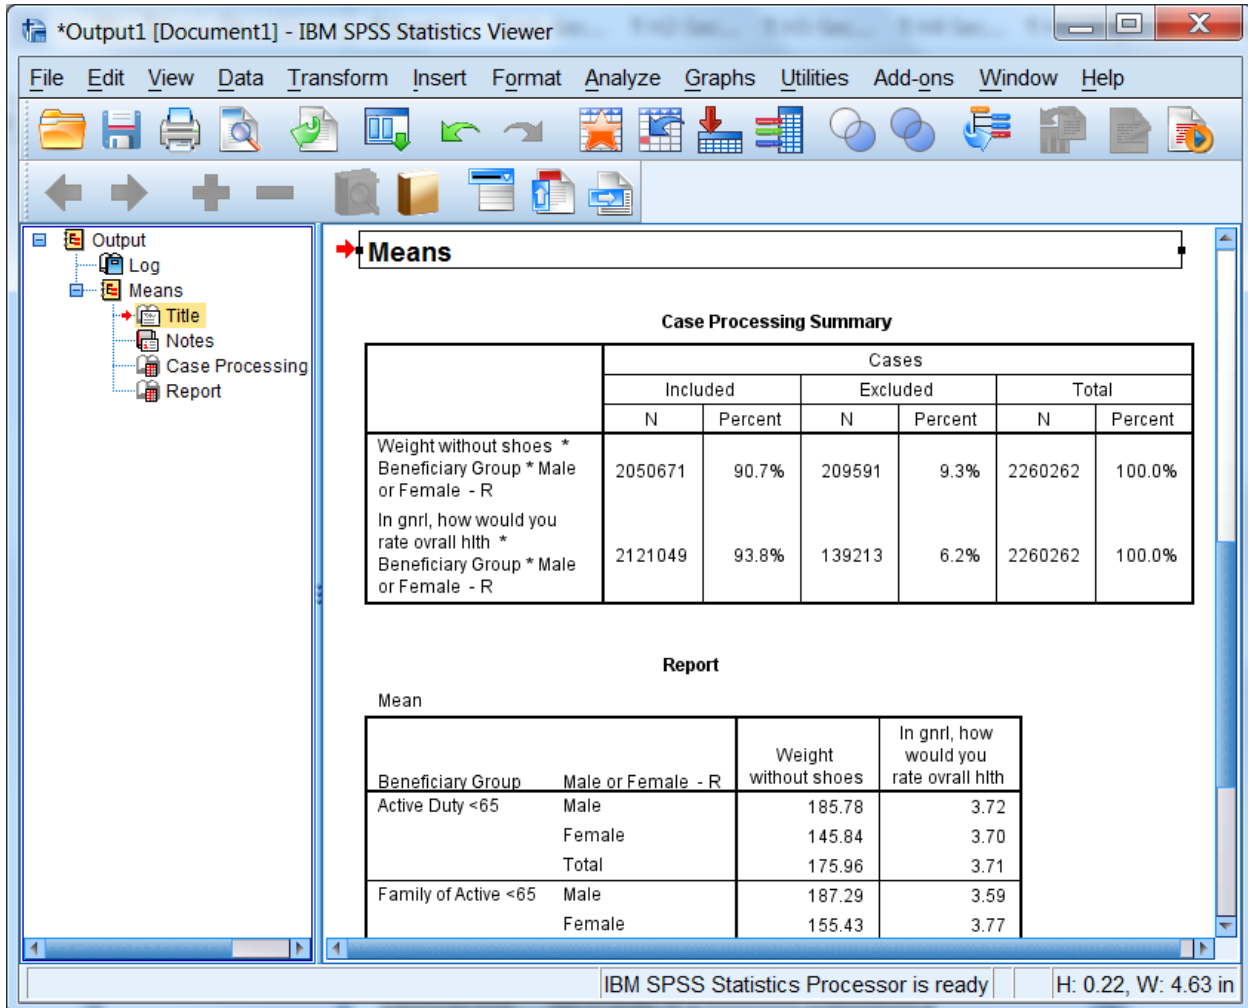

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

Case Processing Summary

IBM SPSS Statistics Processor is ready H: 0.22, W: 4.63 in

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

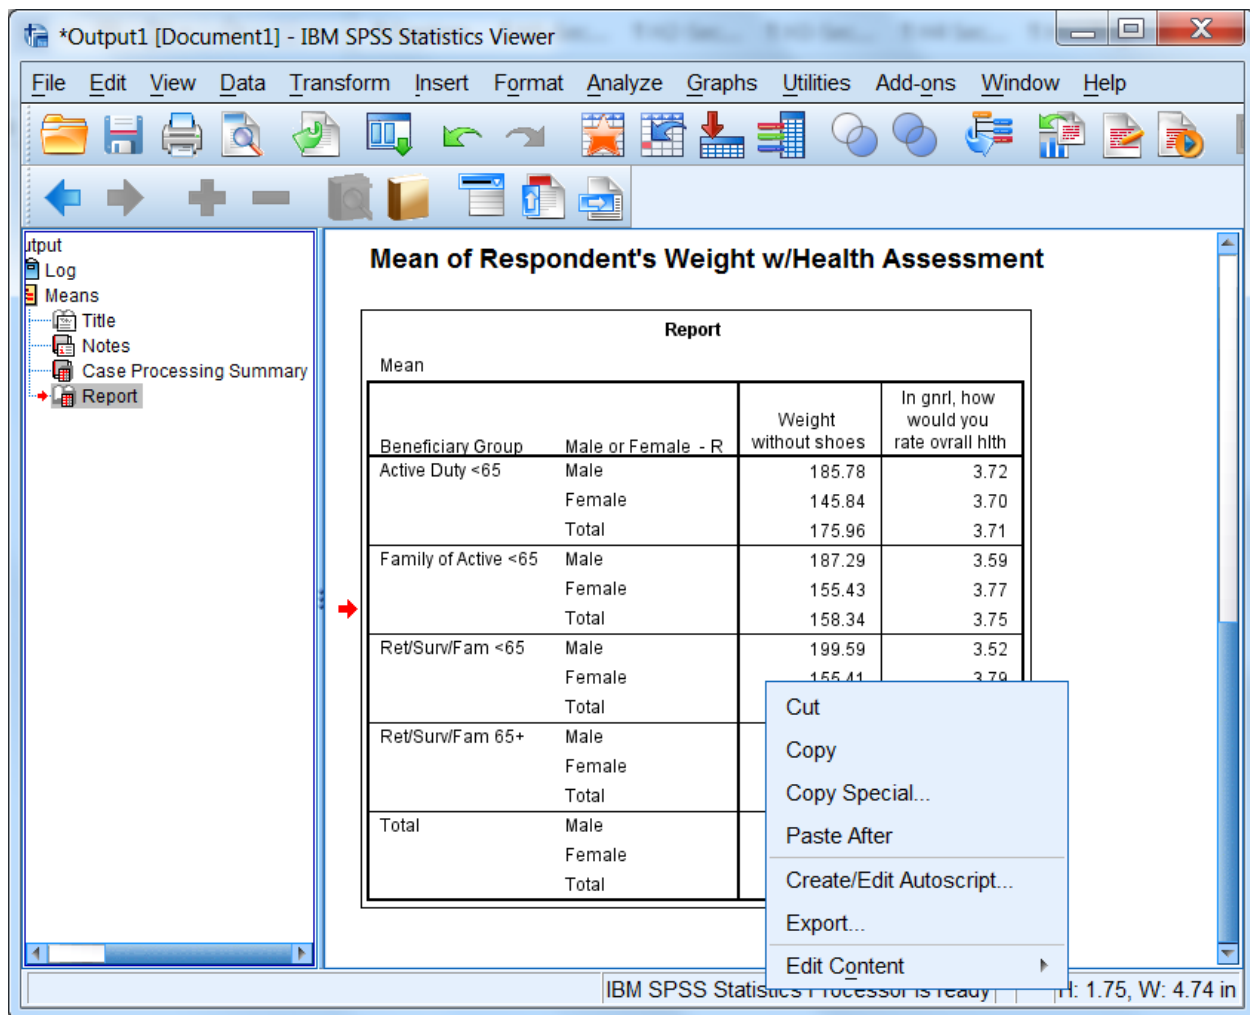

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

Mean of Respondent's Weight w/Health Assessment

Report

The bottom of the window shows 'Page 1' and 'SPSS Statistics Processor is ready'.

