Contact Us

We are here to help. If you have any questions, suggestions, or concerns about the Cosmetic Surgery Estimator or UBO Cosmetic Surgery Rates, please contact the UBO Helpdesk at: UBO.Helpdesk@altarum.org .

Introduction

The Military Health System (MHS) established a cosmetic surgery policy (DoD Health Affairs Policy 05-020) that allows limited numbers of elective cosmetic procedure cases for TRICARE-eligible beneficiaries. These procedures help certified specialists maintain the skills they need to do reconstructive work on service men and women who have been injured in the line of duty, and it is critical that the MHS be able to recruit and retain these specialists. In addition, elective procedures support graduate medical education training and board eligibility. However, because elective cosmetic procedures are not a covered benefit under TRICARE, all patients, including active duty personnel, must pay, in advance, all fees related to the procedures.

The Defense Health Agency (DHA) Uniform Business Office (UBO) Program Office is responsible for overseeing the MHS Cosmetic Surgery Program and ensuring proper rates for elective cosmetic procedures in the MHS. The Cosmetic Surgery Estimator (CSE) is a calculator designed to determine charges for elective cosmetic procedures. The CSE factors in all potential costs for elective cosmetic procedure(s) including professional, facility, and anesthesia fees and the cost of implants and pharmaceuticals.

This User Guide is designed for use with the CSE v15.0. It provides step-by-step instructions for generating, saving, and printing an estimate in the CSE.

Accessing the CSE

The CSE and supporting documents can be downloaded at www.ubocse.org using distributed login credentials. Login credentials are only available to MSA staff and eligible providers and are distributed by UBO Service and Transitional Intermediate Management Organization (TIMO) Program Managers.

Access to the CSE is limited to facilities that have informed DHA that they perform or allow cosmetic procedures. Therefore, you will be required to enter your DMIS ID to gain access to the database. If you receive an error message indicating that your DMIS ID is not authorized to use the CSE, please contact UBO.Helpdesk@altarum.org.

All of the CSE materials are posted in a zip file on the UBOCSE website. You must download the zip file and save it to your computer before operating CSE v15.0. Each time you open CSE v15.0, you will once again be prompted to enter your DMIS ID.

Maintaining a Current Version of the Database

You must use the most current version of the CSE to ensure the estimates you generate reflect the latest rates and procedure codes. In addition, the DHA UBO Program Office may make periodic updates to other aspects of the CSE.

When you are using the CSE on a computer that is connected to the Internet, the CSE will automatically check for any updates. You may receive pop-up messages informing you that updates have been made to your CSE database. In some instances, you may be prompted to return to www.ubocse.org to download a new version of the CSE.

If you use the CSE on a computer that is not always connected to the Internet, please be sure to connect at least once per month to check for any updates to the CSE.

Line 1: Primary Procedure

Selecting a Primary Procedure

Price estimates for elective cosmetic surgery depend on the procedure(s) chosen. To begin, select a primary procedure from one of the two drop-down menus available on Line 1. You can search for a procedure by:

- CPT®/Procedure Code (listed in numerical order), or
- CPT®/Procedure Description (listed in alphabetical order).

NOTE: The professional fee for an elective cosmetic procedure is based on both the procedure chosen and the location of service. Therefore, the professional fee for the primary procedure will only be populated in the cost column after both the primary procedure (Line 1) and procedure location (Line 2) are selected.

Line 1: Primary Procedure is a required field for all elective cosmetic procedure estimates. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear. You may change your selection(s) at any time prior to generating the estimate.

CSE Superbill: CPT®/Procedure Codes and Descriptions

The DHA Elective Cosmetic Surgery Superbill ("Superbill") is a two-page document that lists CPT Procedure codes for all elective cosmetic procedures available in the MHS. The Superbill is completed by the provider and used by Medical Services Account (MSA) staff to enter data into the CSE to generate a cost estimate. The Superbill is prepared and distributed by the DHA UBO Program Office with each version of the CSE. Use of alternate Superbills is not authorized. The Superbill contains all required information to generate a complete cost estimate for elective cosmetic procedures.

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

When generating a cost estimate for more than one elective cosmetic procedure performed during the same surgical encounter, the procedure entered into the CSE first is designated the "primary procedure." The primary procedure is the procedure that has the highest cost rank among those selected for an estimate. Procedures are ranked based on their applicable professional fees from least expensive to most expensive: The higher the professional fee, the higher the cost rank.

To determine the cost rank of a procedure, select a CPT®/Procedure code or description on Line 1 and a procedure location on Line 2. The cost rank for the selected procedure is displayed in the red cost rank box in the upper righthand corner of the screen.

Cost Rank: 219

Appendix D lists all CSE procedures and cost ranks. Selecting the correct primary procedure is essential for proper calculation of applicable fees and discounts.

CPT®/Procedure Glossary

Due to space limitations, the Superbill and CSE drop-down menus contain abbreviated CPT®/Procedure descriptions. Many of the descriptions provided are similar in nature, and the difference between two CPT®/Procedure codes may not be clear based on the Superbill alone. See Appendix D for a list of CSE v15.0 cost rankings.

To assist with selecting the most appropriate CPT®/Procedure code for an estimate, the CSE contains a glossary of detailed procedure descriptions. Access the CPT®/Procedure Glossary by clicking the

at the top of both the primary and additional procedure screens. Clicking the "CPT®/Procedure Glossary" button will open a CPT® search. You can search by either keyword or CPT® code to help determine the appropriate CPT® code. When the "Search" button is selected, all available entries will be displayed and you can select the appropriate CPT® code from the list by selecting "Use" next to the

CPT only @ American Medical Association. Lay Descriptions @ OptumInsight. All rights reserved.

corresponding CPT® code. This search function works for primary, additional, and add-on code procedures.

Basis for Charges: Professional Fees for Elective Cosmetic Procedures

Professional fees for elective cosmetic procedures are based on the TRICARE Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Maximum Allowable Charge (CMAC) national average. When TRICARE CMAC allowable charges are not available, professional fees are determined based on estimates of the medical resources required relative to procedures that have TRICARE CMAC pricing. Charges are not adjusted for the treating MTF's geographic location.

TRICARE CMAC "facility physician" allowable rates are used for services furnished by a provider in a hospital operating room as outpatient or inpatient. TRICARE CMAC "non-facility physician" allowable rates are used for services furnished in a provider's office.

Professional Fees					
Provider's Office	OR/Outpatient (Hospital and Clinic)	OR/Inpatient			
Professional Fee =	Professional Fee =	Professional Fee =			
CHAMPUS Maximum Allowable	CHAMPUS Maximum Allowable	CHAMPUS Maximum Allowable Charge			
Charge (CMAC) Locality 300 Non	Charge (CMAC) Locality 300 Facility	(CMAC) Locality 300 Facility Physician,			
Facility Physician, Category 2 rate	Physician, Category 1 rate	Category 1 rate			
Primary Procedure= 100%	Primary Procedure= 100%	Primary Procedure= 100%			
Additional Procedure= 50%	Additional Procedure= 50%	Additional Procedure= 50%			

Exceptions:

- 1) There is no discount applied to additional sessions performed during separate surgical encounters. Each session is priced at 100% whether it is listed as a primary or additional procedure.
- 2) Add-on codes are never discounted. Each procedure is priced at 100% whether it is entered on the primary or additional procedure screen.

Line 2: Procedure Location

Facility fees (i.e., institutional charges) for elective cosmetic procedures are based on the procedure(s) selected and the location where the procedure(s) will be performed.

Choose one of the following three procedure locations:

- Provider's Office
- OR/Outpatient (APV)
- OR/Inpatient

Only the locations of service that are applicable to the primary procedure chosen on Line 1 will be available to select. For example, some procedures are too complex to be performed safely in a provider's office or in a hospital outpatient setting and are therefore designated as "inpatient only." For these procedures, the only procedure location option that will be available to select is "OR/Inpatient." Conversely, some minor procedures pose such low risk that operating room resources are unwarranted. For these procedures, the only procedure location option that will be available to select is "Provider's Office."

Line 2: Procedure Location is a required field for all elective cosmetic procedure estimates. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

CSE Superbill: Procedure Location

The physician will indicate where the procedure(s) selected will be performed in the header of the Superbill as follows:

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Charges: Facility Fees for Elective Cosmetic Procedures

<u>Provider's Office</u>: There are no facility fees for elective cosmetic procedures performed in a provider's office. Fees for facility resources are included in the professional fee for the procedure chosen. As a result, professional fees for procedures performed in a provider's office are generally higher than the professional fees applied to procedures in an operating room outpatient or inpatient setting.

<u>OR/Outpatient (Clinic or Hospital):</u> Facility fees for elective cosmetic procedures performed on an outpatient basis using a hospital operating room or ambulatory procedure unit (APU) are based on a TRICARE Ambulatory Procedure Visit (APV) flat rate. There is no additional facility fee for additional outpatient elective cosmetic procedures performed during the same surgical encounter.

<u>OR/Inpatient (Hospital)</u>: Facility fees for elective cosmetic procedures performed in a hospital operating room on an inpatient basis are calculated by multiplying the TRICARE Adjusted Standardized Amount (ASA) by the relative weighted product (RWP) associated with the Diagnosis Related Group (DRG) related to the procedure chosen. The facility fee for each additional inpatient elective cosmetic procedure performed during the same surgical encounter is reduced by 50% from the initial charge.

Facility Fees					
Provider's Office	OR/Outpatient (Clinic or Hosp)	OR/Inpatient			
No Facility Fee	Facility Fee =	Facility Fee =			
There is no facility fee for procedures performed in a provider's office. Fees for facility resources are included in	TRICARE Ambulatory Procedure Visit (APV) rate	Diagnostic Related Group (DRG) rate			
the applicable professional fee.		DRG Relative Weighted			
		Product (RWP) x TRICARE MS-			
		DRG Adjusted Standardized			
		Amount (ASA)			

Notes on Discounts:

Add-on codes are never discounted. Each procedure is priced at 100% whether it is entered on the primary or additional procedure screen.

Restrictions on Procedure Location

The following procedures are currently categorized as "inpatient only":

	Inpatient Only Procedures				
CPT®/Procedure Code CPT®/Procedure Description					
21141	Reconstruction midface, LeFort I; single piece, segment movement in any direction; without bone graft				
21142	Reconstruction midface, LeFort I; 2 pieces, segment movement in any direction, without bone graft				
21143	Reconstruction midface, LeFort I; 3 or more pieces, segment movement in any direction, without bone graft				
21145	Reconstruction midface, LeFort I; single piece, segment movement in any direction, requiring bone grafts (includes obtaining autografts)				
21146 Reconstruction midface, LeFort I; 2 pieces, segment movement in any direction, requiring bone grafts (includes obtaining autografts)					
21147	Reconstruction midface, LeFort I; 3 or more pieces, segment movement in any direction, requiring bone grafts (includes obtaining autografts)				
21151	Reconstruction midface, LeFort II; any direction, requiring bone grafts (includes obtaining autografts)				
21154	Reconstruction midface, LeFort III (extracranial), any type, requiring bone grafts (includes obtaining autografts); without LeFort I				
21155	Reconstruction midface, LeFort III (extracranial), any type, requiring bone grafts (includes obtaining autografts); with LeFort I				
21159	Reconstruction midface, LeFort III (extra and intracranial) with forehead advancement, requiring bone grafts (includes obtaining autografts); without LeFort I				
21160	Reconstruction midface, LeFort III (extra and intracranial) with forehead advancement, requiring bone grafts (includes obtaining autografts); with LeFort I				

¹⁾ There is no discount applied to additional sessions performed during separate surgical encounters. Each session is priced at 100% whether it is listed as a primary or additional procedure.