Calculating Percents

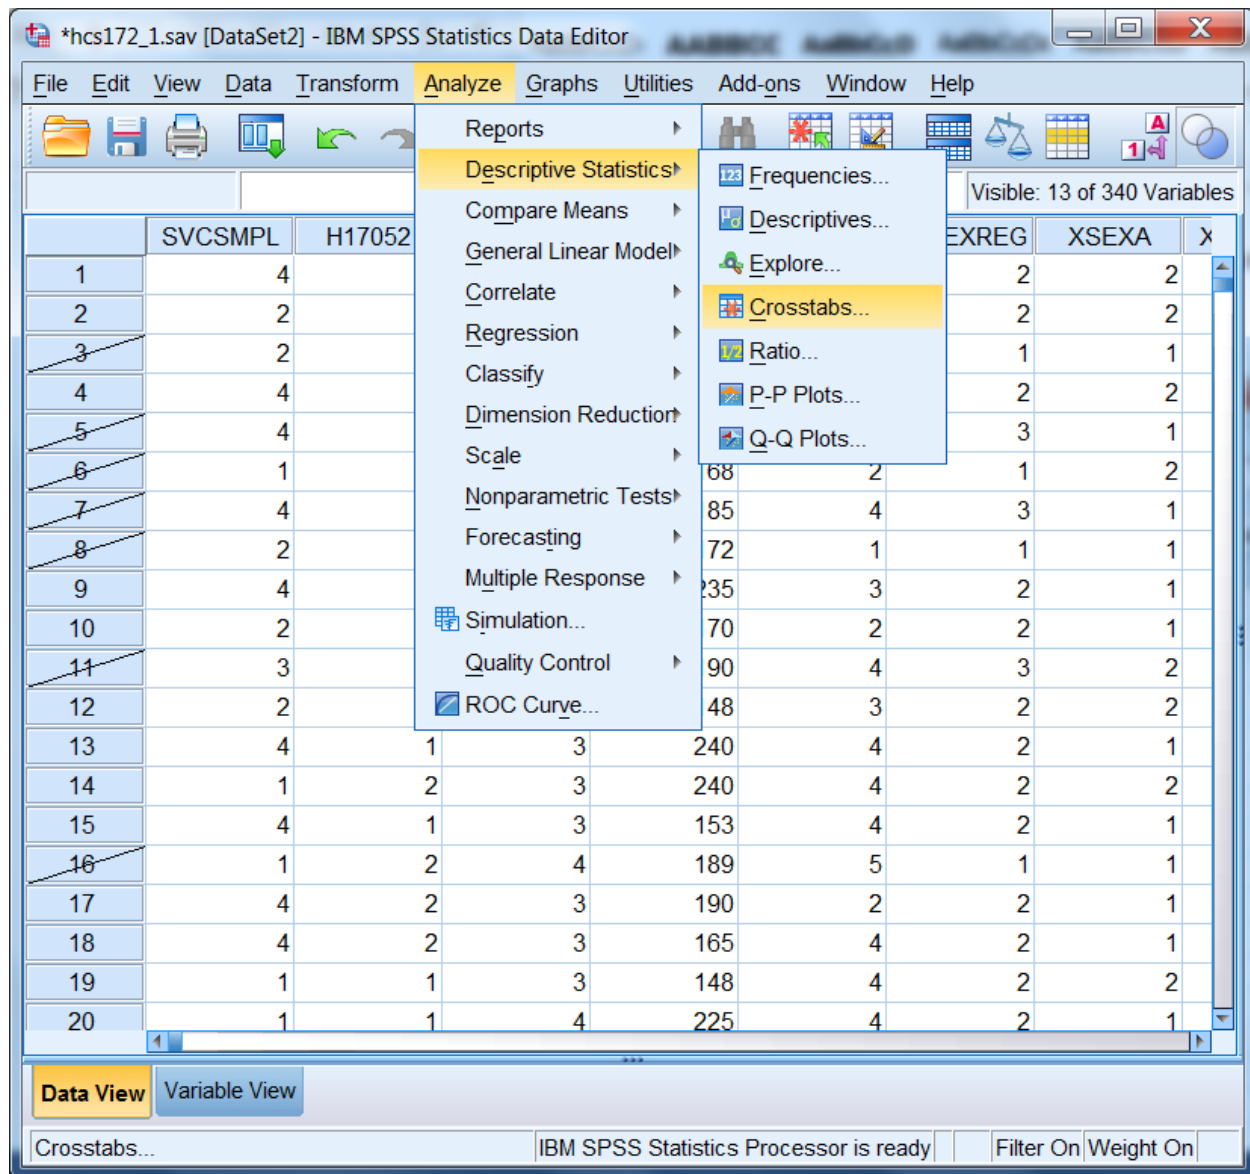

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

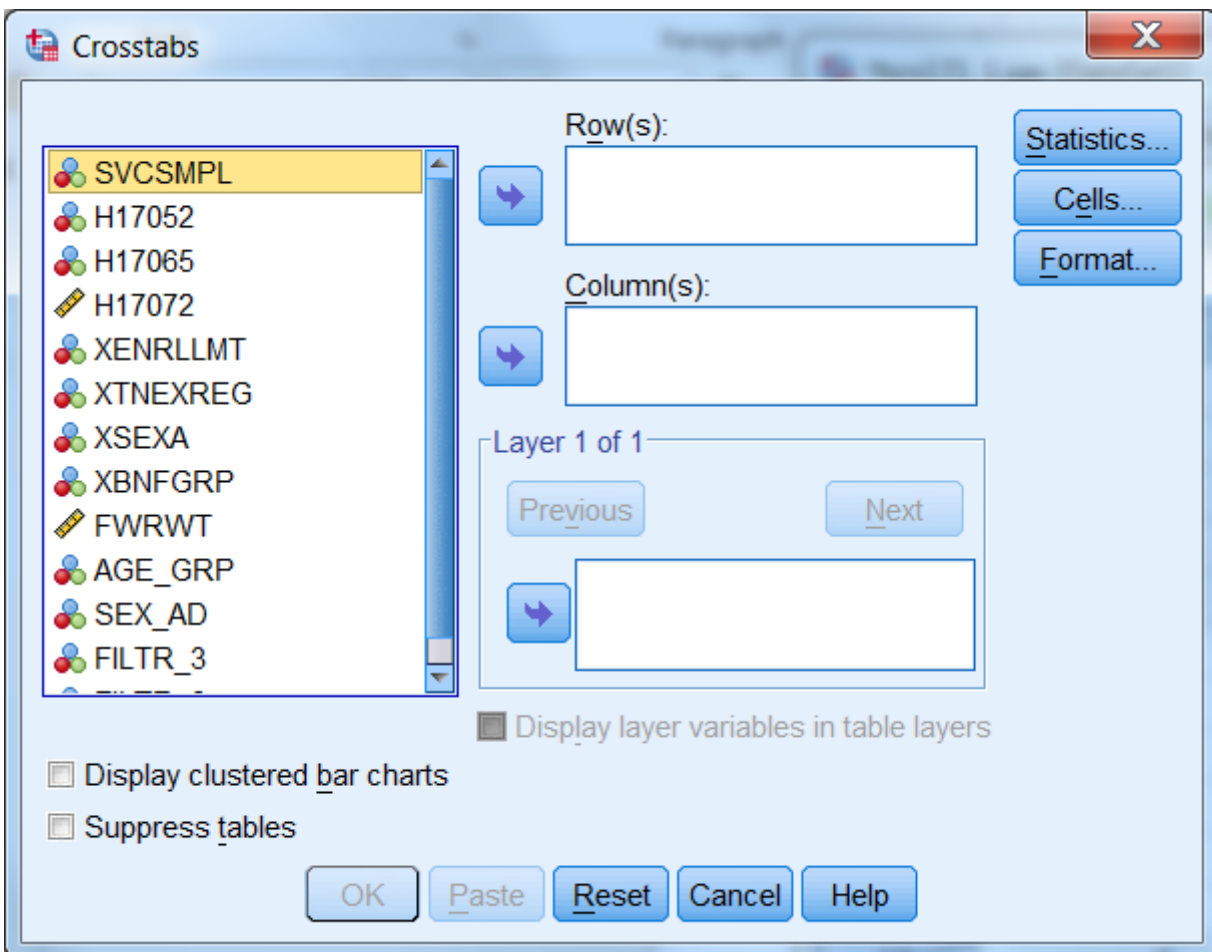

For example, suppose you want to see the percentage of people within each branch of service who answered “yes” or “no” to the question, “Did you ever smoke at least 100 cigarettes in your life?” The variables in this analysis are **svcsmpl** – the branch of service, and **H17052** – the questionnaire variable. The cases for the analysis are from the South only.

The first task is to build a new filter variable, assigning **1** to the variable when **XTNEXREG = 2**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the South are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

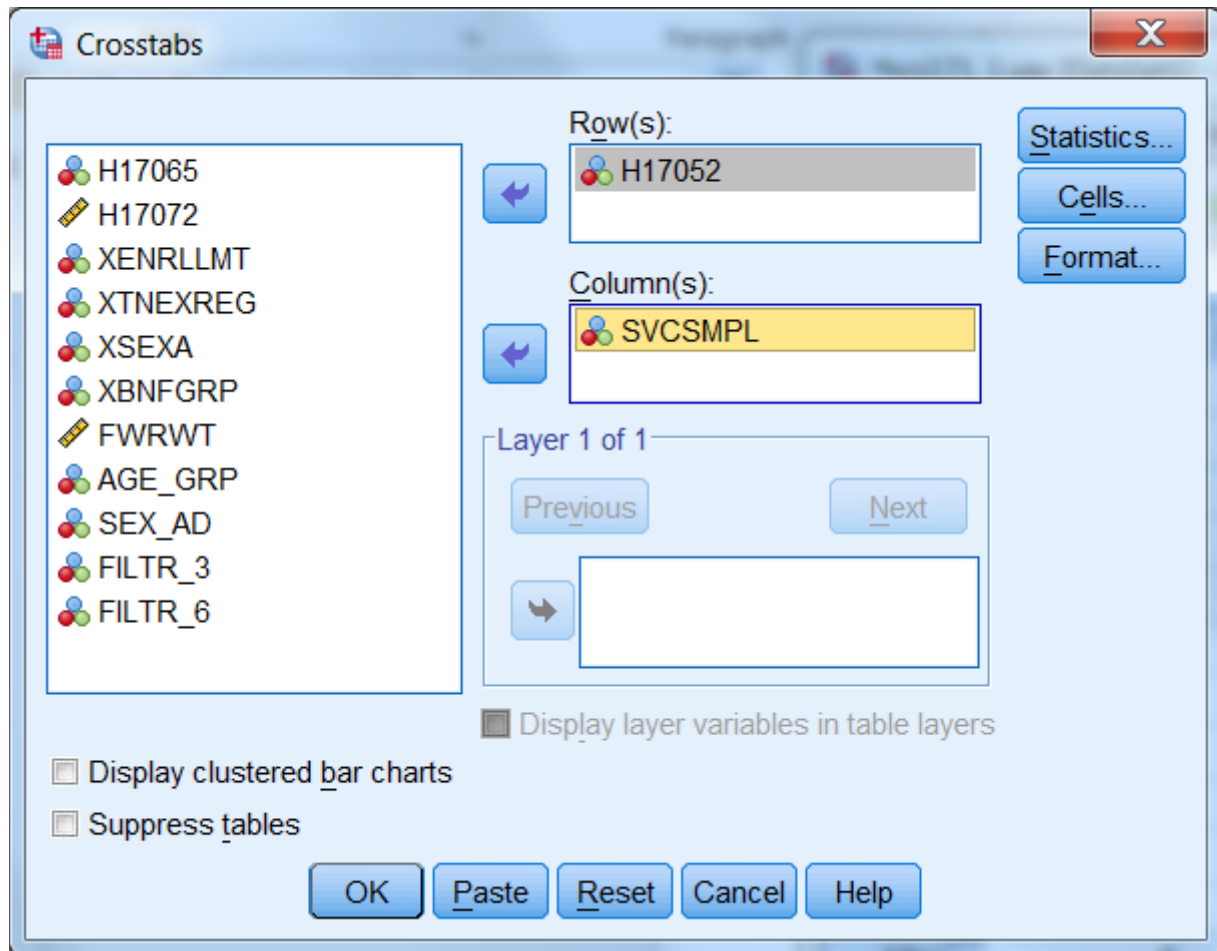

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

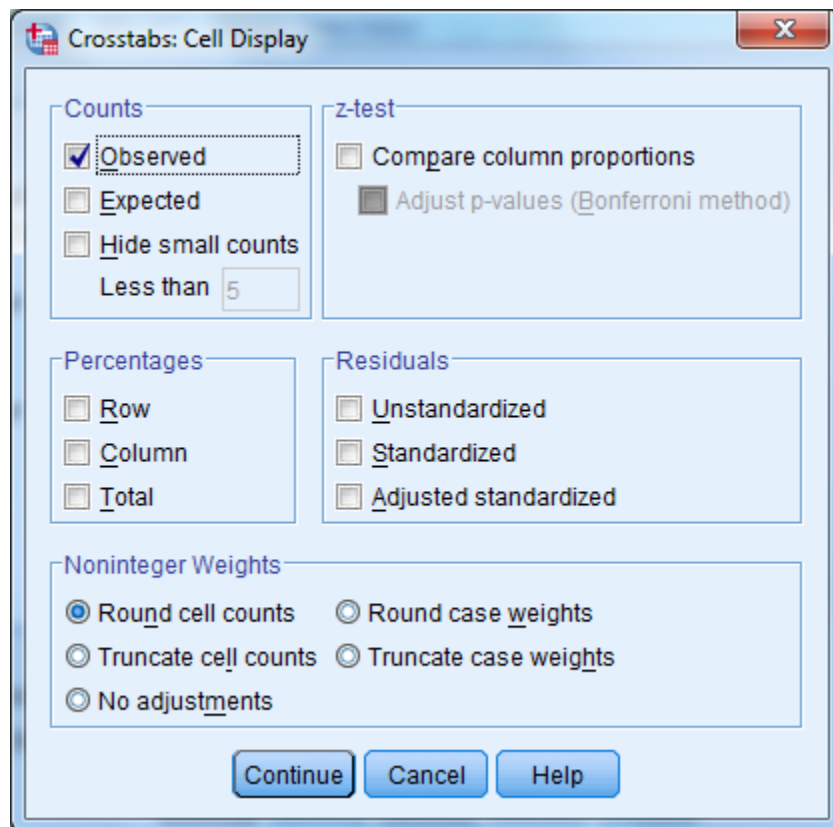

Move **H17052** from the variable list on the left into the box marked **Row(s):**, and move the variable **svcsmpl** into the box marked **Column(s):**. The screen will resemble the following:

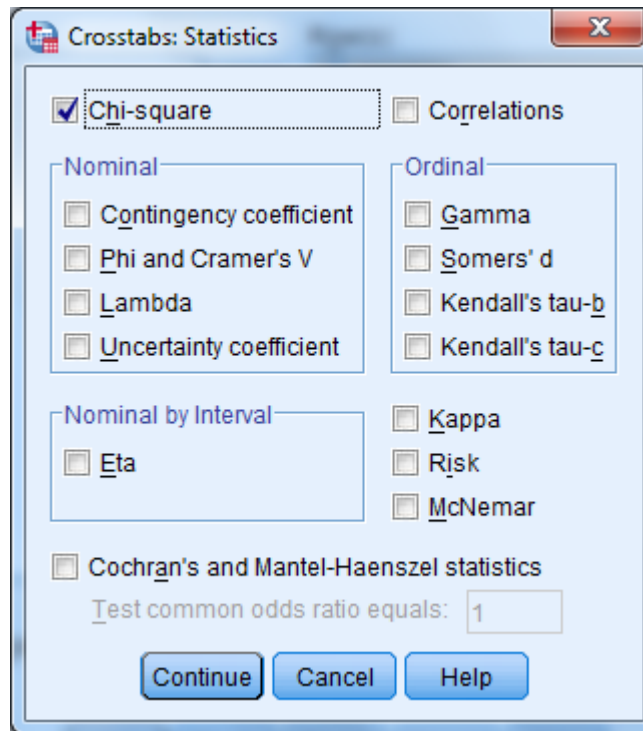

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

Under **Counts**, **Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each branch of service. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

If you wanted to calculate chi-square, you would check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter. For this crosstabulation we will not reflect the chi-square statistics.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output--in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

Mean of Respondent's Weight w/Health Assessment

Mean of Respondent's Weight w/Health Assessment: By

Mean

Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Se

IBM SPSS Statistics Processor is ready | H: 3.26, W: 4.91 in

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Right click inside the table and navigate to **Edit Content**, followed by **In Separate Window**. This will open an **SPSS Pivot Table Object**, as follows:

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H17052** – smoked at least 100 cigarettes in life, and **Statistics** – the percent of people in each branch of service. On the column axis is the variable, **svcsmpl** – the branch of service.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

Pivot Table Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

COLUMN

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **svcsmpl**. Select it by double-clicking and edit it for clarity (see the screen below).

Next, edit the text in the table label so that it better expresses the content of the table.

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

Pivot Table Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

File Edit View Insert Pivot Format Help

Smoked at Least 100+ Cigarettes in Life: By Branch of Service: South Region

		Branch of Service

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H17052**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlimt**, who smoked at least 100 cigarettes in their lifetime. Suppose you are also interested in sex differences, **xsexa**, among the groupings. **Xsexa** is the **Layer** variable. You want to remain in the South region, using **filtr_6** as the filter variable. The cases will be weighted by **FWRWT**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

- Run Crosstabs.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

Page 1 SPSS Statistics Processor is ready

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the Quarter II, 2017 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

The 2017 HCSDB uses a stratified sample design. To account for complex estimators for the sample design¹, it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or Jackknife replication, the public release files for the Quarter II, 2017 Adult HCSDB include the following variables:

- The stratum variable (STRATUM) for the Taylor series linearization method
- Quarterly final weight (FWRWT)
- Quarterly jackknife replicate weights (FWRWT01 to FWRWT60)

Three popular software packages are available for performing Taylor series linearization method: SAS/STAT version 8.0 or higher, SUDAAN (Research Triangle Institute, 2001) and WesVarPC (Brick et al. 1996), respectively. The last two software packages can be used for replication methods including Jackknife variance estimation. The discussion below explains how SUDAAN and SAS are used to calculate variance estimates using Taylor series linearization method, and how SUDAAN and WesVarPC are used to calculate variance estimates using Jackknife replication method.

Taylor Series Linearization Method

For most sample designs (including the Quarter II, 2017 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2017 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”.

To calculate variance estimates based on the Taylor series linearization method with HCSDB's stratified sampling design, both the stratum variable (STRATUM) and the final weight (FWRWT) specified for each data record are needed.

¹ The 2017 HCSDB uses a stratified sampling design. For details, see “Health Care Survey of DoD Beneficiaries: 2017 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, October 2016.

SUDAAN

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling design. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter II, 2017 Adult HCSDb, the data file for adults must be sorted by STRATUM before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is FWRWT.

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H17031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H17052=1) for each TNEX region (XTNEXREG)

```
PROC DESCRIPT DATA=HCSDb /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      FWRWT;  
  NEST        STRATUM;  
  SUBPOPN     H17052=1;  
  SUBGROUP    XTNEXREG;  
  LEVELS      4;  
  VAR         H17031;  
  RUN;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in TNEX region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H17049) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDb /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      FWRWT;  
  NEST        STRATUM;  
  SUBPOPN     XTNEXREG = 3;  
  SUBGROUP    H17049 XENRLLMT;  
  LEVELS      3 5;  
  TABLES     H17049 *XENRLLMT;  
  RUN;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Research Triangle Institute (2001).

SAS

SAS/STAT version 8.0 and higher provide procedures for survey sampling. These procedures can be used to analyze data from a stratified random sampling. These procedures include:

- PROC SURVEYMEANS: for estimating population means, totals, and proportions, including domain (subpopulation) estimates
- PROC SURVEYREG: for performing linear regression model fitting.

The following procedures were added to SAS/STAT version 9.0:

- PROC SURVEYFREQ: for constructing one-way frequency tables, two-way and multiway crosstabulation tables, and estimating population totals and proportions
- PROC SURVEYLOGISTIC: for performing cumulative logit regression model fitting, logit, complementary log-log, and probit link functions, and generalized logit regression model fitting.

The above procedures currently provide only the Taylor series linearization method to estimate standard error or variance of the estimate.

The following program is an example of how to use SAS/STAT to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H17031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H17052=1) for each TNEX region (XTNEXREG)

```
PROC SURVEYMEANS DATA=HCSDB;  
  WEIGHT      FWRWT;  
  STRATA      STRATUM;  
  DOMAIN      H17052 * XTNEXREG;  
  VAR         H17031;  
RUN;
```

The above codes will provide output for H17052=1 and 2. User only needs to use output from H17052=1.

The following program is an example of how to use SAS/STAT to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in each TNEX region who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H17049) by TRICARE enrollment (XENRLLMT).

```
PROC SURVEYFREQ DATA=HCSDB;  
WEIGHT          FWRWT;  
STRATA          STRATUM;  
TABLES          XTNEXREG * H17049 * XENRLLMT;  
RUN;
```

For a more detailed and complete discussion of how to use SAS/STAT, see SAS Institute Inc. (1999) and SAS Institute Inc. (2004).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as Jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, Jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (FWRWT01-FWRWT60) for the Quarter II, 2017 Adult HCSDB file. Construction of these weights is described in the “2017 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”. With the replicate weights, you can produce Jackknife standard errors using in-house or custom-written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 8. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the example below explains how it is used to produce Jackknife variance estimates for statistics from the Quarter II, 2017 Adult HCSDB.

Suppose you want to estimate the mean rating of the specialist seen most often (H17031) among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H17052=1) for each region (XTNEXREG). You would use SUDAAN or WesVarPC as follows.

SUDAAN