Inpatient Only Procedures				
CPT®/Procedure Code	CPT®/Procedure Description			
21179	Reconstruction, entire or majority of forehead and/or supraorbital rims; with grafts (allograft or prosthetic material)			
21180	Reconstruction, entire or majority of forehead and/or supraorbital rims; with autograft (includes obtaining grafts)			
21182	Reconstruction of orbital walls, rims, forehead, nasoethmoid complex following intra- and extracranial excision of benign tumor of cranial bone; with multiple autografts (includes obtaining grafts); total area of bone grafting less than 40 sq cm			
21183	Reconstruction of orbital walls, rims, forehead, nasoethmoid complex following intra- and extracranial excision of benign tumor of cranial bone; with multiple autografts (includes obtaining grafts); total area of bone grafting greater than 40 sq cm but less than 80 sq cm			
21184	Reconstruction of orbital walls, rims, forehead, nasoethmoid complex following intra- and extracranial excision of benign tumor of cranial bone; with multiple autografts (includes obtaining grafts); total area of bone grafting greater than 80 sq cm			
21188	Reconstruction midface, osteotomies (other than LeFort type) and bone grafts (includes obtaining autografts)			
21194	Reconstruction of mandibular rami, horizontal, vertical, C, or L osteotomy; with bone graft (includes obtaining graft)			
21196	Reconstruction of mandibular rami and/or body, sagittal split; with internal rigid fixation			
21247	Reconstruction of mandibular condyle with bone and cartilage autografts (includes obtaining grafts)			
21255	Reconstruction of zygomatic arch and glenoid fossa with bone and cartilage (includes obtaining autografts)			
21268	Orbital repositioning, periorbital osteotomies, unilateral, with bone grafts; combined intra- and extracranial approach			

The following procedures are currently designated as "provider's office only":

Provider's Office Only Procedures				
CPT®/Procedure Code CPT®/Procedure Description				
69090 Ear piercing				
D9972 Teeth Whitening; external bleaching, per arch				
D9973 Teeth Whitening; external bleaching, per tooth				
D9974 Teeth Whitening; internal bleaching, per tooth				
D9999	Laser Teeth Whitening, per treatment			

Line 3: Medically Necessary Discount

 3^* Will this procedure be combined with a medically necessary procedure? $\,\,$ $\,$ Yes $\,\,$ $\,$ No

Combining an Elective Cosmetic Procedure with a Medically Necessary Procedure

Select "Yes" or "No" to indicate whether or not the procedure(s) selected for the estimate will be combined with a medically necessary procedure performed during the same surgical encounter.

Line 3: Medically Necessary Discount is a required field for all elective cosmetic procedure estimates. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

CSE Superbill: Medically Necessary Discount

The physician will indicate in the header of the Superbill whether or not the elective cosmetic procedure(s) selected will be combined with a medically necessary procedure as follows:

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Discounting: Combining an Elective Cosmetic Procedure with a Medically Necessary Procedure

If an elective cosmetic procedure is combined with a medically necessary procedure during the same surgical encounter, charges for the primary elective cosmetic procedure are discounted to avoid duplicate facility and anesthesia charges. Facility and anesthesia fees for an elective cosmetic procedure, when combined with a medically necessary procedure, are reduced by 50% from the initial charge. The discount for combining an elective cosmetic procedure with medically necessary procedure applies only to the primary procedure. Additional procedures are priced as described in the section on additional procedures.

Discounts for Combining an Elective Cosmetic Procedure with a Medically Necessary Procedure				
Provider's Office	OR/Outpatient (Clinic or Hosp)	OR/Inpatient		
Primary Procedure	Primary Procedure	Primary Procedure		
Professional Fee, 100%	Professional Fee, 100%	Professional Fee, 100%		
No Facility Fee	Facility Fee (APV), 50%	Facility Fee (DRG), 50%		
Anesthesia, 50%	Anesthesia, 50%	No Anesthesia Fee		
The discount for combining an elective cosmetic procedure with medically necessary procedure applies only to the primary				

he discount for combining an elective cosmetic procedure with medically necessary procedure <u>applies only to the primary</u> <u>procedure</u>. Additional procedures are priced as described in the section on additional procedures.

How the Medically Necessary Discount Is Displayed

The discount for combining an elective cosmetic procedure with a medically necessary procedure is displayed in the cost column of the CSE as a negative number that represents half of the applicable facility and anesthesia fees.

Example: CPT[®] Code 19318 combined with a medically necessary procedure in an OR/Outpatient (Clinic or Hosp)

setting

+ Facility Fee = \$2,860.12 Anesthesia = \$734.85 \div \$3,594.97 2

Amount of Medically Necessary Discount: \$1,797.49

(This amount will be deducted from the initial fee for the procedure)

	Professional Fee:	\$1,138.48
	Facility Fee:	\$2,860.12
<	Medically Necessary Discount:	-\$1,797.49
	Resident Discount:	\$0.00
	Bilateral Cost:	\$936.67
	Additional Quantity Cost:	\$0.00
	Add-on Cost:	\$0.00
	Anesthesia Fee:	\$734.85
	Pharmaceutical Cost:	\$0.00
	Additional Procedure Cost:	\$0.00
	Implant/Supply Cost:	\$0.00
	Total (Cost: \$3,872.63

Line 4: Dermatology Resident Discount

4 Will this procedure be performed by a dermatology resident? N/A

Selecting a Dermatology Resident Discount

A reduced professional fee is available for chemodenervation procedures when they are performed by a Dermatology resident physician. The reduced fee is a professional fee flat rate of \$50.00 for each procedure performed. Procedures performed bilaterally are charged \$50.00 for each side for a total professional fee of \$100.00.

Line 4: Dermatology Resident Discount becomes a required field when a chemodenervation procedure is selected on Line 1. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

If "N/A" is displayed on Line 4, the procedure selected in Line 1 is not eligible for a Dermatology resident discount.

CSE Superbill: Dermatology Resident Discount

The physician will indicate whether or not a Dermatology resident physician will be performing the elective cosmetic procedure(s) selected on the Superbill as follows:

CHEMODENERVATION				
Performed by a Dermatology Resident?	Υ	N w		
Muscle(s) Innervated by facial nerve			64612	
Neck muscles, excluding larynx, unilateral			64616	
1 extremity, 1-4 muscles			64642	
Each add. extremity, 1-4 muscles+			64643 +	
1 extremity; 5 or more muscles			64644	
Each add. extremity, 5 or more muscles+			64645 +	
Trunk; 1-5 muscle(s)			64646	
Trunk; 6 or more muscle(s)			64647	
Both axillae			64650	
Eccrine glands other areas, per day			64653	

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Discounting: Procedures Performed by a Dermatology Resident:

When a Dermatology resident physician performs a chemodenervation procedure, the following discount applies:

Dermatology Resident Discount			
Provider's Office OR/Outpatient (Clinic or Hosp) OR/Inpatient			
<u>Primary Procedure</u>	Primary Procedure	<u>Primary Procedure</u>	
Professional Fee, \$50.00	Professional Fee, \$50.00	Professional Fee, \$50.00	
No Facility Fee	Facility Fee (APV), 100%	Facility Fee (DRG), 100%	

Anesthesia, 100%	Anesthesia, 100%	No Anesthesia Fee
Additional Procedure Professional Fee, \$50.00	Additional Procedure Professional Fee, \$50.00	Additional Procedure Professional Fee, \$50.00
No Facility Fee	No Facility Fee	Facility Fee (DRG), 50%
Anesthesia, 50%	Anesthesia, 50%	No Anesthesia Fee

How the Dermatology Resident Discount Is Displayed

The discount for chemodenervation procedures when performed by a Dermatology resident is displayed in the cost column of the CSE as a negative number that represents the difference between the published professional fee for the procedure selected and the reduced flat rate of \$50.00.

Example: CPT° Code 64612 performed by a Dermatology Resident physician in a Provider's Office

CMAC Professional Fee= \$138.03

Dermatology Resident Professional Fee= \$50.00

Amount of Dermatology Resident Discount: \$88.03

(This amount will be deducted from the initial fee for the procedure)

Restrictions on the Dermatology Resident Discount

The Dermatology resident discount *only* applies to the following procedures:

Professional Fee:	\$138.03
Facility Fee:	\$0.00
Medically Necessary Discount:	\$0.00
Resident Discount:	-\$88.03
Bilateral Cost:	\$0.00
Additional Quantity Cost:	\$0.00
Add-on Cost:	\$0.00
Anesthesia Fee:	\$0.00
Pharmaceutical Cost:	\$0.00
Additional Procedure Cost:	\$0.00
Implant/Supply Cost:	\$0.00
	Total Cost: \$50.00

Chemodenervation Procedures Eligible for Dermatology Resident Discount		
CPT [®] /Procedure Code	CPT®/Procedure Description	
64612	Chemodenervation of muscle(s); muscle(s) innervated by facial nerve (e.g., for blepharospasm, hemifacial spasm)	
64616	Chemodenervation of muscle(s); neck muscle(s) excluding muscles of the larynx, unilateral (e.g. for cervical dystonia, spasmodic torticollis)	
64642	Chemodenervation of one extremity; 1-4 muscle(s)	
64643	Chemodenervation of one extremity; each additional extremity, 1-4 muscle(s) (List separately in addition to code for primary procedure)	
64644	Chemodenervation of one extremity; 5 or more muscles	
64645	Chemodenervation of one extremity; each additional extremity, 5 or more muscles (List separately in addition to code for primary procedure)	
64646	Chemodenervation of trunk muscle(s); 1-5 muscle(s)	
64647	Chemodenervation of trunk muscle(s); 6 or more muscles	
64650	Chemodenervation of eccrine glands; both axillae	
64653	Chemodenervation of eccrine glands; other area(s) (e.g., scalp, face, neck), per day	

Line 5: Bilateral Procedures

5 Will this procedure be bilateral? N/A

Selecting a Bilateral Procedure

Select "Yes" or "No" to indicate whether or not the procedure selected on Line 1 will be performed bilaterally (i.e., on mirror image parts of the body). Not all procedures can be performed bilaterally; this box is only operational for procedures categorized as potentially bilateral.

Line 5: Bilateral Procedures becomes a required field when a procedure designated as possibly bilateral is selected on Line 1. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

If "N/A" is displayed on Line 5, the procedure selected in Line 1 is not categorized as bilateral, thus a bilateral discount does not apply. Check the Superbill to see if the "QTY" column indicates the procedure selected will be performed in multiple quantities. If so, enter the applicable quantity for the procedure on Line 6.

CSE Superbill: Bilateral Procedures

The physician will indicate whether or not the elective cosmetic procedure(s) selected will be performed bilaterally as follows:

EXCISION EXCESS SKIN & SUBCUTANEOUS	TISSUE		
Abdominoplasty only (mini tuck)	17999-Y5831		
Abdominoplasty	17999-Y5832		
Panniculectomy	15830		
Abdom w/umbil transpos., fascial plication	15847 +		
Thigh Lift	15832	√	
Leg Lift	15833		
Hip Lift	15834		
Buttock Lift	15835		
Brachioplasty (Arm Lift)	15836		T
Forearm or Hand Lift	15837		
Submental Fat Pad (chin)	15838		
Lift, Other Area	15839		

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Discounting: Bilateral Procedures

The bilateral discount is applied to the second half of the procedure. The first procedure is charged at 100% and the second at 50% of the initial fee. The total charge for a bilateral procedure is 150% of the initial fee. The cost of a bilateral procedure (as displayed in the cost column of the CSE) includes applicable professional, facility, and anesthesia fees as described below:

Bilateral Procedure Discounts		
Provider's Office	OR/Outpatient (Clinic or Hosp)	OR/Inpatient
Primary Procedure = 100%	Primary Procedure = 100%	Primary Procedure = 100%
Bilateral Procedure = 50%	Bilateral Procedure = 50%	Bilateral Procedure = 50%
Professional Fee, 50%	Professional Fee, 50%	Professional Fee, 50%
No Facility Fee	No Facility Fee	Facility Fee (DRG), 50%
Anesthesia, 50%	Anesthesia, 50%	No Anesthesia Fee

Restrictions on Bilateral Discounting

Bilateral discounting only applies to the following procedures:

ateral discounting only applies to the following procedures:		
Bilateral Procedures		
CPT®/Procedure		
Code	CPT®/Procedure Description	
15820	Blepharoplasty, lower eyelid	
15821	Blepharoplasty, lower eyelid; with extensive herniated fat pad	
15822	Blepharoplasty, upper eyelid	
15823	Blepharoplasty, upper eyelid; with excessive skin weighting down lid	
15824	Rhytidectomy; forehead	
15825	Rhytidectomy; neck with platysmal tightening (platysmal flap, P-flap)	
15826	Rhytidectomy; glabellar frown lines	
15828	Rhytidectomy; cheek, chin, and neck	
15829	Rhytidectomy; superficial musculoaponeurotic system (SMAS) flap	
15832	Excision, excessive skin and subcutaneous tissue (includes lipectomy); thigh	
15833	Excision, excessive skin and subcutaneous tissue (includes lipectomy); leg	
15834	Excision, excessive skin and subcutaneous tissue (includes lipectomy); hip	
15835	Excision, excessive skin and subcutaneous tissue (includes lipectomy); buttock	
15836	Excision, excessive skin and subcutaneous tissue (includes lipectomy); arm	
15837	Excision, excessive skin and subcutaneous tissue (includes lipectomy); forearm or hand	
15878	Suction assisted lipectomy; upper extremity

21295	Reduction of masseter muscle and bone; extraoral approach	
21296	Reduction of masseter muscle and bone; intraoral approach	
36470	Injection of sclerosant, single incompetent vein (other than telangiectasia)	
36471	Injection of sclerosant, multiple incompetent veins (other than telangiectasia), same leg	
37700	Ligation and division of long saphenous vein at saphenofemoral junction, or distal interruptions	
37718	Ligation, division, and stripping, short saphenous vein	
37722	Ligation, division, and stripping, long (greater) saphenous veins from saphenofemoral junction	
	to knee or below	
37765	Stab phlebectomy of varicose veins, 1 extremity; 10-20 stab incisions	
37766	Stab phlebectomy of varicose veins, 1 extremity; more than 20 incisions	
17999-Y3779	Stab phlebectomy of varicose veins, one extremity; less than 10 incisions	
64612	Chemodenervation of muscle(s); muscle(s) innervated by facial nerve	
64616	Chemodenervation of muscle(s); neck muscle(s) excluding muscles of the larynx, unilateral (e.g.	
	for cervical dystonia, spasmodic torticollis)	
65760	Keratomileusis	
65765	Keratophakia	
65767	Epikeratoplasty	

Bilateral Procedures		
CPT®/Procedure		
Code	CPT®/Procedure Description	
67900	Repair of brow ptosis (supraciliary, mid-forehead or coronal approach)	
67903	Repair of blepharoptosis; (tarso) levator resection or advancement, internal approach	
67904	Repair of blepharoptosis; (tarso) levator resection or advancement, external approach	
67950	Canthoplasty (reconstruction of canthus)	
69300	Otoplasty, protruding ear, with or without size reduction	

Line 6: Multiple Quantities and Sessions

6 Quantity/Number of Sessions: N/A

Selecting a Quantity or Number of Sessions

Some procedures can be performed in multiple quantities during a single surgical encounter (quantitative procedures). Other procedures generally require multiple sessions (separate surgical encounters) to achieve optimal results. Enter the number of procedures or sessions required for the primary procedure chosen on Line 1. As shown above, the text for Line 6 varies depending on whether the procedure selected on Line 1 is categorized as: (a) quantitative in nature, or (b) as a procedure generally performed in multiple sessions.

Line 6: Quantity or Number of Sessions becomes a required field when the procedure selected on Line 1 is quantitative in nature or generally requires multiple sessions to complete. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

If "N/A" is displayed on Line 6, the procedure selected in Line 1 is not generally performed in multiple quantities or sessions.

CSE Superbill: Quantity/Number of Sessions

The physician will indicate whether or not the elective cosmetic procedure(s) selected will be performed in multiple quantities or require multiple sessions as follows:

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Charges: Quantitative Procedures and Procedures Performed in Multiple Sessions

<u>Creating an Estimate for Laser Tattoo Removal</u>

Laser tattoo removal is a process that generally requires several sessions to achieve the desired outcome, and the number of sessions required varies by patient. Often times, information regarding the exact number of sessions required to receive an acceptable result from laser tattoo removal is not available at the time the cost estimate is generated for the initial procedure. To accommodate the variance of the procedure and maintain flexibility for patients who wish to pay for one session at a time, the following laser tattoo removal procedures can be priced individually or in multiple sessions. Costs are dependent on the size of the tattoo.

Laser Tattoo Removal		
CPT®/Procedure Code CPT®/Procedure Description		
17999-Y0030	Laser tattoo removal; <= 30 sq cm, single session	
17999-Y0032 Laser tattoo removal; >= 31 sq cm, single session		

Restrictions on Quantity/Session Pricing

Not all procedures can be priced in multiple quantities. Quantity pricing is restricted to the following procedures specifically categorized as quantitative and therefore subject to multiple procedure discounting:

Quantitative Procedures			
CPT®/Procedure	CPT®/Procedure		
Code CPT®/Procedure Description			
11201	Removal of skin tags, multiple fibrocutaneous tags, any area; each additional 10		
11201	lesions, or part thereof		
11300	Shaving of epidermal or dermal lesion, single lesion, trunk, arms or legs; lesion		
11500	diameter 0.5 cm or less		

	Quantitative Procedures
CPT®/Procedure	
Code	CPT®/Procedure Description
11201	Shaving of epidermal or dermal lesion, single lesion, trunk, arms or legs; lesion
11301	diameter 0.6 to 1.0 cm
11302	Shaving of epidermal or dermal lesion, single lesion, trunk, arms or legs; lesion
11302	diameter 1.1 to 2.0 cm
11303	Shaving of epidermal or dermal lesion, single lesion, trunk, arms or legs; lesion
11303	diameter over 2.0 cm
11305	Shaving of epidermal or dermal lesion, single lesion, scalp, neck, hands, feet, genitalia;
11303	lesion diameter 0.5 cm or less
11306	Shaving of epidermal or dermal lesion, single lesion, scalp, neck, hands, feet, genitalia;
11300	lesion diameter 0.6 to 1.0 cm
11307	Shaving of epidermal or dermal lesion, single lesion, scalp, neck, hands, feet, genitalia;
	lesion diameter 1.1 to 2.0 cm
11308	Shaving of epidermal or dermal lesion, single lesion, scalp, neck, hands, feet, genitalia;
	lesion diameter over 2.0 cm
11310	Shaving of epidermal or dermal lesion, single lesion, face, ears, eyelids, nose, lips,
	mucous membrane; lesion diameter 0.5 cm or less
11311	Shaving of epidermal or dermal lesion, single lesion, face, ears, eyelids, nose, lips,
	mucous membrane; lesion diameter 0.6 to 1.0 cm
11312	Shaving of epidermal or dermal lesion, single lesion, face, ears, eyelids, nose, lips,
	mucous membrane; lesion diameter 1.1 to 2.0 cm
11313	Shaving of epidermal or dermal lesion, single lesion, face, ears, eyelids, nose, lips, mucous membrane; lesion diameter over 2.0 cm
	Excision, benign lesion including margins; trunk, arms or legs; excised diameter 0.5 cm
11400	or less
	Excision, benign lesion including margins; trunk, arms or legs; excised diameter 0.6 to

D9999	Laser teeth whitening, per treatment	

Line 7: Add-on Codes

7 Add-on Code: N/A

Selecting an Add-on Code

Select an add-on code to be performed in conjunction with the primary procedure selected on Line 1, if applicable.

Add-on codes are used to capture additional charges for secondary procedures that can only be done in conjunction with a specific primary procedure. Add-on codes describe additional intra-service work associated with the primary procedure. They are performed by the same physician during the same surgical encounter as the primary procedure and must never be billed as a stand-alone procedure. Add-on codes are not subject to multiple procedure discounting.

The parent procedure for an add-on code must be entered into the CSE before attempting to add the add-on code itself. Add-on codes cannot be separated from their designated parent codes in the operating room or on a bill. To ensure that add-on codes and their applicable parent codes stay together, the CSE requires entry of the parent code first.

Some CPT® codes have two applicable add-on codes. You can select one of the two codes as an additional procedure for the estimate, or you can select the two codes together as additional procedures. For example:

Primary Procedure Screen Line 1: Select a Primary CPT® Code or Description:

Primary Procedure Screen Line 7: Select an applicable add-on code(s):

Line 7: Add-on Code becomes a required field when the procedure selected on Line 1 has an add-on code associated with it. If the physician has not selected an applicable add-on code on the Superbill, select "None" from the drop-down list of add-on code options. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

Not all primary CPT®/Procedure codes have add-on codes associated with them; Line 7 is only operational for select procedures. When available, only add-on codes applicable to the primary procedure selected on Line 1 will be displayed.