```
PROC DESCRIPT DATA=HCSDB DESIGN=JACKKNIFE;  
WEIGHT          FWRWT ;  
JACKWGTS        FWRWT1-FWRWT60 / ADJJACK=1 ;  
SUBPOPN         H17052=1;  
SUBGROUP        XTNEXREG;  
LEVELS          4;  
VAR             H17031 ;  
OUTPUT          NSUM MEAN SEMEAN / TABLECELL=DEFAULT FILENAME=OUT1 ;  
RUN;
```

WESVARPC

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the *Prep* menu, choose the *Import Data Files* screen and import all variables for the analysis. For this example, input H17052, H17031, and XTNEXREG into the *Variables* box, FWRWT1-FWRWT60 into the *Replicates* box, and MPRID into the *ID* box. Also specify the replication method as JK1 on this screen.

- **Create a data file for the subpopulation.** Specify the subpopulation by choosing the *Subpop WesVarPC Data File* from the *Prep* menu: H17052=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H17031 as the **Analysis** variable, MEAN (H17031) as the **Compute Statistics**, and XTNEXREG as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Alphabetical Table of Variables in the Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H17005 -**In last year: facility used most for health care**

Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
.	46	0.37	26,070	0.35	Did not answer
1	6,860	55.08	2,527,739	34.38	A military facility
2	4,606	36.98	4,118,733	56.02	A civilian facility
3	61	0.49	64,832	0.88	Uniformed Services Fam Hlth Plan facility
4	480	3.85	376,184	5.12	Veterans Affairs (VA) clinic or hospital
5	402	3.23	238,267	3.24	Went to none of listed types of facility

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age, including 18 and younger and 86 and older. You will notice that the second to last range representing ages “75 to 85 years” includes 306 respondents aged 75 to 85.

RDAGEQY -**Age at time of sample preparation-Capped (18 and below, 86 and above)**

Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
18	109	0.88	89,152	1.21	18 and younger
19 -- 34	3,463	27.80	2,093,386	28.47	19--34
35 -- 44	2,473	19.86	941,752	12.81	35--44
45 -- 54	2,293	18.41	681,546	9.27	45--54
55 -- 64	3,287	26.39	1,335,354	18.16	55--64
65 -- 74	452	3.63	1,226,815	16.69	65--74
75 -- 85	306	2.46	796,950	10.84	75--85
86	72	0.58	186,871	2.54	86 and older

MPRID -
Unique MPR identifier

Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
00000018 -- 16952579	12,455	100.00	7,351,825	100.00	00000001--99999999

SVCSMPL -
Branch of service sampling variable

Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
1	3,688	29.61	2,869,472	39.03	Army
2	2,540	20.39	1,688,493	22.97	Navy

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

Health Care Survey of DoD Beneficiaries

A world-wide survey of beneficiaries
eligible for health care coverage through
the military health system

January 2017

Military Health Care Survey:

Adult Questionnaire

January 2017

Privacy Advisory

Providing information in this Survey is voluntary. There is no penalty nor will your benefits be affected if you choose not to respond, although maximum participation is encouraged so that the data will be complete and representative.

The Survey was written so that answers should not require you to provide any personally identifiable information (PII), but please be assured that any PII provided will be treated as confidential. Your responses are collected via a secure system which does not collect any information that could be used to determine your identity.

Answering the questions is voluntary; you may stop the Survey at any time.

According to the Privacy Act of 1974 (5 U.S.C. §552a), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C. §1074 (Medical and Dental Care for Members and Certain Former Members, as amended by National Defense Authorization Act of 1993, Public Law 102-484, §706); 10 U.S.C. §1074f (Medical Tracking System for Members Deployed Overseas); 32 C.F.R. §199.17 (TRICARE Program); 45 C.F.R. Part 160 Subparts A and E of Part 164 (Health Insurance Portability and Accountability Act of 1996, Privacy Rule); DoD 6025.18-R (Department of Defense Health Information Privacy Regulation); DoD 6025.13-R (Military Health System Clinical Quality Assurance Program Regulation); 64 FR 22837 (DHA 08 – Health Affairs Survey Data Base, April 28, 1999); and, E.O. 9397 (as amended, November 20, 2008, for SSN collection).

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military health care system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None.

Disclosure: Participation is voluntary. Failure to respond will not result in any penalty to the respondent; however maximum participation is encouraged so that data will be as complete and representative as possible.

SURVEY INSTRUCTIONS

Thank you for taking the time to participate in this online survey.

Please note, if the survey is idle for more than 5 minutes, you will be logged out automatically to protect your privacy. If that happens, simply wait 15 minutes and log back in. Please keep your password because you may need it later.

During the survey, please do not use your browser's FORWARD and BACK buttons. Instead, please always use the buttons below to move backward and forward through the survey.

To begin, just click on the "Next" button below. This will take you right into the survey.

SURVEY STARTS HERE

As an eligible TRICARE beneficiary, please complete this survey even if you did not receive your health care from a military facility.

Please recognize that some specific questions about TRICARE benefits may not apply to you, depending on your entitlement and particular TRICARE program.

This survey is about the health care of the person whose name appears on the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to that person.

Question 1: Are you the person whose name appears on the cover letter?

Variable name: H17001

Editing notes: None

Response	Directions	Value	Percent
Yes	Go to Question 2	1	99.8%
No	Please give this questionnaire to the person addressed on the cover letter.	2	0.2%

Question 2: By which of the following health plans are you currently covered?

MARK ALL THAT APPLY

Variable names: H17002A, H17002C, H17002F-H17002V

Editing notes: None

Military Health Plans

Response	Variable Name	Percent Marked
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)	H17002A	45.8%
TRICARE Extra or Standard (CHAMPUS)	H17002C	12.4%
TRICARE Plus	H17002N	0.9%
TRICARE for Life	H17002O	31.1%
TRICARE Supplemental Insurance	H17002P	0.7%
TRICARE Reserve Select	H17002Q	3.0%
TRICARE Retired Reserve	H17002S	1.9%
TRICARE Young Adult Prime	H17002T	0.5%
TRICARE Young Adult Extra or Standard	H17002V	0.6%
Uniformed Services Family Health Plan (USFHP)	H17002K	1.6%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)	H17002U	0.0%

Other Health Plans

Response	Variable Name	Percent Marked
Medicare	H17002F	31.6%
Federal Employees Health Benefit Program (FEHBP)	H17002G	2.5%
Medicaid	H17002H	1.0%
A civilian HMO (such as Kaiser)	H17002I	1.4%
Other civilian health insurance (such as Blue Cross)	H17002J	6.8%
The Veterans Administration (VA)	H17002M	9.0%
Government health insurance from a country other than the U.S.	H17002R	0.3%
Not sure	H17002L	5.2%

Question 3: Which health plan did you use for all or most of your healthcare in the last 12 months?**MARK ONLY ONE****Variable name:** H17003**Editing notes:** See Note 1

Response	Directions	Value	Percent
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)		1	44.2%
TRICARE Extra or Standard (CHAMPUS)		3	9.2%
TRICARE Plus		11	0.7%
TRICARE Reserve Select		12	2.8%
TRICARE Retired Reserve		14	1.1%
TRICARE Young Adult Prime		15	0.3%
TRICARE Young Adult Extra or Standard		17	0.5%
Uniformed Services Family Health Plan (USFHP)		9	1.3%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)		16	0.1%
Medicare (may include TRICARE for Life)		4	25.5%
Federal Employees Health Benefit Program (FEHBP)		5	1.8%
Medicaid		6	0.3%
A civilian HMO (such as Kaiser)		7	1.0%
Other civilian health insurance (such as Blue Cross)		8	5.1%
The Veterans Administration (VA)		10	3.6%
Government health insurance from a country other than the U.S.		13	0.2%
Not sure	Go to Question 5	-5	2.3%
Did not use any health plan in the last 12 months	Go to Question 5	-6	

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 3.

Question 4: How many months or years in a row have you been in this health plan?**Variable name:** H17004**Editing notes:** See Note 1

Response	Value	Percent
Less than 6 months	1	1.0%
At least 6 months but less than 12 months	2	4.0%
At least 12 months but less than 24 months	3	6.8%
At least 2 years but less than 5 years	4	19.2%
At least 5 years but less than 10 years	5	21.1%
10 or more years	6	47.9%

YOUR HEALTH CARE IN THE LAST 12 MONTHS

These questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

Question 5: In the last 12 months, where did you go most often for your health care?

MARK ONLY ONE

Variable name: H17005

Editing notes: None

Response	Value	Percent
A military facility – This includes: Military clinic Military hospital PRIMUS clinic NAVCARE clinic	1	34.5%
A civilian facility – This includes: Doctor's office Clinic Hospital Civilian TRICARE contractor	2	56.2%
Uniformed Services Family Health Plan facility (USFHP)	3	0.9%
Veterans Affairs (VA) clinic or hospital	4	5.1%
I went to none of the listed types of facilities in the last 12 months	5	3.3%

Question 6: In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

Variable name: H17006

Editing notes: See Note 2

Response	Directions	Value	Percent
Yes		1	43.7%
No	Go to Question 9	2	56.3%

Question 7: In the last 12 months, when you needed care right away, how often did you get care as soon as you needed?

Variable name: H17007

Editing notes: See Note 2

Response	Value	Percent
Never	1	2.1%
Sometimes	2	11.0%
Usually	3	20.2%
Always	4	66.7%
I didn't need care right away for an illness, injury or condition in the last 12 months	-6	

Question 8: In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

Variable name: H17008

Editing notes: See Note 2

Response	Value	Percent
Same day	1	63.0%
1 day	2	14.1%
2 days	3	6.2%
3 days	4	3.5%
4-7 days	5	6.4%
8-14 days	6	3.2%
15 days or longer	7	3.5%
I didn't need care right away for an illness, injury or condition in the last 12 months	-6	

Question 9: In the last 12 months, not counting the times you needed health care right away, did you make any appointments for your health care at a doctor's office or clinic?

Variable name: H17009

Editing notes: See Note 3

Response	Directions	Value	Percent
Yes		1	88.3%
No	Go to Question 12	2	11.7%

Question 10: In the last 12 months, how often did you get an appointment for a check-up or routine care at a doctor's office or clinic as soon as you needed?

Variable name: H17010

Editing notes: See Note 3

Response	Value	Percent
Never	1	3.0%
Sometimes	2	16.1%
Usually	3	27.6%
Always	4	53.3%
I had no appointments in the last 12 months	-6	

Question 11: In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?

Variable name: H17011

Editing notes: See Note 3

Response	Value	Percent
Same day	1	8.5%
1 day	2	9.4%
2-3 days	3	22.8%
4-7 days	4	22.6%
8-14 days	5	18.7%
15-30 days	6	12.2%
31 days or longer	7	5.8%
I had no appointments in the last 12 months	-6	

Question 12: In the last 12 months, not counting the times you needed health care right away, did you try to make an appointment with a health care provider at a military treatment facility (MTF)?

MARK ALL THAT APPLY

Variable names: S17BC01A-S17BC01D

Editing notes: See Note 3_BC1 and Note 3_BC2

Response	Directions	Variable Name	Percent Marked
Yes, I called the MTF	Go to Question 14	S17BC01A	28.6%
Yes, I used TRICARE Online or secure messaging (i.e. "Relay Health")	Go to Question 14	S17BC01B	6.5%
Yes, I made an appointment in person by walking in	Go to Question 14	S17BC01C	6.8%
No, I did not try to make an appointment at an MTF		S17BC01D	62.4%

Question 13: What are the reasons why you did not try to make an appointment at an MTF?

MARK ALL THAT APPLY

Variable names: S17BC04A-S17BC04G

Editing notes: See Note 3_BC1, Note 3_BC2, and Note 3_BC4

Response	Directions	Variable Name	Percent Marked
I didn't need health care in the last 12 months	Go to Question 17	S17BC04A	11.5%
I would not have been able to get an appointment when I needed care	Go to Question 17	S17BC04B	7.2%
I would not have been able to schedule the appointment at a convenient time	Go to Question 17	S17BC04C	3.8%
I did not have the referral needed to make an appointment with a specialist at the MTF	Go to Question 17	S17BC04D	6.3%
The MTF location is inconvenient	Go to Question 17	S17BC04E	39.8%
I only use civilian providers	Go to Question 17	S17BC04F	32.0%
I prefer to receive health care from a civilian provider	Go to Question 17	S17BC04G	24.5%

Question 14: Why did you try to make the appointment(s) at an MTF?**MARK ALL THAT APPLY****Variable names:** S17BC02A-S17BC02D**Editing notes:** See Note 3_BC2

Response	Variable Name	Percent Marked
I needed primary care for a new illness, condition, or injury (e.g. family practice, general medicine, internal medicine, aerospace/flight/submarine medicine)	S17BC02A	51.4%
My primary care provider referred me for specialist care (e.g. specialty clinic, physical therapy, occupational therapy)	S17BC02B	26.2%
For a routine wellness visit (e.g. routine physical exam, routine eye exam, mammography, pap smear, prostate exam)	S17BC02C	44.2%
For follow-up care of an illness, condition, or injury (e.g. follow up visit for a previously diagnosed medical condition, prescription renewal, prenatal care)	S17BC02D	38.3%

Question 15: Which of the following were true about the time(s) you tried to make an appointment at an MTF in the last 12 months?**MARK ALL THAT APPLY****Variable names:** S17BC03A-S17BC03E**Editing notes:** See Note 3_BC2, Note 3_BC3, and Note 3_BC4

Response	Directions	Variable Name	Percent Marked
I did not make an appointment because no appointments were available		S17BC03A	6.1%
I did not make an appointment because the only appointments available were too far in the future		S17BC03B	4.8%
I did not make an appointment because no convenient appointment times were available		S17BC03C	2.4%
I made an appointment for a time that was not convenient for me	Go to Question 17	S17BC03D	23.3%
I was always able to make an appointment at a time that was convenient for me	Go to Question 17	S17BC03E	61.3%

Question 16: Were you asked to call back at a future date when appointments might be available?**Variable name:** S17BC09**Editing notes:** See Note 3_BC2 and Note 3_BC4

Response	Value	Percent
Yes	1	54.8%
No	2	45.2%

Question 17: In the last 12 months, not counting the times you needed health care right away, did you try to make an appointment with a civilian health care provider?

MARK ALL THAT APPLY

Variable names: S17BC05A-S17BC05D

Editing notes: See Note 3_BC5 and Note 3_BC6

Response	Directions	Variable Name	Percent Marked
Yes, by phone	Go to Question 19	S17BC05A	60.9%
Yes, online	Go to Question 19	S17BC05B	4.8%
Yes, in person by walking in	Go to Question 19	S17BC05C	8.6%
No, I did not try to make an appointment with a civilian health provider		S17BC05D	32.2%

Question 18: What are the reasons why you did not try to make an appointment with a civilian health care provider?

MARK ALL THAT APPLY

Variable names: S17BC08A-S17BC08F

Editing notes: See Note 3_BC5, Note 3_BC6, and Note 3_BC8

Response	Directions	Variable Name	Percent Marked
I didn't need health care in the last 12 months	Go to Question 22	S17BC08A	28.9%
I receive all my health care from an MTF	Go to Question 22	S17BC08B	53.5%
I would not have been able to get an appointment when I needed care	Go to Question 22	S17BC08C	2.3%