If "N/A" is displayed on Line 7, the procedure selected on Line 1 does not have an associated add-on code.

Enter any additional procedures indicated on the Superbill by selecting "Yes" on Line 10 and completing the additional procedures screen.

CSE Superbill: Add-on Codes

Add-on codes are marked with a plus sign (+) on the Superbill:

SKIN SUBSTITUTE GRAFT		
Trunk, arms, legs

Line 8: Anesthesia

Selecting an Anesthesia Option

Select the type of anesthesia that will be used for the primary procedure selected on Line 1. Choose one of the following options:

- None
- Topical
- Local
- Moderate Sedation
- General/Monitored

Line 8: Anesthesia is a required field for all elective cosmetic procedure estimates. If no anesthesia will be used, select "None." You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

CSE Superbill: Anesthesia

The physician will indicate what type of anesthesia will be used in the header of the Superbill as follows:

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Basis for Charges: Anesthesia for Elective Cosmetic Procedures

Anesthesia fees associated with elective cosmetic procedures include the cost of anesthesia pharmaceuticals, supplies, and the professional services of an anesthesiologist. Anesthesia fees are only applied to procedures performed in a provider's office or in a hospital outpatient setting. Anesthesia fees for procedures performed in a hospital inpatient setting are included in the DRG facility fee.

NOTE: Add-on codes do not generate additional anesthesia charges.

Charges for Anesthesia				
Topical	No charge.			
	Topical anesthesia is included in the price of the procedure selected.			
Local No charge.				
	Local anesthesia is included in the price of the procedure selected.			
Moderate Sedation	Moderate Sedation The fee for moderate sedation is a flat fee based on the CMAC national average rate for			
	CPT® code 99152. The moderate sedation fee for CSE v15.0 is \$84.33.			

General/Monitored Fees for General/Monitored anesthesia care are calculated using the TRICARE national average anesthesia conversion factor, multiplied by the sum of anesthesia base units and national average time units (measured in 15 minute increments) of the primary procedure. An additional anesthesia charge, based on additional minutes of service is added for additional procedures performed during the same surgical encounter. General/Monitored Care (Primary Procedure) (Anesthesia Base Units + Time Units) * TRICARE Conversion Factor General/Monitored Care (Additional Procedure)

(Time Units) * TRICARE Conversion Factor

Line 9: Pharmaceuticals

9 What pharmaceuticals will be provided by the MTF: N/A

Selecting a Cosmetic Pharmaceutical

If the physician has indicated that a pharmaceutical will be used for the procedure selected on Line 1, select the pharmaceutical name from the drop-down menu; enter the number of units prescribed in the quantity field, and the price per unit. Pharmaceutical options are available for subcutaneous injections (i.e., soft tissue fillers) and chemodenervation procedures.

If the specific pharmaceutical requested by the physician is not listed in the drop-down menu on Line 9, select "Other" from the list of available options. When prompted, enter the name of the unlisted pharmaceutical.

The pharmaceutical name entered in this field will appear on the cost estimate report in as part of the procedure description.

Line 9: Pharmaceuticals becomes a required field when either a subcutaneous injection or chemodenervation procedure is chosen. If the physician has not indicated which pharmaceutical will be used, select "None" from the list of pharmaceutical options. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

If "N/A" is displayed on Line 9, the procedure selected in Line 1 does not have a specific cosmetic pharmaceutical associated with it. To add a non-covered pharmaceutical for this procedure, select "Yes" on Line 11 and manually enter the pharmaceutical name, unit price, and quantity when prompted.

CSE Superbill: Pharmaceuticals

The physician will indicate what cosmetic pharmaceutical will be used with the elective cosmetic procedure(s) on the Superbill as follows:

Price=Pharmaceutical price per unit

Qty= Number of units required for the procedure selected

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Cosmetic Pharmaceutical Prices

The price of Botox® is pre-populated at the TRICARE allowable price of \$6.12/unit. The price of Dysport is pre-populated at the TRICARE allowable price of \$1.68/unit. The price of Xeomin® is pre-populated at the TRICARE allowable price of \$5.09/unit. If the local pharmacy provides a purchase price for the pharmaceutical, you must override the pre-populated pharmaceutical charge by typing over the pre-populated unit price. All cosmetic pharmaceuticals are billed to the patient at the full cost paid by the MTF. Contact your MTF pharmacy to obtain the current price of a particular pharmaceutical requested by the physician.

Chemodenervation For CPT® Codes: 64612, 64616, 64642, 64643, 64644, 64645,64646, 64647, 64650, 64653 Choose from:	Cosmetic Pharmaceuticals Used in the CSE

Creating an Estimate for a Pharmaceutical Without a Procedure

Most often pharmaceuticals are priced in the same estimate as the procedure requiring the pharmaceutical. Occasionally, however, there is a need to create an estimate for a pharmaceutical without a procedure attached. For example, if a patient returns to the MTF for a chemodenervation touch up within the 10 day global period, the patient would be responsible for the cost of the additional pharmaceutical used, but no additional procedure charges would apply.

A request for an estimate for a pharmaceutical only should be accompanied with a CSE Superbill completed as shown:

PHARMACEUTICAL ONLY		Pric	Qty
Name: Captique	J9999	\$14	7

To create an estimate for a pharmaceutical without a procedure:

- 1. Select code J9999 from the drop-down menu on Line 1 of the primary procedure screen.
- 2. You will receive the following message:

- 3. Click "OK" to continue.
- 4. The only CSE data entry line allowed for this type of estimate is Line 9 where the necessary pharmaceutical can be entered.
- 5. Select the pharmaceutical requested by the physician on the Superbill from the drop-down menu.
- 6. If the name of the pharmaceutical specified by the physician is not listed, select "Other" from the list of available options. When prompted, enter the name of the unlisted item.
- 7. Enter the price per unit and the number of units required as indicated by the physician on the Superbill.
- 8. View, print, or save the cost estimate report.
- 9. An estimate generated for a pharmaceutical will contain the following message to easily identify estimates that do not include procedure charges:

Line 10: Additional Procedures

Selecting Additional Procedures

Select "Yes" or "No" to indicate whether more than one elective cosmetic procedure will be performed during the same surgical encounter. If "Yes" is selected, a new window will open where additional procedures may be added to the cost estimate.

Line 10: Additional Procedures is a required field for all elective cosmetic procedure estimates. You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

The layout of the additional procedure screen is similar to the primary procedure screen:

Additional Procedure Screen Line 1: CPT®/Procedure Code and Description

Select an additional CPT®/Procedure code or description using the drop-down menus provided. Procedures entered here must have a cost rank lower than that of the primary procedure. (See discussion of Lines 1 and 2: Primary Procedure and Procedure Location for more information on professional and facility fees associated with elective cosmetic procedures.)

Additional Procedure Screen Line 2: Dermatology Resident Discount

If a chemodenervation procedure (CPT® code 64612, 64616, 64642, 64643, 64644, 64645, 64646, 64647, 64650, or 64653) is selected, select "Yes" or "No" to indicate whether a Dermatology resident will be

performing the procedure. (See discussion of Line 4: Dermatology Resident Discount for more information.)

Additional Procedure Screen Line 3: Bilateral Procedures

Select "Yes" or "No" to indicate whether the additional procedure selected on Line 1 will be performed bilaterally (i.e., on mirror image body parts). (See discussion of Line 5: Bilateral Procedures for more information.)

Additional Procedure Screen Line 4: Multiple Quantities and Sessions

Select "Yes" or "No" to indicate whether or not the additional procedure selected on Line 1 will be performed either in multiple quantities during the same surgical session or multiple sessions. (See discussion of Line 6: Quantity/Number of Sessions for more information on quantitative procedures and procedures performed in multiple sessions.)

Additional Procedure Screen Line 5: Anesthesia

The CSE defaults the anesthesia selection for additional procedures to the same option chosen on Line 8 for the primary procedure. In the event that different types of anesthesia will be used, select the type of anesthesia that will be used for the additional procedure selected on Line 1. (See discussion of Line 8: Anesthesia for more information.)

Additional Procedure Screen Line 6: Pharmaceuticals

If applicable, select the cosmetic pharmaceutical associated with the additional procedure selected on Line 1. (See discussion of Line 9: Pharmaceuticals in the primary procedure section for more information.)

Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear. You will not be able to add an additional procedure to the estimate until a selection has been made for all required fields.

Once selections for all required fields have been made:

- Click Add Procedure

 to include the selected additional procedure in the estimate. A table displaying information for each additional procedure selected will appear at the bottom of the screen.
- If you change your mind, you can delete an individual procedure from the list by clicking the button located at the end of the row for the procedure you want to delete.

• If you make a mistake, you can edit procedure details by clicking the button located at the end of the row for the procedure you want to update.

- To delete all of the additional procedures listed in the table, click
 Clear List
- The total cost for all additional procedures entered will be displayed in the lower right corner of the additional procedure screen as shown above.

Delete

Once all additional procedures have been added, click **Return to Estimate** to return to the main screen and complete the estimate.

• If you wish to return to the additional procedure entry screen, click in the lower right corner of the main screen. This will let you view the current list of additional procedures, add more procedures, or delete a procedure already entered.

Basis for Discounting: Additional Elective Cosmetic Procedures

If multiple elective cosmetic procedures are performed during *the same* surgical encounter, a discount is applied. Professional and facility fees for additional elective cosmetic procedures are reduced by 50% from the initial charge (note the APV based facility fee is only charged once per surgical encounter). There is no discount applied to *additional sessions performed during separate surgical encounters*. Each additional session performed during a separate surgical encounter is priced at 100% whether it is listed as a primary or additional procedure. Add-on codes are never discounted. Each add-on procedure is priced at 100% whether it is entered on the primary or additional procedure screen.

Discounts for Additional Elective Cosmetic Procedures					
Provider's Office	OR/Outpatient (Clinic or Hosp)	OR/Inpatient			
Primary Procedure= 100%	Primary Procedure= 100%	Primary Procedure= 100%			
Additional Procedure= 50% Professional Fee, 50% No Facility Fee Anesthesia, 50%	Additional Procedure= 50% Professional Fee, 50% No Facility Fee Anesthesia, 50%	Additional Procedure= 50% Professional Fee, 50% Facility Fee (DRG), 50% No Anesthesia Fee			

Exceptions:

- 1) There is no discount applied to additional sessions performed during separate surgical encounters. Each session is priced at 100% whether it is listed as a primary or additional procedure.
- 2) Add-on codes are never discounted. Each procedure is priced at 100% whether it is entered on the primary or additional procedure screen.

Restrictions on Adding Additional Procedures

When generating a cost estimate for more than one elective cosmetic procedure performed during the same surgical encounter, additional procedures must have a lower cost rank than the primary procedure entered on the main screen. Procedures are ranked based on their applicable professional fees. The procedures are ranked from least expensive to most expensive: the higher the cost rank, the higher the professional fee.

To determine the cost rank of a procedure, select a CPT®/Procedure code or description on Line 1 and a procedure location on Line 2. The cost rank for the selected procedure is displayed in the red cost rank box in the upper right hand corner of the screen. Please refer to Appendix D for a full list of CSE procedures and cost ranks.

Cost Rank: 219

The CSE will not allow an additional procedure to be entered if its cost rank is higher than the primary procedure. Should you encounter an error message, add the higher priced procedure on the main screen and the lower priced procedure on the additional procedure screen.

To return to the Table of Contents, press Ctrl + Home.

Line 11: Implants and Supplies

11* Will implants or other non-covered supplies be provided by the MTF? C Yes C No

Selecting Implants and Non-Covered Supplies

Select "Yes" or "No" to indicate whether implants or other non-covered supplies will be supplied by the MTF. If "Yes" is selected, a new window will open where charges for cosmetic implants and other non-covered, separately billable supplies must be added to the cost estimate.

Exception: For outpatient procedures 19325, 19342, 19357, 17999-Y2189, 17999-5835, 17999-5837, 65760, 65765, and 65767, the cost of the device is included in the APV rate. Do not charge for additional devices or implants when these procedures are performed in an outpatient setting.

Line 11: "Implants and Non-Covered Supplies" is a required field for all elective cosmetic procedure estimates.

You will not be able to view, print, or save a CSE cost estimate report until a selection has been made for all required fields. Required fields are marked with an asterisk (*) next to the line number. Once a selection has been made, the asterisk will disappear.

CSE Superbill: Implants and Non-Covered Supplies

The physician will indicate whether or not implants and/or non-covered supplies will be required for the procedure(s) selected on Superbill as follows:

Refer to Appendix B for a full view of the DHA UBO Cosmetic Surgery Superbill.

Implants/Supplies Entry Screen

Implants/Supplies Line 1: Implant and Supply Pricing Information

Enter the name, unit price, and quantity of cosmetic implants or other non-covered, separately billable supplies required for both the primary and additional procedures selected for this estimate.

- Click Add Implant/Supply to include the information entered in the estimate.
- To delete an individual implant or supply from the list, click the button at the end of the row for the implant/supply you want to delete.
- To modify components of an individual implant or supply from the list, click the end of the row for the implant/supply you want to edit.
- To delete all of the implants and supplies listed in the table, click
 Clear List
- The total cost for all implants and supplies entered will be displayed in the lower right corner of the screen as shown above.
- Once all necessary implants and supplies have been added, click main screen.

 Return to Estimate
 to return to the
- If you wish to return to the implant and supply entry screen, click
 the lower right corner of the main screen. This will let you view the current list of implants and supplies, add more implants and supplies, or edit/delete an implant or supply already entered.

Creating an Estimate for Implants and Supplies Without a Procedure

Most often, implants and supplies are priced in the same estimate as the procedure requiring the implant or supply. Occasionally, however, there is a need to create an estimate for implants and/or supplies without a procedure attached. For example, it may be necessary to price cosmetic implants after the preoperative visit with the physician—once the appropriate size and type are determined. Additionally, the CSE may be used to price an elective non-covered implant that will be used for a medically necessary procedure.

A request for an estimate for an implant/supply only should be accompanied with a CSE Superbill completed as shown:

To create an estimate for an implant or non-covered supply without a procedure:

- 1. Select code C9999 from the drop-down menu on Line 1 of the primary procedure screen.
- 2. You will receive the following message:

- 3. Click "OK" to continue.
- 4. The only CSE data entry line allowed for this type of estimate is Line 11 where pricing information for the necessary implants and/or supplies can be entered. Selecting "Yes" will open a new window where pricing information can be entered.
- 5. Enter the name of the implant/supply, price per unit, and the number of units required as indicated by the physician on the Superbill.
- 6. Click Add Implant/Supply to include the information entered in the estimate.
- 7. To delete an individual implant or supply from the list, click the for the implant/supply you want to delete.
- 8. To modify components of an individual implant or supply from the list, click the end of the row for the implant/supply you want to edit.
- 9. Once all necessary implants and supplies have been added, click Return to Estimate to return to the main screen.
- 10. View, print, or save the cost estimate report.
- 11. An estimate generated for an implant or supply only will contain the following message to easily identify:

Implant and Supply Prices

All cosmetic implants and supplies are billed to the patient at the full cost paid by the MTF. The pharmacy or MTF clinic can provide you with the appropriate price to be entered into the CSE.

To return to the Table of Contents, press Ctrl + Home.

Total Cost of Elective Cosmetic Procedures

In accordance with HA 05-020: "Policy for Cosmetic Surgery Procedures in the Military Health System" (see Appendix D), all patients, including active duty personnel, undergoing elective cosmetic surgery procedures must pay the full cost for all procedures in accordance with the fee schedule published annually by the Office of the Secretary of Defense Comptroller.

Each entry item of the CSE represents one portion of the total cost of an elective cosmetic procedure. Elective cosmetic procedure prices include charges for:

- Professional Services (Physician Providers)
- Facility/Institutional Resources
- Anesthesia
- Cosmetic Pharmaceuticals
- Cosmetic Implants
- Non-covered Supplies

In addition, depending on the combination of procedures chosen and the location of service, there may be discounts applied to the above charges based on:

- Combining an elective cosmetic procedure with a medically necessary procedure
- Procedures performed by a Dermatology resident
- Multiple elective cosmetic procedures performed during the same surgical encounter.

To return to the Table of Contents, press Ctrl + Home.

Elective Cosmetic Surgery Cost Estimate Report

Once all necessary information for the procedure(s) selected on the Superbill has been entered, you may view, print, or save the completed estimate. The CSE automatically generates a cost estimate report that itemizes the estimated fee for each procedure entered as well as any applicable fees for anesthesia, implants, or other non-covered supplies. The CSE Cost Estimate Report also includes the patient's Letter of Acknowledgment (LOA), which was previously maintained as a standalone document. Upon agreement of all payment policies, a patient will sign and date the CSE Cost Estimate Report and LOA and return it to the MSA office. The combined CSE Cost Estimate Report and LOA must be kept in the patient's file along with other documentation related to the elective cosmetic procedure(s).

A sample CSE Cost Estimate Report is shown below:

- 1) Advance Payment Required: Elective cosmetic procedures are not TRICARE covered benefits. I acknowledge and accept reconsibility for all charges associated with the above listed procedure(s) including applicable professional, facility, and anest asia fees plus the cost of any implants, pharmaceuticals, and other separately billable items provided by the MTF. I agree to restimated charges, in full, for all elective cosmetic procedures prior to receiving treatment.
- 2) Prices Subject to Sange: Rates for elective cosmetic procedures are updated periodically by the Assistant Secretary of Defense for Healt.

 Letter of Acknowledgment is included lestimated charges have been paid in full.
- a) Additionate be additionated be additionated be additionated procedure.

 final bill. I ag or, pursuant be additionated by ad

the initial amount paid may not constitute payment in full. There may inforeseen, but necessary, procedures undertaken during the d into the initial estimate but will be added upon computation of the harges within thirty (30) calendar days after presentation of the final bill bt Collection Improvement Act of 1996, I will incur additional interest

and/or administrative charges.

Before viewing, printing, or saving a cost estimate, you will be prompted to enter the patient's name. The patient's name will be displayed on the first line of the cost estimate report. If you do not want to enter the patient's name on the cost estimate report, you can click "OK" to bypass this prompt.

Print a Completed Cost Estimate Report

To print a completed cost estimate report, follow the instructions above for viewing an estimate. You then have two options: you can use 'Ctrl P' or you can click the button at the top of the Elective Cosmetic Surgery Estimate report. A copy of the completed estimate will be sent to your default printer.

Save a Completed Cost Estimate Report

To save a completed cost estimate, click

Save Cost Report

located at the bottom of the main screen. When prompted, enter the patient's name, and click "OK." A "file save" window will open. Specify to which computer directory and folder you would like to save your estimate and click "OK." The default file name is "CSE Report YYYYMMDD.pdf", but this can be updated easily by the user.

CSE cost estimate reports are saved as PDF documents and can be accessed by anyone with Adobe Reader or Adobe Acrobat software.

To return to the Table of Contents, press Ctrl + Home.

Provider Elective Cosmetic Surgery Cost Estimate Report

In addition to the CSE distributed to MSA staff, the DHA UBO also distributes a provider's version upon request so the physician may generate an estimate for their patients "for discussion purposes only." The cost estimate report generated by the provider's CSE version includes a prominent note to the patient at the top stating, "Note to the Patient: This estimate was generated by your provider for discussion purposes only. Official cosmetic surgery estimates must be generated by the MSA office. If you would like to schedule a cosmetic procedure, please take the Cosmetic Surgery Superbill supplied by your provider to the MSA office. You must pay in full and provide proof of payment before the clinic can schedule your procedure. Please see below for other important patient information."

Elective Cosmetic Surgery Cost Estimate

Print

For Discussion Purposes Only

Note to the Patient: This estimate was generated by your provider for discussion purposes only. Official cosmetic surgery estimates must be generated by the MSA office. If you would like to schedule a cosmetic procedure, please take the Cosmetic Surgery Superbill supplied by your provider to the MSA office. You must pay in full and provide proof of payment before the clinic can schedule your procedure. Please see below for other important patient information.

Patient Name: Test

Date of Estimate: 5/29/2019 2:09:09 PM Procedure Location: OR/Outpatient (APV)

Military Treatment Facility (MTF): CSE Provider Mode
Combined with a Medically Necessary Procedure: No

The Provider Version cost report also includes the LOA language included on the official MSA cost report. However, Patients do not to sign the provider version cost report and LOA, as it is an estimate for informational and discussion purposes only. Official cost estimates/report may only be obtained from the MTF MSA office.