I would not have been able to schedule the appointment at a convenient time	Go to Question 22	S17BC08D	1.4%
I did not have the referral needed to make an appointment with a specialist	Go to Question 22	S17BC08E	15.3%
The location of the civilian health care provider is inconvenient	Go to Question 22	S17BC08F	4.1%

Question 19: Why did you try to make the appointment(s) with a civilian health care provider?

MARK ALL THAT APPLY

Variable names: S17BC06A-S17BC06D

Editing notes: See Note 3_BC6

Response	Variable Name	Percent Marked
I needed primary care for a new illness, condition, or injury (e.g. family practice, general medicine, internal medicine)	S17BC06A	37.5%
My primary care provider referred me for specialist care (e.g. specialty clinic, physical therapy, occupational therapy)	S17BC06B	36.0%
For a routine wellness visit (e.g. routine physical exam, routine eye exam, mammography, pap smear, prostate exam)	S17BC06C	50.7%
For follow-up care of an illness, condition, or injury (e.g. follow up visit for a previously diagnosed medical condition, prescription renewal, prenatal care)	S17BC06D	45.2%

Question 20: Which of the following were true about the time(s) you tried to make an appointment with a civilian health care provider in the last 12 months?

MARK ALL THAT APPLY

Variable names: S17BC07A-S17BC07E

Editing notes: See Note 3_BC6, Note 3_BC7 and Note 3_BC8

Response	Directions	Variable Name	Percent Marked
I did not make an appointment because no appointments were available		S17BC07A	1.2%
I did not make an appointment because the only appointments available were too far in the future		S17BC07B	1.5%
I did not make an appointment because no convenient appointment times were available		S17BC07C	0.9%
I made an appointment for a time that was not convenient for me	Go to Question 22	S17BC07D	8.6%
I was always able to make an appointment at a time that was convenient for me	Go to Question 22	S17BC07E	84.1%

Question 21: Were you asked to call back at a future date when appointments might be available?

Variable name: S17BC10

Editing notes: See Note 3_BC6 and Note 3_BC8

Response	Value	Percent
Yes	1	37.8%
No	2	62.2%

Question 22: In the last 12 months, how many times did you go to an emergency room to get care for yourself?

Variable name: H17012

Editing notes: None

Response	Value	Percent
None	1	70.8%
1	2	18.7%
2	3	6.3%
3	4	2.4%
4	5	0.9%
5 to 9	6	0.7%
10 or more	7	0.2%

Question 23: In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get health care for yourself?

Variable name: H17013

Editing notes: See Note 4

Response	Directions	Value	Percent
None	Go to Question 30	1	12.4%
1		2	11.2%
2		3	16.3%
3		4	14.8%
4		5	14.2%
5 to 9		6	21.0%
10 or more		7	10.1%

Question 24: In the last 12 months, how often did you and a doctor or other health provider talk about specific things you could do to prevent illness?

Variable name: H17014

Editing notes: See Note 4

Response	Value	Percent
Never	1	11.8%
Sometimes	2	25.0%
Usually	3	29.8%
Always	4	33.4%

Question 25: Choices for your treatment or health care can include choices about medicine, surgery, or other treatment. In the last 12 months, did a doctor or other health provider tell you there was more than one choice for your treatment or health care?

Variable name: H17015

Editing notes: See Notes 4 and 5

Response	Directions	Value	Percent
Yes	Go to Question 28	1	59.4%
No		2	40.6%

Question 26: In the last 12 months, did a doctor or other health provider talk with you about the pros and cons of each choice for your treatment or health care?

Variable name: H17016

Editing notes: See Notes 4 and 5

Response	Value	Percent
Definitely yes	1	70.3%
Somewhat yes	2	24.7%
Somewhat no	3	3.7%
Definitely no	4	1.3%

Question 27: In the last 12 months, when there was more than one choice for your treatment or health care, did a doctor or other health provider ask which choice you thought was best for you?

Variable name: H17017

Editing notes: See Notes 4 and 5

Response	Value	Percent
Definitely yes	1	62.7%
Somewhat yes	2	27.4%
Somewhat no	3	5.8%
Definitely no	4	4.0%

Question 28: Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?

Variable name: H17018

Editing notes: See Note 4

Response	Value	Percent
0 – Worst health care possible	0	0.3%
1	1	0.3%
2	2	0.7%
3	3	1.7%
4	4	1.8%
5	5	4.6%
6	6	5.3%
7	7	11.8%
8	8	20.2%
9	9	20.2%
10 – Best health care possible	10	33.0%
I had no visits in the last 12 months	-6	

Question 29: In the last 12 months, how often was it easy to get the care, tests, or treatment you needed?

Variable name: H17033

Editing notes: See Note 4

Response	Value	Percent
Never	1	1.8%
Sometimes	2	12.7%
Usually	3	33.6%
Always	4	51.9%

YOUR PERSONAL DOCTOR

Question 30: A personal doctor is the one you would see if you need a checkup, want advice about a health problem, or get sick or hurt. Do you have a personal doctor?

Variable name: H17019

Editing notes: See Note 6

Response	Directions	Value	Percent
Yes		1	79.0%
No	Go to Question 40	2	21.0%

Question 31: In the last 12 months, how many times did you visit your personal doctor to get care for yourself?

Variable name: H17020

Editing notes: See Notes 6 and 7

Response	Directions	Value	Percent
None	Go to Question 36	0	8.4%
1		1	18.1%
2		2	24.3%
3		3	18.3%
4		4	14.4%
5 to 9		5	13.2%
10 or more		6	3.2%

Question 32: In the last 12 months, how often did your personal doctor listen carefully to you?

Variable name: H17021

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	0.8%
Sometimes	2	5.7%
Usually	3	17.8%
Always	4	75.7%
I had no visits in the last 12 months	-6	

Question 33: In the last 12 months, how often did your personal doctor explain things in a way that was easy to understand?

Variable name: H17022

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	0.5%
Sometimes	2	4.3%
Usually	3	17.6%
Always	4	77.6%
I had no visits in the last 12 months	-6	

Question 34: In the last 12 months, how often did your personal doctor show respect for what you had to say?

Variable name: H17023

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	1.0%
Sometimes	2	4.2%
Usually	3	14.0%
Always	4	80.8%
I had no visits in the last 12 months	-6	

Question 35: In the last 12 months, how often did your personal doctor spend enough time with you?

Variable name: H17024

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	2.0%
Sometimes	2	5.8%
Usually	3	24.5%
Always	4	67.8%
I had no visits in the last 12 months	-6	

Question 36: In the last 12 months, did you get care from a doctor or other health provider besides your personal doctor?

Variable name: H17025

Editing notes: See Notes 6, 7, and 8

Response	Directions	Value	Percent
Yes		1	78.4%
No	Go to Question 38	2	21.6%

Question 37: In the last 12 months, how often did your personal doctor seem informed and up-to-date about the care you got from these doctors or other health providers?

Variable name: H17026

Editing notes: See Notes 6, 7, and 8

Response	Value	Percent
Never	1	7.2%
Sometimes	2	13.3%
Usually	3	31.2%
Always	4	48.3%

Question 38: Using any number from 0 to 10, where 0 is the worst personal doctor possible and 10 is the best personal doctor possible, what number would you use to rate your personal doctor?

Variable name: H17027

Editing notes: See Note 6

Response	Value	Percent
0 – Worst personal doctor possible	0	0.6%
1	1	0.3%
2	2	1.0%
3	3	0.9%
4	4	1.4%

6	6	2.8%
7	7	8.4%
8	8	16.1%
9	9	22.4%
10 – Best personal doctor possible	10	42.3%
I don't have a personal doctor	-6	

Question 39: Did you have the same personal doctor before you joined this health plan?

Variable name: S17009

Editing notes: See Notes 6 and 8_01

Response	Directions	Value	Percent
Yes	Go to Question 41	1	33.4%
No		2	66.6%

Question 40: Since you joined your health plan, how much of a problem, if any, was it to get a personal doctor you are happy with?

Variable name: S17010

Editing notes: See Note 8_01

Response	Value	Percent
A big problem	1	13.1%
A small problem	2	22.3%
Not a problem	3	64.6%

GETTING HEALTH CARE FROM A SPECIALIST

When you answer the next questions, do not include dental visits or care you got when you stayed overnight in a hospital.

Question 41: Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and other doctors who specialize in one area of health care. In the last 12 months, did you try to make any appointments to see a specialist?

Variable name: H17028

Editing notes: See Note 9

Response	Directions	Value	Percent
Yes		1	64.2%
No	Go to Question 45	2	35.8%

Question 42: In the last 12 months, how often did you get an appointment to see a specialist as soon as you needed?

Variable name: H17029

Editing notes: See Note 9

Response	Value	Percent
Never	1	5.3%
Sometimes	2	12.8%
Usually	3	28.0%
Always	4	53.8%
I didn't need a specialist in the last 12 months	-6	

Question 43: How many specialists have you seen in the last 12 months?

Variable name: H17030

Editing notes: See Notes 9 and 10

Response	Directions	Value	Percent
None	Go to Question 45	0	3.5%
1 specialist		1	38.6%
2		2	29.0%
3		3	16.9%
4		4	7.5%
5 or more specialists		5	4.5%

Question 44: We want to know your rating of the specialist you saw most often in the last 12 months. Using any number from 0 to 10 where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate the specialist?

Variable name: H17031

Editing notes: See Notes 9 and 10

Response	Value	Percent
0 – Worst specialist possible	0	0.4%
1	1	0.4%
2	2	0.7%
3	3	0.8%
4	4	1.1%
5	5	2.3%
6	6	4.0%
7	7	8.3%
8	8	16.1%
9	9	23.2%
10 – Best specialist possible	10	42.7%
I didn't see a specialist in the last 12 months	-6	

Question 45: In general, how would you rate your overall mental or emotional health?

Variable name: S17B01

Editing notes: None

Response	Value	Percent
Excellent	1	39.4%
Very good	2	31.8%
Good	3	19.7%
Fair	4	7.5%
Poor	5	1.7%

Question 46: In the last 12 months, did you need any treatment or counseling for a personal or family problem?

Variable name: S17B02

Editing notes: See Note 10_B1

Response	Directions	Value	Percent
Yes		1	17.7%
No	Go to Question 49	2	82.3%

Question 47: In the last 12 months, how much of a problem, if any, was it to get the treatment or counseling you needed through your health plan?

Variable name: S17B03

Editing notes: See Note 10_B1

Response	Value	Percent
A big problem	1	9.4%
A small problem	2	15.8%
Not a problem	3	74.8%

Question 48: Using any number from 0 to 10 where 0 is the worst treatment or counseling possible and 10 is the best treatment or counseling possible, what number would you use to rate your treatment or counseling in the last 12 months?

Variable name: S17B04

Editing notes: See Note 10_B1

Response	Value	Percent
0 – Worst treatment or counseling possible	0	1.9%
1	1	0.7%
2	2	1.5%
3	3	2.0%
4	4	3.0%
5	5	7.7%

7	7	11.5%
8	8	15.5%
9	9	21.9%
10 – Best treatment or counseling possible	10	30.2%
I had no treatment or counseling in the last 12 months	-6	

YOUR HEALTH PLAN

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 3.

Question 49: In the last 12 months, did you look for any information in written materials or on the Internet about how your health plan works?

Variable name: H17034

Editing notes: See Note 12

Response	Directions	Value	Percent
Yes		1	32.1%
No	Go to Question 51	2	67.9%

Question 50: In the last 12 months, how often did the written material or the Internet provide the information you needed about how your plan works?

Variable name: H17035

Editing notes: See Note 12

Response	Value	Percent
Never	1	6.4%
Sometimes	2	27.1%
Usually	3	43.0%
Always	4	23.5%
I didn't look for information from my health plan in the last 12 months	-6	

Question 51: Sometimes people need services or equipment beyond what is provided in a regular or routine office visit, such as care from a specialist, physical therapy, a hearing aid, or oxygen. In the last 12 months, did you look for information from your health plan on how much you would have to pay for a health care service or equipment?

Variable name: H17036

Editing notes: See Note 13

Response	Directions	Value	Percent
Yes		1	22.4%
No	Go to Question 53	2	77.6%

Question 52: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for a health care service or equipment?

Variable name: H17037

Editing notes: See Note 13

Response	Value	Percent
Never	1	25.7%
Sometimes	2	20.5%
Usually	3	26.8%
Always	4	27.0%
I didn't need a health care service or equipment from my health plan in the last 12 months	-6	

Question 53: In some health plans, the amount you pay for a prescription medicine can be different for different medicines, or can be different for prescriptions filled by mail instead of at the pharmacy. In the last 12 months, did you look for information from your health plan on how much you would have to pay for specific prescription medicines?

Variable name: H17038

Editing notes: See Note 14

Response	Directions	Value	Percent
Yes		1	22.9%
No	Go to Question 55	2	77.1%

Question 54: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for specific prescription medications?

Variable name: H17039

Editing notes: See Note 14

Response	Value	Percent
Never	1	19.7%
Sometimes	2	16.8%
Usually	3	28.4%
Always	4	35.1%
I didn't need prescription medications from my health plan in the last 12 months	-6	

Question 55: In the last 12 months, did you try to get information or help from your health plan's customer service?

Variable name: H17040

Editing notes: See Note 15

Response	Directions	Value	Percent
Yes		1	26.8%
No	Go to Question 58	2	73.2%

Question 56: In the last 12 months, how often did your health plan's customer service give you the information or help you needed?

Variable name: H17041

Editing notes: See Note 15

Response	Value	Percent
Never	1	6.8%
Sometimes	2	19.3%
Usually	3	28.8%
Always	4	45.2%
I didn't call my health plan's customer service in the last 12 months	-6	

Question 57: In the last 12 months, how often did your health plan's customer service staff treat you with courtesy and respect?

Variable name: H17042

Editing notes: See Note 15

Response	Value	Percent
Never	1	2.0%
Sometimes	2	7.7%
Usually	3	21.6%
Always	4	68.6%
I didn't call my health plan's customer service in the last 12 months	-6	

Question 58: In the last 12 months, did your health plan give you any forms to fill out?

Variable name: H17043

Editing notes: See Note 16

Response	Directions	Value	Percent
Yes		1	23.6%
No	Go to Question 60	2	76.4%

Question 59: In the last 12 months, how often were the forms from your health plan easy to fill out?

Variable name: H17044

Editing notes: See Note 16

Response	Value	Percent
Never	1	4.5%
Sometimes	2	13.0%
Usually	3	45.9%
Always	4	36.6%
I didn't have any experiences with paperwork for my health plan in the last 12 months	-6	

Question 60: Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you. In the last 12 months, did you or anyone else send in any claims to your health plan?

Variable name: H17045

Editing notes: See Note 17

Response	Directions	Value	Percent
Yes		1	48.1%
No	Go to Question 63	2	33.2%
Don't know	Go to Question 63	-5	18.6%

Question 61: In the last 12 months, how often did your health plan handle your claims quickly?

Variable name: H17046

Editing notes: See Note 17

Response	Value	Percent
Never	1	2.8%
Sometimes	2	6.6%
Usually	3	28.8%
Always	4	47.4%
Don't know	-5	14.4%
No claims were sent for me in the last 12 months	-6	

Question 62: In the last 12 months, how often did your health plan handle your claims correctly?

Variable name: H17047

Editing notes: See Note 17

Response	Value	Percent
Never	1	1.5%
Sometimes	2	6.0%
Usually	3	25.3%
Always	4	54.2%
Don't know	-5	12.9%
No claims were sent for me in the last 12 months	-6	

Question 63: Using any number from 0 to 10 where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your health plan?