All patients undergoing cosmetic procedures much sign a Letter of Acknowledgement that states the following:

- Advance Payment Required: Elective cosmetic procedures are not TRICARE covered benefits. I acknowledge and accept
 responsibility for all charges associated with the above listed procedure(s) including applicable professional, facility, and
 anesthesia fees plus the cost of any implants, pharmaceuticals, and other separately billable items provided by the MTF. I
 agree to pay estimated charges, in full, for all elective cosmetic procedures prior to receiving treatment.
- 2) Prices Subject to Change: Rates for elective cosmetic procedures are updated periodically by the Assistant Secretary of Defense for Health Affairs. I understand that estimated charges are based on Department of Defense (DoD) rates applicable at the time of payment. Rates cannot be guaranteed until estimated charges have been paid in full.
- 3) Additional Charges May Apply: I acknowledge that the initial amount paid may not constitute payment in full. There may be additional charges for ancillary services, as well as unforeseen, but necessary, procedures undertaken during the procedure. I understand these charges are not factored into the initial estimate but will be added upon computation of the final bill. I agree to remit payment for any additional charges within thirty (30) calendar days after presentation of the final bill or, pursuant to the Debt Collection Act of 1982 and Debt Collection Improvement Act of 1996, I will incur additional interest and/or administrative charges.
- **4) Global Periods for Elective Cosmetic Procedures:** Charges for some elective cosmetic procedures include a global period during which routine postoperative follow-up visits and treatment (e.g. removal of stitches or sutures, treating infected wounds, and dressing changes) are covered at no additional charge. Postoperative visits that are unrelated to the original procedure, or that occur after the global period has expired, will incur additional charges unless deemed medically necessary. Global periods are listed on the cost estimate report where applicable.
- 5) Refunds: I understand that if I decide, prior to my scheduled procedure date, not to have an elective cosmetic procedure, I am entitled to a refund of all monies paid for the cancelled procedure. If I change my mind after the procedure has started, applicable professional and ancillary fees will be deducted from the initial payment amount before a refund is issued. Refunds may take up to 8 weeks for processing.
- 6) Follow-up Care: I acknowledge that follow-up care after an elective cosmetic procedure is not guaranteed in an MTF because the care required may exceed the ability of the facility and/or there may not be appointments available when I

Elective Cosmetic Surgery Estimator Detail Report

The Elective Cosmetic Surgery Estimator Detail Report is a separate CSE detail report for MSA internal use only that itemizes the individual price components for each procedure. This report is designed to assist in explaining estimate details to patients and facilitate data entry into the MTF's billing solution (e.g., Armed Forces Billing and Collection Utilization Solution (ABACUS or future billing solution). This document is intended "For Office Use Only- Not to be Issued to Patient." and is not available in the Provider's version of the CSE.

There are two ways in which to view the internal detail report: using 'Ctrl D' or selecting "View/Print Cost Report."

When using 'Ctrl D,' you will receive a prompt that says "Enter the name of the Patient." Before viewing or printing the Estimator Detail Report, you will be asked to enter the patient's name. The patient's name will be displayed on the first line of the Estimator Detail Report. (If you do not want to enter the patient's name on the cost estimate report, click "OK" to bypass this prompt.) Check the box "Create a detailed report for office use only." The Estimator Detail Report will appear on the screen and can be printed by using 'Ctrl P.'

View/Print Cost Report

When generating the Estimator Detail Report by selecting ________ at the bottom of the primary procedure screen, you will receive the same "Enter the name of the Patient" prompt as you would if you used 'Ctrl D'. Before viewing or printing the Estimator Detail Report, you will be asked to enter the patient's name. The patient's name will be displayed on the first line of the Estimator Detail Report. (If you do not want to enter the patient's name on the cost estimate report, click "OK" to bypass this prompt.) Check the box "Create a detailed report for office use only." Once you select "Ok," you will be taken to the Elective Cosmetic Surgery Estimate. Print the Elective Cosmetic Surgery Estimate. Once you are finished, exit out of the Estimate using the 'X' in the top right hand corner of the estimate. This will bring you to the Estimator Detail Report. The Estimator Detail Report will appear on the screen and can be printed by using 'Ctrl P'.

Following is a sample estimator detail report:

DHA UBO Cosmetic Surgery Estimator Detail Report (For Office Use Only - Not to be issued to patient)

Name: Test

Date of Estimate: 5/29/2019 2:20:19 PM Procedure Location: OR/Outpatient (APV)

Combined with a Medically Necessary Procedure: No

This Detail Report is for office use only. Do not distribute this report to the patient.

Total Estimate Cost: \$5,789.56

About the CSE

In 2005, the Department of Defense (DoD) Office of Health Affairs (HA) published HA Policy 05-020 "Policy for Cosmetic Surgery Procedures in the Military Health System" (25 Oct 2005). (The entire policy is reprinted in Appendix A.) HA Policy 05-020 superseded and provided updated guidance on a 1992 HA policy that allowed a limited number of cosmetic surgery cases to "support graduate medical education training, board eligibility and certification, and skill maintenance for certified specialists in plastic surgery, ear, nose and throat, ophthalmology, dermatology, and oral surgeries."

The 2005 policy reinforced the following DoD HA policy:

- Elective cosmetic surgery is not a TRICARE covered benefit.
- A limited number of cosmetic surgery cases are permitted in Military Treatment Facilities (MTFs) to support graduate medical education training, skill maintenance, certification, and recertification for qualified specialists.
- A provider may not spend more than 20 percent of his or her case load on cosmetic surgery procedures.
- Elective cosmetic surgery is performed on a "space-available" basis only. Elective cosmetic surgery cases
 will not be performed if they would cause other medically necessary and/or reconstructive surgery cases to
 be cancelled or rescheduled.
- Elective cosmetic surgery procedures are restricted to TRICARE-eligible beneficiaries as defined in 10 USC Chapter 55, including TRICARE for Life participants who will not lose TRICARE eligibility for at least 6 months.
- Active Duty personnel must have written permission from their unit commander before undergoing an elective cosmetic surgery procedure.
- All patients, including active duty personnel, must pay estimated costs (i.e., applicable professional, facility, and anesthesia fees plus the costs of any implants, injectables, and other separately billable items), in full for all elective cosmetic procedures before surgery is scheduled. Pre-payment is based on services such as laboratory, radiology, pharmacy, and performance of additional unforeseen necessary procedures may apply. Additional fees must be paid within thirty (30) calendar days after receiving a final bill.
- A letter of acknowledgement of financial responsibility to cover the cost of any unanticipated services (e.g., long term follow-up care and revision surgeries) must be signed prior to scheduling and performing the elective cosmetic surgery.

Acronyms and Definitions

AMA - American Medical Association

Anesthesia Rates – Rates for these professional services are derived from the current year's DHA UBO Outpatient Itemized Billing Anesthesia rate table.

APU - Ambulatory Procedure Unit

APV - Ambulatory Procedure Visit

Add-on Code - Add-on codes are used to capture additional charges for secondary procedures that can only be done in conjunction with a particular procedure. Add-on codes describe additional intraservice work associated with the primary procedure.

Additional Procedures – The subsequent procedure(s) performed during the same operating session on the same day as the primary procedure.

Bilateral Procedure – The same procedure performed on both sides of the body or members of paired organs (right and left) during the same operative session or on the same day.

CHAMPUS – Civilian Health and Medical Program of the Uniformed Services

CMAC - CHAMPUS Maximum Allowable Charge

Covered Service – A medical service an enrollee may receive at no additional charge or with an incidental co-payment under the terms of a prepaid health care contract.

CSE – Cosmetic Surgery Estimator. A Microsoft Access-based software application developed and published by DHA UBO to help MSA clerks estimate the cost of and collect payment for a cosmetic procedure(s) before it is (they are) performed.

CPT® – Current Procedural Terminology. A systematic listing of codes that classify medical services and procedures. CPT copyright 2010 AMA. All rights reserved. CPT is a registered trademark of the AMA.

DoD – Department of Defense

DHA – Defense Health Agency

DRG – Diagnosis Related Group

Elective Cosmetic Surgery – Any elective plastic surgery performed to reshape normal structures of the body in order to improve the patient's appearance or self- esteem.

GME – Graduate Medical Education

HA - Health Affairs, DoD

I&R – Invoice & Receipt

ICD-9-CM – International Classification of Diseases, Ninth Revision, Clinical Modification

IP - Inpatient

Implants – Objects, devices or materials inserted or grafted into the body.

Letter of Acknowledgement – A letter that must be signed by a patient before any elective cosmetic surgery can be scheduled and performed. In the letter, the patient agrees to pay any additional costs associated with the surgery. (See sample letter in Appendix C.)

MAC (Monitored Anesthesia Care) – Includes varying levels of sedation, analgesia, and anxiolysis as necessary and subject to the same level of payment as general anesthesia.

MHS - Military Health System

MSA – Medical Services Account. For this User Guide, MSA involves billing and collecting funds from eligible DoD beneficiaries for elective cosmetic surgical procedures.

MTF - Military Treatment Facility

OR – Operating Room

Procedure – For this User Guide, a surgical method for modifying or improving the appearance of a physical feature, defect, or irregularity.

Reconstructive Surgery – Any plastic surgery performed on abnormal structures of the body which are caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease. Reconstructive surgery is generally performed to improve function, but may also be done to approximate a normal appearance.

Sessions – Specific procedure codes that can be performed on separate dates of service.

Superbill – A paper form for capturing detailed procedural codes for proposed elective cosmetic procedures. The provider identifies the correct procedure(s) on the Superbill and gives it to the patient or directly to the MSA clerk to enter in the CSE to estimate the cost of the procedure(s).

UBO - Uniform Business Office

UBU- Unified Biostatistical Utility

USC - United States Code

Y-Codes – DoD specific procedure codes for professional services that do not have CPT codes; DHA UBO develops and publishes billing rates to charge for elective cosmetic procedures.

Cosmetic Surgery Process Overview

- 1. A patient consults an authorized provider.
- 2. The provider examines the patient.
- 3. The provider determines whether the procedure is elective cosmetic or medically necessary. If the provider determines that the procedure is medically necessary, the CSE and Superbill are not used.
- 4. If the provider determines that the procedure is elective cosmetic, the provider completes a Cosmetic Surgery Superbill and gives it to the patient. The provider may also use the Provider CSE version to generate an estimate for discussion purposes only with the patient.
- 5. The patient presents the completed Cosmetic Surgery Superbill to the MSA office.
- 6. The MSA clerk enters the information from the Cosmetic Surgery Superbill into the most current version of the CSE to calculate the estimated cost of the procedure(s) listed.
- 7. The MSA clerk prints a Cost Estimate Report for the patient.
- 8. The patient pays the estimated charges in full and signs a letter of acknowledgment if he/she wishes to schedule the surgery for the elective procedures noted on the Superbill. In the letter of acknowledgment, the patient agrees to pay for any additional fees once the surgery is completed and no later than 30 calendar days after presentation of the final bill.
 - If the patient is not prepared to pay for the surgery or sign the letter of acknowledgement at the time the estimate is provided, the patient is given the printed estimate from the CSE, and no additional action is required.
- 9. If the patient agrees to pay the estimated charges in full, the MSA clerk collects the payment, posts the charges as paid, and issues a receipt to the patient.
- 10. The MSA clerk generates two billing packages including copies each of the Cost Estimate Report, the invoice and receipt (I&R), and the Cosmetic Surgery Superbill.
 - a. The patient is given one copy of this packet.
 - b. The other packet is included in the patient's medical file.
- 11. The patient presents the receipt of payment to the Surgery Clinic.
- 12. The surgery is scheduled and performed.
- 13. After the procedure(s) is performed and coding is completed, MSA staff reconcile the patient's account to ensure that charges for any additional procedures, billable supplies or pharmaceuticals provided not included in the original CSE estimate are captured.
 - a. If there were no additional procedures, billable supplies, or pharmaceuticals provided, there is no additional bill generated.
 - b. If there are additional procedures, billable supplies, or pharmaceuticals provided not included in the original estimate, the MSA staff enters the information into the CSE to calculate charges for the additional procedures, billable supplies or pharmaceuticals provided.
 - i. The MSA clerk sends the final bill, if any, to the patient.
 - ii. The patient pays the final bill within 30 calendar days of receipt.