Variable name: H17048

Editing notes: None

Response	Value	Percent
0 – Worst health plan possible	0	0.6%
1	1	0.3%
2	2	0.9%

7	7	11.4%
8	8	19.0%
9	9	21.2%
10 – Best health plan possible	10	32.2%

PREVENTIVE CARE

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or blood pressure screening are examples of preventive care.

Question 64: When did you last have a blood pressure reading?

Variable name: H17049

Editing notes: None

Response	Value	Percent
Less than 12 months ago	3	94.1%
1 to 2 years ago	2	4.3%
More than 2 years ago	1	1.6%

Question 65: Do you know if your blood pressure is too high?

Variable name: H17050

Editing notes: None

Response	Value	Percent
Yes, it is too high	1	18.0%
No, it is not too high	2	77.1%
Don't know	3	5.0%

Question 66: When did you last have a flu shot?

Variable name: H17051

Editing notes: None

Response	Value	Percent
Less than 12 months ago	4	69.2%
1 to 2 years ago	3	10.6%
More than 2 years ago	2	11.7%
Never had a flu shot	1	8.5%

Question 67: Have you ever smoked at least 100 cigarettes in your entire life?

Variable name: H17052

Editing notes: None

Response	Value	Percent
Yes	1	35.8%
No	2	62.8%
Don't know	-5	1.4%

Question 68: Do you now smoke cigarettes or use tobacco every day, some days or not at all?

Variable name: H17053

Editing notes: See Note 18

Response	Directions	Value	Percent
Every day		4	6.7%
Some days		3	4.6%
Not at all	Go to Question 73	2	88.4%
Don't know	Go to Question 73	-5	0.3%

Question 69: In the last 12 months, how often were you advised to quit smoking or using tobacco by a doctor or other health provider in your plan?

Variable name: H17054

Editing notes: See Note 18

Response	Value	Percent
Never	1	22.3%
Sometimes	2	21.5%
Usually	3	25.7%
Always	4	30.5%

Question 70: In the last 12 months, how often was medication recommended or discussed by a doctor or health provider to assist you with quitting smoking or using tobacco? Examples of medication are: nicotine gum, patch, nasal spray, inhaler, or prescription medication.

Variable name: H17055

Editing notes: See Note 25

Response	Directions	Value	Percent
Yes		1	34.3%
No	Go to Question 104	2	58.1%
Don't know	Go to Question 104	-5	7.6%

Question 99: Currently, are you covered by Medicare Part A? Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part A helps pay for inpatient hospital care.

Variable name: H17075

Editing notes: See Note 25

Response	Value	Percent
Yes, I am now covered by Medicare Part A	1	94.5%
No, I am not covered by Medicare Part A	2	5.5%

Question 100: Currently, are you covered by Medicare Part B? Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

Variable name: H17076

Editing notes: See Note 25

Response	Value	Percent
Yes, I am now covered by Medicare Part B	1	92.0%
No, I am not covered by Medicare Part B	2	8.0%

Question 101: Medicare Advantage is the name for Medicare Plus Choice plans. Are you enrolled in a Medicare Advantage Plan? This plan is also sometimes known as Medicare Part C.

Variable name: H17077

Editing notes: See Note 25

Response	Value	Percent
Yes	1	4.7%
No	2	80.0%
Don't know	-5	15.3%

Question 102: Currently, are you covered by Medicare supplemental insurance? Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

Variable name: H17078

Editing notes: See Note 25

Response	Value	Percent
Yes, I am now covered by Medicare supplemental insurance	1	16.2%
No, I am not covered by Medicare supplemental insurance	2	83.8%

Question 103: Are you enrolled in Medicare Part D, also known as the Medicare Prescription Drug Plan?

Variable name: H17079

Editing notes: See Note 25

Response	Value	Percent
Yes	1	10.9%
No	2	78.0%
Don't know	-5	11.1%

Question 104: Using a scale of 1 to 5, with 1 being “strongly disagree” and 5 being “strongly agree”, how much do you agree with the following statement: In general, I am able to see my provider(s) when needed?

Variable name: S17011

Editing notes: None

Response	Value	Percent
Strongly disagree	1	5.2%
Disagree	2	3.9%
Neither agree nor disagree	3	9.8%
Agree	4	41.8%
Strongly agree	5	39.3%

Question 105: Using a scale of 1 to 5, with 1 being “completely dissatisfied” and 5 being “completely satisfied”, how satisfied are you, overall, with the health care you received during your last visit?

Variable name: S17014

Editing notes: None

Response	Value	Percent
Completely dissatisfied	1	3.9%
Somewhat dissatisfied	2	4.5%
Neither satisfied nor dissatisfied	3	6.2%
Somewhat satisfied	4	24.3%
Completely satisfied	5	61.1%

THANK YOU FOR TAKING THE TIME TO COMPLETE THE SURVEY!

Your generous contribution will greatly aid efforts to improve the health of our military community.

CHICAGO, IL 60606-5809

Dear SSGT JANE DOE:

You have been selected to participate in the January 2017 Health Care Survey of Department of Defense Beneficiaries, or HCSDb. **We survey fewer than 1% of all TRICARE beneficiaries, so your response matters!**

We at the DoD are working hard to make sure TRICARE beneficiaries get access to the quality health care they deserve, but we can't do it without your help. **Even if you do not regularly use TRICARE, your response to this 15-minute survey will help ensure quality health care for you and others in the TRICARE community. Please help and respond today!**

Web site: <http://www.health.mil/healthsurveys>

Select Survey #1: Health Care Survey of DoD Beneficiaries (HCSDb)

Survey ID: **1234567890** Your password: **5654321**

- Reply Online by 3/15/2017
- See the back page of this letter for more information about this survey
- We need your response to help families like yours get the best care

Thank you for your valuable time. It is greatly appreciated. Sincerely,

Richard R. Bannick, Ph. D., FACHE
Decision Support Division/Defense Health Agency
Office of the Assistant Secretary of Defense (Health Affairs)

SSGT JANE DOE
222 S. RIVERSIDE DRIVE
CHICAGO, IL 60606-5809

Dear SSGT JANE DOE:

You are not just a number – we really want to know your opinions on your TRICARE health plan. Recently, we sent you an invitation to complete the **Health Care Survey of DoD Beneficiaries**. If you have already responded, we sincerely thank you! If you have not responded, you still have time to help. Please consider setting aside a few minutes to complete the survey. **Your response will benefit you and your family as well as other military families.**

Retired? No longer in the military? Don't use TRICARE? **We still want to hear from you!**

It's easy to respond to this important, **15 minute survey online:**

Web site: <http://www.health.mil/healthsurveys>

Select Survey #1: Health Care Survey of DoD Beneficiaries (HCSDB)

Survey ID: **1234567890** Your password: **5654321**

- **Please Reply by 3/24/2017**
- **Your answers will be kept confidential**
- **See the back page of this letter for more information about this survey**

Thank you. Your response is greatly appreciated. Sincerely,

Richard R. Bannick, Ph. D., FACHE
Decision Support Division/Defense Health Agency
Office of the Assistant Secretary of Defense (Health Affairs)

SAMPLE INSTRUCTIONS AND FREQUENTLY ASKED QUESTIONS - Quarter II

Access the survey in 4 easy steps

1

Please open a web browser. Here are some common browser icons:

**MICROSOFT INTERNET
EXPLORER**

GOOGLE CHROME

APPLE SAFARI

MOZILLA FIREFOX

2

Locate the browser's address box, which is at the top of the window, and **type the web address as follows**.
http://www.health.mil/healthsurveys

3

Press the Enter key on your keyboard and you will go to the Health Survey Portal. Click the **"Select Survey #1"** in the left box, Survey #1: Health Care Surveys of DoD Beneficiaries (HCSDB).

4

This will take you to the survey home page, which looks like the image below. Once there, **enter your password** to begin the survey.

Frequently Asked Questions

What is this survey about?

This survey is not about a particular health care visit, but about your health care experiences overall. Even if you don't use TRICARE now, either on a military installation or in a civilian provider's office, we still want to understand your health care experiences.

Why should I respond to this Survey?

We need your responses, not just responses from other people. The results are used to evaluate the services you have received in meeting your health care needs either through TRICARE or any other health insurance plan. Your feedback will benefit not only you and your family, but also other fellow military families. DoD takes this survey very seriously and your input is truly critical to our efforts.

What happens to my answers?

Your answers will be kept confidential, and the survey vendor DoD has contracted with to field this survey will not share any information that could identify you. Your participation is voluntary and will not affect your health benefits.

Who do I contact if I want more information before responding?

If you have questions about the survey or don't want to participate, please send an email to dod.health@ipsos-research.com; or please call **1-800-864-7540**; or send a fax to **1-877-648-9563**. For prompt assistance, please include your survey ID number. For questions related to TRICARE, please go to www.tricare.mil/contactus, or for the North Region call 877-874-2273, South Region call 800-444-5445, or West Region call 877-988-9378.

Dear [RANKCD] [PN1STNM] [PNLSTNM],

You have been selected to participate in the January 2017 Health Care Survey of Department of Defense Beneficiaries, or HCSDB. This is an important survey and YOUR RESPONSE TRULY COUNTS!

As a serving member of the U.S. Military, you deserve the highest quality of health care. It is my job to help make sure you get it, and we need to hear from you on how we're doing. Even if you do not regularly use TRICARE, your response to this survey will help us identify how to serve you better.

APPENDIX D

CODING SCHEME AND CODING TABLES – QUARTER II

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

QUARTER II

2017 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	Description
Numeric	Numeric	
.	-9	No response
.O	-7	Out of range error
.N	-6	Not applicable or valid skip
.D	-5	Scalable response of “don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped

Missing values ‘.’ and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H17003, H17004**

N1	H17003 is:	H17004 is:	H17003 is coded as:	H17004 is coded as:	*
1	1-17: Health plan	Marked or missing response	Stands as original value	Stands as original value	
2	-6: No usage in past 12 months or -5: not sure	Marked response	Stands as original value	.C: Question should be skipped	F
3	-6: No usage in past 12 months or -5: not sure	Missing response	Stands as original value	.N: Valid skip	F
4	Missing response	Marked or missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H17006, H17007, H17008**

N2	H17006 is:	H17007-H17008 are:	H17006 is coded as:	H17007-H17008 are coded as:	*
1	1: Yes	“All are blank”	Stands as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Stands as original value	.: Missing if –6; stand as original value otherwise	F
4	1: Yes	At least one is “marked”	Stands as original value	Stand as original value	
5	2: No	“One marked and one NA”	Stands as original value	.C: Question should be skipped	F
6	2: No or .: missing	At least one is “marked”	1: Yes	.: Missing if –6; stand as original value otherwise	B F
7	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 2:

Responses to H17007-H17008 are all missing.

Definition of “blank or NA” in Coding Table for Note 2:

All of the following are true: H17007-H17008 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 2:

H17007-H17008 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 2:

Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

**Coding Table for Note 3:
H17009, H17010, H17011**

N3	H17009 is:	H17010-H17011 are:	H17009 is coded as:	H17010-H17011 are coded as:	*
1	1: Yes	“All are blank”	Stands as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Stands as original value	.: Missing if –6; stand as original value otherwise	F
4	1: Yes	At least one is “marked”	Stands as original value	Stand as original value	
5	2: No	“One marked and one NA”	Stands as original value	.C: Question should be skipped	F
6	2: No or .: missing	At least one is “marked”	1: Yes	.: Missing if –6; stand as original value otherwise	B F
7	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 3:
Responses to H17010-H17011 are all missing.

Definition of “blank or NA” in Coding Table for Note 3:
All of the following are true: H17010-H17011 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 3:
H17010-H17011 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 3:
Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

Coding Table for Note 3_BC1:**S17BC01A- S17BC01D, S17BC04A- S17BC04G**

N3_BC1	S17BC01A- S17BC01C are:	S17BC01D is:	S17BC04A- S17BC04G are:	S17BC01A- S17BC01C are coded as:	S17BC01D is coded as:	S17BC04A- S17BC04G is coded as:	*
1	At least one is 1: marked	Any value	Any value	Stand as original	2: Unmarked	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
2	All are 2: unmarked	1: Marked	Any value	Stand as original	Stands as original	Stand as original	
3	All are 2: unmarked	2: Unmarked	None are marked	Stand as original	Stands as original	.N: Valid skip if missing or unmarked	
4	All are 2: unmarked	2: Unmarked	At least one is 1: marked	Stand as original	1: Marked	Stand as original	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC2:**S17BC01D, S17BC02A- S17BC02D, S17BC03A- S17BC03E, S17BC04A- S17BC04G, S17BC09**

N3_BC2	S17BC01D is:	S17BC04A- S17BC04G are:	S17BC02A-D, S17BC03A-E and S17BC09 are:	S17BC01D is coded as:	S17BC04A- S17BC04G are coded as:	S17BC02A-D, S17BC03A-E and S17BC09 are coded as:	*
1	2: Unmarked	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original	Stand as original	Stand as original	
2	1: Marked	Any value	Any value	Stands as original	Stand as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC3:**S17BC03D- S17BC03E**

N3_BC3	S17BC03D is:	S17BC03E is:	S17BC03D is coded as:	S17BC03E is coded as:	*
1	Any value	1: Marked	2: Unmarked	Stands as original	B
2	1: Marked	2: Unmarked	Stands as original	Stands as original	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC4:
S17BC03A- S17BC03E, S17BC04A- S17BC04G, S17BC09

N3_BC4	S17BC03A- S17BC03C are:	S17BC03D- S17BC03E are:	S17BC09 are:	S17BC03A- S17BC03C are coded as:	S17BC03D- S17BC03E are coded as:	S17BC09 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stand as original	Stand as original	Stands as original	
2	At least one is 1: marked	All are 2: unmarked	Any value	Stand as original	Stand as original	Stands as original	
3	Any pattern of 1: marked or 2: unmarked	At least one is 1: marked	Any value	2: Unmarked	Stand as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	B F
4	All are 2: unmarked	All are 2: unmarked	Any value	Stand as original	Stand as original	Stands as original	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC5:
S17BC05A- S17BC05D, S17BC08A- S17BC08F

N3_BC5	S17BC05A- S17BC05C are:	S17BC05D is:	S17BC08A- S17BC08F are:	S17BC05A- S17BC05C are coded as:	S17BC05D is coded as:	S17BC08A- S17BC08F are coded as:	*
1	At least one is 1: marked	Any value	Any value	Stand as original	2: Unmarked	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
2	All are 2: unmarked	1: Marked	Any value	Stand as original	Stands as original	Stand as original	
3	All are 2: unmarked	2: Unmarked	All are 2: unmarked	Stand as original	Stands as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	
4	All are 2: unmarked	2: Unmarked	At least one is 1: marked	Stand as original	1: Marked	Stand as original	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC6:

S17BC05D, S17BC06A- S17BC06D, S17BC07A- S17BC07E, S17BC08A- S17BC08F, S17BC10

N3_BC6	S17BC05D is:	S17BC08A- S17BC08F are:	S17BC06A- S17BC06D, S17BC07A- S17BC07E and S17BC10 are:	S17BC05D is coded as:	S17BC08A- S17BC08F are coded as:	S17BC06A- S17BC06D, S17BC07A- S17BC07E and S17BC10 are coded as:	*
1	2: Unmarked	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original	Stand as original	Stand as original	
2	1: Marked	Any value	Any value	Stands as original	Stand as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC7:

S17BC07D- S17BC07E

N3_BC7	S17BC07D is:	S17BC07E is:	S17BC07D is coded as:	S17BC07E is coded as:	*
1	Any value	1: Marked	2: Unmarked	Stands as original	B
2	1: Marked	2: Unmarked	Stands as original	Stands as original	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3_BC8:

S17BC07A- S17BC07E, S17BC08A- S17BC08F, S17BC10

N3_BC8	S17BC07A- S17BC07C are:	S17BC07D- S17BC07E are:	S17BC10 is:	S17BC07A- S17BC07C are coded as:	S17BC07D- S17BC07E is coded as:	S17BC10 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stand as original	Stand as original	Stands as original	
2	At least one is 1: marked	All are 2: unmarked	Any value	Stand as original	Stand as original	Stands as original	
3	Any pattern of 1: marked or 2: unmarked	At least one is 1: marked	Any value	2: Unmarked	Stand as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	B F
4	All are 2: unmarked	All are 2: unmarked	Any value	Stand as original	Stand as original	Stands as original	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:
H17013, H17014-H17018, H17033**

N4	H17013 is:	H17014-H17018, H17033 are:	H17013 is coded as:	H17014-H17018, H17033 are coded as:	*
1	1: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
2	2-7: Visits, or .: missing	“Blank or NA”	1: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2-7: Visits	At least one is “marked” or “all are blank”	Stands as original value	.: Missing if –6; stand as original value otherwise	F
4	.: Missing	“All are blank”	Stands as original value	Stand as original value	
5	.: Missing	At least one is “marked”	Stands as original value	.: Missing if –6; stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 4:
Responses to H17014-H17018 are all missing.

Definition of “blank or NA” in Coding Table for Note 4:
All of the following are true: H17014-H17018 and H17033 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 4:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 5:
H17015, H17016-H17017**

N5	H17015 is:	H17016 is:	H17017 is:	H17015 is coded as:	H17016 is coded as:	H17017 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	
3	2: No or .: missing	1: Definitely yes 2: somewhat yes	Any value	1: Yes	Stands as original value	Stands as original value	B
4	2: No or .: missing	3: Somewhat no, 4: definitely no, or .: missing	1: Definitely yes 2: somewhat yes	1: Yes	Stands as original value	Stands as original value	B
5	2: No	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H17019, H17020-H17027, S17009**

N6	H17019 is:	H17020- H17024 are:	H17025- H17026, S17009 are:	H17027 is:	H17019 is coded as:	H17020- H17026, S17009 are coded as:	H17027 is coded as:	*
1	1: Yes	Any value	Any value	Any value	Stands as original value	Stand as original value	.: Missing if -6; stands as original value otherwise	F
2	2: No or .: missing	Any value	Any value	0-10	1: Yes	Stand as original value	Stands as original value	B
3	2: No or .: missing	At least one is "marked"	Any value	.: Missing	1: Yes	Stand as original value	Stands as original value	B
4	2: No	At least one is "marked"	Any value	-6: No personal doctor	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	F
5	2: No	"Blank or NA"	Any value	-6: No personal doctor or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	Any value	Any value	-6: No personal doctor	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	B F
7	.: Missing	"Blank or NA"	Any value	.: Missing	Stands as original value	Stand as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "blank or NA" in Coding Table for Note 6:

All of the following are true: H17020 is either 0: None or missing and H17021-H17024 are either not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 6:

Any pattern of marks for H17020-H17024 outside the definition "blank or NA".

**Coding Table for Note 7:
H17020, H17021-H17026**

N7	H17020 is:	H17021-H17026 are:	H17020 is coded as:	H17021-H17026 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	
2	0: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	1-6: Visits, or .: missing	“Blank or NA”	0: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
4	1-6: Visits, or .: missing	At least one is “marked” or “all are blank”	Stands as original value	.: Missing if –6; stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
Responses to H17021-H17026 are all missing.

Definition of “blank or NA” in Coding Table for Note 7:
Responses to H17021-H17026 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks for H17021-H17024 outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 8:
H17025, H17026**

N8	H17025 is:	H17026 is:	H17025 is coded as:	H17026 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	Stands as original value	
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	.: Missing	Stands as original value	.N: Valid skip	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 8_01:
S17009, S17010**

N8_01	S17009 is:	S17010 is:	S17009 is coded as:	S17010 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No	Any value	Stands as original value	Stands as original value	
4	.: Missing	Any value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 9:
H17028, H17029-H17031**

N9	H17028 is:	H17029-H17031 are:	H17028 is coded as:	H17029 is coded as:	H17030-H17031 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stands as original value otherwise	Stand as original value	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stands as original value otherwise	Stand as original value	B
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 9:
Responses to H17029-H17031 are all missing.

Definition of "blank or NA" in Coding Table for Note 9:

All of the following are true: H17029 and H17031 are a combination of not applicable (-6) or missing. H17030 is either missing or 0: None.

Definition of "marked" in Coding Table for Note 9:

Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 10:
H17030, H17031**

N10	H17030 is:	H17031 is:	H17030 is coded as:	H17031 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1-5: Specialists	0-10 or .: missing	Stands as original value	Stands as original value	
3	1-5: Specialists or .: missing	-6: Didn't see a specialist in the last 12 months	0: None	.C: Question should be skipped	B F
4	0: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	0-10 or .: missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 10_B1:
S17B02, S17B03-S17B04**

N10_B1	S17B02 is:	S17B03-S17B04 are:	S17B02 is coded as:	S17B03-S17B04 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stand as original value otherwise	B F
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 10_B1:
Responses to S17B03-S17B04 are all missing.

Definition of "blank or NA" in Coding Table for Note 10_B1:
All of the following are true: S17B03-S17B04 are a combination of not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 10_B1:
Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 12:
H17034, H17035**

N12	H17034 is:	H17035 is:	H17034 is coded as:	H17035 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't look for information	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't look for information or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 13:
H17036, H17037**

N13	H17036 is:	H17037 is:	H17036 is coded as:	H17037 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need service or equipment	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need service or equipment or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 14:
H17038, H17039**

N14	H17038 is:	H17039 is:	H17038 is coded as:	H17039 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need prescription meds	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need prescription meds or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15:
H17040, H17041-H17042**

N15	H17040 is:	H17041-H17042 are:	H17040 is coded as:	H17041-H17042 are coded as:	*
1	1: Yes	At least one is "marked" or "all are blank"	Stands as original value	.: Missing if -6; stand as original value otherwise	F
2	1: Yes or .: missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stand as original value otherwise	B F
4	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	"All are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 15:
Responses to H17041-H17042 are all missing.

Definition of "blank or NA" in Coding Table for Note 15:
All of the following are true: H17041-H17042 are a combination of not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 15:
Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 16:
H17043, H17044**

N16	H17043 is:	H17044 is:	H17043 is coded as:	H17044 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't receive forms to fill out	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't receive forms to fill out or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:
H17045, H17046-H17047**

N17	H17045 is:	H17046-H17047 are:	H17045 is coded as:	H17046-H17047 are coded as:	*
1	1: Yes	At least one is "marked", "all are blank" or "blank or don't know"	Stands as original value	.: Missing if -6; stands as original value otherwise	F
2	1: Yes, -5: don't know or .: missing	"Blank or NA" or "NA or don't know"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No, -5: don't know or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stands as original value otherwise	B F
4	2: No	None are "marked"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	-5: Don't know	"Blank or don't know" or "all are blank"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	"Blank or don't know" or "all are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 17:

Responses to H17046-H17047 are all missing.

Definition of "blank or NA" in Coding Table for Note 17:

Responses to H17046-H17047 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of "blank or don't know" in Coding Table for Note 17:

Responses to H17046-H17047 are either all don't know (-5) or a combination of missing and don't know (-5).

Definition of "NA or don't know" in Coding Table for Note 17:

Responses to H17046-H17047 are a combination of not applicable (-6) and don't know (-5).

Definition of "marked" in Coding Table for Note 17:

Any pattern of marks outside the definitions "all are blank," "blank or NA," "blank or don't know," or "NA or don't know".

Coding Table for Note 18:

H17053, H17054-H17056, H17057A-H17057D

N18	H17053 is:	H17054- H17056 are:	H17057A- H17057D are:	H17053 is coded as:	H17054- H17056, H17057A- H17057D are coded as:	*
1	3: Some days, 4: every day, or .: missing	Any value	Any value	Stands as original value	Stand as original value	
2	2: Not at all or -5: don't know	Any value	"All are unmarked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	2: Not at all	Any value	At least one is "marked"	.: Missing	Stand as original value	B
4	-5: Don't know	Any value	At least one is "marked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are unmarked" in Coding Table for Note 18:
Responses to H17057A-H17057D are all missing or unmarked.

Definition of "marked" in Coding Table for Note 18:
Any pattern of marks outside the definition "all are unmarked"

**Coding Table for Note 18_BF1:
S17BF1, S17BF2, S17BF3-S17BF6**

N18_BF1	S17BF1 is:	S17BF2 is:	S17BF3-S17BF6 are:	S17BF1 is coded as:	S17BF2 is coded as:	S17BF3-S17BF6 are coded as:	*
1	1: Yes	1: Yes	Any value	Stands as original value	Stands as original value	Stand as original value	
2	1: Yes or .: missing	2: No or - 5: don't know	Any value	Stands as original value	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	1: Yes	.: Missing	Any "affirmative" value	Stands as original value	1: Yes	Stand as original value	B
4	1: Yes	.: Missing	No "affirmative" values	Stands as original value	Stands as original value	Stand as original value	
5	2: No or - 5: don't know	Any value	Any value	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
6	.: Missing	1: Yes	Any value	1: Yes	Stands as original value	Stand as original value	B
7	.: Missing	.: Missing	Any "affirmative" value	1: Yes	1: Yes	Stand as original value	B
8	.: Missing	.: Missing	No "affirmative" values	Stands as original value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "affirmative" in Coding Table for Note 18_BF1:

Response to S17BF3 is 1-4, or response to S17BF4 is 1: every day or 2: some days, or response to S17BF5 is 1: yes, or response to S17BF6 is 1: yes.

**Coding Table for Note 18_BF2:
S17BF4, S17BF5-S17BF6**

N18_BF2	S17BF4 is:	S17BF5 is:	S17BF6 is:	S17BF4 is coded as:	S17BF5-S17BF6 are coded as:	*
1	1: Every day, 2: some days or .: missing	Any value	Any value	Stands as original value	Stand as original value	
2	3: Not at all or -5: don't know	Any value	Any value	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19:

Note 19 (Part A)

H17058, H17059B, H17060-H17064, SEX, XSEXA

N19A	H17058 is:	SEX is:	H17059B--H17064 are:	XSEXA is coded as:
1	.: Missing	F	Any marked	2: Female
2	.: Missing	F	All missing	2: Female
3	.: Missing	M	Any marked	1: Male
4	.: Missing	M	All missing	1: Male
5	.: Missing	Z or .: missing	Any marked	2: Female
6	.: Missing	Z	All missing	.: Missing
7	.: Missing	.: Missing	All missing	.: Missing
8	1: Male	Any value	All missing	1: Male
9	1: Male	F	Any marked	2: Female
10	1: Male	M, Z, or .: missing	Any marked	1: Male
11	2: Female	Any value	Any marked	2: Female
12	2: Female	M	All missing	1: Male
13	2: Female	F, Z, or .: missing	All missing	2: Female

SEX (PNSEXCD) is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H17058), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 19 (Part B):**XSEXA, H17059B, H17060-H17064**

N19B	XSEXA	H17059B--H17064	H17059B--H17064	*
	is:	are:	are coded as:	
1	1: Male	"All are blank"	.N: Valid skip	F
2	1: Male	At least one is "marked"	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: Female	"All are blank" or at least one is "marked"	Stand as original value	
4	.: Missing	"All are blank" or at least one is "marked"	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 19b:

All variables H17059B--H17064 are missing.

Definition of "marked" in Coding Table for Note 19b:

Any pattern of marks outside the definition "all are blank".

Coding Table for Note 20**XSEXA, AGE, H17060, H17061**

N20	XSEXA	AGE	H17060	H17061	H17060	H17061	*
	is:	is:	is:	is:	is coded as:	is coded as:	
1	1: Male	Any value	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Any value	Stands as original value	Stands as original value	
3	2: Female	Any value	1: Under 40	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	2: Female	Any value	.: Missing	Marked	2: >= 40	Stands as original value	B
5	2: Female	< 40	.: Missing	.: Missing	1: < 40	.N: Valid skip	F B
6	2: Female	>=40	.: Missing	.: Missing	2: >= 40	Stands as original value	B
7	2: Female	.: Missing	.: Missing	.: Missing	Stands as original value	Stands as original value	
8	.: Missing	Any value	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

AGE (DAGEQY) is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

**Coding Table for Note 21:
XSEXA, H17062-H17064**

N21	XSEXA is:	H17062 is:	H17063 is:	H17064 is:	H17062 is coded as:	H17063 is coded as:	H17064 is coded as:	*