Appendix C: Global Follow-Up Days

Global Periods

Cosmetic surgery global periods refer to the time frame immediately following surgery during which routine post-operative follow-up care (e.g., replacing stitches or treating infected wounds) is provided without additional charge to the patient. Professional services related to the original procedure should not be re-coded during the global period. However, all additional implants, pharmaceuticals, and separately billable supplies utilized during the global period must be billed to the patient at the full cost of the implants, pharmaceuticals and supplies. Use J9999 or C9999 as appropriate when generating estimates for additional implants or pharmaceuticals only.

Most cosmetic surgeries have a global period of 0, 10, 30, or 90 days. Ninety day global periods are assigned to major surgeries, and 10 day global periods are assigned to minor surgeries. Procedures that have a global period of 0 days are not subject to the global period packaging, and applicable rates would apply to the procedure for every date of service performed.

Post-operative global periods start the first day following surgery. All post-operative care/services provided are included in the global package if they do not require additional trips to the operating room.

Note: This rule does not apply if the visit is for a problem unrelated to the diagnosis for which the surgery was performed or is for an added course of treatment other than the normal recovery from surgery.

TRICARE Reimbursement Manual 6010.58-M, Chapter 1, Section 16

Global periods for each are listed on the cost estimate report for each procedure selected as shown below.

Example:

Some chemodenervation procedures have a 10-day global period. There should be no additional professional fee for "touch-ups" performed during this period. However, there is a charge for any additional pharmaceutical used. The Cosmetic Surgery Superbill should be completed to indicate the additional units of pharmaceutical required, and MSA staff will generate a cost estimate report for the patient using J9999.

Complications from Surgery

Benefits are available for the otherwise covered treatment of complications resulting from a non-covered surgery or treatment <u>only</u> when the complication represents a medical condition separate from the condition that the non-covered treatment or surgery was directed toward, and treatment of the complication is not essentially similar to the non-covered procedure.

A complication may be considered a separate medical condition when it causes a systemic effect, occurs in a different body system from the non-covered treatment, or is an unexpected complication which is untoward based upon prior clinical experience with the procedure.

Exclusions:

- The complication occurs in the same body system or the same anatomical area of the noncovered treatment; and
- 2. The complication is one that commonly occurs.

An example of a complication that commonly occurs is one that occurs often enough that it is ordinarily disclosed during the process of informed consent.

-TRICARE Policy Manual 6010.57-M, Chapter 4, Section 1.1

The following table lists the global period for each procedure currently available in the CSE.

	(includes obtaining grafts); total area of bone grafting greater than 40 sq cm but less		
21183	than 80 sq cm	90	
	Reconstruction of orbital walls, rims, forehead, nasoethmoid complex following intra-		
	and extracranial excision of benign tumor of cranial bone; with multiple autografts		
21184	(includes obtaining grafts); total area of bone grafting greater than 80 sq cm	90	
	Reconstruction midface, osteotomies (other than LeFort type) and bone grafts		
21188	(includes obtaining autografts)	90	
	Reconstruction of mandibular rami, horizontal, vertical, C, or L osteotomy; without		
21193	bone graft	90	
	Reconstruction of mandibular rami, horizontal, vertical, C, or L osteotomy; with bone		
21194	graft (includes obtaining graft)	90	
	Reconstruction of mandibular rami and/or body, sagittal split; without internal rigid		
21195	fixation	90	
	Reconstruction of mandibular rami and/or body, sagittal split; with internal rigid		
21196	fixation	90	
21198	Osteotomy, mandible, segmental	90	
21199	Osteotomy, mandible, segmental; with genioglossus advancement	90	
21206	Osteotomy, maxilla, segmental (eg, Wassmund or Schuchard)	90	
21208	Osteoplasty, facial bones; augmentation (autograft, allograft, or prosthetic implant)	90	
21209	Osteoplasty, facial bones; reduction	90	
21210	Graft, bone; nasal, maxillary or malar areas (includes obtaining graft)	90	
21215	Graft, bone; mandible (includes obtaining graft)	90	
21230	Graft; rib cartilage, autogenous, to face, chin, nose or ear (includes obtaining graft)	90	
21235	Graft; ear cartilage, autogenous, to nose or ear (includes obtaining graft)	90	
21240	Arthroplasty, temporomandibular joint, with or without autograft (includes obtaining	90	
21240 21242	graft) Arthroplasty, temporomandibular joint, with allograft	90	
Z1Z4Z	Artinopiasty, temporomanumular johit, with anografi	30	

	Elective Cosmetic Procedure Global Periods		
CPT®/Procedure Code	CPT®/Procedure Description	Global Period (Days)	
21243	Arthroplasty, temporomandibular joint, with prosthetic joint replacement	90	
	Reconstruction of mandible, extraoral, with transosteal bone plate (eg, mandibular		
21244	staple bone plate)	90	
21245	Reconstruction of mandible or maxilla, subperiosteal implant; partial	90	
21246	Reconstruction of mandible or maxilla, subperiosteal implant; complete	90	
	Reconstruction of mandibular condyle with bone and cartilage autografts (includes		
21247	obtaining grafts)	90	
21248	Reconstruction of mandible or maxilla, endosteal implant; partial	90	
21249	Reconstruction of mandible or maxilla, endosteal implant; complete	90	
	Reconstruction of zygomatic arch and glenoid fossa with bone and cartilage (includes		
21255	obtaining autografts)	90	
	Reconstruction of orbit with osteotomies (extracranial) and with bone grafts (includes		
21256	obtaining autografts) (eg, micro-ophthalmia)	90	
	Periorbital osteotomies for orbital hypertelorism, with bone grafts; extracranial		
21260	approach	90	
	Periorbital osteotomies for orbital hypertelorism, with bone grafts; combined intra-		
21261	and extracranial approach	90	
	Periorbital osteotomies for orbital hypertelorism, with bone grafts; with forehead		
21263	advancement	90	
	Orbital repositioning, periorbital osteotomies, unilateral, with bone grafts;		
21267	extracranial approach	90	
	Orbital repositioning, periorbital osteotomies, unilateral, with bone grafts; combined		
21268	intra- and extracranial approach	90	
21270	Malar augmentation, prosthetic material	90	
21275	Secondary revision of orbitocraniofacial reconstruction	90	
21280	Medial canthopexy (separate procedure)	90	
21282	Lateral canthopexy	90	
21295	Reduction of masseter muscle and bone; extraoral approach	90	
21296	Reduction of masseter muscle and bone; intraoral approach	90	
30400	Rhinoplasty, primary; lateral and alar cartilages and/or elevation of nasal tip	90	
	Rhinoplasty, primary; complete, external parts including bony pyramid, lateral and		
30410	alar cartilages, and/or elevation of nasal tip	90	
30420	Rhinoplasty, primary; including major septal repair	90	
30430	Rhinoplasty, secondary; minor revision (small amount of nasal tip work)	90	
30435	Rhinoplasty, secondary; intermediate revision (bony work with osteotomies)	90	
30450	Rhinoplasty, secondary; major revision (nasal tip work and osteotomies)	90	
22452	Rhinoplasty for nasal deformity secondary to congenital cleft lip and/or palate,		
30460	including columellar lengthening; tip only	90	
20462	Rhinoplasty for nasal deformity secondary to congenital cleft lip and/or palate,	00	
30462	including columellar lengthening; tip, septum, osteotomies	90	
36468	Injection(s) of sclerosant for spider veins (telangiectasia), limb or trunk	0	
36470	Injection of sclerosant; single incompetent vein (other than telangiectasia)	10	
26474	Injection of sclerosant, multiple incompetent veins (other than telangiectasia), same	10	
36471	leg	10	
27700	Ligation and division of long saphenous vein at saphenofemoral junction, or distal	00	
37700	interruptions Ligation division and stripping short caphonous voin	90 90	
37718	Ligation, division, and stripping, short saphenous vein		

	Elective Cosmetic Procedure Global Periods	
CPT®/Procedure Code	CPT [®] /Procedure Description	Global Period (Days)
	Ligation, division, and stripping, long (greater) saphenous veins from saphenofemoral	
37722	junction to knee or below	90
37765	Stab phlebectomy of varicose veins, 1 extremity; 10-20 stab incisions	90
37766	Stab phlebectomy of varicose veins, 1 extremity; more than 20 incisions	90
40510	Excision of lip; transverse wedge excision with primary closure	90
40520	Excision of lip; V-excision with primary direct linear closure	90
40525	Excision of lip; full thickness, reconstruction with local flap	90
40527	Excision of lip; full thickness, reconstruction with cross lip flap (Abbe-Estlander)	90
40530	Resection of lip, more than 1/4, without reconstruction	90
40650	Repair lip, full thickness; vermilion only	90
40652	Repair lip, full thickness; up to half vertical height	90
40654	Repair lip, full thickness; over 1/2 vertical height, or complex	90
40806	Incision of labial frenum (frenotomy)	0
	Destruction of lesion or scar of vestibule of mouth by physical methods (eg, laser,	
40820	thermal, cryo, chemical)	10
40845	Vestibuloplasty; complex (including ridge extension, muscle repositioning)	90
41820	Gingivectomy, excision gingiva, each quadrant	0
41828	Excision of hyperplastic alveolar mucosa, each quadrant	10
41872	Gingivoplasty, each quadrant	90
64612	Chemodenervation of muscle(s); muscle(s) innervated by facial nerve	10
	Chemodenervation of muscle(s); neck muscle(s) excluding muscles of the larynx,	
64616	unilateral (eg for cervical dystonia, spasmodic torticollis)	10
64642	Chemodenervation of one extremity; 1-4 muscle(s)	0
64643	Chemodenervation of one extremity; each additional extremity; 1-4 muscle(s)	0
64644	Chemodenervation of one extremity; 5 or more muscle(s)	0
64645	Each additional extremity; 5 or more muscle(s)	0
64646	Chemodenervation of trunk muscles; 1-5 muscle(s)	0
64647	Chemodenervation of trunk muscles; 6 or more muscle(s)	0
64650	Chemodenervation of eccrine glands; both axillae	0
64653	Chemodenervation of eccrine glands; other area(s) (eg, scalp, face, neck), per day	0
65760	Keratomileusis	0
65765	Keratophakia	0
65767	Epikeratoplasty	0
67900	Repair of brow ptosis (supraciliary, mid-forehead or coronal approach)	90
67903	Repair of blepharoptosis; (tarso) levator resection or advancement, internal approach	90
	Repair of blepharoptosis; (tarso) levator resection or advancement, external	
67904	approach	90
67950	Canthoplasty (reconstruction of canthus)	90
69090	Ear piercing	0
69300	Otoplasty, protruding ear, with or without size reduction	90
	Skin graft; trunk, arms, legs, ≤ 100 sq cm; each additional 25 sq cm PLUS implantation	
15272 & 15777	of biologic implant for soft tissue reinforcement	0
	Skin graft; trunk, arms, legs, ≥100 sq cm; each additional 25 sq cm PLUS implantation	
15274 & 15777	of biologic implant for soft tissue reinforcement	0
	Skin graft; face, scalp, eyelids, mouth, neck, ears, orbits, genitalia, hands, feet, and/or	
	multiple digits, ≤ 100 sq cm; each additional 25 sq cm PLUS implantation of biologic	
15276 & 15777	implant for soft tissue reinforcement	0