3	2: Female	1: Pregnant now	2: Second trimester	2: Third trimester	Stands as original value	Stands as original value	.: Missing	F
4	2: Female	1: Pregnant now	2: Second trimester	4: First trimester, 3: second trimester, 1: did not receive prenatal care, or .: missing	Stands as original value	Stands as original value	Stands as original value	
5	2: Female	1: Pregnant now	3: Third trimester or .: missing	Any value	Stands as original value	Stands as original value	Stands as original value	
6	2: Female	2: Pregnant in last 12 months	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	Stands as original value	F
7	2: Female	3: Not pregnant in past 12 months	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	2: Female	.: Missing	1: First trimester	Any value	1: Pregnant now	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	B F
9	2: Female	.: Missing	2: Second trimester	2: Third trimester	1: Pregnant now	Stands as original value	.: Missing	B F
10	2: Female	.: Missing	2: Second trimester	4: First trimester, 3: second trimester, 1: did not receive prenatal care, or .: missing	1: Pregnant now	Stands as original value	Stands as original value	B
11	2: Female	.: Missing	3: Third trimester	Any value	1: Pregnant now	Stands as original value	Stands as original value	B
12	2: Female	.: Missing	.: Missing	Any value	Stands as original value	Stands as original value	Stands as original value	F
13	.: Missing	.: Missing	Marked or .: missing	Any value	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F)

**Coding Table for Note 22:
H17067, H17068**

N22	H17067 is:	H17068 is:	H17067 is coded as:	H17068 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23:
H17069, H17070**

N23	H17069 is:	H17070 is:	H17069 is coded as:	H17070 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23_HT:
XSEXA, H17071F, H17071I**

N23_HT	XSEXA is:	H17071F and H17071I is:	H17071F and H17071I are coded as:	*
1	1: Male or 2: female	“Height within range for gender” or .: missing	Stands as original value	
2	1: Male or 2: female	“Height out of range for gender”	.O: Out of range	F
3	.: Missing	“Height within range for either gender” or .: missing	Stands as original value	
4	.: Missing	“Height out of range for either gender”	.O: Out of range	F

* Indication of backward coding (B) or forward coding (F).

Definition of “Height within range for gender” in Coding Table for Note 23_HT:
From 2006 NHIS, height for men is 63”-76” (5’3”-6’4”), height for woman is 59”-70” (4’11”-5’10”).

Definition of “Height out of range for gender” in Coding Table for Note 23_HT:
Any height outside the definition of “Height within range for gender”.

Definition of “Height within range for either gender” in Coding Table for Note 23_HT:
Use lowest and highest height from either gender to set range: 59”-76” (4’11”- 6’4”).

Definition of “Height out of range for either gender” in Coding Table for Note 23_HT:
Any height outside the definition of “Height within range for either gender”.

**Coding Table for Note 23_WT:
XSEX, H17072**

N23_WT	XSEX is:	H17072 is:	H17072 is coded as:	*
1	1: Male or 2: female	“Weight within range for gender” or .: missing	Stands as original value	
2	1: Male or 2: female	“Weight out of range for gender”	.O: Out of range	F
3	.: Missing	“Weight within range for either gender” or .: missing	Stands as original value	
4	.: Missing	“Weight out of range for either gender”	.O: Out of range	F

* Indication of backward coding (B) or forward coding (F).

Definition of “Weight within range for gender” in Coding Table for Note 23_WT:
From 2006 NHIS, weight for men is 126-299 pounds, weight for woman is 100-274 pounds.

Definition of “Weight out of range for gender” in Coding Table for Note 23_WT:
Any height outside the definition of “Weight within range for gender”.

Definition of “Weight within range for either gender” in Coding Table for Note 23_WT:
Use lowest and highest weight from either gender to set range: 100-299 pounds.

Definition of “Weight out of range for either gender” in Coding Table for Note 23_WT:
Any height outside the definition of “Weight within range for either gender”.

**Coding Table for Note 24:
H17073, H17073A-H17073E**

N24	H17073A is:	H17073B is:	H17073C is:	H17073D is:	H17073E is:	H17073 is coded as:	H17073A-E are coded as:	*
1	Any value	1: Marked	Any value	Any value	Any value	2: Yes, Mexican, Mexican American, Chicano	Stand as original value	F
2	Any value	2: Unmarked	Any value	Any value	1: Marked	5: Yes, other Spanish, Hispanic, or Latino	Stand as original value	F
3	Any value	2: Unmarked	1: Marked	Any value	2: Unmarked	3: Yes, Puerto Rican	Stand as original value	F
4	Any value	2: Unmarked	2: Unmarked	1: Marked	2: Unmarked	4: Yes, Cuban	Stand as original value	F
5	1: Marked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	1: No, not Spanish, Hispanic, or Latino	Stand as original value	F
6	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	.: Missing	Stand as original value	F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 25:
H17074, H17075-H17079**

N25	H17074 is:	H17075-H17079 are:	H17074 is coded as:	H17075-H17079 are coded as:	*
1	1: Yes	Any value	Stands as original value	Stand as original value	
2	2: No or -5: don't know	"All are uncovered/unknown"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No, -5: don't know, or .: missing	At least one is "covered"	1: Yes	Stand as original value	B
4	.: Missing	"All are uncovered/unknown"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are uncovered/unknown" in Coding Table for Note 25:

Responses to H17075-H17079 are all 2: no, -5: don't know, or missing.

Definition of "covered" in Coding Table for Note 25:

Any pattern of marks outside the definition "all are uncovered/unknown".

APPENDIX E

SAS PROC CONTENTS—ALPHABETICAL 2017 ADULT HCSDB – QUARTER II

24	H17001	Num	4 YN.	Are you the person listed on envelope
44	H17003	Num	4 HPLAN1_.	Which health plan did you use most
45	H17004	Num	4 HPTIME.	Yrs in a row with health plan
46	H17005	Num	4 PLACE.	In 1st yr:fclty use most for health care
47	H17006	Num	4 YN.	In 1st yr:ill/injry/cond care right away
48	H17007	Num	4 OFTEN2_.	In 1st yr:get urgnt care as soon as wntd
49	H17008	Num	4 TIME1_.	In 1st yr:wait btwn try get care,see prv
50	H17009	Num	4 YN.	In 1st yr:make appts non-urgnt hlth care
51	H17010	Num	4 OFTEN3_.	In 1st yr:non-urg hlth cre appt whn wntd
52	H17011	Num	4 TIME2_.	In 1st yr:days btwn appt & see prvdrr
53	H17012	Num	4 OFTEN4_.	In 1st yr:go to emrgncy rm for own care
54	H17013	Num	4 OFTEN4_.	In 1st yr:go to Dr office/clinic for care
55	H17014	Num	4 OFTEN8_.	Lst yr: how often talk to doctor about illness prvntn
56	H17015	Num	4 YN.	Lst yr: did doctor tell you more than 1 choice for trtmnt
57	H17016	Num	4 YNDEF.	Lst yr: did talk to doctor about pros/cons of trtmnt
58	H17017	Num	4 YNDEF.	Lst yr: did doctor ask which trtmnt option best for you
59	H17018	Num	4 RATE3_.	Rating of all health care in 1st yr
60	H17019	Num	4 YN.	Have one person think of as personal Dr
61	H17020	Num	4 OFTEN10_.	Lst yr: how often visit prsnl doctor for care for yourself
62	H17021	Num	4 OFTEN5_.	Lst yr: how oftn Drs listen to you
63	H17022	Num	4 OFTEN5_.	Lst yr: how oftn Drs explain things
64	H17023	Num	4 OFTEN5_.	Lst yr: how oftn Drs show respect
65	H17024	Num	4 OFTEN5_.	Lst yr: how oftn Drs spend enough time
66	H17025	Num	4 YN.	Lst yr: did get care from doctor other than prsnl doctor
67	H17026	Num	4 OFTEN8_.	Lst yr: how often prsnl doctor seemed infmrld of care from other doctors
68	H17027	Num	4 RATE6_.	Rating of your personal Dr
69	H17028	Num	4 YN.	Lst yr: did make any appointments to see spclst
70	H17029	Num	4 OFTEN9_.	Lst yr: how often easy to get appointments with spclsts
71	H17030	Num	4 SPCLST.	Lst yr: how many spclsts seen
72	H17031	Num	4 RATE2_.	Rating of specialist seen in 1st yr

73	H17033	Num	4	OFTEN11_.	Lst yr: how often easy to get care, test, or trtmnt
74	H17034	Num	4	YN.	Lst yr: did look for info from written material/Internet
75	H17035	Num	4	OFTEN12_.	Lst yr: how often written material/Internet provide needed info
76	H17036	Num	4	YN.	Lst yr: did look for info from health plan on cost of service/equipment
77	H17037	Num	4	OFTEN13_.	Lst yr: how often able to find out cost of service/equipment
78	H17038	Num	4	YN.	Lst yr: did look for info from health plan on cost of prescription meds
79	H17039	Num	4	OFTEN14_.	Lst yr: how often able to find out cost of prescription meds
80	H17040	Num	4	YN.	Lst yr: did try to get info/help from health plan's cstmr service
81	H17041	Num	4	OFTEN15_.	Lst yr: how often did cstmr service give needed info/help
82	H17042	Num	4	OFTEN15_.	Lst yr: how often did cstmr service treat with courtesy/respect
83	H17043	Num	4	YN.	Lst yr: did health plan give any forms to fill out
84	H17044	Num	4	OFTEN16_.	Lst yr: how often were forms easy to fill out
85	H17045	Num	4	YNDNK.	Lst yr: send in any claims
86	H17046	Num	4	OFTEN6_.	Lst yr: how often did health plan handle claims quickly
87	H17047	Num	4	OFTEN6_.	Lst yr: how oft handle claims correctly
88	H17048	Num	4	RATE4_.	Rating of all experience with hlth plan
89	H17049	Num	4	TIME5_.	Blood pressure: when lst reading
90	H17050	Num	4	YNBP_.	Blood pressure: know if too high or not
91	H17051	Num	4	TIME7_.	When did you lst have a flu shot
92	H17052	Num	4	YNDNK.	Smoked at least 100 cigarettes in life
93	H17053	Num	4	TIME8_.	Smoke or use tobacco everyday, some days or not at all
94	H17054	Num	4	OFTEN8_.	Lst yr: how often advised to quit smoking or use tobacco
95	H17055	Num	4	OFTEN8_.	Lst yr: how often recom medic assist quit smoking or using tobacco
96	H17056	Num	4	OFTEN8_.	Lst yr: how often discu meth/strag asst quit smoking or using tobacco
101	H17058	Num	4	SEX.	Are you male or female
103	H17060	Num	4	YN.	Are you under age 40
104	H17061	Num	4	TIME12_.	Lst time: breasts checked mammography
105	H17062	Num	4	YNPREG.	Been pregnant in lst yr or pregnant now
106	H17063	Num	4	PREG1_.	In what trimester is your pregnancy
107	H17064	Num	4	PREG2_.	Trimester first received prenatal care
108	H17065	Num	4	HEALTH.	In gnrl, how would you rate ovrrll hlth
109	H17066	Num	4	YN.	Impairment/Hlth prblm limit activities
110	H17067	Num	4	YN.	Lst yr: have seen doctor 3 or more times for same condition
111	H17068	Num	4	YN.	Has condition lasted for at least 3 months
112	H17069	Num	4	YN.	Need to take medicine prescribed by a doctor
113	H17070	Num	4	YN.	Medicine to treat condition that has lasted for at least 3 months
116	H17072	Num	4	TIME14_.	Weight without shoes
118	H17073	Num	4	HISP.	Are you Spanish/Hispanic/Latino
130	H17074	Num	4	YNDNK.	Currently Covered Medicare
131	H17075	Num	4	MEDA.	Currently Covered Medicare Part A
132	H17076	Num	4	MEDB.	Currently Covered Medicare Part B
133	H17077	Num	4	YNDNK.	Enrolled Medicare Advantage
134	H17078	Num	4	MEDSUPP.	Currently Covered Medicare Supplemental
135	H17079	Num	4	YNDNK.	Enrolled Medicare Part D
25	H17002A	Num	4	MARKED.	Health plan(s) covered: TRICARE Prime
26	H17002C	Num	4	MARKED.	Health plan(s) covered: TRICARE Ext/Stnd
36	H17002F	Num	4	MARKED.	Health plan(s) covered: Medicare
37	H17002G	Num	4	MARKED.	Health plan(s) covered: FEHBP
38	H17002H	Num	4	MARKED.	Health plan(s) covered: Medicaid
39	H17002I	Num	4	MARKED.	Health plan(s) covered: civilian HMO
40	H17002J	Num	4	MARKED.	Health plan(s) covered: other civilian
34	H17002K	Num	4	MARKED.	Health plan(s) covered: USFHP
43	H17002L	Num	4	MARKED.	Health plan(s) covered: not sure
41	H17002M	Num	4	MARKED.	Health plan(s) covered: veterans
27	H17002N	Num	4	MARKED.	Health plan(s) covered: TRICARE Plus
28	H17002O	Num	4	MARKED.	Health plan(s) covered: TRICARE For Life
29	H17002P	Num	4	MARKED.	Health plan(s) covered: TRICARE Supplmntl Ins

30	H17002Q	Num	4	MARKED.	Health plan(s) covered: TRICARE Reserve Select
42	H17002R	Num	4	MARKED.	Health plan(s) covered: gov hlth ins-other cntry
31	H17002S	Num	4	MARKED.	Health plan(s) covered: TRICARE Retired Reserve
32	H17002T	Num	4	MARKED.	Health plan(s) covered: TRICARE Young Adult Prime
35	H17002U	Num	4	MARKED.	Health plan(s) covered: CHCBP
33	H17002V	Num	4	MARKED.	Health plan(s) covered: TRICARE Young Adult Ex or Standard
97	H17057A	Num	4	MARKED.	Do you smoke or use: cigarettes
98	H17057B	Num	4	MARKED.	Do you smoke or use: dip, chewing tobacco, snuff, or snus
99	H17057C	Num	4	MARKED.	Do you smoke or use: cigars
100	H17057D	Num	4	MARKED.	Do you smoke or use: pipes, bidis, or kreteks
102	H17059B	Num	4	TIME16_.	Lst have a Pap smear test
114	H17071F	Num	4	TIME14_.	Height without shoes (feet)
115	H17071I	Num	4	TIME14_.	Height without shoes (inches)
119	H17073A	Num	4	MARKED.	Not Spanish/Hispanic/Latino
120	H17073B	Num	4	MARKED.	Mexican, Mexican American, Chicano
121	H17073C	Num	4	MARKED.	Puerto Rican
122	H17073D	Num	4	MARKED.	Cuban
123	H17073E	Num	4	MARKED.	Other Spanish, Hispanic, or Latino
268	HP_BP	Num	8	HAYNN2_.	Bld prsrre chck in last 2 yrs, know rslts
273	HP_CESH3	Num	8	SMOKE.	Had smoking cessation counseling - HEDIS (modified)
269	HP_FLU	Num	8	HAYNN.	65 and older, flu shot in last 12 mnths
266	HP_MAM50	Num	8	HAYNN.	Women 50>=, mammography in pst 2 yrs
265	HP_MAMOG	Num	8	HAYNN.	Women 40>=, mammography in pst 2 yrs
270	HP_OBESE	Num	8	HAYNN.	Obese/Morbidly obese
267	HP_PAP	Num	8	HAYNN.	All women, Pap smear in last 3 yrs
264	HP_PRNTL	Num	8	PRNTL.	Prgrnt in lst yr, receivd cre lst trimstr
272	HP_SMKH3	Num	8	SMOKE.	Smoker under HEDIS definition (modified)
271	HP_SMOKE	Num	8	HAYNN.	Advised to quit smoking in last 12 mnths
5	JSFLAG	Num	3	JSFLAG.	Joint Service Flag
263	KCIVINS	Num	8	HAYNN2_.	Beneficiary covered by civilian insurance
262	KCIVOPQY	Num	8	HAGRID.	Outpat. visits-use Civilian fcilty most
195	KEYCOUNT	Num	8		# Key Questions Answered
261	KMILLOPQY	Num	8	HAGRID.	Outpat. visits-use Military fcilty most
238	MISS_1	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): violates skip pattern
239	MISS_4	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): incomplete grid error
240	MISS_5	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): scalable response of don't know
241	MISS_6	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): not applicable - valid skip
242	MISS_7	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): out-of-range error
243	MISS_9	Num	8	HAMISS.	Count of original survey responses (pre-cleaning): no response - invalid skip
244	MISS_TOT	Num	8	HAMISS.	Total number of missing responses (pre-cleaning)

APPENDIX G

RESPONSE RATE TABLES – QUARTER II

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

TABLE G.1

RESPONSE RATES BY ENROLLMENT AND BENEFICIARY CATEGORY– QUARTER II, 2017

	Unweighted Response Rate	Weighted Response Rate
Active Duty	14.6	12.4
Active Duty fam,Prime,civ PCM	6.7	6.5
Active Duty fam,Prime,mil PCM	6.3	6.3
Active Duty fam,non-enrollee	5.1	5.1
Retired,<65,civ PCM	21.5	21.2
Retired,<65,mil PCM	18.8	20.0
Retired,<65,non-enrollee	16.2	19.3
Retired,65+,enrolled	47.1	47.3
Retired,65+,non-enrollee	45.4	45.2
TRICARE Reserve Select	10.2	10.2

TABLE G.2

RESPONSE RATES BY XOCONUS – QUARTER II, 2017

	Unweighted Response Rate	Weighted Response Rate
In US/Missing Region	12.6	24.6
Europe	11.2	15.4
Western Pacific	10.6	11.9
Latin America	11.4	14.0

TABLE G.3

RESPONSE RATES BY SEX – QUARTER II, 2017

	Unweighted Response Rate	Weighted Response Rate
Male	14.9	25.1
Female	10.5	23.1

TABLE G.4

RESPONSE RATES BY CONUS/OCONUS INDICATOR – QUARTER II, 2017

	Unweighted Response Rate	Weighted Response Rate
Invalid/Missing	10.8	24.2
Not in USA	11.0	13.7
In USA	12.6	24.6

TABLE G.5

RESPONSE RATES BY BENEFICIARY CATEGORY – QUARTER II, 2017

	Unweighted Response Rate	Weighted Response Rate
Active Duty and Guard/Reserve	14.5	12.3
Dependent of Active Duty & Guard/Reserve	5.9	6.3
Retiree/Depend of Retiree/Survivor/Other 65+	45.5	45.4
Retiree/Depend of Retiree/Survivor/Other <65	18.2	20.0