MEMORANDUM FOR ASSISTANT SECRETARY OF THE ARMY (M&RA)
ASSISTANT SECRETARY OF THE NAVY (M&RA)
ASSISTANT SECRETARY OF THE AIR FORCE (M&RA)
DIRECTOR, JOINT STAFF

SUBJECT: Policy for Cosmetic Surgery Procedures in the Military Health System

The Cosmetic Surgery Policy implemented in the Military Health System (MHS) in 1992 permitted limited numbers of cosmetic surgery cases, while emphasizing that cosmetic surgery was not a covered benefit under TRICARE. The policy outlined cosmetic surgery procedures permitted in support of graduate medical education training, board eligibility and certification, and skill maintenance for certified specialists in plastic surgery, ears, nose and throat, ophthalmology, dermatology, and oral surgeries. This also includes the circumstances under which such procedures were to be done. Since 1992, the MHS has undergone considerable changes including the elimination of plastic surgery residencies in the Department of Defense (DoD). The attached policy supersedes the 1992 memorandum and provides updated guidance (Attached) for the provision of cosmetic surgery procedures in the MHS.

As in 1992, cosmetic surgery procedures are not a covered benefit under TRICARE. The Services have requirements for surgeons capable of performing reconstructive surgery and have manpower authorizations for plastic surgery and other surgical specialties that perform reconstructive plastic surgery. It is critical the MHS be able to recruit and retain these uniformed specialists to assure our men and women will receive the highest quality care. Since the skills used in performing cosmetic surgery procedures are often the same skills required to obtain optimal results in reconstructive surgery, these surgeons have a valid need to perform cosmetic surgery cases to maintain their specialty surgical skills. Additionally, performance of cosmetic surgery procedures in the direct care system is warranted because specialists in plastic surgery, otorhinolaryngology, ophthalmology, dermatology, and oral surgery must meet board certification, recertification, and graduate medical education program requirements for specialties requiring training in cosmetic surgery.

Since accomplishment of our wartime mission demands specialists skilled in reconstructive plastic surgery, limited volumes of cosmetic surgery procedures are authorized in the direct care system, provided there is adherence to the attached guidelines.

HA POLICY: 05-020

Please provide this office with a copy of your implementing guidance within 90 days of the date of this policy memorandum. My points of contact are Dr. Benedict Diniega at (703) 681-1703, Benedict.Diniega@ha.osd mil; and Captain Patricia Buss at (703) 681-0064, Patricia.Buss@tma.osd.mil.

HA POLICY: 05-020

Policy for Cosmetic Surgery Procedures in the Military Health System

- a. For purposes of this policy, cosmetic surgery terms are defined as follows:
 - Cosmetic surgery "Any elective plastic surgery performed to reshape normal structures of the body in order to improve the patient's appearance or selfesteem."
 - 2) Reconstructive surgery "Any plastic surgery performed on abnormal structures of the body which are caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease. Reconstructive surgery is generally performed to improve function, but may also be done to approximate a normal appearance.
- b. Only privileged staff and residents in the specialties of plastic surgery, otorhinolaryngology, ophthalmology, dermatology, and oral-maxillofacial surgery may perform cosmetic surgery procedures. This restriction excludes the excision or destruction of minor benign dermatologic lesions, which may be performed by qualified and privileged providers in any specialty. Civil service providers in these specialties may perform cosmetic surgery procedures only if they are employed full-time by the medical treatment facility (MTF) with no other opportunity to maintain their skills in cosmetic surgery. Waivers to the previous restrictions can only be granted by the respective Service Surgeon General. Providers contracted to perform medically necessary surgery are NOT to perform cosmetic surgery procedures.
- c. Cosmetic surgery procedures may be performed on a "space-available" basis only, and cosmetic surgery procedures may not exceed 20 percent of any privileged provider's case load.
- d. Cosmetic surgery procedures will be restricted to TRICARE-eligible beneficiaries, including TRICARE for Life, who will not lose TRICARE eligibility for at least six months. Active duty personnel undergoing cosmetic surgery procedures must have written permission from their unit commander.
- e. All patients, including active duty personnel, undergoing cosmetic surgery procedures must pay the surgical fee, plus any applicable institutional and anesthesia fee, for the procedures in accordance with the fee schedule published annually by the Office of the Secretary of Defense Comptroller. Additionally, the patient must reimburse the MTF for any cosmetic implants.

American Society of Plastic Surgeons, http://www.plasticsurgery.org/public_education/procedures/index.cfm

- f. There will be no discrimination in patient selection based on rank of the patient or the rank of the sponsor.
- g. Cosmetic surgery cases shall not be performed if they would cause other medically necessary and/or reconstructive surgery cases to be cancelled, rescheduled, or sent to the managed care contractor support network.
- h. Patients who undergo cosmetic surgery procedures in the MTF must be permitted to obtain necessary post-operative care within the MTF unless the care required exceeds MTF capabilities. All cosmetic surgery patients must be informed prior to surgery that the availability of long-term follow-up, including revision surgery, is not guaranteed in the direct care system and that complications of cosmetic surgery procedures are excluded from coverage under TRICARE in accordance with the TRICARE Policy Manual (August 2002 edition, Chapter 4, Section 1.1). The patient must acknowledge this disclosure and a copy of the signed acknowledgement must be filed in the patient's medical record.
- i. As with all coding in the MHS, all inpatient, outpatient and ambulatory plastic surgery procedures will be coded in accordance with applicable national and Department of Defense (DoD) coding standards, including current versions of appropriate International Classification of Diseases (ICD-9-CM) and Current Procedural Terminology codes.
 - 1) The V-codes found in the DoD Coding Guidance will be used to identify cosmetic surgery procedures. At present, the appropriate ICD-9-CM codes are in the V50 series: "Elective surgery for purposes other than remedying health status." Code V50.1, "Other plastic surgery for unacceptable cosmetic appearance," is the proper code unless a more specific code exists in this series. Code V51, "Aftercare involving the use of plastic surgery (excludes cosmetic plastic surgery)" may be used to indicate that a procedure is not cosmetic plastic surgery but is aftercare associated with an injury or operation. It should be noted that the use of the V51 code is not appropriate for medical conditions that are not associated with an injury or operation.
 - 2) Procedural coding associated with any reconstructive surgery must be accompanied by applicable diagnosis codes that reflect the defect, developmental abnormality, trauma, infection, tumor, or disease impacting the need for reconstructive surgery. Additionally, the medical record must clearly indicate the medical necessity for the reconstructive surgery. Likewise for cosmetic surgery cases, the medical record must clearly reflect the rationale for the procedure being performed.
- j. The Surgeons General and MTF commanders are responsible for ensuring this policy is implemented and for regular monitoring and evaluation of this policy. The Services have primary responsibility for accountability audits of MTFs within their Service for

Appendix F: TRICARE's Policy on Cosmetic Procedures

By Joe O'Brien, Jr., TMA PI Health Care Fraud Specialist From the March 2008 issue of In the TMA Program Integrity Spotlight.

Plastic surgery is a medical specialty that uses a number of surgical and nonsurgical techniques to change the appearance and function of a person's body. Cosmetic surgery is a very popular form of plastic surgery. As an example, the American Society of Plastic Surgeons reported that in 2006 nearly 11 million cosmetic plastic surgeries were performed in the United States alone.

It is thus important to distinguish the terms "plastic surgery" and "cosmetic surgery." Plastic Surgery is recognized by the American Board of Medical Specialties as the subspecialty dedicated to the surgical repair of defects of form or function—this includes cosmetic (or aesthetic) surgery, as well as reconstructive surgery. The term "cosmetic surgery" however, refers to surgery that is designed to improve cosmetics, or appearance.

TRICARE Policy Manual, Chapter 4, Section 2.1, defines cosmetic/reconstructive and plastic surgery as surgery which can be expected primarily to improve the physical appearance of a beneficiary, and/or which is performed primarily for psychological purposes, and/or which restores form, but does not correct or materially improve a bodily function.

The Policy Manual goes on to state that any procedure performed for personal reasons, to improve the appearance of an obvious feature or part of the body which would be considered by an average observer to be normal and acceptable for the patient's age and/or ethnic and/or racial background as "excluded."

Additionally, when it is determined that a cosmetic, reconstructive and/or plastic surgery procedure does not qualify for benefits, all related services and supplies are excluded, including any institutional costs.

One of the biggest keys to identifying "cosmetic" surgeries is a review of the actual medical documentation. Examples of the types of procedures/areas to look for when attempting to identify "cosmetic" surgery masked

- Beneficiaries who have been diagnosed with leg varicosity w/inflammation (ICD9 454.0 and 454.1) and
 then treated with injections of sclerosing solution (CPT® 36470 and 36471). An audit of medical records
 will often determine that the procedure was not medically necessary and that the provider was
 performing a "cosmetic" procedure on the beneficiary with the intent to reduce "spider veins" solely for
 appearance purposes.
- A situation where it appears the patient has received a medically needed procedure to correct a "deviated septum" causing sinus or breathing problems, which has actually been misrepresented. Typically, there is no historical medical documentation that the deviated septum existed before the surgery; the true purpose of the surgery on the nose was probably for "cosmetic" purposes.
- A blepharoplasty basically this is performed when the eyelid has such a significant droop as to impair
 vision (which is a functional impairment). However, many times a blepharoplasty is performed as part of
 a face lift procedure that is not medically necessary. A claim is then submitted for a coveredblepharoplasty procedure.
- Panniculectomies primarily performed for body sculpture procedures/reasons of cosmetics. A
 panniculectomy may also be performed with another abdominal surgery, such as hysterectomy. And
 while the hysterectomy may be medically necessary, the panniculectomy may not. TRICARE has very
 specific guidelines for when this procedure is considered medically necessary.
- Tummy tuck procedures billed as hernia repairs.
